---

This research is about Mappettu Ada in Buginese Culture (Case Study in Bone Regency, South Sulawesi): Semantic Approach. The aimed of the research are to explain the kinds of figurative language used in the dialogue and to explain the literal meaning of the dialogue of *mappettu ada* in buginese culture. The method used in this research was a descriptive qualitative method. The writer collected the data in two ways, they were observation and interview. The writer attended marriage proposal marriage process (*mappettu ada*), listen and record the dialogue of *mappettu ada* among the bridegroom representative. The findings of the research, the writer found five kinds of figurative language expressions in the dialogue of *mappettu ada* (buginese term) in buginese culture, particularly in Bonenese culture. They are hyperbole for example *mauni si Soppeng macecce, si Bone temmappuji temmasselle tona*, symbol for example *naluttuna manu-manu parukkusenna*, personification for example *nataranak wettuing*, metaphor for example *paramata maelo'e kuenta situdangeng siatting lima, sitonra olak tessibelleang* and litotes for example *engka pasa rilipukku balanca rikampokku nyawami kusappa*. Based on the findings, the writer concluded that Figurative language which often emerges in the dialogue of *mappettu ada* are hyperbole and symbol.

## CHAPTER I

### INTRODUCTION

#### A. Background

Indonesia is one of the countries that has various cultures from Sabang to Merauke. The differences of Indonesian cultures are not the reason to make Indonesian regions different from others, but these are the foundation to make unity in diversity. Each province has very unique local culture. For example in south Sulawesi there are some ethnic groups. Makassarese, Buginese and Torajanese. The culture cannot be separated from language because language is a tool of communication used to show the culture, people use language to communicate something and give information. With language the listeners also can understand what actually the speaker intends (Amri, 2012: 1).

To state the obvious, language embodies the products, practices, perspectives, communities, and persons of a culture. To fully reveal the culture, we must examine the language. Language is a product of the culture, as any other, but it also plays a distinct role. Members of the culture have created the language to carry out all their cultural practices, to identify and organize all their cultural products and to name their underlying cultural perspectives in all the various communities that comprise their culture. The words of the language, its expressions, structures, sounds, and scripts reflect the culture, just as the cultural products and practices reflect the language. Language, therefore is a window to the culture (Moran, 2001: 35).

Language is the most human of all human attributes. More than just a means of communication it is our vehicle of thought. We cannot imagine human beings without language, and if we came across another creature with language in our sense we would say it was human or human-like, or intelligent in the way that humans are (Beedham, 2005: 1).

In this thesis, the writer focused on Buginese language. Especially in language expression that is used in marriage proposal of Buginese culture (*mappettu ada*). In Buginese custom, the wedding ceremony is preceded by proposal procedures, which consist of 'seeking the way' (Bug: *mabbaja laleng*), the 'preliminary inquiry' or 'acting like a bird' (*mammanu'-manu'*), 'coming forth with the proposal' or 'to delegate' (*madduta*), and 'the acceptance of the proposal' (*mappettu ada*) (Idrus, 2003: 227).

*Mappettu ada*, it's a meeting between two families to talk about all things that they will do for wedding ceremony, they will talk about the bride price (including *dui' menre'* and *sompa*) and decide the wedding day (*tanrang esso*) (Mame in Amri, 2012: 27). The dialogue is started with the bride price because it is the most important and become the determiner whether the proposal is accepted or not. According to Hadikusumah in Nurwahidah (2014: 16) '*dui menre'* is some money which is given to the girl's family as one of the requirement to legalize the marriage proposal.

There are many varieties of marriage proposal performance, it has different ways in implementation. Likewise, the marriage proposal in South Sulawesi particularly in Buginese has various unique processes. It makes the

writer is interested in exploring more as a thesis. In this research, the writer focused on ritual of marriage proposal specially the performance of *mappettu ada* at Bonenese culture. The writer described the meaning of the dialogue that is used in marriage proposal (*mappettu ada*) and disclose the meaning of figurative which is found by using semantic approach.

The writer chooses semantic approach in analyzing the research, because the writer wants to know the meaning of the expression and the figurative language used in *mappettu ada*. The writer also chooses this topic, in order to understand more about the Buginese culture specially the dialogue of marriage proposal (*mappettu ada*) and it's figurative meaning also illustrates the character of the real local culture. Buginese local culture is the identity of an ethnic character and the fundamental of national culture development. Hence, we have to preserve and maintain our national culture. Therefore, it becomes a reason of the writer to research on Marriage Proposal in Buginese Culture.

## **B. Problem Statement**

Based on previous background, a problem needs to be answered from research. There are some questions that are going to be answered by the writer as follows:

1. What kinds of figurative language is used in the dialogue of *mappettu ada* at Bonenese culture?
2. What is the meaning of figurative language used in the dialogue of *mappettu ada* at Bonenese culture?

### **C. The objectives of the Research**

The purpose of this research is to analyze the meaning of the dialogue in *mappettu ada* of Buginese culture and beside it gives the answer of the problem of the study, the objectives of the study are:

1. To find kinds of figurative language used in the dialogue of *mappettu ada* in Buginese culture.
2. To describe the meaning of figurative language which is found in the dialogue of *mappettu ada*.

### **D. Significance of the Research**

This research can be beneficial as a good reference for those, who are interested in discussing culture, it can be a first step to know and understand the analysis and reporting of research culture, figurative language, and also give useful information to Buginese people who were born and live outside Buginese ethnic.

### **E. Scope of the Research**

There are many points included in this research, such as how to get the message, analyze the symbols, catch the meaning, etc. To avoid the overlarge field the research, the writer focused on the meaning of figurative language in *mappettu ada* at Buginese culture. Furthermore, the researcher chosen Pattiro Riolo village in Bone regency as the researching area.

## CHAPTER II

### REVIEW OF RELATED LITERATURE

Chapter two deal with previous studies and some pertinent ideas of the research.

#### A. Previous Finding

The writer includes some previous studies that have relation with this research they are:

Amri (2012) in his thesis, "*Culture Expression Used in Buginese Marriage Proposal (semiotic approach)*". He found that the symbols are usually performed in Buginese marriage proposal is used to build and make dialogue between two families during process of marriage proposal. There are some symbols that represent in *Elong Madduta (Mappettu Ada)*. They are *Manuk Parukkuseng, Bunga Sellek Renning, Pasa, Bunga Rosi*. Such kinds of symbols have association meaning as female. Even though, their referential are animals, and things but it has reasons why they are chosen.

Elwin (1991) in his thesis, "*A Language of Buginese Marriage Proposal: An Analysis of Connotative Meaning*". He found that almost the meaning of the dialogue in Buginese marriage proposal contains connotative meaning. Some of them are: *Upatuppui ri akkaddenetta, upakkatenni ri accuccuretta, upajjulekka ri appang appatta, upatudangi ri cappa jali'ta, upasanrei alliri lettu'na nalettu nawa nawana lao ri sappona, etc.*

Lisnayanti (2013) in her thesis, "*Figurative language in the Dialogue of Marriage Proposal in Makassarese Culture (Semantic Approach)*". She found

that there are some figurative language used in the dialogue of marriage proposal in Makassarese culture. They are *a'jangang-jangang* (allusion), *riballa ka asi-asia* (litotes), *jangang-jangang moncong bulo ma'dongko ri concoranta*, *mangngerang kana*, *mattayang kana ma'nassa* (personification). Probably hard for the readers to understand the content of the dialogue. Hence, the writer explains the meaning of dialogue with figurative language into ordinary language.

