ACKNOWLEDGEMENTS

Alhamdulillah rabbil 'alamin, the researcher would like to express his confession and gratitude to the Most Perfection, Allah Swt for the guidance, blessing and mercy in completing this thesis. *Shalawat* and *salam* are always delivered to the Great Prophet Muhammad Saw, his family and followers till the end of the time.

The researcher realized that she encountered some problems in accomplishing this research. Those problems could not be solved without getting assistance, support, helps, motivations, criticisms, encouragement and guidance from many people. Therefore, the researcher would like to express deepest gratitude to the following:

1. The researcher's beloved parents, Ince Maksud and Hernawati for their prayers, supports and eternally affections as the biggest influence in my life. There are also his beloved brother Ince Husaini M.S.Pd, Ince Muh. Akmis M., Ince Muh. Syachrul M., and little sister Ince Musdalifah M. who accompany me through my wonderful and colorful life.
2. Prof. Drs. Hamdan Juhannis M.A, Ph.D. as the Rector of Alauddin State Islamic University of Makassar and Dr. Hasyim Haddade, M.Ag. as the Dean of Adab and Humanities Faculty, who has given me chance to study in English and Literature Department so that she could finish my study.

3. Hj. Nahdhiyah, S.S., M.Pd. as the first supervisor for being patient in leading and teaching me as well as letting me to get many chances to challenge myself.
4. Dr. Faidah Yusuf., S.S., M.Pd. as the second supervisor who always support me and give me great advices, criticism, and suggestions.
5. Dr. Sardian Maharani Asnur, S.Pd., M.Pd as the first examiner who believes in me and motivates me to get through difficult times.
6. Helmi Syukur, S.Pd., M.Pd. as the second examiner for support, encouragement, and motivations in every single situation.
7. The lecturers of Adab and Humanities Faculty, for their knowledge and enlightenment, also to the staffs of Adab and Humanities Faculty for their help and administrative support.
8. Bripda Ahmad Adzan Ashari Jafar who the spesial person always supports me and motivates me to be a better person.
9. Muhammad Nasir Badollahi, S. Hum. who has always been there for me for the past two month and being his source of strength.
10. My beloved friends Zaenal B., Nur Salam, Fitriani, Hasan, Ishak, Astina Bahar, Sri Susanti, Jupatus Tania, Nurlaeli, Andi Irfan, Fakhriani K. and Yulia Febriani Saidis who makes my college life as best as ever. Unforgettably classmates in English and Literature Department 2013, especially AG 7-8 with whom they shares experiences and knowledge during my study.

11. Special thanks for my aunty Hj. Syamsialam, S.Pd., who gives me everything

I needs and helped finance my studies to completion.

12. Special thanks to my partner of KKN (Kuliah Kerja Nyata) they are: Andi

Mar'atus Shalihah, St. Mukarramah, Muhammad Arfah, Ahmad Said, Sahar,

Resni, Asfar, Nurul Ismi and Sutriani as the motivator when do everything.

In the deepest heart, the researcher realizes that this thesis is still far from the perfection and still need suggestions and criticisms. Despite of its imperfection, she hopes that this thesis will be useful for the students, the lecturers and the readers in general who need it. May Allah swt always bless us in every single thing we do.

Therefore, this research can be concluded that the *Moral Values in Robin Hood Movie by Ben Chandler (2018)* are Tolerance, Belief, Kind-Hearted, Honesty, and Responsibility.

Keywords: *Moral Values, Movie, Character, literature.*

CHAPTER I

INTRODUCTION

1. Background

Language is one of the main parts in life. Language, communication and human being are there components that cannot be separated from each other. Language is very important in our lives. People at least use one language to convey and express their ideas, desire and feelings through communication process with others. As Chaer and Leony state that by language one can talk with others, express his desires, his feeling and his ideas (Chaer and Leony, 1995:22). It is a means of communication between individuals and it also brings them into relationship with their environment. Therefore, language is social learned behavior (Lim Kiat Bucy, 1975:3).

Edward Sapir (2010) in Muhammad Basuni (2010:13) stated that language is “ a guide to social reality and human beings at the mercy of the language that has become the medium of expression for their society”. Language is also a social phenomenon. It is a means of communication between individuals and brings them into relationship with environment (Boey, 1975:3).

In communication, language used by people is influenced by social factors. Such as: Social status, education age, socio economic, profession and many other (Allan G Jihson, 1986:69). So, language and society are two things, which are inseparable. They have close relationship since each other support another. Kartomiharjo (1988:3-4) states that a society dwelling in a certain region

is generally divisible into smaller groups. They formed by ethnic, profession, religion, ideology, socio-economic, education and others.

Most of movie adopted from real stories in the world and the other adopted from books or novel. For example, the movies that adopted from novel are Harry Potter, Twilight, The Lord of The Ring, etc. According to Christopher (n.d) movie includes line of dialogue and depicts obvious development of character that explicitly communicate meaning to the people. Explicitly content is perhaps some sort of “moral of story” or socio-political attitude that the filmmaker is expressing directly through the mouths and actions of the characters. By using movie, people can educated moral, education, social, cultures values and etc.

Movie is a media that can educate people and enable to improve them understanding on specific subject though visual. Movie is a media that have important influence in giving information and as a tool to deliver messages to audience or people. The messages can be positive or negative depend on audience, because movie show to audience by visualization. According to Yousuf and Dadabhoy (2013) movie is able to show the audience an image therefore can present themselves to the viewers lucidly. Most of people engage the messages clearly from the movie, but some people difficult to engage it. One of the messages that we catch in movie is about moral values.

Moral value in among the sensual and aesthetic value on an equal footing. Some non-moral values for instance that of fishing are subject transmutation of means into ends, and some accurse in other ways. But so it in particular with moral values: some accurse by transmutation of means into ends, through training,

and some perhaps require no training. Moral value training has been neglected or has proved feasible. Their ordering of values has remained in such a state that these persons stand to maximize their satisfactions by battenning on our good behavior cheating on their own. The moral values tend by virtue of their social character to be more uniform from person to person, within a culture, than many sensual and aesthetic values. (Goldman and Kim, 1978).

Moral value is the values that express ideas about good life. There is constant debate about which values constitute the good life. Moral value is logic term that a principle or action or character of human is true or false and good or bad. Social morality defines how we respond to our environment, our immediate community and the world community. According to Johnston (2002) moral values is expressed in attitudes that become visible in opinions and concrete behavior. Attitudes based on moral values refer to society life, being with others, and the reflective view one's own indentify.

