This research discussed about The Meaning of the Ritual in Accera Kalompoang which still exist around the society in Gowa Regency, South Sulawesi. This research aimed to know the implicit meaning that contained in the ritual Accera Kalompoang from four informants. This research focused on Pierce's theory about triangle elements of semiotic. Then, the data were analyzed using qualitative method. The researcher used guiding book of Accera Kalompoang, observation sheet, interview guide as the instruments to find out the valid data. The findings showed that there were 14 signs in these ritual started *alleka je'ne*, *ammolong tedong*, *appidalleki*, and *allangiri kalompoang*. In *alleka je'ne* there were four signs, *ammolong tedong* there were four signs, *appidalleki* there were three signs, and *allangiri kalompoang* there were three signs. The researcher concluded that the implicit meaning in Accera Kalompoang became the reverence to the ancestors, slaughter the buffalo to complete the offerings and materials banquet for guests, pray to Allah and ancestors and ask the blessing, and purification or cleaning the heirlooms.

CHAPTER I

INTRODUCTION

A. Background

Culture and language are likesides of the coin. The following are some explanations of culture definition. Malinowski in Alindra (2015: 10) wrote that culture is the whole of human life consists of various equipment and consumer goods, regulations for life of society, the ideas and the work of man, belief and human habits. Furthermore Kroeber & Kluckhohn in Spencer-Oatey (2012:2) state that culture consists of patterns, explicit and implicit, of and for behaviour acquired and transmitted by symbols, constituting the distinctive achievements of human groups, including their embodiment in artifacts; the essential core of culture consists of traditional. Raymond Williams (1958:1) state that culture is the complex and broad set of relationships, values, attitudes and behaviors that bind a specific community consciously and unconsciously.

Based on three definitions of culture above, the researcher thought that culture is human life related with behavior that bind a community consciously or unconsciously beside that culture consist of explicit and implicit of behaviour acquired and transmitted by symbols.

Definition of language according to W. N. Francis in Ba'dulu (2009:1) said that language as an arbitrary system of articulated sounds made use by a group of humans as a means of carrying on the affairs of their society. A. A. Hill in Ba'dulu (2009:1) describes language as the primary and most highly elaborated form of

human symbolic activity. Its symbols are made up of sounds produced by the vocal apparatus, and they are arranged in classes and patterns which make up a complex and symmetrical structure. The entities of language are symbols, that is, they have meaning, but the connection between symbol and thing is arbitrary and socially controlled. The symbols of language are simultaneously substitute stimuli and substitute responses. So that discourse becomes independent of an immediate physical stimulus. The entities and structure of language are always so elaborated as to give the speaker the possibility of making linguistic response to an experience. Meanwhile Emmitt and Pollock in Mahadi (2012:231) state that language is a system of arbitrary signs which is accepted by a group and society of users. It is taken delivery of a specific purpose in relation to the communal world of clients.

Based on the definition language above, the researcher thought that language is arbitrary system created by a group of human as a means to convey the message or their purpose in society as well as being the main thing in our daily activities. The entity of the language is a symbol that has meaning.

Culture must be written in a book or guidelines in order to become some literary for next generation. Pradotokusumo (2008:5) wrote the views of Aristotle, student of Plato, states that compose the main activity of man to find himself in addition to other activities through religion, science, and philosophy. Literary works including artwork sensitive responsiveness to universal truth. The function of the poet or literary author not to describe anything that actually happened, but what might happen. As with the historian who should and just write what really happened. The

scope of literary writing is much broader than the writing of history. Poet or literary authors more freedom to express possibility because he made up the story itself, creates his world by himself with his own kind of possibility.

Based on the definition of literary and culture above, the researcher thought that culture has connection with literary, because the culture does not exist without literary. If the culture do not write, there are many worse things will happen, some of the worse things are the next generation, especially in Indonesia, they will blind about their culture, the culture will die by time because the next generation maybe do not care anymore about culture, the culture will be changed, etc . It is unfortunate if those will happen, because in Indonesia there are many cultures and some of them still exist around the society.

Accera Kalompoang is one of cultures in Indonesia which still exist in Gowa Regency, South Sulawesi, Indonesia. The rituals of *Accera Kalompoang* starting from *Alleka Je'ne* (dropping water auspicious), *Ammolong Tedong* (slaughtering sacrificial animals the way of the of Islamic), *Appidalleki* (offerings to the ancestors and was ushered by prayer), *Allangiri Kalompoang* (cleaning of the main attractions of the kingdom).

These rituals has implicit meaning that has not known yet by the society. *Accera Kalompoang*, which organized by the royal family and government officials in Gowa, made the researcher is interested to know the meaning behind the rituals are performed. That is the reason of the researcher did a research about procedure of *Accera Kalompoang*.

The researcher used semiotic theory with the triangle model of the meaning by Charles Sanders Peirce to analyze the meaning which contained in the rituals of *Accera Kalompoang*. According to Peirce in Lebang (2015:164), Semiotics consists of three main elements which include, signs, objects, and interpretant.

B. Problem Statement

Based on the background of the problems mention above, it could be formulated as a research question:What is the meaning contained in the ritual of Accera Kalompoang

C. Objective of the Research

This research aimed is to know the meaning contained in the ritual of Accera Kalompoang.

D. Significance of the Research

The significance of this research was to give information to society about culture, especially the meaning of the ritual Accera Kalompoang in Gowa regency, South Sulawesi. This research also could be the reference for the next researcher who is interested about culture in English and Literature Department Of Alauddin Islamic State University Of Makassar

E. Scope of the Research

This research focused on the meaning contained in procedure of *Accera Kalompoang* in Gowa regency at Balla Lompoa pervaded *Alleka Je'ne, Ammolong*

Tedong, Appidalleki, Allangiri Kalompoang. The researcher used reference about the ritual of Accera Kalompoang by the guiding book that made by Hj. Andi Dalauleng Patahangi Karaengta Parang Parang family and the big family of Karaengta Bontobiraeng in 2005.

CHAPTER II

REVIEW OF LITERARY THEORY

A. Previous Findings

Lebang (2015) conducted a research on *Analisis Semiotika Simbol Kekuasaan Pada Rumah Adat Toraja (Tongkonan Layuk)*. This study aimed to describe and analyze the symbol of power and carving Toraja traditional house (Tongkonan Layuk) because, symbols and carvings become an important component in the development of Tongkonan. This research used interpretive research qualitative, attempting to analyze and interpret the meaning of the object observed based on the fact on the field, using key informants as a data source, using primary and secondary data through in-depth interviews, obseravasi field, documentation of activities, references relating to research and data from the internet. Data analysis techniques used in this research by using the model semiotics Charles Sanders Peirce. The results of this study of four carvings that are the focus of research, namely *Pa' Tedong*, *Pa' Manuk Londong*, *Pa' Barre Allo*, and *Pa' Sussu'* have in common is a prayer and the ideals of the owner Tongkonan for the present and future, Basically, all carved in Tongkonan refer to a good thing for homeowners. Mystical beliefs toward carving auspicious for homeowners. The use of carving but is not merely put more on trust. Moreover, the style of carving found in Tongkonan that symbolizes social status Toraja based on the results of research and discussion, it can be concluded that exist in Tongkonan carving depicting the symbols of objects and

creatures in the life of Toraja people. The messages contained in carving Tongkonan as a symbol of social status is a philosophy of life Toraja people themselves.

Wulandari (2011) conducted a research on *Pergeseran Makna Budaya Bekakak Gamping (Analisis Semiotika Pergeseran Makna Budaya Bekakak at Desa Ambarketawang, Kecamatan Gamping, Kab. Sleman)*. This study to determine the meaning of the symbols used in the Ceremony of Saparan Bekakak and see how far the shift in the meaning of this traditional ceremony in line with the changing times. This type of research is to study using methods of semiotic analysis. Data collection techniques used were interviews, observation, study libraries, and documentation. Techniques to determine the meaning of symbols Saparan Bekakak Ceremony, which will be analyzed from the meaning of each event, the offerings-offerings, as well as the form of carnival rituals that accompany it. Based on the results of research in these Saparan Bekakak Ceremony, experienced some changes in each of the stages of the procession Ceremony Saparan Bekakak. The addition of symbols such as the Pra Kirab and Kirab Peggembira, carnival Saparan bekakak show that this is not in accordance with the implementation of Saparan bekakak at first. From the survey results revealed also that the Pra Kirab and *Kirab Peggembira* serve as paving the way to accompany the traditional carnival and no sacred values contained therein. Besides the addition of the procession is intended to attract tourists to visit Saparan bekakak witness, because Pra Kirab and *Kirab Peggembira* every year are always innovating in terms of participants. The conclusion of this study was Saparan Bekakak Ceremony is one form of ancestral cultural heritage that still remain

preserved. Ceremony Saparan Bekakak original meaning has shifted significantly as a ceremony for the safety of Village residents Ambarketawang now turned into a tourist product. This occurs due to the dynamic nature of culture.

Pasaribu (2013) conducted a research on *Analisis Semiotik Pada Relief Tebing Berastagi*. This study aims to discuss the relief which is a cultural identity for the people of Karo. Relief is used by the Karo people as the basis for all customs activities so that it becomes a representation of identity. Relief is the object of the research that forms the series of stories through a series of four reliefs relief and was taken as a sample that is able to represent the entire relief. Aspects studied is the function and meaning of relief as the representation of the identity of the Karo. Relief is observed using an approach through semiotic theory. The results show the meaning of the reliefs have specific functions and values in public life Karo. This aspect also aims to explain the ideological aspect of the life of society today, namely through the depiction of the past. Through the visual elements on the object, the entire sign can be classified into a sign of the icon, index, and symbol and a sign of qualisign, sinsign, and legisign. In general, results interpretation through semiotic approach, Relief Cliffs Berastagi implies implicit message of the ancestors of the Karo people and through this meaning can be known functions of cultural, social, ideological and religijnya. Relief Cliffs Berastagi is a series of meaningful sign a series of stories about all forms of public life in Karo.

Lebang's research was focus on describe and analyzed the symbol of power and carving Toraja traditional house (Tongkonan Layuk). Wulandari's research was focused on determine the meaning of the symbols used in the Ceremony Saparan Bekakak and see how far the shift in the meaning of this traditional ceremony in line with the changing times. Meanwhile Pasaribu's thesis was focused on the relief which is a cultural identity for the people of Karo. The similarities of these previous findings with this research equal used semiotic theory. The difference of those previous findings above with this research was the object and approach. In this research, focused on the rituals of Accera Kalompoang in Gowa regency.

B. Partinent Ideas

1. Culture

Culture has defined in many ways from another pattern of think. Kohl in Nur (2014:10) said that culture is an integrated system of learned behavior patterns that are characteristic of the members of any given society. Culture refers to the total way of life of particular groups of people. It includes everything that a group of people thought, says, does, and makes- its systems of attitudes and feelings. Culture is learned and transmitted from generation to generation. By this definition, we can see that a particular culture would consist of at least the following : manners, customs, beliefs, ceremonies, rituals, laws (written and unwritten), ideas and thought patterns, language, arts and artifacts, tools, social institutions, religious beliefs,

myths and legends, knowledge, values, concept of self, morals, ideals, accepted ways of behaving. In short, culture is the total way of life of any group of people.