The three previous studies above were basically focused on analyzing the dialogue of marriage proposal, which is used as a step to propose a girl in Buginese and Makassarese. The similarity between the previous studies and this research is analyzing the text of marriage proposal (*mappettu ada*). While the differences of those three researchers above is the researcher not only analyze the meaning of the expression of *mappettu ada*, but also the researcher found the figurative language of the expression by using semantic approach. In addition Amri's thesis talks about the culture expression used in Buginese marriage proposal by using Semiotic approach, Elwin analyzes the connotative meaning of the language of Buginese marriage proposal. Furthermore, Lisnayanti in her thesis talks about the figurative language in the dialogue of marriage proposal in Makassarese culture in Gowa regency, South Sulawesi.

## **B. Pertinent ideas**

### **1. Semantics**

Why study semantics? Semantics (as the study of meaning) is central to the study of communication and as communication becomes more and more a crucial factor in social organization, the need to understand it becomes more and

more pressing. Semantics is also at the centre of the study of the human mind - thought processes, cognition, conceptualization - all these are intricately bound up with the way in which we classify and convey our experience of the world through language. Because it is, in these two ways, a focal point in man's study of man, semantics has been the meeting place of various cross-currents of thinking and various disciplines of study. Philosophy, psychology, and linguistics all claim a deep interest in the subject. Semantics has often seemed baffling because there are many different approaches to it, and the ways in which they are related to one another are rarely clear, even to writers on the subject (Leech 1981: 9).

If we talk about semantics, it is concerned with the meaning system of a language semantics, the technical term used to refer to the study of meaning and since meaning is a part of language. Semantics is the branch of linguistics devoted to the investigation of linguistic meaning, the interpretation of expressions in a language system (Chierchia and Ginet, 1990: 1).

Semantics term, the study of word meaning and sentence meaning, abstracted away from contexts of use, is a descriptive subject. It is an attempt to describe and understand the nature of the knowledge about meaning in their language that people have from knowing the language. It is not a prescriptive enterprise with an interest in advising or pressuring speakers or writers into abandoning some meanings and adopting others, though pedants can certainly benefit from studying the semantics of a language they want to lay down rules about, to become clear on what aspects of conventional meaning they dislike and which they favour (Griffiths, 2006: 15).

Fillmore in Coulson (2001: 17-18) suggests that the meaning of many words relies on speakers' experience with the scenarios and social institutions they presuppose. For example, words such as "Tuesday" cannot even be defined without providing a certain amount of background information about the more general concept of the organization of the week. Similarly the significance of the distinction between "week" and "weekend" arises because its meaning is motivated by the practice of the five-day work week.

The question of what meaning is important to any discipline concerned, directly or indirectly, with cognition, that is, with how humans process information. To indicate where we stand with respect to some of the traditional views of meaning, it is convenient to classify approaches to meaning (Chierchia and Ginet, 1990: 46).

From the explanations above, the writer makes conclusion that Semantics is the study of how languages organize and express meaning that goes from the speaker into the hearer.

## **2. Figurative Language and the Types**

Figurative language, figure of speech Linguistic expressions are said to be figurative, or used figuratively, if their intended meaning is (a) something other than their literal meaning and (b) can be understood on the basis of generally applicable principles of meaning extension (rather than an ad hoc arrangement). Many figures of speech are recognised in the study of rhetoric, but the main ones that have attracted the attention of linguists are: euphemism, hyperbole, irony, metaphor, metonymy, simile, and understatement, etc (Cruse, 2006: 63-64).

Figurative language uses “figures of speech” a way of saying something other than the literal meaning of the word. It is a word or phrase that departs from everyday literal language for the sake of comparison, emphasis, clarity, or freshness. It is used not in the ordinary literal sense but in an imaginative way. According to Wren and Martin (1995: 297), figure of speech is a departure from the ordinary form of expression, or the ordinary course of ideas in order to produce a greater effect. Among others are metaphor, simile, antithesis, hyperbole, and paradox, litotes, metonymy, etc. In common we can say that, figurative language is kind of language which deviates from the language employed in the traditional, literal ways of describing persons or objects (Reaske in Nurlinda, 2009: 6).

Figurative language is the other meaning of a word sentence that speaker or the writer has in other word. It can be said that need interpretation of he or she means. The figurative language also makes comparison things, so that reader can understands these better or visualize them more vividly. That is the author compares something that she or he feels they are already familiar. Although people may not be aware of it. People use figurative language as one way to make our meaning more exact, more complete, more interesting or more impressive. It is a valuable resource in the writing (Joffe, 2002: 11).

From the definitions above, the researcher concludes that figurative language is language which is used by authors to deliver ideas, thinking, and authors’ opinions to make the language more interesting.

The use of figurative language according to Parrine in Rohmah (2012: 33), first is to visualize the literal term in concrete object, second is to gain vividness and meaning by using metaphor rather than literal language, the last is to give the reader imaginative pleasure, and to satisfy them by providing a source of pleasure in the exercise of the imagination.

The researcher does not only explain the meaning of figurative language but also types of figurative language. There are many types of figurative language and they are:

a. Personification

According to Reaske in Nurmy (2007: 14) personification is treating an abstraction as if it were a person, endowing it with human like qualities. It is also the attribution of life like or human attributes to inanimate objects or ideas. Furthermore, Kennedy (1996: 25) gives sense indeed, personification is a figure of speech in which thing an animal and abstract term (truth, nature) is made human or abstracts concept with animate characteristics or qualities.

For example: *The rain kissed my cheeks as it feels.*

b. Symbol

A symbol is a word that stands for, or points to a reality beyond itself. Sunrise for instance is often used as a symbol for a new beginning, that example helps us to see something else about symbols. They often share in the reality for which they stand. A sunrise not only stands for a new beginning of a day (Gill, 1982: 21). In addition, symbolism is representation of ideas by the use of literary and artistic movement that used artistic invention to express

sensually ideas, emotions, abstractions in place of realism Hornby in Rohmah (2012:19).

For example: *The white rose whisper of passion and the white rose breathes of love.*

#### c. Metaphor

Lazar (2003: 3) state that a comparison which identifies one thing with another, dissimilar thing. Some of the qualities of the second are transferred to the first. Unlike a simile or analogy, a metaphor states that one thing *is* another thing not just that one is *like* another thing.

Metaphor which is defined traditionally as the use of a word or phrase denoting one kind of idea in place of another word or phrase for the purpose of suggesting a likeness between the two (Danesi, 2004: 116).