Cultural element, moral message, educations, lifestyle, politics, and history contained in the movie. Value also found in movie. Values is in the movie contains the values which can use by teacher to transform the education side. Teachers not only teach about English only but also teacher transforms the value to make the students good attitude. Movie can be a good media to learn english language and get the feedback of positive value. People can absorb the positive value which can be learned by watching the movie.

The value in the movie with inspiring themes are the best of all to be seen and be investigated by the writer. One of the inspiring movies is "Robin Hood" is

a legendary villain known by the people of England. According to legend, Robin Hood was an accomplished archer and swordsman. It is said that Robin Hood was a noble figure who had fought in the Crusades. Robin Hood then returned to his native land in England. Up in England the land had been taken by the sheriff of Nottingham. From Robin Hood's folklore it is described as being born in a class of noble domestic helpers. In the 2018 Robin Hood movie this time is somewhat different, especially from the costume worn.

Normally, moral has a close relationship with character, because moral is reflected by character. Character is an element of fiction and moral actually is one of four levels of characterization. Morality is an essential issue in character-building. Some moral values can be found in stories cited in Al-Qur'an and many of them are from the works of literature. In the story of Yusuf in Al-Qur'an the education of moral value is relevant with his present lives such as the attitude of openness and communication, upholding justice, the wisdom of the head of the family, patience and professionalism. It means that human beings must have such a moral that will be worthy for now and later on, whether for social and religious moral.

Talking about moral values it is the goal of education to shape the students to have a good character and to reflect a good moral in the future. Moral values has an important element in this life. It can guide people to have a better point of view on how to live in society. Moral values are a set of important guiding principles for individuals among other principles such as values related to

competence. Moral values is the quality of someone's behavior which is wrong or right, bad or good.

Adapting movie from went is not a bad idea, adaption Ben Chandler can be an example for adapters or the supporters Robin Hood. Adaption has relation with Al Maidah verse 5:8:ss

يٰۤاَيُّهَا الَّذِيْنَ ءَامَنُوْا كُوْنُوْا قَوّٰمِيْنَ لِلّٰهِ شُهَدَآءَ بِالْقِسْطِ ۗ وَلَا يَجْرِمَنَّكُمْ
 شَنَاٰنُ قَوْمٍ عَلٰٓى اَلَّا تَعْدِلُوْا ۗ اَعْدِلُوْا هُوَ اَقْرَبُ لِلتَّقْوٰى ۗ وَاتَّقُوا اللّٰهَ ۗ اِنَّ اللّٰهَ
 خَبِيْرٌۢ بِمَا تَعْمَلُوْنَ ﴿٨﴾

Translation:

O ye who believe! Be steadfast witnesses for Allah in equity, and let not harted of many people seduce you that ye deal not justly. Deal justly, that is nearer to your duty. Observe your duty to Allah. Lo! Allah is Informed of what ye do.

This verse tells believers to carry out their deeds and work carefully, honestly, and sincerely because of Allah. both work related to matters of religion and work related to matters of worldly life. because only then can they be successful and get the return they expect and indeed we have reared, we have brought up our children with the best knowledge, intellect and form. After the death of his body is considered holy and so on. And we transport them by car. And the ocean by boat. And we give them good taste, and we excel them on many

of the creatures we create, such as livestock and wildlife. With the perfect advantage.

You would have thought that God always keep us everything we are where, and this ayah proves that in the Qur'an there are many existential, such us; dread despair, responsibility, alienation, nothingness and so on. To give the reader the insights.

Literature can be simply defined as a creative activity, a work of art. Literature has a purpose to entertain the readers. The researcher wants to analyze Robin Hood movie by Ben Chandler (2018). This movie can be classified as populer fiction. Populer faction is a literary works that are arranged with the consideration to satisfy populer waching tastes or market.

2. Research Question

Based on the background above, the researcher formulated the following research question how are the moral values presented in Robin Hood movie by Ben Chandler (2018)?

3. Objective of Research

Based on the research question above, and then the researcher determine the objective research as follow:

To find out moral values presented in Robin Hood movie by Ben Chandler (2018).

4. Significance of the Research

The researcher hoped the result of this study can be contribute to the development of moral values taken from Robin Hood movie by Ben Chandler

(2018). The researcher also hopes that this research can contribute the development of literary study, and also to remind the readers the importance of moral values and also implements it in daily activity.

5. Scope of Research

In this research, the researcher deeply examined about the moral values in the Robin Hood movie by Ben Chandler (2018).

CHAPTER II

LITERATURE REVIEW

A. Previous Findings

Rafy Fitriani (2015) in her thesis entitled “An Analysis of Moral Values in novel “Oliver Twist” by Charles Dickens. This research aims to discussed about the moral values as found on “Oliver Twist” novel. The moral values were found out by using sociological theory. The method used in this research is descriptive qualitative by the Monex theory. The result of this is there ara some moral values found in this research such as steadfastness, sympathetic to others, bravery, honesty, cooperativeness, thankfulness, and kind-hearted.

Fanni Yasa (2014) in her thesis entitled “The Analysis of Moral Values Found in Nathaniel Hawthorne’s Short Story “*The Golden Touch*” and Its Application in English Language Teaching”. The purpose of this thesis is to find out and analyze the moral values shown in the story “ The Golden Touch “ and the application in English Language Teaching. The method used in this research is qualitative research by using Hornby theory. The result of the research showed that the main character was King Midas, and the supporting character were Marygold and The Stranger. There are some moral values found in this story. There are the good, the noble, richness of experiences and purity. For the positive moral found moral values that represent love, care, responsibility, wise, regretful, self-confidence. For negative moral values found arrogant, greedy, gripe and avaricious.

Ibnusina Irvany (2014) with title “An Analysis on Moral Values As Seen In “Rise Of the Guardians” Movie. The purpose of this study is to analyze the moral values in “Rise of The Guardians” movie and to reveal the social cultural background used in the movie. The researcher used descriptive qualitative method by using Eyre Theories about moral value . The instrument of this research was the movie of Rise of the Guardian. The moral values found of this movie are responsibility, honesty, love and affection, strong believe, enthusiasm, bravery, goodhearted, loyalty, peace loving, perseverance, sacrificing for other, sincerity and self-confidence. From analyzing moral values hopefully it can build the good character for us as a future teacher and finally we can give an inspiration to the students.