According to Barry in Kopong (2008:12) define a culture is the work, sense, and of human creativity that is based on intention, and a collection of human knowledge as social beings who are used to understand the environment as well as experience and that guide behavior. Furthermore Geertz in Kopong (2008:12) said that culture is something with which we understand and give meaning to our lives. Culture refers to a pattern of meanings embodied in symbols that been copied divert historically, a system of ideas inherited and expressed in symbolic form by which human beings express, preserve and develop their knowledge about the attitudes and their establishment to life ,

Based on the definition above, the researcher thought that culture is learn behavior of individual and transmitted the culture of human lifeto the next generation. But we need language to interpretation the meaning contained in culture.

2. Relationship between culture and language

Nur (2014:7) wrote that language is simply about people. It is used by people to communicated. But language is also not as simple as that. We learn language in order to interact with each other and among these interactions, varieties of language come to existence with its complexity. Language in this context will be related to culture and how it is being to help people to communicate. Many experts in language or in the discipline of linguistics have defined the meaning of language.

Furthermore Kramsch in Nur (2014:11) argues that there are three aspects that must be observed in the language and culture in his book *Language and Culture*, namely : “express language cultural reality, language embodies cultural reality and the final language symbolizes cultural reality.” Firstly, language is the expression of the reality of a culture, this can be seen when people communicate, they will express facts, ideas or evants from the experience they have. Secondly, the language represents a cultural reality, people do not only express their experience but also create experiences through language. People give meaning to the communications media they use it a verbal or non-verbal, for example, talking through telephone, writing letters, sending a letter via e-mail, reading the newspaper. The way they speak or write will be understood certain groups of people. The last one is the language symbolizes a cultural reality. Here, language is a system of sign. The identity of the speaker can be seen from the language he uses and they see language as a symbol of social identity.

Based on the view above about relationship between culture and language, the researcher thought that useful to learn the language as a bridge to communicate with people and understand the culture of existing. Languages also have 3 aspects in the culture, ie: expressing the reality of culture, representing the cultural reality, and became a symbol of a cultural reality.

3. Semiotic

Zoonen in Chang (2008:42) state that within semiotics, there are two major models of how a sign is structured—the Saussurian model and the Peircean model. Subur in Lebang (2015:161) state that semiotic or semiology is the terminology that refers to the same science, which examines the sign however, the use of one of term shows the thinking wearer: they were joined by Peirce uses the word semiotics while semiology that follow Saussure. Meanwhile Zoest in Lebang (2015:161) state that semiology term is more widely used in Europe, while the semiotic commonly used by American scientist. However, the use of the word semiotics more widely used than semiology. In communicating not only with oral language alone but by this sign can also communicate. Whether or not the events, structures found in something, and a habit, it can be called a sign. A flag, a hand gesture, a word, a silence, nervous movements, events blush, gray hair, gaze, and many others, all of that is considered a sign.

Moriarty in Adham (2012:14) explains that semiotics is ‘a philosophical approach that seeks to interpret (visual) messages in terms of their signs and patterns of symbolism. Kolly (2013:40) semiotic or semiology derived from the Greek word which means semeion 'sign' in English the study of sign systems. According to Charles Sanders Peirce, semiotics is the concept of the sign: no only the language and communication systems composed by signs, but the world itself. For Peirce the sign "is something the which stands to somebody for something in some respect or capacity".

3.1 Semiotic Theory by Charles Sanders Peirce

Charles Sanders Peirce. He is famous for his theory mark. Within the scope of semiotics, Peirce in Sebeok (2001:6) called that the signifier a *representamen* (literally 'something that does the representing'), a form inhering in the physical strategy of representation itself (the use of sounds, hand movements, etc. for some referential purpose). Peirce termed the referent the object, an entity displaced from its (real-world) context of occurrence. He termed the meaning that one gets from a sign the interpretant, suggesting that it entailed a form of 'negotiation,' so to speak, whereby the sign-user evaluates or responds to what the sign means socially, contextually, personally, etc.

Meanwhile Peirce in Lechte in Lebang (2015:160) often repeated that in general the signs are representing something for someone. In simple terms that sign as being linked to someone for something in some respect or capacity and often repeated statement that it is generally a sign represents something for someone. Peirce in Pateda in Lebang (2015: 160) state that, the sign "is something the which stands to somebody for something in some respect or capacity". Consequently, the sign (sign or representament) is always contained in triadic relationship, the sign (ground), object and interpretant. Basically concept of triadic or the trikomi, which makes Peirce famous.

According to Peirce in Lebang (2015:164), Semiotics consists of three main elements which include, signs, objects, and interpretant. The relationship between signs, objects and interpretant described by Peirce as the chart below:

Source : Lebang, 2015. Analisis Semiotika Simbol Kekuasaan Pada Rumah Adat Toraja (*Tongkonan Layuk*). eJournal Ilmu Komunikasi, 2013, 1 (4): 38-52 ISSN 0000-0000, ejournal.ilkom.fisip-unmul.ac.id

a. Sign

Pierce in Noth in Agustiasari (2016:10) state that sign or representament is something which stands to somebody for something in some respect or capacity. Representament is the form which the sign takes. Representament is all of the sign. For example is the laptop, the representament is all of the laptop and name.

b. Object

Pierce in Noth in Agustiasari (2016:10) state that object is about the sign refers. Object is which the sign (represent) usually something else, but in the borderline case of self-references, representament an object can also be same with entity. Afterward, in semiotic object is something to know what the name or form of

something, and object is the real thing that can be known what the name or form. Object is referenced of sign (Rachmani in Agustiasari 2016:10).

c. Interpretant

Pierce in Noth in Agustiasari (2016:11) state that interpretant is a term for the meaning of sign. Pierce also defined interpretant as sign “a sign address”. Interpretant is not an interpreter but rather the sense made of the sign. Interpretant is interpret something seen. interpretant is the meaning of the sign. For example is the purpose of the laptop, what the people know about laptop.

In additional Noth in Lebang (2015:160) state that the basic principle of the triadic sign is representative. The formulation implies, the meaning of a sign can be applied individually, social or specific depending on the specific context. Mark or sign is a physical form that can be captured by the human senses to something that refers to (represent) other things outside of the mark referred to by representamen function as signs. While Object, is something that is represented by the sign related to the reference. Meanwhile, interpretant or the sign is the concept of thinking of the people who used the sign and lowered it to a particular meaning or meanings in someone's mind about the object that is referenced mark.

4. Ritual

Based on Gluckman in Fitroh (2014:13) state that ritual is category of ceremony which more limited, but symbolically more complex, because ritual deny social and psychological affairs deeper. Furthermore ritual characterized refers to the

nature and purpose of the mystical or religious. Pamberton in Kumalasari (2009:24) stated that the ritual is a routine type of behavior that symbolize or express something and therefore affect differently to each individual's personality and social organization. Meanwhile Rothenbuhler in Manafe (2011:289) state that ritual is the voluntary performance of appropriately patterned behavior to symbolically effect or participate in the serious life.

5. Accera Kalompoang

The first king who performed *Accera Kalompoang* is I Manggarrangi Daeng Mangrabbia Karaeng Lakiung Sultan Alauddin Tumenanga Ri Gaukanna (King of Gowa XIV). He was embraced Islam on 9 Jumada Al-Awwal 1051 H or 20 September 1605. Then he was replaced by his son, I Mannuntungi Daeng Mattola Karaeng Ujung Karaeng Lakiung Sultan Malikussaid Tumenanga Ri Papambatuna became King of Gowa XV (1639-1653), which states the date of the ceremony "Accera Kalompoang" on the 10th of Dhu al-Hijjah or after the Eid Adha prayer. Furthermore the ritual handled by I Mallombasi Daeng Mattawang Karaeng Bontomangape Sultan Hasanuddin Tumenanga Ri Balla Pangkana king of Gowa XVI (1653-1669) with the islamic name is Muhammad Baqir. The international world know him with title "Ayam Jantan Dari Timur" and his country, Indonesia, gave him appreciate with title "Bintang Maha Putera Pahlawan Nasional". He is the guy who manage the ritual of Accera Kalompoang with Islamic nuances.

Onwards ceremony of "Accera Kalompoang" crystallized implementation for the next kings of Gowa, and to this day is use as one of several ceremonies very confident and respect by the people of Gowa to ritual and sacred. Implementation of this ceremony, place in Balla Lompoa Sungguminasa (Palace of the King of Gowa) held by the family of the King of Gowa supported by local governments and can be attended by the whole society. There are four procedure of *Accera Kalompoang* in Gowa regency. Starting from *Alleka Je'ne* (dropping water auspicious), *Ammolong Tedong* (slaughtering sacrificial animals the way of the of Islamic), *Appidalleki* (offerings to the ancestors and was ushered by prayer), *Allangiri Kalompoang* (cleaning of the heirlooms of the kingdom).

CHAPTER III

RESEARCH METHODOLOGY

A. Research Design

The research design of this research is qualitative. Sugiyono (2014:13) stated that qualitative research methods are often referred to naturalistic research methods for research conducted on natural conditions; also known as ethnography method, because in the beginning this method is widely used to study cultural anthropology; referred to as a qualitative method, because the data collected and analysis is more qualitative. The theory in qualitative method referred to lens theory or perspective theory. Creswell in Sugiyono (2013:295) said that theoretical lens or perspective in qualitative research: provides an overall orienting lens that used to study question of gender, class, and race (or other issues of marginalized group). This lens becomes an advocacy perspective that shapes the types of questions asked, informs how data are collected and analyzed, and provide a call for action or change. This theory has function for help the researcher to make some problem statement, guidance in collecting data, and analyze data.

The researcher used this method because this research examined about the interpretation of the culture. The researcher focused the research in Procedure Of Accera Kalompoang In Gowa Regency.

B. Subject of the Research

In this research, the researcher took the data from guidebooks ceremonies Accera Kalompoang. In the book, all the procedure of Accera Kalompoang is written. Starting from Alleka Je'ne (dropping water auspicious), Ammolong Tedong (slaughtering sacrificial animals the way of the of Islamic), Appidalleki (offerings to the ancestors and was ushered by prayer), and Allangiri Kalompoang (cleaning of the main attractions of the kingdom). Furthermore, the researcher did the interview for getting the meaning contained in the procedure Accera Kalompoang. The researcher did interviews Mr.DAJ (the staff at Balla Lompoa), Mr.ABG and Mr.RAAP (the staff in Department of Culture and Tourism in Gowa regency also the royal family), and Mr.Dg.J (the members of Bate Salapang).

C. Instrument of the Research

Sugiyono (2014:307) wrote that in qualitative research main instrument is the researchers themselves, but then after the focus of the research becomes clear, then it will likely develop a simple research instruments, which is expected to complement the data and compare it with the data that has been discovered through observation or interview. The researcher did into the field itself, both on a grand tour question, focused and selection phase, data collection, analysis and making conclusions. Based on the Sugiyono's explanation the researcher used interview sheet, observation, and the documentation such as picture and video.

D. Procedure of Collecting Data

The researcher took the procedure of collecting data by four steps :

1. The researcher conducted the observation in the ceremonies Accera Kalompoang.
2. The researcher read the guidebook of the ceremonies Accera Kalompoang.
3. The researcher conducted interviews with Mr.DAJ (the staff at Balla Lompoa) as main data, Mr.ABG and Mr.RAAP (the staff in Department of Culture and Tourism in Gowa regency also the royal family), and Mr.Dg.J (the members of Bate Salapang) as supported data.