For example: *My little nephew is a real monkey.*

#### d. Hyperbole

Hyperbole is a figure of speech which greatly exaggerated the truth (Webster, 1994: 476). In addition, Potter in Masruri (2012: 22) says that hyperbole is figurative language contain exaggeration element about something. It is meant that something is made greater than the fact.

For example: *I'll die if I don't pass this course*

#### e. Simile

Simile is the direct comparisons of two object, qualities, or concept for sake of attributing a characteristic of one to the other. Simile is open or obvious comparison. It always uses the word “like or as” (Joffe, 2002: 119).

Lazar (2003: 5) says that simile is an expression that describes something as being similar to something else, using the word ‘as’ or ‘like’.

For example: *The books sold like hot cakes.*

f. Metonymy

Metonymy define it in terms of a person or object being referred to using as the vehicle a word whose literal denotation is somehow pertinently related (Griffith,2006: 85). Metonymy on the other hand is often taken to relate to a referent other than the one literally designated (Evans, 2010: 610).

For example: *He write a fine hand.*

g. Litotes

Litotes is figurative language that contains statement which made smaller from original (Potter in Masruri, 2012: 23). It is meant that people usually use it to make it simple. So that they are not arrogant because they guess something invaluable although exactly is so valuable or a positive and often emphatic statement made by denying something negative.

For example: *please come into our poor-dirty house.*

h. Irony

Constitutes the use of words to convey a meaning contrary to their literal sense. It is, more formally, a cognitive strategy by which a concept is highlighted through its opposite, its antithesis, its antonym, or some other such “opposing” structure (Danesi, 2004: 132).

For example: *I love being tortured*

#### i. Euphemism

An expression that refers to something that people hesitate to mention lest it cause offence, but which lessens the offensiveness by referring indirectly in some way (Cruse, 2006: 57).

For example: *comfort women: prostitution*    *between job: unemployed*

Actually there are still many other kinds of figurative language, but in general parts above represent the others.

### 3. Culture

Culture is that complex whole which includes knowledge, belief, art, morals, law, custom, and any other capabilities and habits acquired by man as a member of society (Tyler in Avruch, 1998: 6).

A broader understanding of the culture is also presented by Hofstede(1997: 43). He states that culture refers to the cumulative deposit of knowledge, experience, beliefs, values, attitudes, meanings, hierarchies, religion, sense of time, roles, spatial relations, the concept of the universe, and material objects and possessions acquired by a group of people in the course generation through the struggle of individuals and groups. So the cumulative elements as mentioned by him can be obtained by community from struggling then it can be called as culture.

From the various definitions of culture, it is summed up in Hall's definition that "culture affects everything people do in their society because of their ideas, values, attitudes, and normative or expected patterns of behavior. Culture is not

genetically inherited, and cannot exist on its own, but is always shared by members of a society (Hall, 1976: 16).

Avruch (1998:17-18) says that Individuals are organized in many potentially different ways in a population, by many different (and cross-cutting) criteria: for example, by kinship into families or clans; by language, race or creed into ethnic groups; by socio-economic characteristics into social classes; by geographical region into political interest groups; and by occupation or institutional memberships into unions, bureaucracies, industries, political parties, and militaries.

From the explanations above, the writer concludes that culture is the set of values, beliefs, attitudes and behaviors. It is learned or created by a group of people from generation to the next.

In Indonesia, cultural is reflected on every aspect of human life. Every province from Sabang to Merauke has their own culture, they have different specific culture. For example customs of marriage proposal, in South Sulawesi, especially in Buginese there some steps of marriage proposal. They are *mammanu-manu* (acting like a bird), *madduta*, (to delegate) and *mappettu ada* (acceptance of the proposal).

#### **4. The Glance of *Mappettu Ada*(buginese term)**

People in Indonesia gain the status of full adults through marriage and parenthood. In Indonesia, one does not ask, “*Is he (or she) married?*,” but “*Is he (or she) married yet?*,” to which the correct response is, “*Yes*” or “*Not yet.*”

Even homosexuals are under great family pressure to marry (Melvin and Carrol, 2001: 1047).

For the Bugis, to marry is *siala*, 'to take each other'. It is thus a reciprocal act, which means that even if they are of different ranks, the man and the woman are partners. But marriage does not involve the bride and bridegroom alone; it is the celebration of an alliance and an act of partnership between two sides which are often already related but wish thus to renew and enhance their relationship (Millar in Pelras, 1996: 154 ).

In addition, Pelras (1996: 156) explains that the first stage of the preliminaries is completed by older women who make informal visits to the families of the latter to get a better idea of what the girls are like. Then comes the first open contact, with questions asked in indirect and allusive terms, in order to save face on either side should an approach be rebuffed. If the girl's parents are open to further conversation, a day is fixed for the first formal, move 'to come in embassy' (*ma'duta*).

The next step is 'the acceptance of the proposal,' a process referred to with the term *mappettu ada*. *Mappettu*, literally means deciding and *Ada* means words. In this step, all matters, including rank price, bride wealth, and the woman's and man's engagement gifts are determined (Idrus, 2003: 229).

*Mappettu ada* is sometimes known as *mappasiakkareng* or conclude again all the agreements that have been agreed previously. *Mappettu ada* is formal marriage proposal, in this event will be talked openly about the principle things. It is very important because in this ritual, will be taken agreements and consensuses.

The price of *dui' menre'* shopping allowance in Buginese wedding is depend on the woman's social status. The higher of the woman's social status, the higher of the price of *dui' menre'*, that is must be given by the man's family.

Lastly, step of *mappettu ada* is closed by eating together, men's family or *to madduta* is served some sweet Buginese traditional cakes as a symbol of sweet or happy life for groom and bride.

## CHAPTER III

### RESEARCH METHODOLOGY

#### A. Research Method

The method of this research is descriptive method. According to Cipani (2009: 7) description is perhaps the easiest form of gaining knowledge and a first step toward subsequent scientific inquiry. You simply watch a phenomenon and describe what you observe.

#### B. Subject of the research

In this research, the writer chose two persons as subject of research, they are the community leader and religion leader in Pattiro Riolo. The informants also as the agents of *mappettu ada* (buginese term) who know deeply and understand about the meaning of the expression of *mappettu ada*.

#### C. Instrument of the data research

In this research, the writer used observation and interview sheet in collecting the data. The writer used unstructured interview method to interview the participants. It was selected because unstructured interviews are an extremely useful for developing an understanding of an as-of-yet not fully understood or appreciated culture, experience, or setting.

#### D. Procedure of Data Collection

##### 1. Observation

To collect the primary data, the writer observed anything that related to the topic and attended a marriage proposal ceremony (*mappettu ada*) in Pattiro Riolo village. During the process of *mappettu ada*, the writer listened what the

agents of *mappettu ada* say. Furthermore the researcher recorded what was the speaker talking about, so that the data got precisely.