Based on previous findings above the researcher conclude that the differences is they used different object, both of them used novel and short story, whereas this research used movie as an object of research. Rafy Fitriani’s research used sociological theory with the result that moral value describe in this movie are steadfastness, sympathetic to others, bravery, honesty, cooperativeness, thankfulness, and kind-hearted. While, Fanni Yasa was found in her research found the positive moral and negative moral that describe in the short story “*The Golden Touch*” by Nathaniel Hawthorne’s. Whereas the similarity is all three is using moral value theory described in literary work.

B. Partinents Ideas

1. Literature

Literature is a reflection of life. Some experts have different opinions on their definition about literature related to the time and social condition. Those different opinions are caused by the complexities of literature over as the life. Jones incited in Ima (2012:2) states that literature is simply another way we can experience the word around us through our imagination. Literature in broades sense, includes all written materials. Into this general grouping fall history books, philosophical works, novel, poem plays, scientific articles, dictionaries, instructional manuals, travel folders, magazines, school texbooks.

Literature according to Ima (2013:3) Literature is a medium through which a person can convey his or her ideas or protest against different norms of society. Those works that deal with a normal issue are particulary purpose in mind. An author can cammunicate with the readers of a literary work if they can understand what the author wants to send. The author expresses his or her feeling, thought, ideas, or arguments about the social issues by writing those issues in a form literary work.

Literary work has two main elements, which can be analyzed. They are intrinsict elements or objective approach and extrinsic elements. Intrinsic element (object element) is elements of literary work that build up the structure of literary work itself. Plot, character, setting, theme, point of view, style and atmosphere are the examples of the instrinsic elements. Sukada (1987: 47) stated that instrinsic

element are the whole elements which build up a literary work. Literature is human proposal expression especially thought, feeling, enthusiasm, and concept in a certain description.

The study of literature that is an interdisciplinary study is growing and eventually unifies the study of literature with many other studies, such as psychology, sociology, antropology, and others. It creates new approaches in the study of literature, such as the psychology of literature, sociology, and others. It creates new approaches in the study of literature. Basically, psicology of literature built up on genesis assumptions which had relation to psychiatric aspect the author. In modern era, sometimes, the authors lost their control and make a negative literary work, such as make a porn novel and movie which has high opportunity to influence the other. Based on those reason, psychology of literature is seen very important to be learn to know what the author or director want (Minderop, 2011:54).

Psychology can be used as a support in the research on a literary work. Psychology of literature consider the relationship and the role of psychology itself. While psychology in literature analyzing the character that is in the work which is a description of human himself regardless of whether he is a fictional character. Also, not only from its character, psychology of the author and the readers are also important because it can affect the analyzing of a literary work. It stated by Warren and Wellek (1989-90) that the term psychology has four understanding. The first is to study psychology as a type or a person. The second is a study of the

creative process. The third is the studious type of psychological law in the literary work. And the fourth is the impact of the literary work toward the psychology of the readers.

2. Movie

Movie become so familiar in this era. Movie can make people enjoy when people watching it. By movies, people can get inspiration, ideas, knowledge, learn some new from the movies, and many other things. By watching the movies the audience can begin to feel, enjoy, angry, happy, fear, sad many emotion. That will be interested when somebody to seriously understanding the movie by watching the setting, plot, dialogue, and characters of the movie. Movie is form of entertainment that gives visualization through a sequence of image giving some pictures of continuous movement and it is also called term that create story into motion picture completed by audio and as a form dramatic performance that is recorded as a moving image, even it is added special effects to make a magnificent image.

Moreover, movie is truly a motion picture a flowing, ever changing streaming of image and sounds sparkling with freshness and vitality all its own a fluid blend of image, sound, and motion possessed by a restless compulsion to be vibrantly alive, to avoid the quiet and the static (M. Boggs Joseph and W. Petrie Dennis, 2000:112).

Movie itself has kinds of genre, below are the genres of movie:

a. Action

Action films usually include high energy, big-budget physical stunts and chases, possibly with rescues, battle, fights, escapes, destructive crises (floods, explosions, natural disasters, fire, etc.) non-stop motion, spectacular rhythm and pacing, and adventurous, often two-dimensional “good-guy” heroes (or recently, heroines) battling “bad-guy”- all designed for pure audience escapism.

b. Adventure

Adventure films are usually exciting stories, with new experiences or exotic locales, very similar to or often paired with the action film genre. They can include traditional swashbucklers, serialized films and historical spectacles (similar to the epics film genre), searches or expeditions for lost continents, “jungle” and “desert” epics, treasure hunts, disaster films, or searches for the unknown.

c. Comedies

Comedies are light-hearted plots consistently and deliberately design to amuse and provoke laughter (with one-liners, jokes, etc.), by exaggerating the situation, the language, action relationships and characters. This section describes various forms of comedy through cinematic history, including slapstick, screwball, spoofs and parodies, romantic, comedies, black comedy (dark satirical comedy), and more.

d. Crime

Crime (gangster) films are developed around the sinister actions of criminals or mobsters, particularly bank robbers, underworld figures, or ruthless hoodlums who operate outside the law, stealing and murdering their way through life. Criminal and gangster films are often categorized as film noir or detective-mystery film- because of underlying similarities between these cinematic forms. This category includes a description of various serial killer' films.

e. Drama

Dramas are serious, plot-driven presentations, portraying realistic characters, settings, life situations, and story involving intense character development and interaction. Usually, they are not focused on special-effects, comedy, or action. Dramatic films are probably the largest film genre, with many many subsets.

f. Epics

Epics include costume dramas, historical dramas, war films, medieval romps, or "period pictures" that often cover a large expanse of time set against a vast panoramic backdrop. Epics often share elements of the elaborate adventure films genre. Epics often share elements of the imagined event, mythic, legendary, or heroic figure, and add an extravagant setting and lush costumes, accompanied by grandeur and spectacle, dramatic scope, high production value, and a sweeping musical score. Epics are often a more spectacular, lavish version of a

biopic film. Some “sword and sandal” films (Biblical epics of films occurring during antiquity) qualify as a sub-genre.

g. Horror

Horror films are to frighten and to invoke our hidden worst fears, often in a terrifying, shocking finale, while captivating and entertaining us at the same time in a cathartic experience. Horror films feature a wide range of style, from the earliest silent *Nosferatu* classic, to today’s CGI monster and deranged humans. They are often combined with science fiction when the menace or monster is related to a corruption of technology, or when Earth is threatened by aliens. They fantasy and supernatural film genres are not usually synonymous with the horror genres. There are many sub-genres of horrors, slashes, teen terror, serial killers, satanic, *Dracula*, *Frankenstein*, etc.