E. Technique of Data Analysis

After researcher conducted observations, read guide books Accera Kalompoang rituals, and interview, then the researcher classified the data according to the model meaning Peirce's triangle to analyze the implicit meaning which contained in the rituals. According to Peirce in Lebang (2015:164), semiotics consists of three main elements which include, signs, objects, and interpretant. And then the researcher transcribe the data into the research.

CHAPTER IV

FINDINGS AND DISCUSSIONS

This chapter provided the findings and discussions. In this research, the researcher would like to present further explanation about the meaning of the rituals in *Accera Kalompoang* (Semiotic Approach).

In the findings section, the researcher would like to present all the data that had been found in the ritual of *Accera Kalompoang* which are *Alleka Je'ne*, *Ammolong Tedong*, *Appidalleki*, and *Allangiri Kalompoang*. The researcher analyzed about the meaning of the rituals in *Accera Kalompoang* based on sign, object, and interpretant using Pierce theory.

A. Findings

In this case, the interview had been done on October 29, 2016 and November 1, 2016, and the data were got from Mr. DAJ, Mr. ABG, Mr. RAAP, and Mr. Dg.J. The categorized data was based on Pierce's theory of the meaning and elements of semiotic. Furthermore, it was discussed about the research question to find out the meaning contains in the rituals of *accera kalompoang*. The researcher had been classify the data into the sign, object, and interpretant based on Pierce's theory.

In addition, Noth in Lebang (2015:160) gives argument about the elements of semiotic that mark or sign is a physical form that can be captured by the human senses to something that refers to (represent) other things outside of the mark referred to by representamen function as signs. While object, is something that is represented

by the sign related to the reference. Meanwhile, interpretant or the sign is the concept of thinking of the people who use the sign and lowered it to a particular meaning or meanings in someone's mind about the object that is referenced mark.

1. Result of the Interview

1.1 *Alleka Je'ne*

Alleka Je'ne has meant pick up, fetch, and deliver holy water. Activities started at *sitonrang bulo* or 7.30-9.00 am. The activities was proceeded with prayer to Rabiul Jalil and shalawat to Nabiullah while ask for the blessing of the ancestors. Furthermore, the group and all the ceremoni's tools leave the palace accompanied by *tunrung pa'balle* drum rhythms towards *bungung lompoa* or auspicious wells located around the tomb complex of Sultan Hasanuddin, between Katangka old mosque location, pass the *tumanurunga* stone or *palantikang* stone which is used as inauguration of the king on hill of *tamalatea*.

Taking the water in *bungung lompoa* use a bucket made from natural elements. Beside *bungung lompoa*, there are three wells has its own function. It is said in the history of speakers.

- a. *Bungung Lompoa* water is used in cleaning and washing (*Allangiri*).
- b. *Bungung Barania* water is used supernatural powers and immunity.
- c. *Bungung Bissua* water is used for treatment.

Before the group return to the palace, the water paraded around the *tumanurunga* stone three times. On arrival at the palace, partly poured on the griddle

for *appasili*s supplementary material and the rest of the water put on Balla Lompoa to be used in the event *allangiri kalompoang*. There are four signs that be found by researcher in this ritual, i.e:

Datum 1

Sign : *Alleka Je'ne* is held at 7.30-9.00 pm or *Sitonrang Bulo*

Object : *Alleka Je'ne*

Interpretant :

Informant 1 (Mr. DAJ)

“That phase of time implies the life of the people undergo, especially at the start, by the time when the sun illuminates the earth. That’s the symbol of life.”

“Time is dynamic. There is sequence of time that we need to accomplish.”

“Morning time starts when *fajar*, the sun, rises. It is information to all creatures in this universe to start their activity.”

Informant 2 (Mr. ABG)

“The time between 7.30-9.00 am in the morning indicates the tradition here. That time also means symbol of tradition to the society to begin their routines and activity.”

Informant 3 (Mr. RAAP)

“It symbolizes the activity of human beings to go outside, to go work early in the morning. As the philosophy told us so.”

Informant 4 (Mr. Dg.J)

“That is th requirement. Here in Gowa, the people of Makassar start their activity when the sun has risen at a certain height (*situnrong bulo*). It is around 9 to 10 am, so the rituals starts at 8 am.”

In this part, the researcher state that Mr.DAJ interpret the sign that the start of the life, and the nature will give information to all creatures to start their daily activity. That is the symbol of life. Mr.ABG interpret the sign that the tradition of the society to start their activity in the morning. Mr.RAAP interpret the sign that when morning comes, it gives alert to human that go out from home and that is appropriated with the philosophy in the past. And Mr.Dg.J interpret the sign that the morning is requirement to conduct a good activity.

Datum 2

Sign : A convoy or cavalcade from *Balla Lompoa* to the sacred well need to be escorted with *Gendrang Tundrung Pa'balle*

Object : *Alleka Je'ne*

Interpretant :

Informant 1 (Mr. DAJ)

“This is ceremony. Automatically, it must be complemented by traditional music to express unity and joy. There is manifestation of sublimity and great honor in it.”

“Yes. To the ancestors and also to the noble values that we need to comprehend together.”

Informant 2 (Mr. ABG)

“Well, this is tradition, and so is *tunrung pa'balle* drum, which is routinely used in every ritual. It is not just a drum. This drum has soul. The way they hit is called *tunrung pa'balle*. The drum can produce various sounds, depends on the way the drummer hit it. And Tunrung Pa'balle is included in the process of this ritual.”

Informant 3 (Mr.RAAP)

“The sound from the drum indicates a strong spirit. *Alleka je’ne* has a tight connection with *gendrang pa’balle*. *Gendrang pa’balle* always gives spirit to any activities or rituals.”

Informant 4 (Mr.Dg.J)

“*Tunrung pa’balle* is a drum hit. There are nine kinds of drum hit in Gowa, but unfortunately I do not remember them all. I never paid attention to it. I only remember *tunrung pa’balle*, *tunrung pakanjara’*, and many others.... That’s why *alleka je’ne* must be escorted in music of drum hit. The water is sacred, then the cavalcade must be escorted in drum hit while wearing *baju bodo*.”

In this part, the researcher states that Mr.DAJ interprets the sign that *gendrang tunrung pa’balle* is completeness of the ritual and there is manifestation to honor the ancestors. Mr.ABG interprets the sign is *gendrang tunrung pa’balle* that tradition that routine be conducted. Mr.RAAP interprets the sign that *gendrang tunrung pa’balle* is given a spirit. Mr.Dg.J interprets the sign that *gendrang tunrung pa’balle* is used for pick the holy water up.

Datum 3

Sign : Use bucket made from natural element for taking the sacred water.

Object : *Alleka Je’ne*

Interpretant :

Informant 1 (Mr. DAJ)

“Water is natural element. There must be a harmony between mankind and the nature. Then the media must be from natural elements.”

“The philosophical concept of ancient Makassar people tells that there must be a harmony built by the mankind to their environment, to the other creatures around them. It is one patron.”

Informant 2 (Mr. ABG)

“The tradition of *accera kalompoang* is held in exactly the same way as our ancestors did, and this is the part of the tradition which needs to be preserved and protected. The meanings and the significances inside can be dug deeper by interviewing Dg.Pile, a cultural observer, like you have done. He knows better than us. We do not understand the details. Our objective, our vision is to preserve this tradition. We are trying to preserve and last this activity forever. You need to know that this event coincides with the celebration of Idul Adha, which indicates that this activity has religious and cultural mission.”

Informant 3 (Mr.RAAP)

“Because human being is made from mother nature, from earth. And we will be back to the earth. That’s why we use it naturally.”

Informant 4 (Mr.Dg.J)

“In the past. Our ancestors made almost everything from what the nature had provided. There were no tin buckets or something. They plaited leaves from palm or thatch. This has been done from generation, and we try to preserve it until now.”

In this part, the researcher states that Mr.DAJ interprets the sign that the bucket is the media between human and the holy water that is the reason why have to use bucket from natural element. Mr.ABG interprets the sign that tradition from ancestors in this ritual. Mr.RAAP interprets the sign that from nature to the nature. Mr.Dg.J interprets the sign that in the past there is no tin bucket, so the next generation is preserved the ability of the ritual.

Datum 4

Sign : The water from the sacred well needs to go around *Tumanurunga* stone before back to the *Balla Lompoa*.

Object : *Alleka Je'ne*

Interpretant :

Informant 1 (Mr. DAJ)

“*Tumanurung* stone is marked as a spot where the king is inaugurated. He was a man from nowhere. Nobody knew him. But it is approved that he was a noble man, the incarnation of God. At least, that’s what people describe based on its mythology. So, it is a reconstruction of king’s existence where people wish for blessing from him through Allah SWT.”

Informant 2 (Mr. ABG)

“*Tumanurung* stone is spot to inaugurate the king. This event is *accera kalompoang*, so ideally the water need to round *tumanurung* stone to remember the king’s investiture. It becomes a sign to our young generation that this ritual still exist until now.”

Informant 3 (Mr.RAAP)

“It indicates to ask for permission to our ancestors. Our ancestors believed that the heirloom cleaning was to show the holy spirit that it was the right time to clean the heirlooms.”

Informant 4 (Mr.Dg.J)

“Frankly, I have never witnessed that, but probably it is just to honor *tumanurunga* stone, a spot to inaugurate the king.”

In this part, the researcher state that Mr.DAJinterpret the sign that the ritual is ask the blessing and a honor to the ancestors. Mr.ABG interpret the sign that is a symbol to the next generation to preserve the ritual. Mr.RAAP interpret the sign that ask permission to the ancestors that the ritual would begin. Mr.Dg.J interpret the sign that maybe as a honor to the ancestors.

1.2 Ammolong Tedong

Ceremony of *ammolong tedong* is ceremony slaughter sacrificial animal, based on syariat Islam that mean as repellent especially something dangerous that related to blood in talks that is agreed generation to generation. The activity is begun at the position of the sun in *allabbang lino* (the middle of the earth) and *appasili tedong*, and then *apparurui tedong* or special treatment to the sacrificial animal and the sacrificial animal is paraded by entourage around the palace after that the sacrificial animal is entered to special place for slaughtered and some of the blood is saved for *allangiri kalompoang* ceremony and the head of the animal used to *appidalleki* ceremony. There are four signs that be found by the researcher in this ritual, i.e:

Datum 5

Sign : Slaughter the buffalo when the position sun is at the center of the earth (zenith) or *Allabbang Lino*

Object : *Ammolong Tedong*

Interpretant : M A K A S S A R

Informant 1 (Mr. DAJ)

“When the sun has moved, from its zenith, the meaning then has changed as well. The intensity of the light can never be the same. It is already moving to twilight, and twilight has no meaning.”

“The zenith is considered that no one should do nothing at that minute. The sun is at its highest position, at the center of the earth. No harmony to do make any activity during that time.”

“I have a different opinion. We honor the zenith of the sun. after zenith, we are still able to see our shadow, oblique shadow. But at zenith, no shadow.”

“The zenith is the limit.”

“Yes, before it. After that, no more harmony.”

Informant 2 (Mr. ABG)

“*Ammolong tedong* is slaughtering animal. For its execution time, Makassar people call it “*naik-naik na alloa*” or when the sun is at the center of the earth. It has historical meaning. People believe that it is the right time to execute ceremonial activity.”