## 2. Interview

To get the meaning of the dialogue of *mappettu ada* researcher interviewed the informant by using unstructured interviews. The interviewer and respondents engaged in a formal interview in that they have a scheduled time to sit and speak with each other and both parties recognize this to be an interview. The researcher gave respondent time and opportunities to develop their answers and researcher asked questions based on informant's responses and led the conversation in order to further develop (Minichiello et al. 1990: 23). Furthermore Patton (2002: 15) described unstructured interviews as a natural extension of participant observation, because they so often occur as part of ongoing participant observation fieldwork. He argued that they rely entirely on the spontaneous generation of questions in the natural flow of an interaction

## E. Technique of Data Analysis

Technique of data analysis is based on the data collection of interview and observation through some step as mentioned below:

1. The data from observation and interview were transcribed.
2. The data was translated from Buginese language into English.
3. To analyze the data which had been collected, the writer used Joffe's theory (2002:11). Who defined figurative language is the other meaning of word sentence that speaker or the writer has in other word. It can be said that, it needs interpretation. The figurative language also makes comparison things,

so that the reader can understand these better or visualize them more vividly. People use figurative language as one way to make our meaning more exact, more complete, interesting or more impressive.

## CHAPTER IV

### FINDING AND DISCUSSION

This chapter consists of two sections, the findings of the research and the discussion of the research findings. The findings are presented as data description, and the discussion reveals some arguments and further interpretations.

#### A. Finding

After doing the research in Pattiro Riolo village, the writer found out the dialogue of *mappettu ada* (buginese term) by observing the process of *mappettu ada* In Pattiro Riolo, and interviewing two persons as the subject of this research. The writer represents the findings as in the following dialogue:

**Representative bride 1** (July, 22<sup>nd</sup> 2015. Mr. B).

Once upon a time, when he visited a place and enjoyed looking the scenery around. Suddenly, his eyes is directed to a girl and his bicycle is flipped over. He is really amazed and impressed by a woman called Salmi that he almost lost his consciousness. He then went home and told his parents that his heart is attracted and messed by the perfectness of that girl. She is so perfect in his eyes. She has the beautifully small and thin heels, straight legs, a slim body, an amazing yellow skin, tidy eyebrows, and prettily wave hair. Because the man's destiny has come, so that he and his parents have a mutual understanding and same purpose to propose the girl.

## **B. Discussion**

In this part the researcher explains about the types and meaning of figurative language used in the dialogue of *mappettu ada* at Bonenese culture.

## 1. Hyperbole

Potter in Masruri (2012: 22) says that hyperbole is figurative language contain exaggeration element about something. It is meant that something is made greater than the fact.

**On the datum 1** the groom candidate described his experience in the first time he looked at the bride candidate. When he looked around, his eyes directed to a beautiful girl that made his bicycle capsized. But it is not the real happening, the utterance just an imagery to make an impressive effect in the dialogue of *mappettu ada*.

**Datum 2** is classified as hyperbole because it is not the real situation, the groom candidate only wanted to express his feeling and also he was very unnerved by the charming of the bride candidate when he looked at the girl in the first time, he almost lost his consciousness.

**Datum 3** also classified as hyperbole, where the utterance is not the truly situation. The expression “*pakabeleng-beleinggi atikku*” in figurative language means that he almost crazy and confused because of the charming of the girl. Normally, everybody who looks at a perfect girl, like she has the beautifully small and thin heels, straight legs, a slim body, an amazing yellow skin, tidy eyebrows and prettily wave hair. They will feel amaze of the girl and it is natural. But in this case, the man expressed his feeling over exaggerate.

**Datum 4** shows how perfect the body of the bride’s candidate. Her hair until her foot. It is described with a perfection body. But actually, it is not like

that. The groom candidate gave his expression more exaggerative that his girl is very beautiful.

**Datum 10** also categorized as hyperbole because the speaker or the representative groom delivered the language that is very exaggerative. The sentence *maulluttu mallumpaja, ukisipotanrae silolongeng mua*, this expression can be meant literally, although our destiny flying sky-high, finally we will meet with our destiny.

They use exaggerative utterance *luttu mallumpaja* or flying sky-high. It is not meant that our destiny flying sky-high, but the essence of the sentence only emphasizes that wherever you go, you will finally meet your destiny.

**Datum 11**, *Mattaung mattimo* literally means centuries. Overall, the expression defines as how long it will be, the sincere intentions will come true. It contains exaggerate element because marriage between two persons do not need a century to make it comes true. The essence of the above sentence asserts that if you are my destiny, finally we will meet.

**Datum 12** shows that how serious of the representative groom to propose the girl. It is categorized as hyperbole where the expression engaged many people, they are all the citizens of Soppeng and Bone. So, it seems like the agreement is depend on the citizens of Soppeng and Bone. But, the representative groom did not care about it. The man was strongly sure to propose the girl although all the citizens of Soppeng and Bone did not bless.

Hyperbole also could be shown on **datum 13**. The sentence literally means if the snail had wings and sparrow has been silent, I never betrays. It describes a situation that impossible to be happen. Snail is a beast that lives in water or stick to the leaves. To move from one place to another, it extend the body and withdraws it. Then the sparrows, they have not been silent, always flick their wings and fly around. The expression “*makkepannipi bojo’e renreppi kua dongi, kupaja massenge*” shows that how anxious to the representative groom to propose the girl, and never gave up except the snail had wings and the sparrow has been silent.

The last is **datum 17**, also categorized as hyperbole because it contains exaggeration element. *Tempeddinni nrello nakenna esso* literally means never ‘faded by the sun’, *matabu nakenna bosi* ‘fragile by the rain’ and *mpewang nakenna anging* ‘swayed by the wind’.

The sentence above explains that the sincere intention is never prevented by everything unless the God’s will. The two parties are sure to make the intention came true.

## 2. Symbol

Symbolism is representation of ideas by the use of literary and artistic movement that used artistic invention to express sensually ideas, emotions, abstractions in place of realism Hornby in Rohmah (2012:19).

**Datum 5** literally means the man has come his destiny. It shows two birds, they are called *Manu-manu parukkuseng* or reddish scops-owl. The

society of Pattiro Riolo believes if the two *manu-manu parukkuseng* went off in shift, it indicates that there are people who want to get married. The two birds went off clearly around the society's house, it means that the candidate of the bridegroom is coming from the same hometown. If one of the bird's sound in far place and the voice of the bird is vague, it implies that one of the bridegroom is coming from different hometown.

The society of Pattiro Riolo also believes if *parukkuseng* bird went off at 7.00 PM or 8.00 PM accordingly, the candidate of the bridegroom still young. If the bird's sound at 9.00 PM or more, then the candidate of the bridegroom is the old one.

**Datum 6** also classified as symbol where *golla* or sugar, *kaluku* or coconut and *minnya* or oil is symbolized as sincerity. The representative groom was very confident to build a family relationship with the bride's family. *Golla macenning*, *kaluku malunra*, *minnya matennang* means sugar is sweet, coconut is tasteful and the texture of the oil is calm. This buginese terms are used to express our sincere heart about something, overall, the meaning of the sentence "*nasaba golla memenna kulao, nakalukuka kunonno, minnyaka nakatudang maelo'ka palolong welareng*" is with all the peaceful and sincere heart, the representative groom was very confident to build family relationship with the representative bride.