h. Musical

Musical/dance films are cinematic forms that emphasize full-scale scores or song and dance routines in a significant way (usually with a musical or dance performance integrated as part of the film narrative), or they are films that are centered on combinations of music, dance, song or choreography. Major subgenres include the musical comedy or the concert film.

i. Science Fiction

Sci-fi films are often quasi-scientific, visionary and imaginative—complete with heroes, aliens, distant planets, impossible quests

improbable settings, fantastic places, great dark and shadowy villains, futuristic technology, unknown and unknowable force, and extraordinary monster (things or creature from space), either created by mad scientists or by nuclear havoc. They are sometimes an offshoot of fantasy film, or they share some similarities with action/adventure films. Science fiction often expresses the potential of technology to destroy human kind and easily overlaps with horror films particularly when technology are alien life forms become malevolent, as in the “Atomic Age” of sci-fi films in the 1950s.

j. War

War (and anti-war) films acknowledge the horror and heartbreak of war, letting the actual combat fighting (against nations or humankind) on land, sea, or in the air provide the primary plot or background for the action of the film. War films are often paired with other genres, such as action, adventure, drama, romance, comedy (black) suspense, and even epics and westerns, and they often take a denunciatory approach toward warfare. They may include POW tales, stories of military operations, and training.

k. Western

Western are the major defining genre of the American film industry colony to the early days of the expansive American frontier. They are one of the oldest, most enduring genres with very recognizable plots, elements, and characters (six-guns, horses dusty towns and trails,

cowboys, indians, etc). Over time westerns have been re-defined, re-invented and expanded, dismissed, re-discovered, and spoofed.

3. The Concept of Value

A value is a belief that something is good and desirable. Values are general guidelines that define what is important and worth striving for. Values represent a wide variety of ideas and beliefs about the ends that men should pursue in their life. A value provides goals or aims. According to Benninga in Hadil's book, the term "value" may suggest that judgments of right and wrong, lofty and base, just and unjust, and more personal preferences, that things are useful as individuals happen to value them (Benninga: 1999:131). Value is something that pleases, something that loves, and in short value is something good. Value has good connotation (Bertens: 2000:139).

Actually, values have been discussed by philosophers from the 50s until the 60s. In the last 19 centuries it had a position and was discussed explicitly, although it had been implicitly discussed and played a role since Plato gave the concept of "good". That was the emergence of a new branch in Philosophy that was known as axiology or "the theory of value" (Bertens, 2005: 139-140). While the concept of value in Philosophy is a little bit different to the concept of value in Literature. In Literature, value is discussed in a work that has to be conveyed to the reader. Here, moral is seen to have a similarity to the theme, because both of them can be interpreted as the main point which constructs the literary work (Nurgiyantoro, 2010: 320).

Moral in the literary work usually reflects the belief of the author about the concept of “goodness”. That belief will be conveyed to the readers or listener, Further, Kenny in Nurgiyantoro (2010: 321-322) state that moral seen as the message of the whole story. It can be used as the “guidelines” to be the role model.

Educational value is concerned with the development of desirable states of mind in the transmission of what is worthwhile to those who themselves come to care about these valuable things. Cooper (1986:15) states that educational values is the concept of value and rule that leads how to the proper concept of a person, or an understanding that other people count or graphs of other people count or grasp of other people emotion. Educational values related to develop other aspects: personality, morals and ethics, etc that has relation to this education.

According to Nurgiyantoro (2010: 322) value of lesson learned that is gotten by the readers or the listeners is always in a good. Thus if literary work displayed the less praiseworthy character, it doesn't mean that the author suggested the audiences to be so. Moreover, the uses of value and valuation are various and conflicting even among philosophers, but they may perhaps be sorted put as follow:

- a. Value (in singular) is something used as an abstract noun in a narrower sense to cover only that to which such terms as good, desirable, or worthwhile are properly applied and in a wider sense to cover in

addition, all kinds of rightness, obligation, virtue, beauty, truth, and holiness.

- b. Value is also used like temperature to cover the whole range of a scale—plus, minus, or indifferent: what is on plus side is then called positive value and what is on the minus side, negative value.
- c. “Value” refers to what is valued, judged to have value, thought to be good, or desired. Such phrases are also used to refer to what people think is right or obligatory and even to whatever they believe to be true. Behind this widespread use lies the covert assumption that nothing really has objective value, that value means being valued and good means being thought good. But the term value is also used to mean.

4. Moral Value

Moral value concerns with the view of the goodness or badness of human action and characters. Morality refers to concern with what is good or right in people’s relationship with each other. Understanding morality is to be specific about definitions of good (or bad) and right (or wrong), since these terms can be used in several different way (Sternberg, 1994: 938). So, the moral value can be guiding an individual how to evaluate right and wrong. And can differentiate between the right and wrong behavior.

There are some kinds of moral values that were argued by Sam Harris (2010:29) such as :

- a. Tolerance

Tolerance is willingness to accept behaviour and beliefs which are different from one and other, although you might not agree with or approve of them. Harris (2010:33) argued that there are very practical concerns that follow from the glib idea that anyone is free to value anything. The most consequential being that is precisely what allows highly educated, secular, and otherwise well-intentioned people to pause thoughtfully, and often interminably, before condemning practices. Thus, everyone sometimes needs to understand other different belief and behavior.

b. Belief

Belief is a state or habit on mind in which trust, confidence, reliance, is place in some person or thing. Belief is something believed, statement or body of statement held by the advocates of any class of views, conviction of the truth of some statement or the reality of some being or phenomenon, especially when based on an examination of the ground for accepting it as true or real. (Webster: 1981:200).

c. Kind-hearted

Kind is the equivalent of what has offered or received. Kind is applying more often to the disposition to sympath and helpfulness. Kindly is stressing more the expression of the sympathetic, helpful nature, mood or impluse (a kind person with a kindly interest in the problem of other). Kindheard is having sympathetic nature:

humane, compassionate. Kindheartedness is the quality or state of being kindhearted (Setyoasih, 2015:22)

d. Honesty

Honesty is estimable character, fairness and straight forwardness of conduct or adherence to be fact. Honesty is from subterfuge or duplicate truthfulness, and sincerity (webster, 1981: 1086).

e. Responsibility

Being responsible is to have control and authority over something or someone and the duty of taking care of it or them (Walter, 2008). Social responsibility is an ethical framework and suggests that an entity, be it an organization or individual, has an obligation to act for the benefit of society at large. Social responsibility is a duty every individual has to perform so as to maintain a balance between the economy and the ecosystems.