Informant 3 (Mr.RAAP)

“There is no specific time for this. *Ammolong tedong* could probably be executed in the evening or in the morning, that’s it. *Ammolong tedong* has no specific time. Whenever *alleka je’ne* has been done, then they can execute *ammolong tedong*. That’s all. No specific time.”

Informant 4 (Mr.Dg.J)

“So that the people, especially the ones who are charged in this ritual can finish this ceremony before Dzhuhur. After that, they will perform Dzhuhur prayer. The meat then will be cooked as a main course for tomorrow’s ritual. *accera kalompoang* will be held at the next day.”

In this part, the researcher state that Mr.DAJ interpret the sign that allabang lino or zenith is a limit time to do the slaughter, because we have to respect with the zenith. Mr.ABG interpret the sign that the slaughter is tradition which have histori. Mr.RAAP interpret the sign that there is no specific time to do the slaughter buffalo, after *alleka je’ne* then *ammolong tedong*. Mr.Dg.J interpret the sign that the people who held the slaughter buffalo have to finish before dzhuhur, because after that the people will take a pray dzhuhur.

Datum 6

Sign : The slaughter is buffalo instead of a cow

Object : *Ammolong Tedong*

Interpretant :

Informant 1 (Mr. DAJ)

“Buffalo has become a part of the life of Makassar people. Buffalo has many dimensions of interpretation. Buffalo symbolizes prosperity, and it becomes a part of people’s activity.”

“It has direct touch with the nature. We now try to comprehend the situation in the past. In agro-social aspect like, farming or fishing at sea, those activities did have a direct touch with the nature and life. When farming, people ploughed their farm by using buffalo before planting rice in paddy field. Other dimensions are that a buffalo symbolizes power, integrity, and high social class. The more the buffalo the man had, the more affluent he was, especially the king.”

Informant 2 (Mr. ABG)

“Buffalos are different from cows. Just like in Toraja, buffalo has an important role in their ritual. My perspective based on what I have researched with my colleagues is that buffalos have more historical values than cows. Buffalos are special for ritual. The buffalo for the ritual must be on top of its size, flawless, and spotless. You need to know, *adinda*, that the blood or *cera*’ used in the cleaning ceremony is the blood poured out from the slaughtered buffalo. The blood then is used for *attittili*’. *Attittili*’ is pouring a few drops of blood to the crown. For example this is crown, then the blood will be dropped like this. That is sacredness of *ammolong tedong*. They are all connected to the final ritual.”

Informant 3 (Mr.RAAP)

“For the buffalo..... it is always a buffalo, from years and years ago. I have no idea why. I do not know.”

Informant 4 (Mr.Dg.J)

“Our ancestors only had buffalos in the past, no cows. Cows existed latter. So it is always buffalo.”

In this part, the researcher state that Mr.DAJinterpret the sign that the buffalo closely linked to human life, and buffalo is a symbol of power and unity. Mr.ABG interpret the sign that the hisroty of buffalo is higher than cow. Mr.RAAP interpret that since a long time ago used buffalo. Mr.Dg.J interpret the sign that in the past only existing buffalo, cow is not exist.

Datum 7

Sign : The buffalo need to round the palace before it is slaughtered

Object : *Ammolong Tedong*

Interpretant :

Informant 1 (Mr. DAJ)

“Just like in *tumanurung*, the palace is the place the ancestors are glorified. The people then consider it is necessary to honor the palace, as a report to conduct *accera kalompoang*.”

Informant 2 (Mr. ABG)

“Ya, the buffalo needs to round the palace because the palace is a place where king lives. Long time ago in monarchy era, Balla Lompoa was a palace where the king lived. The buffalo needs to round the palace for seven times. Probably seven has its own philosophical meaning because it was a place only for the king, both in significance value and historical value.”

Informant 3 (Mr.RAAP)

“The same case as previous answer, to ask for permission to the spirits of our ancestors.”

Informant 4 (Mr.Dg.J)

“Yes, as an honor to the palace and to the things inside.”

In this part, the researcher state that Mr.DAJ interpret the sign that as a report to the ancestors that we will conduct *accera kalompoang* ceremony. Mr.ABG interpret the sign that the palace is a king's a place to stay. Mr.RAAP interpret the sign that to ask permission. Mr.Dg.J interpret the sign that an honor to the palace and the things inside.

Datum 8

Sign : The head of the buffalo kept inside *Balla Lompoa*

Object : *Ammolong Tedong*

Interpretant :

Informant 1 (Mr. DAJ)

“To represent the buffalo itself. The head is the prominent one, not its body or its tail.”

Informant 2 (Mr. ABG)

“Yes, like what I have said before, the slaughtered buffalo is kept inside the palace and is used for *appidalleki*. The head is kept inside, and the meat is prepared as a main course in *appidalleki*. The main course then will be served to the guests and the attendants.”

Informant 3 (Mr.RAAP)

“It is just a ritual. We have no idea why. Just a ritual.”

Informant 4 (Mr.Dg.J)

“Well, I do not really know to which committee the buffalo's head is kept for. I have no idea about it. The point is, I join *accera* ceremony until it is finished. They invite us for having lunch, then we join.”

In this part, the researcher state that Mr.DAJinterpret the sign that the head is represent all of the body of the buffalo. Mr.ABG interpret the sign that be a menu in procession of *appidalleki*. Mr.RAAP interpret the sign that it is only a ritual. Mr.Dg.J interpret the sign that the organizer only invite for have a lunch, no idea for more.

1.3 Appidalleki

Ceremony of *appidalleki* mean is offerings to the ancestors with pray to Allah SWT. This activity was held on the position of the sunset, after Isya pray and *takbiran*, this ceremony special is attended by royal family. There are three signs that be found by the researcher in this ritual, i.e:

Datum 9

Sign : *Appidalleki* is held after sunset or after Isya prayer

Object : *Appidalleki*

Interpretant :

Informant 1 (Mr. DAJ)

“After sunset or after Isya, is considered as calm situation. Therefore, the ritual is linked quickly to the ancestors.”

Informant 2 (Mr. ABG)

“In *appidalleki*, they perform *barasanji*, and it is carried out after magrib. The ritual of *barasanji* is an act to combine religious and cultural ritual. And the moment is always conducted after performing magrib.”

Informant 3 (Mr.RAAP)

“It indicates to ask permission. We provide offerings to the spirits of the ancestors so that they grant our permission and prepared *sesajen*.”

Informant 4 (Mr.Dg.J)

“Firstly, the meat is not ready to serve. Secondly, after magrib is dinner time. Then it is the best time to hold *appidalleki*. When *appidalleki* ritual is done, they have dinner.”

In this part, the researcher state that Mr.DAJ interpret the sign that in the evening is a calm situation, that is a good time to pray. Mr.ABG interpret the sign that in *appidalleki* is found *barasanji*, which is a combine between culture and religious. Mr. RAAP interpret the sign that give *sesajen* to the ancestor and ask permission. Mr.Dg.J interpret the sign that the meat just cooked and after magrib is time to dinner.

Datum 10

Sign : Perform sing or *Barasanji* in the ritual *Appidalleki*

Object : *Appidalleki*

Interpretant :

Informant 1 (Mr. DAJ)

“This ritual is something primary, has more connection to spiritual world. That is why they had singing ritual called “A’*Royong*”. *Barasanji* is culture assimilation with Islam. We used to perform “A’ *Royong*”, but after Islam, we feel it is necessary to blend them.”

“Yes, but by considering the progress of Islam, we figured out how to harmonize them.”

Informant 2 (Mr. ABG)

“I have explained that *barasanji* is a combination between religious and cultural ritual. That’s why *accera kalompoang* is sacred since it brings two missions; culture and religion.”

Informant 3 (Mr.RAAP)

“It is prayer. *Barasanji* is a kind of prayer to Allah, that’s it.”

“Yes, performing a prayer. We pray there. *Barasanji* is prayer.”

Informant 4 (Mr.Dg.J)

“*barasanji* has become a tradition of Gowa people. In every single sacred or unique event like wedding, circumcision, or anything related to goodness, people of Gowa then perform *barasanji* to express their gratitude to God.”

In this part, the researcher state that Mr.DAJ interpret the sign that *barasanji* has more connection with spiritual wolrd. Mr.ABG interpret the sign that *barasanji* is combine between religious activities and cultural activities. Mr.RAAP interpret the sign that ask blessing to Allah SWT. Mr.Dg.J interpret the sign that it is tradition of people in Gowa in the uniqe event.

Datum 11

Sign : The attendants of *appidalleki* restricted only for the member of royal family or the ones with authority

Object : *Appidalleki*

Interpretant :

Informant 1 (Mr. DAJ)

“Because they are considered as the direct descendants of the king.”

“The bloodlines from the royal family, from their great grandfather. So ideally, the member of the royal family must attend the event.”

“They are not allowed. But they may on the next day.”

Informant 2 (Mr. ABG)

“The tradition of *accera kalompoang* is held based on whoever has intention to conduct it. Those who have intention will come in *appidalleki* ritual so that he can ask for blessing and *dalle'* or fortune. This event has last forever, *adinda.*”

Informant 3 (Mr.RAAP)

“No, it is just a coincidence. Not only from royal family, but the public are also welcomed in *appidalleki.*”

Informant 4 (Mr.Dg.J)

“Because it is their event.”

“Yes indeed.”

“Actually they also invite some other people like traditional leaders, religion leaders, society leaders, as well as the people from the government.”

In this part, the researcher state that Mr.DAJ interpret the sign that they are the direct descendant of the king. Mr.ABG interpret the sign that whoever has intention to conduct it, and this ritual has last forever. Mr.RAAP interpret the sign that not only the royal family, all society can attend to this ritual. 1.4 Allangiri Kalompoang

Ceremony of *allangiri kalompoang* or *annyosoro* or cleaning the main objects of the kingdom and then performed the show weigh heirlooms belonging to the kingdom. This ceremony is the main rituals of *accera kalompoang* and the society of Gowa regency gives the own mean to the implementation. *Annyosoro* is interpreted to devastatingly all the badness of human nature, *allangiri* is instill confidence in the sanctity, and *annimbang* is a symbol of goodness or badness in the level society's life in the future and the success or failure agricultural products,

determined from heavy or light objects weighing result kingdom. There are three signs that be found by the researcher in this ritual, i.e:

Datum 12

Sign : Use blood to clean the heirlooms

Object : *Allangiri Kalompoang*

Interpretant :

Informant 1 (Mr. DAJ)

“The blood is substitute. If someday a danger or a catastrophe comes, then let the blood substitute it.”

“Yes. Avoid disaster. Blood represents all those bad conditions or situation. That blood substitutes the catastrophes.”

Informant 2 (Mr. ABG)

“They actually do not use blood to clean the heirlooms. The blood is only used for *attitili*. They use the sacred water which they took from *alleka je'ne* ritual. The water from the sacred well in Katangka will be used to clean heirlooms in *allangiri kalompoang*. A few drops of the blood then will be dropped on the heirlooms. That's what we call *attitili*.”

Informant 3 (Mr. RAAP)

“Its just for a ritual. No significance in it. Sometimes they replace the blood with perfume or something else. Just a ritual. It is not always blood.”

Informant 4 (Mr. Dg. J)

“The blood they use is just as a complementary stuff. It is not really needed in *accera kalompoang*. It is just to show to the specific person who bought the buffalo for the ritual. Sometimes there is one wealthy person, either from royal family or not, who has intension (*nazar*) to buy or donate a buffalo for the ritual of *accera kalompoang* in Balla Lompoa. Once again it is just to show to the people that they clean by dropping little blood to it (the crown).”