In addition, **datum 7** explains about the intention of the representative groom, who wanted to build family relationship with the representative bride. The word *mappasisompung* means build and *welareng* is a kind of vine that

spread very long that is imagery as family. These two families hope that the relationship between them will be tied forever like *welareng*.

**Datum 8** is classified as symbol because the word *ulaweng* or gold and *intang barelliang* or diamond are symbolized as something that is very yearn and impressive. So, the sentence *ulaweng riala geno, intang barelliang riala paramata, iyyamua melle ripomenasae*, emphasizes that the representatives bride were very happy because the greatness thing that they wished will come true.

The last symbol can be found on **datum 16**. In figurative language, *Rekkua engka ada buccili, uni cicca' adanno, adatte, pau risaliweng renring, ritulingmi, tenriporiati, iyyapa naessa bicarae, rekkua ada riassuroang, natiwi suro majetta, naettekeng ada tomatoameans*, if there is any issues from external parties, please kindly not give any care except from the reliable and trust persons.. The speaker used word *buccilior* lizard and *cicca'* or house lizard because *buccili* and *cicca'* have a slow and unclear voice. The representative groom and bride assumed, if there is a vague information from others please kindly not give any care except from the reliable and trust persons.

### 3. Personification

Kennedy (1996: 25) gives sense indeed, personification is a figure of speech in which thing an animal and abstract term (truth, nature) is made human or abstracts concept with animate, characteristics or qualities.

**Datum 9** is categorized as personification, where *wettuing* or stars are made human. A word “*nataranak*” or guarded, this term is used by the human being to protect their children. In figurative language, *nataranak wettuing* means guarded by the stars. We can identify the real meaning of the phrase from the whole sentence “*akkatta maraja engkae nawawa topole malebbikki engkaritu ritarima madeceng, ripacokkong riuleng tepu, nateddungi ellungkellung, nataranak wettuing*” means the sincere intention from the representative groom were very appreciated. That is why, the utterances above are expressed honorably.

#### 4. Metaphor

Metaphor which is defined traditionally as the use of a word or phrase denoting one kind of idea in place of another word or phrase for the purpose of suggesting a likeness between the two (Danesi, 2004: 116).

**Datum 15**, the woman is compared as *paramata* or jewel, where *paramata* is something impressive and valuable. So, the man made his girl as jewel because she is very valuable for him and he loves the girl so much.

#### 5. Litotes

Litotes is figurative language that contains statement which made smaller from original (Potter in Masruri, 2012: 23). It is meant that people usually use it to make it simple. So that they are not arrogant because they guess something invaluable although exactly is so valuable or a positive and often emphatic statement made by denying something negative.

Litotes is found on **datum 14**, where the word *balanca* is refer to a woman. While, literally *balanca* means something you can buy in the market. In this case, the candidate of groom revealed his wishes by using imagery. He described that he has a market in his hometown and we can buy everything in that market. But the man did not find his wishes, he tried to looking for in another market. The sentence “*engka pasa rilipukku, balanca rikampokku nyawami kusappa*” explains that there are a lot of women are around me and I can choose one of them, but I am looking for a kind-hearted one. So the candidate of the groom tried to looking for a girl in another places. It not means that the women of his hometown is unkind. In this case, the man used imagery expression to state a humility.

## BAB V

### CONCLUSION AND SUGGESTION

This chapter provides of conclusion and suggestion. After analyzing the meaning of the dialogue of *mappettu ada* in Buginese culture, the writer gives some conclusions and suggestions to the readers.

#### A. Conclusion

Based on the analysis of result the writer gives conclusions as follows:

1. There are five kinds of figurative language which were found in the dialogue of *mappettu ada* (buginese term). The first is hyperbole, for example *mauni si Soppeng maccece, si Bone temmappuji temmassele tona* ‘although all the citizens of Soppeng and Bone hate me, I will never care. The second is symbol, for example *naluttuna manu-manu parukkusenna* ‘the man has met his destiny’. The third is personification, for example *nataranak wettuing* ‘guarded by the stars’. The fourth is metaphor, for example *paramata maelo’e kuewa situdangeng siatting lima, sitonra olak tessibelleang* ‘I have found, the woman who will accompany my life’. The fifth is litotes, for example *engka pasa rilipukku balanca rikampokku nyawami kusappa* ‘a lot of women are around me but I am looking for a kind-hearted one’.
2. All the types of figurative language which is found in the dialogue of *Mappettu Ada* have their literal meaning. The first is hyperbole, *mauni si Soppeng maccece, si Bone temmappuji temmassele tona* ‘although all the

citizens of Soppeng and Bone hate me, I will never care'. It is containing exaggerated expression because engaged many people in proposing a girl. The second is symbol, for example *naluttuna manu-manu parukkusenna* 'the man has met his destiny'. The society of Pattiro Riolo believe that, if the two *manu parukkuseng* went off in shifts, it indicates that there are people who want to get married. The third is personification, for example *nataranak wettuing* 'guarded by the stars' a word *nataranak* or guarded is a term that is used by the human to protect their children. The literal meaning of the whole sentence "Akkatta maraja engkae nawawa topole malebbikki engkaritu ritarima madeceng, ritanrere ritengnga bitara, ripacokkong riuleng tepu, nateddungi ellung-kellung, nataranak wettuing" itis means the sincere intention from the representative groom is very appreciated. The fourth is metaphor, for example *paramata maelo'e kuenta situdangeng siatting lima, sitonra olak tessibelleang* 'I have found, the woman who will accompany my life'. The woman is changed as *Paramata* or jewel, where *paramata* is something yearn or valuable. The man makes his girl as jewel because she is very valuable for him. The fifth is litotes, for example *engka pasa rilipukku balanca rikampokku nyawami kusappa* 'a lot of women are around me but I am looking for a kind-hearted one'. It describes a humility, where the man expressed his feeling by using an imagery expression.

## B. Suggestion

Based on the findings and conclusions of the research, the writer gives the following suggestions for the sake of research and for the other researchers who want to develop a research related to the topic that the writer has done. The writer proposes some suggestions as follows:

1. The most important things of this research are one of the way to keep the existence of the ritual *mappettu ada* (buginese term). In order that, it will be unchangeable with the other literary works in the future.
2. It is important for the English students who want to know more about the expressions of the culture especially figurative language in buginese term.

### Interview transcribe

Project : “Mappettu Ada in Buginese Culture (Case Study in Bone Regency, South Sulawesi): Semantic Approach”

Date : Saturday, 8<sup>th</sup> August 2015

Place : religion leader’s house

Time : 20.00-end

Interviewee : Mr. MS (religion leader of Pattiro Riolo)

Researcher: *terima kasih sebelumnya puang, karena bersediajaki diwawancarai.*

I would like to say thank you very much sir, for the interview time.

Informant: *iyya ndi jadi tadi ditanyaka memang kalau mau datang dirumah.*

Yeah, I have been asked before that you will come here.