Moral values are the result of process comprehension implementing of God and humanity values in life. These values will guide human knowledge and creativity appropriately (Linda and Eyre, 1997: 73).

Moral values can be divided into two groups as follows:

- a. The value of being is a value within human being involved into the behavior and the way we treat others, which include values of being

are: honesty, bravery, peace, love, confidence, protection, discipline, sincerity, knowing boundaries, and suitability.

- b. The value of giving is a value that need to be practiced or provided which would then be accepted as giving, which include values of being are: loyalty, trustworthy, respect, love, affection, sensitive, altruism, kindness, friendliness, fair, and humane.

Moral is divided into two parts; they are personal moral and social moral. Personal moral defines how we personally respond to life from or within our own integrity, and within our own personal values. Social moral defines how we respond to our environment, our immediate community and the world community. We are all personally guided by our own sense of what is right and wrong. Socially, we must be guided as well. In literature moral is a message or a lesson to be learned from a story or event.

According to Ress (1973: 57) of the basic resources available to us from ethics (“moral philosophy,” in an older terminology). Normative ethics the kind I mainly want to discuss has traditionally considered chiefly three related questions. First, the character question: what is a morally good person? More specifically, What character traits are moral virtues? Second, the conduct question: What ought we to do, especially in distributing benefits and burdens among us say, health care and military responsibilities—and in regulating our conduct? Third, the value question: What things in life are good as ends, worth seeking for their own sake and not just as means to something else? Our view of these goods will largely

determine the kind and content of the education we support. It will also influence what we care about.

In a literary work, moral value is like a theme which is expressed in the body of a story. A moral value is something that the researcher tries to convey to the readers. It is the knowledge to be presented in a story. In general, moral can be defined as the distinction between good and bad, right and wrong with regard to attitudes, behavior, character, etc (Nurgiyantoro,2002:172).

Webster (1979:589) states that moral is concerned with the principles of right or wrong conduct. In general, a value means a quality of being useful or worthwhile or important, whereas moral values mean moral or profesional standard of behavior (Hornby,1995:1441). Moral values in literary works then, mean the principle of right or wrong behaviors which are worthwhile and important in a literary work to be conveyed to the readers to improve their moral standards.

5. Plot

According to Abrams (1999:224) plot it constituted by its events and actions, as there rendered and ordered toward achieving particular artistic and emotional effects. Plot is about every events which happens in the story and related to each other, it is constructing a conflict in a story. The presence of plot in a drama should be simple and understandable for the audience due to the length of the performance, it is also noted that the amount of the characters in a story

influences the plot. Therefore plot would be simpler if the number of the characters is a little. (Wellek: 1997).

According to Hancock (2010: 67), plot is a sequence of events that occurs to characters in situations in the beginning, middle, and end of a story. In conventional stories, plot has three main parts. Rising, action, climax, and falling action leading to a resolution or denouement. There are three major parts to a linear plot: Beginning- the character and setting are introduced, and the central conflict/problem of the story is revealed. Usually the main character sets a goal to overcome the conflict/problem, or s/he may set a goal that creates a conflict/problem. Middle- the main character participates in a series of events or attempts to reach the goal that leads to a resolution of the conflict/problem. End- the main character may or may not reach his/her goal, thus resolving the conflict/problem.

Plot is important elements of fiction or literary work, even most of the people consider it as the important element among the other element of film, such as characterization, theme, point of view. Aristoteles says that plot is the soul of tragedy. The plot is the soul of a story. It may be the soul of fiction. In narrative work, it is the structure of its action. It is the outline of the story. It is the arrangement of important event and problems to the story.

The plot is very important in a film, because without plot, a work can't be considered as a play. Plot in the story has role as the tale teller, which becomes concerned with the relationship among the events and problems to be resolved

that are implicit in those events. Plot is the highest important of film in expressing the meaning of a work. The plot in a dramatic work is the structure of its action. The plot contains conflicts and messages. Such as plot relationships are most commonly those causes and effects.

CHAPTER III

RESEARCH METHODOLOGY

1. Research method

This part explains about research design used in this study, and the consideration of applying the research design. Research design can be defined as all of researcher's plan and strategy to answer research problems of study. Ary et al (2010:426) stated that research design is the researcher's plan of how to proceed to gain an understanding of some groups or some phenomenon's in its natural setting. Research design used in this study was library research or contents analysis. According to Ary et al (2010:452), content analysis belongs to qualitative approach is one in which the inquirer often makes knowledge claims based primarily on constructivist perspective (Creswell, 2003:18).

In this research, the researcher used descriptive qualitative method. According to Sukardi (2003:11) Descriptive research is a method of research which trying to picture out and interprets the object as in the fact. So, in this study descriptive research is conducted in the purpose to describe systematically about the fact and characteristic of the object or subject accurately. Descriptive research is also called as non-experiment research, because in this research does not need to give control and manipulate the research variable. Design research is processing in used planning and performance research research (E. A. Suchman, 1967:307). In a research, the researcher must determine the researcher design of this strategies, method or steps to be taken by a research in conducting research.

2. Source of Data

In this research, the researcher took the data from the movie “Robin Hood Movie (2018) by Ben Chandler to analyzed the moral value by using Sam Harris (2010:29) theory. This movie was released in 2018, directed by Otto Bathurst and has duration 116 minutes.

3. Instrument of The Research

In collecting data, the researcher used note taking, according to Ray (2015:24) note taking is a system for recording information which requires the researcher to use cards. The information included the script, duration and related information.

4. Procedure of Collecting Data

In order to collect data, the researcher conducted the following procedures of collecting data :

1. First, the researcher watched the movie “Robin Hood by Ben Chandler (2018)” carefully.
2. Second, the researcher identified the data which were taken by using note taking.
3. The researcher wrote down the data on the note cards about moral values and how the the values presented in “Robin Hood by Ben Chandler (2018)” movie.

4. Then, the researcher classified data that related to the object of the research.
5. Finally, the researcher made conclusion.

5. Technique of Data Analysis

The researcher analyzed the data which contains the moral values and how the moral values presented in “Robin Hood (2018)” movie by using Sam Harris theory. Then, the researcher drew conclusion based on the data analysis.

CHAPTER IV

FINDING AND DISCUSSION

A. Findings

In this chapter, the researcher presents findings and discussion that had been done. It covers the questions that had been mentioned in the chapter one. The explanations in this chapter are about moral value based on the research questions.

Moral value is to be specific about definitions of good or bad, right or wrong, since these terms can be used in several different ways. Moral values in literary works then, mean the principle of right or wrong behaviors which are worthwhile and important in a literary work to be conveyed to the readers to improve their moral standard.