“Not that much, but only a little.... Just a few drops.”

“Our ancestors needed to show to us that once someone had intention to donate, he or she must be willing that what he or she donated has already arrived to *salokoa*. *Salokoa* is the most precious heirloom in Gowa kingdom. It is the crown of the king...”

In this part, the researcher state that Mr.DAJ interpret the sign that the blood is represent of all the bad things that will be happened. Mr.ABG interpret the sign that the blood only used for *attittili*, to wash the heirlooms is used water. Mr.RAAP interpret the sign that it is only the ritual, the blood can be changed by parfume. Mr.Dg.J interpret the sign that the blood only a complement stuff.

Datum 13

Sign : The seven people were assigned to wash heirlooms

Object : *Allangiri Kalompoang*

Interpretant :

Informant 1 (Mr. DAJ)

“The seven people were assigned to wash the heirlooms are dominantly from Bate Salapang and the royal family.”

Informant 2 (Mr. ABG)

“As my brain still serves me well, those seven people are from descendents of Bate Salapang. The representatives of Bate Salapang will be responsible for cleaning process. But, the one who cleans *salokoa* is from the direct descendant of the king of Gowa. Then the people around him are the descendant of Bate Salapang who clean the heirlooms.”

Informant 3 (Mr.RAAP)

“For the ones who wash it, they are the descendants of Bate Salapang.”

“Yes, but it could be nine.”

“Yes, it is not seven, but nine. Perhaps, only seven of them could make it to come.”

Informant 4 (Mr.Dg.J)

“Yes they are from Bate Salapang.”

“Some of them might be from the royal family. The formation was like, the king of Gowa sat in front and then Bate Salapang.”

In this part, the researcher state that Mr.DAJ interpret the sign that the seven people is from *bate salapang*. Mr.ABG interpret the sign that the seven people is descendant of *bate salapang*. Mr.RAAP interpret the sign that the seven people is descendant of *bate salapang*, but could be nine. Mr.Dg.J interpret the sign that it is from *bate salapang*.

Datum 14

Sign : Weigh the heirloom or *Salokoa* (the crown)

Object : *Allangiri Kalompoang*

Interpretant :

Informant 1 (Mr. DAJ)

“We no longer weigh them. The scale itself has already long gone. Some people said the scale is in Netherland because the Dutch took it from us. The *salokoa* used to be weighed. If the weight were getting heavier, then the people would have a condition of surplus from any social aspects. On the contrary, if the weight were reducing, the things would happen the other way. They had already predicted what to do regarding to the result of the weight.”

Informant 2 (Mr. ABG)

“Based on our experiences, if the weight is increasing, then it means prosperity to all people of Gowa. On the other hand, if the weight is reducing, there must be a trouble or famine. Our ancestors believed so. But, Alhamdulillah the weight is always heavy. Then it indicates the prosperity of the people in Gowa is getting better. That’s why this event needs to be preserved by the

institution of Culture and Tourism. They are responsible for preserving cultural events in Gowa Regency.”

Informant 3 (Mr.RAAP)

“They need to see. If the weight is increasing, then it indicates prosperity to all people. It is just as a symbol. Up until now, the weight has never been going under. It is always going up.”

Informant 4 (Mr.Dg.J)

“We check it, examine it.”

In this part, the researcher state that Mr.DAJ interpret the sign that this ritual only in the past, but actually this ritual show to the attendant that the future of welfare in Gowa. Mr.ABG interpret the sign that the weigh is show the increase it means good, but decrease it means bad. Mr.RAAP interpret the sign that it is only symbol, if increase it means good, decrease it means bad. Mr.Dg.J interpret the sign that to check the result of the weigh, if increase it mean prosperous.

The result of this ritual in generally is pray to Allah and ancestors and ask the blessing. There is similarities between the result of this thesis with the result of the research in Wulandari (2011) state that the ritual of Saparan Bekakak ceremony is used reverence to Ki Wirasuta, but now has changed be the savety ceremony for stone miners in Gamping Mountain.

B. Discussion

In this part, researcher discussed the meaning of the rituals in *accera kalompoang* based on the sign, object, and interpretant referring to the inforrmants,

they are Mr. DAJ (the staff in Balla Lompoa), Mr.ABG dan Mr.RAAP (the staff in Department Culture and Tourism in Gowa Regency and the royal family), Mr.Dg.J (the member of Bate Salapang) based on Pierce's theory of the meaning and elements semiotic, in addition Pierce in Noth in Agustiasari (2016:11) and data that researcher put in findings. The next is deep analysis about result the research link to the informants.

1. Alleka Je'ne

In this ritual, researcher identified between signs, object, and interpretant based on pierce's triangle. Four signs be found in this ritual, while the object is *alleka je'ne*, and interpretant is derived from interviews of four informantbe found in the findings.

In **datum 1**, the sign is the implementation time of *alleka je'ne*. *Alleka je'ne* procession held in the morning around 7:30 to 9:00 or Situnrong Bulo. Arise in the mind of researcher what is contained in the implementation of Alleka Je'ne in the morning, why not be implemented at the time such as day or night. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the four informant interviews, the answer of Mr.DAJ is supported by the answer of Mr. ABG, Mr.RAAP, and Mr.Dg.J. The researchers concluded that *alleka je'ne* conducted in the morning or *sitonrang bulo* because in the morning, the sun illuminates the earth, it gives information to all creatures in this

universe to start activity and the people of Gowa believe that a good time to start the ritual activity is in the morning.

In **datum 2**, the sign is a convoy or cavalcade from Balla Lompoa to the sacred well need to be escorted with *gendrang tundrung pa'balle*. Arise in the mind of the researcher what is contained when the cavalcade must be escorted with *gendrang tunrung pa'balle*, why not be silent to go to the sacred well. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the results of the fourth informant interviews, the answer of Mr.DAJ is not supported by the answers of Mr.ABG, Mr.RAAP, Mr.Dg.J. The researcher conclude that the *gendrang tunrung pa'balle* is one of respect to the ancestors or as a form of excitement for the implementing of the traditional rituals.

In **datum 3**, the sign is use bucket made from natural element for taking the sacred water. Arise in the mind of the researcher what is contained in the bucket from natural element, why not use the plastic bucket. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the fourth informant interviews, the answer of Mr.DAJ is supported by Mr.ABG, Mr.RAAP, and Mr.Dg.J. The researcher conclude that between man and nature need harmonization and the media must be from natural elements. Other than that, besides these activities have become a tradition, so that what is used by the ancestors so is also done for generations by the royal family. But the researcher see another different situation when the ritual is take place, the organizer did no use the bucket from natural element.

In **datum 4**, the sign is the water from the sacred wells need to go around *tumanurunga* stone before back to the Balla Lompoa. Arise in the mind of the researcher what is contained in the ritual to around the *tumanurunga* stone. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the four informant interviews, the answer of Mr.DAJ is supported by the answer of Mr.ABG,Mr.RAAP, and Mr.Dg.J. The researcher conclude that the stone has high historical value, so that the water from the sacred wells need to go around *tumanurunga* stone for give reverence to the ancestors and told that the ritual would began.

The result of this ritual in generally is reverence to the ancestors. There is different between the result of this thesis with the previous findings. The result of the research in Lebang (2015) state in generally that the carvings in Tongkonan mean symbolize the social status of society, all about life. In Pasaribu (2013) state that the magic value is found in Relief Berastagi has change with value of religi There is similarities between the result of this thesis with the result of the research in Wulandari (2011) state that the symbol that use in Saparan Bekakak ceremony is combination with chanting prayers in Islam way, in order the ritual is more solemnity.

2. Ammolong Tedong

In this ritual, researcher identified between signs, object, and interpretant based on pierce's triangle. Four signs be found in this ritual, while the object is

ammolong tedong, and interpretant derived from interviews four informants contained in the findings.

In **datum 5**, the sign is slaughter the buffalo when the position sun is at the center of the earth (zenith) or *allabbang lino*. Arise in the mind of the researcher what is contained in the position of the sun to do slaughter the buffalo. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the four informant interviews, the answer of Mr.DAJ is supported by Mr.ABG, and Mr.Dg.J. The researcher concluded that actually the zenith is the time limit to do the slughtering buffalo, because the ancestors in the past honored the zenith. In zenith we can not see our shadow. Recommended no activity when zenith. Beside that the organizer will perform Dzuhur prayer after done the slaughtering.

In **datum 6**, the sign is the slaughter is bufallo instead of a cow. Arise in the mind of the researcher what is contained with buffalo. Why not slaughter the cow for this ritual. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the four informants interview, the answer of Mr.DAJ is not supported by Mr.ABG, Mr.RAAP, and Mr.Dg.J. The researcher conclude that at the time, the buffalo is important thing in human life because in-agro social aspect like farming they used buffalo for ploughed their farm. So that's why the buffalo symbolizes power, integrity, and high social.

In **datum 7**, the sign is the buffalo need to round the palace before it is slaughtered. Arise in the mind of the researcher what is contained with the ritual to paraded the buffalo around the palace. Then, the researcher asked the implicit

meaning of the sign to the four informants in this research. Based on the result of the four informant interviews, the answer of Mr.DAJ is supported by the answer Mr.ABG, Mr.RAAP, and Mr.Dg.J. The researcher conclude that the organizers did it for ask the blessing to ancestors about this buffalo to slughter and give reverence to the ancestors.

In **datum 8**, the sign is the head of the buffalo kept inside Balla Lompoa. Arise in the mind of the researcher what is contained with the head of buffalo which is kept inside of Balla Lompoa. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the four informant interviews, the answer of Mr.DAJ is not supported by the answer of Mr.ABG, Mr.RAAP, and Mr.Dg.J. The researcher conclude that the head of the buffalo is represent of all of the body of the buffalo to the ancestors. After slaughtered the buffalo, in Balla Lompoa is found *sesajen* and *dupa'* for the ancestors and one people will do the worship. The head will be kept near by the *sesajen* and *dupa'*.

The result of this ritual in generally is slaughter the buffalo to complete the offerings to the God and materials banquet for guests in Appidalleki. There is similarities between the result of this thesis with the previous findings. The result of the research in Lebang (2015) state that buffalo in Toraja is the main pet and it is loved. The buffalo has function are as a dowry, sale and purchase in transaction, and offerings to the God.

The phenomena in society of Makassar is still most of the people always do the slaughter animals for offerings. In Islam its forbidden because that activity is musyrik.

3. Appidalleki

In this ritual, researcher identified between signs, object, and interpretant based on pierce's triangle. Three signs be found in this ritual, while the object is *appidalleki*, and interpretant derived from interviews four informants contained in the findings.

In **datum 9**, the sign is *appidalleki* is held after sunset or after Isya prayer. Arise in the mind of the researcher what is contained in the time of implementation *appidalleki* after Isya prayer or sunset. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the four informant interviews, the answer of Mr.DAJ is supported by the answer of Mr.RAAP and is not supported by the answer of Mr.ABG and Mr.Dg.J. The researcher conclude that the evening is considered as calm situation. That is a good time to do the pray is linked quickly to the ancestors like *barasanji*.