Researcher: *oh... iyye puang. Langsungmi pale puang di? Kan kita yang sering jadi pembicara kalau mappettu ada orang puang jadi mauka Tanya-tanya tentang mappettu ada puang.*

Oh.. yes sir. May I ask directly sir? Because you often become a speaker during the process of *mappettu ada*, so I will ask about it sir.

Informant: *iyya iyya ndi’, aganna we’ lo dakkutang ndi?*

Yes please. What will you ask?

Researcher: *anu puang ee... kan sudahmi kutulis semua dialognya itu mappettu ada puang, tapi waktu kubacai banyak tidak kutau artinya puang, banyak kuliat pribahasanya. Baru bahasanya juga bahasa orang dulu puang, itumi mauku tanyakan apa maknanya semua itu puang.*

Like this sir, I have transcribed the dialogue of *mappettu ada*, when I read the dialogue, there are some utterances that are difficult to understand. It seems like a figurative language and the language is so last year. That is why I will ask about the meaning of it sir.

Informant: *oh.. memeng ndi'. Pauni se' bagian mana nda ditau? Atau kasi'ka satu dialog yang sudah ditulis ndi' supaya kubaca langsungmi, karena panjang itu dialognya.*

Oh.. exactly. Please say which part that you do not understand? Or give me the dialogue that you have written. So I can read it directly because the dialogue is long.

Researcher: *iyye puang, langsungmi pembicaraan intinya pa' muqaddimahnya ditauji apa maksudnya puang. Jadi ini puang yang bicara pihak laki-laki nabilang "Engka seuwa wettu na lao jappa-jappa nakiri kanang pakkitanna, nasigilingang sepedana natuju matai seddie makkunrai diasenngge "Salmi" nasamanna marenne' pappeneddinna. naiyya nalisu ribola atudangenna mappapolo ada riduae pajajianna makedanna engkanaritu hajja' marajaku kupaware riolo alebbiretta rigau engkana seuwa makkunrai pakabeleng-beleinggi atikku naiyyaro seuwae makkunrai akessingennaritu mappammulai ajena, sama nipi pale ajena, sama bettu gacing-gacingnna, sama luru witina, pura cicing riolona, pura wekkeng ribenrenna, poto'na nabi ribokona, uli makkuli lesse, enning makkanre-anre, gemme' maggatta pitu. Nasitujuna ampengangna ana'na na tomatoana nadirippekinna bicarae naluttuna manu-manu parukkusenna". Aga maksudna ro puang?*

Yes sir. I will ask the point of the expressions directly because I have understood the opening of the dialogue. In this part, the representative groom said "Once upon a time, a man entitled Firman visited a place and enjoyed looking the scenery around. Suddenly, he is really amazed and impressed by a woman called Salmi that he almost lost his consciousness. He then went home and told his parents that his heart is attracted and messed by the perfectness of that girl. She is so perfect in his eyes. She has the beautifully small and thin heels, straight legs, a slim body, an amazing yellow skin, tidy eyebrows, and prettily wave hair. His parents understood his feeling and agreed to propose that girl". What is the meaning of the expression sir?

Informant: *jadi maksudnya itu ndi', pembicara pihak laki-laki naceritakan apa yang terjadi sama itu laki-laki atau calon pengantin waktu pertama kali naliat perempuan yang akan nalamar, perumpaanji sebenarnya. jadi ini ceritanya laki-laki natanya bapaknya bilang lihatka perempuan yang sangat cantik, sampai-sampai, lo marenne pakkitanna pappenedinna, dipakabeleng-beleng atinna. Bettuanna ada, maui narasa pingsan waktu pertama kali naliat itu perempuan, lo sedding jangeng nataro cantik yaro makkunraie. Betsnya lurus kecil, rambutnya bergelombang, alis yang teratur, terus kulitnya juga, apa lagi istilahnya kalau makkuli lesse..... eee oh yah putih langsung bahasa Indonesiana. Nah.... Sudahmi naceritakan bapaknya apa naalami, setujumi, naluttuna manu-manu parukkusenna. jadi bettuanna ada terbukami pintu jodonya.*

The speaker of the representative groom was talking about the condition of the groom candidate. When he saw the bride candidate in the first time. It is just an imagery that the groom candidate told her parents that he saw a perfect girl that make almost lost his consciousness and crazy because of the beautiful of the girl. She has the beautifully small and thin heels, prettily wave hair, and how to say hhhmmm..... hah an amazing yellow skin. After he expressed his feeling, his father agreed to propose the girl. *Naluttuna manu-manu parukkusenna* means his destiny has found.

Researcher: *kenapa manu-manu parukkuseng puang? Agaro maksudna?*

Why they use *manu-manu parukkuseng* as the imagery? What is the essence of it?

Informant: *jaji magai napake manu-manu parukkuseng, nasaba iyyaro manu-manu parukkusenng dipercayai masyarakat setempat kalau ada manu-manu parukkusseng bunyi pada malam hari, berarti engka tau lo botting. Jadi itu manu-manu parukkuseng mauji sama serra' (burung hantu) tapi lebih kecil lagi, jadi itu burung-burung kalau bunyinya jelas terdengar, berarti orang dekatji yang mau baku ambil. Tapi kalau satu bunyi di tempat yang jauh baru suaranya kurang jelas, berarti entah itu makkunrai atau orowanena berasal*

*dari kampung yang jauh. Selanjutnya, ko mmuniwi tette' pitu (7) atau aruwa (8) berarti ya lo'e botting malolo mopa, tapi ko tette asera (9) keatas berarti tau macua-cuanitu... mappakkoro kira-kira penjelasannya ndi. Bagian yang mana lagi?*

Why they use *manu-manu parukkuseng* as the imagery because *Manu-manu parukkuseng* or reddish scops-owl. The society believes if the two *manu-manu parukkuseng* went off in shift, it indicates that there are people who want to get married. The two birds went off clearly around the society's house, it means that the candidate of the bridegroom is coming from the same hometown. If one of the bird's sound in far place and the voice of the bird is vague, it implies that one of the bridegroom is coming from different hometown. Then, if the two bird went off at 7.00 PM or 8.00 PM accordingly, the candidate of the bridegroom still young. If the bird's sound at 9.00 PM or more, then the candidate of the bridegroom is the old one. Is there another?

Researcher: *sambunganna si puang diawana "Nasaba golla memennga kulao nakalukuka kunonno, minnyaka nakutudang maeloka palolong welareng pacolli' menasa papole pattaungeng rigau engkana selessureng malebbitta Bahar mallai bine engkana anak orowanena riasenng Firman maelo'i ritu punnai lahirenna ana' makkunrainna tomalebbikkeng Maming mallai bine riasenng Salmi mamuarei engkaka ritarima madeceng".*

This is the connection of the expressions above. "Hence, with all the entire and sincere heart, Mr. Bahar and his wife would like to build the family relationship with your family that we hope you can accept".