Kinds of moral values portrayed in this movie based on Sam Harris theory (2010:29) are :

a. Tolerance

Tolerance is willingness to accept behaviour and beliefs which are different from one and other, although you might not agree with or approve of them.

Datum 1 (*Robin and Gisbourne fight and they are still remember their memori when they were war in Arab 1:37:14-1:37:26*)

Gisbourne : Kill me. Kill me, Loxley.

Robin : I'm not gonna kill you. You saved my life back in the desart. I'm not gonna take yours now.

Gisbourne : **I am God's true soldier, Loxely. I deserve a....**

Marian : **He had it coming.**

The citizens of Nottingham unite and try to attack the government which will bring all the property they have collected from the people. When the attack was carried out, there was an extraordinary riot and at that time Robin and his troops tried to steal the property to be sent, but he was blocked and immediately attacked by Gisbourne. A fight broke out between the two and Robin succeeded in bringing down Gisbourne but Robin could not bear to kill Gisbourn because he felt he owed his life to Gisbourne who had saved his life in the war against the Arabs first. so Robin released Gisbourne and left him even though at that time he had the opportunity to finish off Gisbourne who was an elite army of Nottingham.

Datum 2 (*Yahya explain to Sheriff when Yahya in locked up in the jail 1:23:47-1:24:15*)

Sheriff : It's gonna make breaking it so much sweeter. I'm a killer.

Yahya : I was born into this war but I've never met a man who had his killing coming as much as you do. **You're gonna wanna believe in god. You're gonna want to see his face and think that something can save you. But, you'll see my face and that's the last thing you'll see. Insyallah!**

Shariff : **(Leave Yahya in the Jail).**

For the second time Robin did his action again to steal coins collected by the government from citizens and this time he was assisted by Yahya so he could easily escape, at that time Robin managed to bring a lot of coins to be distributed again to the citizens but the action was realized by government forces until he pursued. Yahya immediately picked Robin on a horse-drawn carriage and tried to escape but they were driven away and surrounded by troops until finally Yahya

sacrificed himself so that Robin could escape. Until Yahya was taken prisoner and imprisoned, he was attacked by the Sheriff until the sheriff denigrated his religion which is the religion of Islam. The Sheriff continued to provoke Yahya's anger but Yahya remained patient with the Sheriff and explained that someday God would show His greatness and miracles to the Sheriff.

b. Belief

Belief is a state or habit on mind in which trust, confidence, reliance, is place in some person or thing. Belief also talks about opinion or something that a person holds to be true.

Datum 3 (*Yahya convinced Robin to work together until Robin believed what he was saying 23:25-24:03*)

Yahya : My son and I want to stop it. But I can't do it alone.

Robin : We're just two men. What can we do?

Yahya : You're only powerless, **if you believe you're powerless.**

Follow me, England.

Robin : **Ok!**

When Robin returned to Nottingham he was very happy because he could meet again with Marian idol of his heart, but his hopes vanished when he found out that Marian had a husband because a few years ago yes heard the news that Robin died in the war. Robin who witnessed Marian making out with her husband from a distance felt so angry and disappointed that he left the place, at that time Yahya immediately met him and gave him an offer to work together. However, Robin did not believe in Yahya, who was an Arab soldier who had tried to finish him off in the battlefield. Without him realizing Yahya infiltrated their ship to follow Robin who had tried to save his son who was about to be executed by Gisbourne first, that was the reason Yahya chose Robin to work together against the Nottingham government and convinced Robin that he had great power to save his citizens from cruelty. the government and can avenge the death of Yahya's child.

The reason why the researchers chose this scene as one of the moral values in the aspect of belief because in this scene shows an effort to make someone to belief with the strength or ability to fight injustice. It is not an easy matter to make others believe in strangers who have just met, an effort to convince someone needs their own abilities so that the effort made to make someone believe can succeed. Like when Yahya convinced Robin to work with him in helping Robin and his citizens and get justice for his son.

Datum 4 (*When Yahya made Robin believe that Marian would love him again because of God 29:25-30:42*).

Yahya : It's too dangerous for her and us. If we get caught, they will kill us all. No matter how much you want to, you cannot go down there. If you love her stick to the plan.

Robin : I still love her (Crying)

Yahya : I don't cross an ocean to watch you crawl into a bottle.

Maybe she will love you again, InshAllah, when she finds out the truth of what we're doing. But not before then.

Robin : **Well, the let's get on with it.**

Robin finally believed and agreed with Yahya's invitation to work together against the cruel Nottingham government. Until the two of them returned to Robin's old house and discussed, after discussion Robin continued his activities with arrow training so that he was more skillful in using the arrow to launch the action later while being trained by Yahya. Suddenly Merian came and

shouted from outside the house, calling Robin's name because he wanted to check whether the person he had seen was really his lover Robin who was declared dead five years ago on the battlefield. Robin heard Marian and felt so happy that she wanted to run out to say hello to Marian but she was banned by Yahya, because they had just come to Nottingham and made a plan. Yahya is afraid, Marian will find out about their plans and will become a barrier. That's when John convinced Robin that God would return Marian to him later, InshaAllah. Until Robin believed and did not meet Marian.

c. Kind-Hearted

Kind is the equivalent of what has offered or received. Kind is applying more often to the disposition to sympathy and helpfulness. Kindly is stressing more the expression of the sympathetic, helpful nature, mood or impulse (a kind person with a kindly interest in the problem of other).

Datum 5 (*Robin apologizes to Yahya for not being able to save his child 22:50-23:13*)

Robin : **I'm sorry I couldn't save him.**

Yahya : **But you tried to. In all my years of war, I've never seen anything like it. That's why I chose you.**

Robin : Chose me? What for?

Yahya : This war, all wars, and everything happening here, it's as old as time.

After the war in the Arab lands was over, all Crusaders were returned home to England. Robin, who was one of the nobles in Nottingham, was returned to his home, while on his way back to Nottingham, Robin was treated because he was injured from trying to help Yahya when his son would be slaughtered by his friend, Gisbourne. At that time, Yahya saw that Robin was different from the other crusaders, Robin still had a heart and tried to save his son Saleem even though Robin failed to stop Gisbourne from helping him. However, Robin's resistance against Gosbourne's actions made Yahya sure that he must repay Robin also after arriving in Nottingham to see the chaos, Yahya also wanted to help Robin eradicate government actions that made his people miserable. That's when they met again and Yahya offered to cooperate, Robin initially refused but Yahya did not give up convincing Robin that he would help Robin who had been injured while trying to fight his troops for Yahya. Eventually they reached an agreement and returned to Robin's old residence to draw up a plan of resistance.