In **datum 10**, the sign is perform sing or *barasanji* in the ritual *appidalleki*. Arise in the mind of the researcher what is contained in perform *barasanji*. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the four informant interviews, the answer of Mr.DAJ is supported by the answer of Mr.ABG, Mr.RAAP, and Mr.Dg.J. The researcher

conclude that perform sing or *barasanji* in the ritual *appidalleki* is assimilation between culture and Islam.

In **datum 11**, the sign is the attendants of *appidalleki* restricted only for the member of royal family or the ones with authority. Arise in the mind of the researcher what is contained with the attendants at *appidalleki*. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the four informant interviews, the answer of Mr.DAJ is supported by the answer of Mr.ABG and Mr.Dg.J and it is not supported by the answer of Mr.RAAP. The researcher conclude that the attendants of *appidalleki* restricted only for the member of royal family or the ones with authority, because the royal family has bloodlines with the king of Gowa and the ones with authority is the leader of traditional, religion, society, and the government.

The result of this ritual in generally is pray to Allah and ancestors and ask the blessing. There is similarities between the result of this thesis with the result of the research in Wulandari (2011) state that the ritual of Saparan Bekakak ceremony is used reverence to Ki Wirasuta, but now has changed be the savety ceremony for stone miners in Gamping Mountain.

4. Allangiri Kalompoang

In this ritual, researcher identified between signs, object, and interpretant based on pierce's triangle. Three signs be found in this ritual, while the object is

allangiri kalompoang, and interpretant derived from interviews four informants contained in the findings.

In **datum 12**, the sign is use blood to clean the heirlooms. Arise in the mind of the researcher what is contained with the blood for cleaning the heirloom. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the four informant interviews, the answer of Mr.DAJ is not supported by the answer of Mr.ABG, Mr.RAAP, and Mr.Dg.J. The researcher conclude that the use of blood to clean the heirlooms it means the blood represent all bad things that might be happen, so there is intention that the blood have represented all bad things to avoid the disaster.

In **datum 13**, the sign is the seven people were assigned to wash heirlooms. Arise in the mind of the researcher what is contained with the seven people were assigned to wash the heirloom. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the four informant interviews, the answer of Mr.DAJ is supported by the answer of Mr.ABG, Mr.RAAP, and Mr.Dg.J. The researcher conclude that the seven of people whom charged to wash the heirlooms are the member of *Bate Salapang* and some of the royal family.

In **datum 14**, the sign is weigh the heirloom or *salokoa* (the crown). Arise in the mind of the researcher what is contained with the weigh of *salokoa* after washing. Then, the researcher asked the implicit meaning of the sign to the four informants in this research. Based on the result of the four informant interviews, the answer of Mr.DAJ is supported by the answer of Mr.ABG, Mr.RAAP, and Mr.Dg.J. The

researcher conclude that the weigh of the heirlooms or Salokoa before the heirlooms is kept back, has implicit meaning that the result of the weigh will be show to the attendants that the condition of Gowa regency in the future. If the weigh is increase, it means the condition of Gowa will be good.

The phenomena in society of Makassar almost all the ritual cultures has entered the value of religi into the ritual such as *mappaccing*. *Mappaccing* means that self purification before getting married.

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

The researcher concluded that there are four rituals in Accera Kalompoang, i.e. :*Alleka Je'ne*, *Ammolong Tedong*, *Appidalleki*, and *Allangiri Kalompoang*. The researcher is found 14 signs and every rituals have some implicit meaning.

1. In *alleka je'ne* there are four signs and the implicit meaning, i.e:
 - a. *Alleka je'ne* is started in the morning because morning is a symbol of life.
 - b. *Gendrang tunrung pa'balle* signify excitement and respect to the ancestors.
 - c. The organizers used bucket from natural element because the bucket is a media between human and nature.
 - d. *Tumanurunga* stone has high historical value, so the cavalcade paraded the water around the stone three time for give reverence to the ancestors that the ritual would begin.
2. In *ammolong tedong* there are four signs and the implicit meaning, i.e:
 - a. The deadline to conduct slaughter the buffalo is zenith because in zenith there is no shadow and recommended no activity when zenith.
 - b. The buffalo is symbolizes of power, integrity and a high social.

- c. The buffalo paraded the palace to ask the blessing to ancestors about this buffalo.
- d. The head of the buffalo is represent all of the body of the buffalo to the ancestors.

3. In *appidalleki* there are three signs and the implicit meaning,i.e:

- a. *Appidalleki* is conducted in the evening because in evening is calm situation. That is good time to pray.
- b. *Barasanji* is performed in this ritual because *barasanji* is a pray, so that is assimilation between culture and religious.
- c. The attendants of this ritual could be from the royal family and the one with authority (leader of traditional, religi, or government).

4. In *allangiri kalompoang* there are three signs and the implicit meaning,i.e:

- a. The blood is used to clean the heirlooms represent all bad thing that might be happen or avoid disaster.
- b. The seven people whom charged to wash the heirlooms are the member of Bate Salapang and the royal family.
- c. To weigh the crown or *salokoa* it means to know the social situation in Gowa regency in the future.

In generally the implicit meaning in Accera Kalompoang are reverence to the ancestors, slaughter the buffalo to complete the offerings and materials banquet for guests, pray to Allah and ancestors and ask the blessing, and purification or cleaning the heirlooms.

B. Suggestion

After finishing this thesis, the suggestions that can be given to the readers who are interested in semiotics field, are:

1. By knowing the meaning contained in the procession Accera Kalompoang, the reader is expected to know and keep the cultural values, especially Accera Kalompoang.
2. The research can be the reference to the next researcher who wants to analyze the sign based on semiotic theory. Especially the student in English and Literature Department.

Transcript of the Interview

Script Interview of Mr.DAJ

W: Thank you for the chance given to me. I am Wardhana, student of English Literature at UIN Alauddin. I'd like to interview you to dig deeper about the significances contained in every aspect of *Accera Kalompoang* ritual. I plan to use the result of this interview as my data research entitled "**The Meaning of The Rituals in Accera Kalompoang.**" Firstly, let me begin by asking, are you a staff in *Balla Lompoa* ?

D : Yes, that is correct.

W : How long have you been working in *Balla Lompoa* ?

D : When I was still active as public servant in Historical and Archeological Heritage of Sulawesi Selatan, I still worked as an auxiliary staff in this museum or palace. By the time I was retired, I was reactivated as expert staff and custom.

W : so it means more than 20 years?

D : since 1999

W : since 1999...

D : but effectively, it was long before that time that I became an auxiliary staff here.

W : oh I see, sir. Since 1999. What a long period. My next question, as we know the ritual of *Accera Kalompoang* is routinely performed each year in the area of *Balla*

Lompoa. Is there any correlation between your job and this *Accera Kalompoang* ritual?

D : As the one who is considered having more understanding about local custom and culture, history in general, well automatically we are indispensable in this matter. It is our profession.

W : so it has a strong correlation regarding to *Accera Kalompoang* ?

D : Yes indeed

W : how long have you been engaging yourself in *Accera Kalompoang* event? is it from 1999 or even earlier?

D : I have been actively engaging myself since 1999 as special executive of heirloom cleaning. Besides that, I am also responsible for the information regarding to the implementation of the event.

W : so, once you officially worked here, then you... handled this event.

D : Like this. Regarding to the implementation of *Accera Kalompoang*, we have been taught by our elder, an expert figure of culture and custom in Gowa. He is one of advisors of the king. I got much contribution about history of culture and custom, as well as its implementation from him

W : What is your role in *Accera Kalompoang* ?

D : I have several roles. Firstly, I arrange the property to be used in the event. It has a classification. After all are brought outside, we put them back in order, which will be touched first for cleaning process. Secondly, sometimes we need to directly intervene in cleaning the heirlooms. Thirdly, we are responsible for spreading information to the media, either print or electronic, as well as to the notable figures from academicians or culture observers.

W : Is there any other roles, sir? Or is that it?

D : No, that's all

W : You may clarify me, sir. Based on a literature I read, there are four rituals in *Accera Kalompoang* event. They are *Alleka Je'ne*, *Ammolong Tedong*, *Appidalleki*, and *Allangirikalompoang*. Am I correct?

D : In every kind of traditional event, it is always held in chronological order as each ritual is closely correlated one to another, from the start to the end. Like a chain reaction.

W : So, that is true. *Alleka Je'ne*, *Ammolong Tedong*, *Appidalleki*, and *Allangirikalompoang*?

D : Yes, it is. That is the sequence. The order of instruction has been patented long time ago.

W : Continue to next question. In three rituals: *Alleka Je'ne*, *Ammolong Tedong*, and *Allangiri Kalompoang*, why does one young couple dressed in traditional wedding dress need to be shown there?

D : It illustrates that the people of Gowa are fully human. The man and the woman represent masculine and feminine.

W : So it reflects a humanity.

D : It is a representation of humanity among people. Globally, it symbolizes masculine and feminine perspective among the society of Makassar-Gowa.

W : oh I've got the point... We continue. What I know is that *Alleka Je'ne* is the ritual of taking the sacred water. Why do they have to take the water when the position of the sun is around *Situnrong Bulo* or around 07.30 to 09.00 am?

D : That phase of time implies the life the people undergo, especially at the start, by the time when the sun illuminates the earth. That's the symbol of life.

W : Symbol of life, taken from that phase of time?

D : Time is dynamic. There is sequence of time that we need to accomplish.

W : Is there any other explanation regarding to morning time, sir? Or is that all?

D : Morning time starts when *fajar*, the sun, rises. It is information to all creatures in this universe to start their activity.

W : Then the ritual starts in the morning... well, next... In the ritual of *Alleka Je'ne*, there is a convoy or a cavalcade from *Balla Lompoa* to the sacred well. Why does the convoy need to be escorted with *Gendrang Tunrung Pa'balle*?

D : This is a traditional ceremony. Automatically, it must be complemented by traditional music to express unity and joy. There is manifestation of sublimity and great honor in it.

W : Honor to the ancestors?

D : Yes. To the ancestors and also to the noble values that we need to comprehend together.

W : Ok. The next, when taking the sacred water from the sacred well, why do they use a bucket made from natural element, from something biological?

D : Water is natural element. There must be a harmony between mankind and the nature. Then the media must be from natural elements.

W : Is that why it should be biological?

D : The philosophical concept of ancient Makassar people tells that there must be a harmony built by the mankind to their environment, to the other creatures around them. It is one patron.

W : After taking the sacred water from the sacred well, then the cavalcade prepares to head back to the palace. Then why does the water need to go around *Tumanurunga Stone* before heading back to *Balla Lompoa*?

D : *Tumanurung* stone is marked as a spot where the king is inaugurated. He was a man from nowhere, nobody knew him. But it is approved that he was a noble man, the incarnation of god. At least, that's what people describe based on its mythology. So, it is a reconstruction of king's existence where people wish for blessing from him through Allah SWT.

W : Once *Alleka Je'ne* has done, then *Ammolong Tedong* will be the next ritual. Why do they slaughter the buffalo when the position of the sun is at the center of the earth (zenith) or *Allabbang Lino*?

D : When the sun has moved, from its zenith, the meaning then has changed as well. The intensity of the light can never be the same. It is already moving to twilight, and twilight has no meaning.

W : But what is the significance of the zenith of the sun?

D : The zenith is considered that no one should do nothing at that minute. The sun is at its highest position, at the center of the earth. No harmony to do make any activity during that time.