Informant: *nasaba golla memennga kulao nakalukuka kunonno, minnyakka nakutudang maeloka palolong welareng pacolli menasa dan seterusnya... bettuanna ada macenning atikku, dan kami (pihak laki-laki) sangat yakin ingin membangun hubungan keluarga dengan pihak perempuan. jadi kenapa pakai golla, kaluku, sama minnya itu perumpaan sebenarnya ndi', golla kan macenning, kaluku malunra' kemudian minnya' matennang jadi secara*

*keseluruhan ndi maksudna kami dengan persaan yang tenang dan yakin mau palolong welareng, palolong welareng bettuanna pihak laki-laki ingin membangun keluarga dengan pihak perempuan. kurang lebih mappakkoro ndi'.*

*Nasaba golla memennga kulao nakalukuka kunonno, minnyakka nakatudang maeloka palolong welareng pacolli menasa.. etc. it means that The representative groom was very confident to build a family relationship with the bride's family. They use word golla or sugar, kaluku or coconut and minnya. Golla macenning, kaluku malunra, minnya matennang meanssugar is sweet, coconut is tasteful and the texture of the oil is calm. Overall, the meaning of the sentence is with all the peaceful and sincere heart, the representative groom was very confident to build family relationship with the representative bride. Like that!*

Researcher: *iyye' puang kulanjut lagi puang, kulangkah-langkahi yang tidak kutau puang. Contohnya lagi puang "mappasisompung welareng" sama "ulaweng riala geno, intang barelliang riala paramata rekkua iyyamua melle ripomenasae". Relli decengnge nalaleng kuwa.*

Let me continue sir, but I only mention the dialogue that I feel that it is difficult to understand. *"mappasisompung welareng"* and *"ulaweng riala geno, intang barelliang riala paramata rekkua iyyamua melle ripomenasae"*. *Relli decengnge nalaleng kuwa.*

Informant: *ya... mappasisompung welareng samaji tadi penjelasanna ndi'. Mappasisompung welareng bettuanna ada menyambung kekeluargaan. Kalau ulaweng riala geno intang barelliang riala paramata rekkua iyyamua melle ripomenasae, rielli decenngge nalaleng kuwa bettuanna ada kami sangat gembira karena apa yang kita inginkan selama ini akan terwujud, maksudna ndi sesuatu yang istimewa yang sudah lama ditunggu akhirnya datang juga. Kebaikan itu seandainya bisa kita beli, yah kita beli.*

*Mappasisompung welareng, it seems like palolong welareng or the groom representative wanted to build relationship with the bride representative. Ulaweng riala geno intang barelliang riala*

*paramata rekkua iyyamua melle ripomenasae, rielli decenngge nalaleng kuwa.* It means we are very happy to know that the special intentions and wishes will be come true. The representatives bride were very happy because something yearn and valuable that they waited for are come true. If we can buy this special intention, they will buy it.

Researcher: *kenapa napake kata welareng puang? Terus kenapa juga ada kata-kata intang barelliang sama paramata?*

But why they use word *welareng*, *intang barelliang* and *paramatasir*?

Informant: *nah.... Welareng kan sejenis...eee aga asenna ro ndi' deto wissenngi bahasa Indonesiana.*

*Welareng* seems like... hhhmm what it is? I don't know the Indonesian language.

Researcher: *tumbuhan menjalar puang.*

*A vine sir.*

Informant: *ya.... Kan panjang toh, tassambung-sambung terus istilahnya orang bugis mappasisompung welareng, menyambung kekeluargaan. Mappasisompung kan menyambung, terus welareng diumpamakan seperti keluarga, supaya kekeluargaannya terus terjalin begitu. Nah ulaweng na intang barelliang, bettuanna ada itu ulaweng sama intang barelliang diumpamakan sesuatu yang mengagumkan, berharga, istimewa lah kira-kira jadi secara keseluruhan maksudna sesuatu yang istimewa yang kita inginkan akhirnya akan terwujud juga.*

Aha... vine is long right? They are spread very long. In buginese term, *mappasisompung welareng* means build family relationship. *Mappasisompung* means build a relationship and *welareng* as an imagery of family in order that, their family will be intertwined. *Ulaweng* and *intang barelliang* are special, valuable and impressive. Overall it means the something special will be come true.

Researcher: *oh.... Iyye mengertima puang. Kalau ini puang apa lagi maksudnya? “Akkatta maraja engkae nawawa topole malebbikki engkaritu ritarima madeceng, ritanrere ritengnga bitara, ripacokkong riuleng tepu, nateddungi ellung-kellung,nataranak wettuing”.*

Oh... I got it sir. Then what is the sense of the expression “Akkatta maraja engkae nawawa topole malebbikki engkaritu ritarima madeceng, ritanrere ritengnga bitara, ripacokkong riuleng tepu, nateddungi ellung-kellung,nataranak wettuing”.

Informant: *yang ini maksudnya ndi’ tujuan yang nabawa pihak laki-laki sangat dihargai sekali makanya nabilang ritanrere ritengnga bitara, ripacokkong riuleng tepu, nateddungi ellung-kellung,nataranak wettuing. Bettuanna ada diterimaji lamarannya.*

*That is meant the sincere intention and proposal from the groom’s family are accepted very well and very appreciated. So that the speaker use the sentence ritanrere ritengnga bitara, ripacokkong riuleng tepu, nateddungi ellung-kellung,nataranak wettuing or the sincere intention will be lifted to the sky, put into the full moon, protected by clouds, and guarded by the stars. It means that the proposal was accepted.*

Researcher: *kemudian ada lagi disini nabilang pihak laki-laki puang “mauluttu mallumpaja, ukisipotanrae, silolongeng mua”, “mau mattaung mattimo, minasa mittae jaji paggangkanna”, “mauni siSoppeng macecce, siBone temmappuji, temmassele tona”, “makkepannipi bojoe, renrengpi kua dongi, kupaja massenge”, “engka pasa rilipukku, balanca rikampokku, nyawami kusappa”.*

Then sir, the groom representative said ““mauluttu mallumpaja, ukisipotanrae, silolongeng mua”, “mau mattaung mattimo, minasa mittae jaji paggangkanna”, “mauni siSoppeng macecce, siBone temmappuji, temmassele tona”, “makkepannipi bojoe, renrengpi kua dongi, kupaja massenge”, “engka pasa rilipukku, balanca rikampokku, nyawami kusappa”.