Datum 6 (*Robin saved Tuck when he was going to be killed by the Sheriff 1:07:16-1:08:07*)

Robin : Confess!

Franklin : Just kill him.

Robin : Wait! The commoners love this worm. And I think he wants to be their martyr. **So let's give him a fate worse than death. Revoke his church. Defrock him! And throw him to the streets. That should cut him a little deeper than any blade could.**

Tuck : **Don't! You can't! Your Grace, please!**

The Sheriff and Church Priest who is the seat of government in Nottingham are busy discussing their plans to move the property they have collected from the common people. Then Tuck was suddenly caught stealing the keys to the treasure storage room and important government documents, when

that happened the Sheriff immediately ordered his troops to kill Tuck who had betrayed but Robin came and tried to thwart the plot to kill Tuck by pretending to snap at him and give him the punishment which he said was more painful than death was firing Tuck from his position as a monk of the church he liked so much and letting Tuck live on the streets, Robin also pulled Tuck's cross necklace which was her identity as a monk while screaming. Robin tried to save Tuck's life by lying like that in front of the Sheriff and Priestess until Sheriff believed Robin and canceled his intention to kill Tuck, but fired Tuck from his job.

d. Honesty

Honesty is estimable character, fairness and straight forwardness of conduct or adherence to be fact. Honesty also is a facet of moral character that connotes positive and virtuous attributes such as integrity, truthfulness, straightforwardness, including straightforwardness of conduct, along with the absence of lying, cheating, theft, etc.

Datum 7 (*Marian honesty confessed his admiration for Robin Hood*
1:03:05-1:03:16)

Marian : He's all of us. That's what counts.

Robin : Ah... **So you're an admirer.**

Marian : **He has his qualities.**

Will : Marian, there you are.

One of the devious plans of the Nottingham government is to hold a massive party specifically for rich people because they provide various kinds of gambling games to rob the rich people by gambling. Robin was also invited because he was one of the nobles who was very friendly and kind, always giving abundant tax money. Marian also attended because he was the leader of the people of Nottingham's subordinates. When they met, people were busy talking about a man who wore a hood and stole all the tax money from the people, then Marian whispered to Robin and admitted that he was very impressed with the brave man. Although the mysterious figure Hood was stealing, but the results are always shared with the small people that makes Marian amazed and expressed it to Robin. Unknowingly realized that the man he considered a hero was Robin disguised. Then suddenly Will comes and greets Marian to make Robin jealous of him.

Datum 8 (Robin Hood finally honest and reveal his true identity so that people believe and want to fight with him 1:25:15-1:25:48)

Will : All your thievery has done. Is drive the sheriff to declare war on on us. You have no voice here

Robin : **Then I'll show you my face**

Will : **Are we supposed to be impressed. The good Lord of Loxley has cam down from on high. To tell us, the peasedants, what to do? Well let me tell you something. This is not your manor.**

Marian : Let him talk.

The Nottingham government became even more cruel to the people, until finally Will as their main leader took the initiative to invite the people to leave Nottingham. But not as smoothly as planned, some people do not want to leave their homes because they want to survive and fight. They believe that the men who wear hoods that they consider heroes will help them survive. There was an extraordinary debate between Will and the people who refused, then came Marian and Robin who agreed to stay and survive against the Nottingham government that was cruel to them. Will did not remain silent, he told the people not to believe

in the foreign man who covered his face and according to him pretending to be good, according to Will, the man with the hood could be ordered by the government. Because of that debate until Robin admitted that he was the man in the hood and opened his disguise. Until the people were convinced to work together and fight the Nottingham government, they had hopes of usurping their right back thanks to Robin who was a nobleman who had always helped them long ago and even in times of difficulty Robin still helped by wearing a hood.

e. Responsibility

Being responsible is to have control and authority over something or someone and the duty of taking care of it or them. Responsibility is the burden someone is obligated to fulfill in order to meet a particular need. Someone's level of meeting his responsibilities shows how trustworthy he is, particularly if he consistently meets his responsibilities.

Datum 9 (*Yahya feels responsible for his child's safety 14:04-14:22*)

Yahya : A thousand soldiers. To the East.

Gisbourne : Our forces routed Tadmur the day before last. Something else.

Yahya : **I don't have anything else! He's my son. I'm just trying to save my son.**

Gisbourne : **Well, if it's any consolation**

Saleem : Baba save me!

Gisbourne : You can't.

When the battlefield, the Arab army was conquered by the crusaders but it was not over. Gisbourne who was the leader of the crusaders was very cruel, after capturing all the remaining Arab soldiers he massacred young soldiers and one of them was Saleem son of Yahya bin Umar who was the leader of the Arab army. When Saleem was about to be slaughtered, Yahya tried to save his son in various ways, one of which he offered to replace his son's position, but Gisbourne refused and asked Yahya to give him information about the tactics of the next Arab army. Yahya also reluctantly told Gisbourne what he asked for in the hope of saving his child, but Gisbourne was not satisfied and continued to cut off Saleem's head in front of Yahya. That's when Robin rebelled and fought Gisbourne because he didn't think it was appropriate to kill innocent children, but instead Gisbourne shot Robin and sent them all back to Nottingham.

Datum 10 (*Marian reminded people of responsibility to defend their place 1:24:47-1:25:00*).

- Lucy : Let 'em come back and kill us all, I'm not running!
- Will : Listen I hear you, but we cannot plan when we panic.
- Marian : **She's right Will, we should stay and fight!**
- Will : **Whit what? Pick and shovels? The City is in lock down it is martial law.**

A great debate took place between Will and Robin when Will was eager to take the people away from the Nottingham government and Robin tried to convince the people to stay, fight and fight to defend their property. Marian supports Robin's plan, according to him there is nothing wrong if they fight and fight for their rights rather than having to go like a loser. The people also believe in Robin and Marian, Marian also convinced Will to join him against the Nottingham government and they plan to stop and seize the treasures of Nottingham which will be taken away by the government the next day. Will agrees that great resistance ensues until finally they succeed in capturing the treasures of Nottingham.

B. Discussion

In this part, the researcher discussed the data analysis that had been found in Robin Hood Movie By Ben Chandler (2018). The researcher describe the moral values portrayed in the movie.

1. Tolerance

Based on datum 1, Robin showed the attitude and nature of tolerance when he had the opportunity to be able to kill Gisbourne in an underground cave but he did not because he felt that he owed his life to Gisbourne who had saved him in the war. This illustrates that a person still has tolerance for others even though the person is not in line with it.