W: But from the literature I read said *Ammolong Tedong* need to be executed during zenith

D : I have a different opinion. We honor the zenith of the sun. After zenith, we are still able to see our shadow, oblique shadow. But at zenith, no shadow.

W : So *Ammolong Tedong* ought to be executed when.....

D : the zenith is the limit.

W : before zenith

D : Yes, before it. After that, no more harmony.

W : So it must be done before *Allabbang Lino*. Oh I see. Then why do they have to slaughter a buffalo instead of a cow?

D : Buffalo has become a part of the life of Makassar people. Buffalo has many dimensions of interpretation. Buffalo symbolizes prosperity, and it becomes a part of people's activity.

W : People's activity means?

D : It has a direct touch with the nature. We now try to comprehend the situation in the past. In agro-social aspect like, farming or fishing at sea, those activities did have a direct touch with the nature and life. When farming, people ploughed their farm by using buffalo before planting rice in paddy field. Other dimensions are that a buffalo symbolizes power, integrity, and high social class. The more the buffalo the man had, the more affluent he was, especially the king.

W : So it is a symbol of affluence?

D : Yes, a high social class. But it was only for the king.

W : oh.. that's why they sacrifice a buffalo instead of a cow.

D : also as a symbol of fertility, unity, and integrity.

W : Next, in the ritual of *Ammolong Tedong* or Slaughtering Buffalo, why does the buffalo need to round the palace before it is slaughtered?

D : Just like in *Tumanurung*, the palace is the place the ancestors are glorified. The people then consider it is necessary to honor the palace, as a report to conduct *Accera Kalompoang* .

W : Then after slaughtering, why is the head of the buffalo kept inside *Balla Lompoa*?

D : To represent the buffalo itself. The head is the prominent one, not its body or its tail.

W : is it also served as an offering food?

D : Yes it is.

W : After *Ammolong Tedong*, then they continue to *Appidalleki* in the evening. Why is this ritual held after sunset or after Isya Prayer?

D : After sunset or after *Isya* is considered as calm situation. Therefore, the ritual is linked quickly to the ancestors.

W : Why do they perform singing or *Barazanji* in the ritual of *Appidalleki*?

D : This ritual is something primary, has more connection to spiritual world. That's why they had singing ritual called "*a'royong*". *Barasanji* is culture assimilation with Islam. We used to perform *a'royong*, but after Islam, we feel it is necessary to blend them.

W : so, it is supposed to perform *A'royong* first, then *Barasanji*?

D : Yes, but by considering the progress of Islam, we figured out how to harmonize them.

W : I see. Why are the attendants of *Appidalleki* restricted only for the member of royal family or the ones with authority?

D : Because they are considered as the direct descendants of the king .

W : What does it mean?

D : The bloodlines from the royal family, from their great grandfather. So ideally, the member of the royal family must attend the event.

W : What about the public outside?

D : They are not allowed. But they may on the next day.

W : in *Allangiri Kalompoang*. Well... Next, in the ritual of *Allangiri Kalompoang* or Heirlooms Cleaning, why do they use blood to clean the heirlooms?

D : The blood is a substitute. If someday a danger or a catastrophe comes, then let the blood substitute it.

W : I see, it is expected to be so. So, there will be no more blood spilt. Therefore in the ritual, the blood cleans the heirlooms.

D : Yes, to avoid disaster. Blood represents all those bad conditions or situations. That blood substitutes the catastrophes.

W : oh well sir. Then about seven people who are charged with cleaning the heirlooms. Are they the chosen ones from royal family?

D : The people charged with cleaning the heirlooms are dominantly from *Bate Salapang* and the royal family.

W : The literature I read informed me that *Bate Salapang* are also the descendants of the king. Is that true?

D : No, that is incorrect. *Bate Salapang* was formed earlier than the kingdom. Long before the Kingdom of Gowa era, there were several regions led by their respective indigenous stakeholders. Sometimes they confronted each other, sometimes they

collaborated. Then they finally agreed to have one figure to unite them. Initially, there were 20 regions, but later there were only nine. They used to be called *Kasuwiang Salapang* or Nine Officials, the pioneer of Gowa. At that time, *Bate Salapang* was considered as the descendants of nobility. Later, the figure of *Tumanurung* came among them to unify them. He was inaugurated as a king and they worshipped him. He was considered to have a highest rank among all because nobody knew where he was from or who he was before. They assumed that he was an incarnation of god. Therefore they called him *Karaeng Mannassayya*, the real descendant of nobility.

W : Before returning the heirlooms which has been cleaned back to its place, why does *Salokoa* or the King's Crown need to be weighed in the first place?

D : We no longer weigh them. The scale itself has already long gone. Some say the scale is in Netherland because the Dutch took it from us. The *Salokoa* used to be weighed. If the weight were getting heavier, then the people would have a condition of surplus from any social aspects. On the contrary, if the weight were reducing, then things would happen the other way. They had already predicted what to do regarding to the result of the weight.

W : That's all for the interview today, sir. Thanks in advanced.

D : If you need me to contribute more, don't hesitate to call...

Teks Wawancara Pak Djufri

W: Terima kasih atas kesempatannya pak, perkenalkan saya Wardhana dari mahasiswa UIN Alauddin jurusan Bahasa dan Sastra Inggris mau melakukan *interview* sama kita pak untuk menggali lebih dalam mengenai makna yang terkandung dalam aspek-aspek ritual *Accera Kalompoang*. Hasil dari wawancara ini akan saya gunakan untuk data penelitian skripsi saya yang berjudul **“The meaning of the rituals in Accera Kalompoang”**. Pertama-tama Pak saya mau bertanya untuk klarifikasi, apa benar bahwa pekerjaan anda sebagai staff di *Balla Lompoa* ?

D : Iya benar

W : Sudah berapa lama *ki* kerja di *Balla Lompoa* ?

D : Jadi, ketika saya masih aktif sebagai PNS di peninggalan sejarah dan purakala Sulawesi Selatan tetap saya diperbantukan di museum atau istana, kemudian setelah saya pensiun, kembali aktif difungsikan di istana *Balla Lompoa* sebagai staff ahli dan adat

W : Berarti lebih mi 20 tahun ?

D : Sejak 99

W : Oh dari 99...

D : Tapi secara efektifnya itu tapi jauh sebelumnya sering memang saya

diperbantukan

W : Oh iye pak, sejak 99. Lama..pertanyaan selanjutnya pak, seperti diketahui bersama bahwa setiap tahunnya prosesi adat *Accera Kalompoang* rutin dilakukan di area istana *Balla Lompoa*. Apakah ada hubungan antara pekerjaan anda dengan prosesi adat *Accera kalompoang* ?

D : Jadi sebagai yang dianggap banyak tahu dan mengerti persoalan-persoalan adat tradisi dan budaya secara umum sejarah otomatis kami sangat dibutuhkan jadi sudah menjadi profesi kami dalam hal-hal tersebut.

W : Berarti sangat berhubungan erat dengan prosesi adat *Accera Kalompoang* ?

D : Iya sangat berhubungan erat

W : Sudah berapa lama kita ikuti prosesi adat *Accera Kalompoang* ? dari tahun 99 itu kah atau sebelumnya..?

D : Sejak 1999 saya sudah aktif juga sebagai pelaksana khusus pencucian benda-benda, kemudian juga disamping itu juga saya pemegang penanggung jawab informasi tentang pelaksanaan acara tersebut .

W : Oh iya.. jadi seiring dari kita masuknya sudah langsung kita apa namanya.. handle acara tersebut..

D : Jadi begini, menyangkut pelaksanaan *Accera Kalompoang* kami sudah mendapat masukan-masukan dari kakek kami seorang tokoh budaya dan adat kerajaan Gowa, dimana beliau itu termasuk penasihatnya raja. Begitu.Jadi saya itu banyak mendapatkan kontribusi tentang sejarah budaya adat dan pelaksanaannya.

W : Bagaimana peran anda dalam proses *Accera Kalompoang* ?

D : Jadi peran saya itu ada beberapa hal. Pertama mengatur benda-benda yang akan di acarkan, jadi ada klasifikasi, ada urutan-urutan setelah dikeluarkan, dan mengatur kembali. Mana yang lebih awal tersentuh benda-benda tersebut yang akan diantar keluar ditempat dimana dilakukan pencucian. Kemudian terkadang juga kami langsung turun tangan pelaku untuk mencuci benda pusaka tersebut.Ketiga penanggung jawab urusan masalah pemberian informasi penjelasan yang sangat diperlukan baik media cetak maupun media elektronik maupun tokoh tokoh yang

berkaitan dengan masalah acara tersebut dari kalangan akademik maupun pemerhati masalah-malalah acara tersebut.

W : Masih ada peran lainnya pak ? apa itu saja ?

D : Tidak. Itu saja

W : Mohon diklarifikasi pak, menurut literature yang saya baca, dalam prosesi *Accera Kalompoang* terdapat empat ritual yaitu *Alleka Je'ne*, *Ammolong Tedong*, *Appidalleki*, dan *Allangiri kalompoang*. apa benar demikian pak ?

D : Jadi setiap acara tradisi itu, acara tradisional selalu ada unsur-unsur urutan pelaksanaan karena sangat berkaitan antara satu dan yang lainnya. Jadi diawali, selanjutnya, sampai final sangat berkaitan jadi satu mata rantai kegiatan acara tersebut.

W : Berarti memang benar pak ada *Alleka Je'ne*, *Ammolong Tedong*, *Appidalleki*, dan *Allangiri Kalompoang* ?

D : Memang sudah begitu, sudah begitu aturannya. Tata cara pelaksanaannya sudah di portal, sudah di patenkan seperti itu.

W : Lanjut ke pertanyaan selanjutnya pak, dalam ritual *Alleka je'ne*, *Ammolong Tedong*, dan *Allangiri Kalompoang* mengapa harus ada sepasang remaja yang menggunakan pakaian tradisional pengantin ?

D : Jadi menunjukkan bahwa kalau masyarakat Gowa itu kelihatan ada manusia seutuhnya. Dalam artian ada laki-laki ada perempuan. Jadi feminisme dan maskulinnya harus kelihatan.

W : Jadi dia melambangkan sebagai masyarakat yang utuh.

D : Jadi itu adalah representasi pada masyarakat secara utuh. Jadi secara global menandakan bahwa semua orang-orang Makassar-Gowa tergambar manusianya maskulin maupun feminis.

W : Oh itu artinya... lanjut pak, sepengetahuan saya, *Alleka Je'ne* adalah ritual pengambilan air bertuah, mengapa dalam proses *Alleka Je'ne* harus dilakukan pada saat matahari sekitar *Sitonrang Bulo* atau pukul 07.30-09.00 ?

D : Karena pada jadwal tersebut ada makna bahwa kehidupan akan berjalan, kehidupan akan merangkak, akan kita meraih cahaya yang menerpa bumi ini, itu symbol kehidupan.

W : Symbol kehidupan, makanya diambil pada waktu itu ?

D : Jadi ada dinamika waktu, yang merupakan rangkaian waktu yang harus kita penuhi.

W : Masih ada penjelasan lainnya pak yang tentang kenapa harus pagi dilakukan atau itu saja ?

D : Jadi pagi itu artinya kita awali dengan *startnya* fajar kan. Fajar ini merupakan suatu informasi kepada alam semesta bahwa mulailah kita melakukan aktifitas kehidupan.