Informant: *yya... yang pertama dolo ndi’. “Maulluttu mallumpaja, uki sopotanrae silolongeng mua”. Bettuanna ada, meskipun terbang*

*tinggi dilangit takdir yang baik ketemuji akhirnya. Jadi maksudnya ro ndi' dimanapun berada jodohta, kan berbicaraki masalah pernikahan jadi takdir jadi ukisipotanrae disini maksudnya jodoh. Kalau ditakdirkanki bersama pasti kita akan bertemu. "Mau mattaung mattimo, minasa mittae jaji paggangkanna", bettuanna ada meskipun berabad-abad lamanya niat yang baik pasti akan terwujud. Jadi hampirji sama dengan yang sebelumnya. Agasiro ndi' o.. yah "mauni siSoppeng meccece, siBone temmappuji temmassele tona", bettuanna ada biar semua masyarakat Soppeng sama Bone tidak suka atau tidak merestui, pihak laki-laki tidak peduli dan akan tetap melamar si perempuan. Selanjutnya "makkepannipi bojoe, renrengpi kua dongi, kupaja massenge" bettuanna ada, biar itu siput memiliki sayap kan tidak mungkin itu siput punya sayap terus dongi-dongi, aga bahasa Indonesiana dongi ndi?*

Well, I will explain the first expression "*Maulluttu mallumpaja, uki sopotanrae silolongeng mua*". Although our destiny flying sky-high, finally we will meet with our destiny. It is meant that wherever you go, you will finally meet your destiny. Because we are talking about marriage, so *ukisopontanrae* here means destiny. The next expression "*Mau mattaung mattimo, minasa mittae jaji paggangkanna*", the expression defines as how long it will be, the sincere intentions will come true. It is not different from the previous expression. Then, "*mauni siSoppeng meccece, siBone temmappuji temmassele tona*", it is meant although all the citizens of Soppeng and Bone hate me, I will never care. The representative groom never gave up to proposal the girl. The next expression "*makkepannipi bojoe, renrengpi kua dongi, kupaja massenge*". It means if the snail had wings. It is impossible that the snail had wings. Then *dongi*, how to say in Indonesian?

Researcher: *dongi.... Oh anu puang e... burung pipit.*

Sparrow sir.

Informant: *ya.... Nah itu burung pipit selalu bergerak, terbang kesana kemari. Nah disini nabilang rengrengpi kua dongi maksudnya rengreng itu maksudnya nappakkampa'-kampa'i panninna tapi de naluttu. Jadi maksudna ro ndi, pihak laki-laki berhenti berharap meski siput punya sayap, atau burung pipit hanya diam di tempat. Yang terakhir lagi, engka pasa rilipukku, balanca rikampokku, nyawami kusappa, bettuanna ada banyakji perempuan di kampungku, tapi kenapa cari perempuan di kampung lain karena dia mencari perempuan yang baik hatinya. Bukan berarti di kampungnya tidak ada perempuan baik.*

The sparrows always fly around and have not been silent. It is meant that the representative groom never gave up except the snail had wings and the sparrow has been silent. The last expression *engka pasa rilipukku, balanca rikampokku, nyawami kusappa*, explains that there are a lot of women are around me and I can choose one of them, It not means that the women of his hometown is unkind.

Researcher: *iyye puang. Selanjutnya puang, "naengkani kulolongeng, tudang riteppe'na, sanre ritongenna, paramata maelo'e kuewa situdangeng siatting lima, sitonra olak, tessibelleang. Papole bua-bua rijali acculeculeng teppajinna, cajiang wija pattola, naenrek mallongi-longi, sikki biritta madeceng".*

The next expression is, "*naengkani kulolongeng, tudang riteppe'na, sanre ritongenna, paramata maelo'e kuewa situdangeng siatting lima, sitonra olak, tessibelleang. Papole bua-bua rijali acculeculeng teppajinna, cajiang wija pattola, naenrek mallongi-longi, sikki biritta madeceng*".

Informant: *bettuanna ada, kudapatmi perempuan baik yang akan temani saya baik suka maupun duka, perempuan yang akan melahirkan anak-anak yang baik. jadi disini seakan-akan nabilang calon pengantin laki-laki nabilang nanti istrinya akan melahirkan anak-anak yang kehidupannya lebih baik daripada orang tuanya. Kurang lebih seperti itu ndi'.*

The woman who will accompany my life and will give me the children whom I hope will have better lives are found now. Seems like that.

Researcher: *oh... iyye puang iyye. Yang terakhir lagi puang “mamuarei engkaniritu manguru nia’, manguru akkatta, manguru siri’, lalo bekka temmakkasape. Naripolona malampe’e, naripue’na massappae, sisampongekki siri’, sipatanrenrekaki biretta madeceng. Rekkua engka ada buccili, uni cicca’ adanno, adatte, pau risaliweng renring, ritulingmi, tenriporiati, iyyapa naessa bicarae, rekkua ada riassuroang, natiwi suro majetta, naettekeng ada tomatoa. Tempedinni nrello nakenna esso, matabu nakenna bosu, mpewang nakenna anging, sangadi rekkua eloullena puang Allahu Ta’ala”.*

Oh... yes sir. This the last sir, “mamuarei engkaniritu manguru nia’, manguru akkatta, manguru siri’, lalo bekka temmakkasape. Naripolona malampe’e, naripue’na massappae, sisampongekki siri’, sipatanrenrekaki biretta madeceng. Rekkua engka ada buccili, uni cicca’ adanno, adatte, pau risaliweng renring, ritulingmi, tenriporiati, iyyapa naessa bicarae, rekkua ada riassuroang, natiwi suro majetta, naettekeng ada tomatoa. Tempedinni nrello nakenna esso, matabu nakenna bosu, mpewang nakenna anging, sangadi rekkua eloullena puang Allahu Ta’ala”.

Informant: *nah.... Tadi kan adami persetujuan tentang waktu pernikahan dan segala macamnya, jadi disini mereka berharap mudah-mudahan kedua belah pihak tujuannya selalu sama, saling menutupi malu. Mereka berharap kalau ada cerita yang tidak baik dari luar terus tidakpi najelas informasinya, dengarkan saja janganmi dimasukkan kedalam hati kecuali informasinya dari orang yang dipercaya. Nah, nabilang buccili sama cicca karena itu buccili sama cicca suka sembunyi-sembunyi baru suaranya tidak jelas. Jadi naumpakanmi ndi’ seperti orang yang suka menyampaikan informasi tidak jelas. Selanjutnya, tempedinni nrello nakenna esso, matabu nakenna bosu, mpewang nakenna anging, sangadi rekkua eloullena puang Allahu Ta’ala. Bettuanna ada ndi’, iyyaro aga*

*pura naniakkan kedua belah pihak, tidak ada yang bisa menghalangi. Jadi kecuali kuasa Allah swt. Jadi disini kenapa pakai kalimat “tempedinni nrello nakenna esso, matabu nakenna bosi, mpewang nakenna anging” sebagai perumpamaanji juga ndi’. Masih ada mau ditanyakan ndi’?*

Right... in this last expressions, both of representatives have made agreements about the wedding day, shopping allowance, etc. They hope that they can have a mutual understanding and a same purpose that will not harm any party. Please kindly do not extend any problems that may occur, let us protect and respect each other. If there is any issues from external parties, please kindly not give any care except from the reliable and trust persons. They use *buccili* or lizard and *cicca*’ or house lizard as figurative, because they have a slow and unclear voice. So, if there are people always give unclear information, they are assumed as like as *buccili* and *cicca*. *tempedinni nrello nakenna esso, matabu nakenna bosi, mpewang nakenna anging, sangadi rekkua eloullena puang Allahu Ta’ala*. It means the sincere intention is never prevented by everything unless the God’s will. It also as an imagery that whatever happen, the two parts never betrays except the God’s will.

Researcher: *selesai semuami puang. Terima kasih banyak puang.*

Have done sir. Thank you very much.

Informant: *iyya ndi’ sama-sama.*

You are welcome.