W : Oh dimulai dari pagi... lalu pak, dalam ritual *Alleka Je'ne* terdapat rombongan atau iring-iringan dari *Balla lompoa* menuju sumur bertuah, mengapa rombongan tersebut harus diiringi dengan *Gendrang Tunrung Pa'balle* ?

D : Inikan upacara tradisional, otomatis kelengkapan acara tersebut harus ada ceremonial music tradisional mengiringi pada suatu penghormatan dan kegembiraan, dimana di dalamnya ada manifestasi kemuliaan. Kemuliaan dan penghormatan di dalamnya ada manifestasi kemuliaan

W : Untuk leluhur ?

D : Ya untuk pada leluhur dan pada nilai leluhur itu yang harus kita hayati bersama

W : Oh iya. Mengapa dalam pengambilan air di sumur bertuah harus menggunakan timba yang berbahan dari unsur alam atau yang bersifat nabati ?

D : Kan air ini adalah unsur alam, maka perlu ada harmonisasi manusia dengan alam medianya adalah dari alat-alat yang berunsur alam juga natural

W : Makanya harus bersifat nabati ?

D : Jadi konsep filosofi orang-orang dulu utamanya Makassar sudah mengatakan prinsip hidup bahwa harus ada harmonisasi manusia dengan makhluk lainnya dan lingkungan hidupnya. Itu satu patron.

W : Lalu setelah mengambil air dari sumur bertuah rombongan siap kembali ke istana, mengapa air tersebut harus diarak mengelilingi batu *Tumanurunga* sebelum rombongan kembali ke *Balla Lompoa* ?

D : Batu *Tumanurung* itu sudah di sahkan bahwa disitulah tempat mula pelantikan raja yang mana diawali sosok manusia yang kita tidak tahu siapa, darimana, cuma disepakati dalam kondisi waktu itu bahwa ini adalah manusia mulia, titisan dewa, nah itu digambarkan secara argumentasi mitologisnya. Jadi suatu penghormatan, suatu rekonstruksi tentang kehadirannya beliau dan mudah-mudahan ada restu dari beliau melalui Allah SWT.

W : Lalu setelah *Alleka Je'ne*, prosesi dilanjutkan dengan ritual *Ammolong Tedong*, mengapa dalam ritual *Ammolong Tedong* harus dilakukan pada saat matahari dipertengahan bumi atau *Allabbang Lino* ?

D : Karena bila mana matahari sudah berada dititik tengah itu di anggap bergerak sedikit saja sudah lain mi maknanya. Berarti cahaya matahari itu sudah mulai tidak

sama kualitasnya, daripada titik tengah itu dianggap sudah mau menuju, akan menghadapi waktu menuju senja itu dianggap tidak memiliki suatu makna.

W : Tetapi apa makna yang terkandung pak dengan titik sejajarnya ?

D : Titik itu kan suatu waktu yang dianggap harus tidak ada kegiatan pada saat itu. Kan sudah ada pada titik tengah. Jadi dianggap suatu hal aktifitas yang tidak harmonis

W: Tapi disini pak dia bilang kan harus di pertengahan hari dilakukan *Ammolong Tedong*

D : Kalau saya tidak sependapat, karena kita hormati titik tengah. Bayangkan kalau sudah titik tengah, yang sebelumnya itu titik kita, bayangan kitaa masih kelihatan agak miring, pada titik tengah tidak ada bayangan manusia.

W : Jadi *Ammolong Tedong* seharusnya dilakukan.....

D : Jadi limitnya itu di pertengahan matahari

W : Oh.. batasnya

D : Iya batasnya. Kalau lewat itu dianggap tidak harmonis

W : Oh harus dilakukan sebelum *Allabbang Lino*. Oh iye. Lalu mengapa hewan yang disembelih harus kerbau bukan sapi ?

D : Karena kerbau itu adalah bahagian daripada kehidupan orang-orang Makassar. Banyak dimensi yang memaknai pada kerbau tersebut. Kerbau itu kan lambang kemakmuran dan merupakan bahagian aktifitas kehidupan manusia.

W : Maksudnya kehidupan manusia ?

D : Jadikan lebih bersentuhan dengan alam sekitarnya. Jadi kita berada dipemahaman kondisi pada dewasa itu. Sekarang ini masih belum begitu banyak ya, kalau dulu yang

kita lihat banyak aspek sosial agraris, macam pertanian, mencari kehidupan di air. Itu sangat bersentuhan itu kehidupannya. Kemudian, kaitannya manusia dengan agraris, kalau kita mengerjakan sawah harus diawali membajak melalui kerbau. Aspek lainnya, dimensi lainnya adalah lambang kekuatan, lambang persatuan, lambang yang memiliki social yang mapan orang yang banyak kerbaunya artinya mapan itu, utamanya raja.

W : Berarti bisa juga dibilang lambang kekayaan di' ?

D : Ya status sosialnya yang mapan. Tetapi hanya raja yang banyak kerbaunya

W : Oh.. makanya dia pakai kerbau bukan sapi

D : Lambang kesuburan persatuan kekuatan

W : Lalu pak dalam ritual *Ammolong Tedong* atau penyembelihan kerbau, sebelum kerbau disembelih, mengapa kerbau tersebut harus di arak mengelilingi istana ?

D : Termasuk juga itu tempat awalnya *Tumanurung*, karena di anggap disitulah para leluhur dimuliakan, maka perlu kita adakan penghormatan, sebagai pelaporan kami akan melakukan suatu upacara *Accera Kalompoang* .

W : Lalu mengapa setelah penyembelihan kepala kerbau di bawa dan disimpan didalam istana *Balla Lompoa* ?

D : Karena dianggap itu adalah mewakili kerbau tersebut, badannya. Maka harus ada kepalanya, masa' badannya, masa' ekornya. Kepalanya itu dianggap simbolis yang utama

W : Apa itu dipakai untuk sesajen atau apa pak ?

D : Itu termasuk sesajen juga

W : Setelah ritual *Ammolong Tedong*, pada malam hari prosesi dilanjutkan dengan ritual *Appidalleki*. Mengapa dalam ritual *Appidalleki* tersebut harus dilakukan setelah matahari terbenam atau setelah sholat Isya ?

D : Jadi setelah matahari terbenam atau sama waktunya habis isya maka dianggap itu alam tenang. Sehingga hubungan ritual kita dengan para yang dimuliakan itu bisa cepat terhubung. Jadi ada transformasinya cepat.

W : Lalu mengapa dalam ritual *Appidalleki* terdapat nyanyian atau barasanji ?

D : Jadi itu adalah ritual otomatis menyangkut dengan hal-hal yang sangat prima, karena berkaitan dengan nuansa non-lahiriyah. Lebih banyak dimensi rohaniah. Maka dilakukanlah nyanyian ritual namanya "*a'royong*". Kemudian *Barasanji* itu sudah asimilasi dengan islam. Awalnya yang dipakai itu *a'royong* tapi karena sekarang ini kita sudah menganut islam otomatis harus ada asimilasi kultur islam.

W : Jadi seharusnya duluan *a'royong* baru *barasanji* ?

D : Iya, tetapi melihat perkembangan harus di harmonisasikan atau disamakan kegiatannya

W : Lalu mengapa dalam ritual *Appidalleki* hanya keluarga kerajaan atau yang punya wewenang bisa menghadiri ritual tersebut ?

D : Karena dianggap itulah yang bagian titisan. S A R

W : Maksudnya pak ?

D : Titisan adalah secara vertical bloodnya tidak terlepas dari bahagian leluhur itu. Maka itu idealnya harus kerabat.

W : Untuk masyarakat umum tidak bisa ?

D : Tidak bisa. Yang bisa itu besoknya

W : Iya, pas *Allangiri kalompoang*. lalu mengapa dalam ritual *Allangiri kalompoang* atau pencucian benda pusaka kerajaan menggunakan darah untuk mencuci benda pusaka tersebut ?

D : Jadi menggunakan darah itu ada semacam pegangan bahwa bilamana terjadi suatu bahaya atau bencana cukuplah darah ini yang menjadi tumbalnya .

W : Diniatkan seperti itu pak di'?supaya tidak adalagi darah darah yang lain di'? makanya itu yang dipakai untuk mencuci benda

D : Iya. Termamsuk penolak bala.Jadi semua yang bernuansa kondisi seperti ini disimbolisasikan dengan darah itu. Hanya darah inilah yang menjadi tumbalnya

W : Lalu, tujuh orang ditugaskan untuk melaksanakan pencucian benda pusaka. Apakah orang-orang tersebut pilihan dari keluarga ?atau dari elemen lain selain keluarga ?

D : Jadi, yang ikut pada pelaku pencuci benda-benda pusaka itu dominannya adalah dari kelompok *Bate Salapang* dan juga adalah pihak keluarga kerajaan

W : Karena memang kalau *Bate Ssalapang* menurut yang pernah saya baca pak, itu *Bate Salapang* memang keturunan dari raja makanya diangkat jadi *Bate Salapang*, atau bagaimana ?

D : Tidak, *Bate Salapang* itu lebih awal hadir baru kerajaan. Sebelum kerajaan gowa terbentuk sudah terdapat berapa negeri yang masing masing ada ketua.Ketua-ketua adat tersendiri.Setelah hadir *Tumanurung* dan memang saat itu sangat diperlukan tokoh pemersatu, karena kelompok negeri-negeri ini kadang bersatu kadang berserteru, nah itu pertanda tidak ada tokoh pemersatu. Akhirnya mereka berkeyakinan bahwa perlu ada tokoh pemersatu dengan argumentasi, suatu ketika turunlah itu *Tumanurung*, nah itulah dianggap diyakini inilah yang bisa menjadi pemersatu, sehingga *Bate Salapang* pada awalnya itukan ada 20 negeri di ubah jadi 9.

Bate salapang sebelumnya namanya *kasuwiang salapang* atau Sembilan pengabdian yang menopang kerajaan Gowa, akhirnya masalah kebangsawanan kelompok *bate salapang* ini dianggap anak *Karaeng Maraengannayya* artinya adalah keturunan bangsawan, tetapi dengan munculnya *karaeng Tumanurunga* selaku raja dan disembah, ini lah yang dianggap tinggi derajatnya, karena dianggap tidak tahu dari mana dan siapa, cuma mereka menerka bahwa ini utusan dewa maka dikatakanlah anak *Kareng Mannassayya* keturunan bangsa yang sesungguhnya

W : Terus pertanyaan terakhir pak, sebelum mengembalikan benda-benda pusaka setelah dicuci ke tempat awalnya, mengapa *salokoa* atau mahkota kerajaan harus ditimbang terlebih dahulu ?

D :Jadi, masalah penimbangan sudah tidak ada. Masa lalu jii itu, karena timbangannya sendiri sudah tidak ada.Ada yang mengatakan alat timbangan ini tersimpan di Belanda, karena pernah di ambil oleh Belanda.Olehnya itu tidak adalagi penimbangan. Kalau dulu ditimbang, kalau berat itu atau naik akan terjadi surplus akan terjadi kondisi yang baik dengan berbagai aspek sosial. Kalau turun, sebaliknya. Sudah ada perhitungan-perhitungan atau prediksi tindakan apa yang akan kita lakukan dengan hasil timbangan tersebut.

W : Sekian untuk *interviewnya* hari ini pak, terima kasih banyak

D : Sekira masih ada hal-hal yang perlu kontribusi lagi, siap saya di *contact* saja ya...