This scene illustrates the attitude of interfaith tolerance shown at the moment when Robin did not want to kill Gisbourne because of the human nature or high tolerance possessed by Robin. In addition, Robin felt indebted because she had been saved by Gisbourne when he was in a war. The main character in this film does have the nature and attitude of great tolerance. This scene also shows that there are morals that are worth emulating and applying in everyday life.

Tolerance is a term that means respect for different views and beliefs, behaviors and practices. Tolerant person usually exudes confidence, he/she is tolerant to other points of view, takes a proactive stance (Henderson, 2000:142). Tolerance is an attitude of mutual respect, respect, and help towards groups or

individuals in social relations. Even though we are in a state of urgency, a good attitude of tolerance is still applied, because respecting others can have a positive impact on ourselves and the environment.

Based on datum 2, Religious tolerance was shown by Yahya to the Sheriff who was the leader of the crusaders, not believing in "ALLAH" as a Muslim god. Yahya reminded that someday the Sheriff will meet with GOD when the time has come. All criminal behavior committed by the Sheriff will be rewarded in kind. This shows that Yahya still tried to convince the sheriff of the existence of God even though he never believed.

In this scene tolerance is very prominent and very important because in this scene it illustrates religious tolerance. Because tolerance related to religion in this modern era is very difficult to find. Moment when our religion is blasphemous by other religions, provoking ourselves to repay what has been done by people who insult our religion. However, in this film religious tolerance is highly valued as an effort to respect and remind one another as creatures that live on the surface of this earth.

Weldon (2006:341) considers that "Tolerance is a fundamental principle of the liberal democratic creed. It requires citizens to uphold and secure the rights of groups, even those they find objectionable, to participate fully in political, social, and economic life". In religion we are taught to apply an attitude of tolerance to other religions. because this can maintain security and prosperity in coexistence with each other, respect each other respect, protect feelings and help

each other help. This is also a form of goodness that has a positive impact on social life.

The comparison of moral values contained in these two different literary works is that in this study the researcher found a high sense of tolerance built by the characters in this film so that moral values appear on the aspect of tolerance depicted in this film. Tolerance in this film is not only related to the relationship between humans and humans, but in this film tolerance is built in aspects of human relations with God. While in Rafi Fitriani's research entitled *An Analysis of Moral Values in the novel "Oliver Twist" by Charles Dickens* only found moral values in the aspect of tolerance that builds a relationship between humans and other humans.

2. Belief

Based on datum 3, belief reappeared upon seeing the firmness of yahya bin umar who was a formidable Arab army to make Robin believe in him so that robin would cooperate to stop the crime committed by the government in Nottingham after all his assets were confiscated by the government and they announced Robin's death until Robin finally believed and worked same with Yahya.

Belief and Trust is an attitude that is shown by humans when they feel they know enough and conclude that they have reached the truth. Because belief is an attitude, then one's beliefs are not always true or mere beliefs are not guarantees of truth (Weldon, 2006: 83). Belief is a person's willingness to rely on others

where that person has confidence in him. Trust is also one of the provisions of life that is very important for us to protect. Because without trust, life feels full of suspicion and lies. Belief can grow when someone has a strong desire to save others who are in a bad situation. Then, to convince ourselves to be trusted by others is to show sincerity, sincerity and determination to help. Belief is the wise attitude of a person who can be praised because trust in others is not an easy matter to give the predicate. trust is obtained not by the amount of reinforcement, given the match between words and deeds.

Based on Datum 4, belief is also illustrated when Marian who is Robin's lover used to come looking for her but Robin was forbidden by Yahya to meet him because the meeting could frustrate their plans until finally Yahya assured Robin that Marian would return to him with God's permission and Robin believed in Yahya's words.

The moral value in this film is illustrated when one of the characters is in order to convince someone let alone matters related to feelings. the effort to build trust in this scene is very strong because one of the figures named Yahya convinced Robin to entrust his feelings to the greatness of God. If everything we rely only on the almighty then our level of trust in the results of patience will produce goodness. The moral value of belief in this scene is illustrated when Yahya convinced Robin not to meet Marian because of the wrong time, and left everything to the power of God.

Belief is the attitude that something is the case or true, in other hand the term belief to refer to personal attitudes associated with true or false ideas and concepts. However, belief does not require active introspection and circumspection (Harris:104). Belief which is related to God will definitely produce something good because there is no doubt when we believe in God. If we rely on God, then everything will surely go well. This was proven when Robin believed that what would be his would not be exchanged. In this case, Yahya convinced Robin to entrust everything to the power of God regarding the story of his love for Marian.

The comparison depicted in Fanni Yasa (2014) in her thesis titled "The Analysis of Moral Values Found in Nathaniel Hawthorne's Short Story" The Golden Touch "and Its Application in English Language Teaching" with this research is that the belief aspect is not found in research Fanni Yasa because Fanni Yasa's research only focuses on positive and negative moral values that are associated with an increase in students' vocabulary in the field of education.

In the study of Ibnu sina Irvany (2014) with the title "Analysis of Moral Values as Seen in the Film" Rise of the Guardians "discusses broader moral values. the context of moral values found is deeper and the mastery of material is very concrete. found moral values not found in this research are love, affection, enthusiasm, Bravery, loyalty, peace loving, perseverance, sacrificing for other, sincerity and self-confidence. Whereas in this research the reasearcher only focuses on moral values based on Sam Harris theory there are tolerance, belief, kind hearted, honesty and responsibility.

3. Kind-Hearted

Based on datum 5, Kind Hearted in this scene is depicted when Robin apologized to Yahya and felt very sorry for failing to save his child when he would be executed by his troops in the battlefield. Robin's kindness is illustrated very sincerely to apologize to Yahya and this makes Yahya like Robin and sure to invite him to work together in eradicating crime in Nottingham.

Kind hearted does not only include giving, forgiving or let go. However, a regret is also included in Kind hearted, sometimes someone is very sorry for having failed to help people who really want to be helped due to circumstances that do not support. The reason reseacher chose this scene as kind hearted was because Robin felt very sorry for failing to save the son of Yahya who was executed by his friend who was a crusader from Nottingham. Robin still feels compelled to help the children of Yahya for humanitarian reasons. Robin's kindness was reflected in her sincere apologies and felt sorry for Yahya.

Hornby (2010: 822) states that the kind-hearted is the quality of being kind. It is the act or the state of being marked by good and charitable behavior, pleasant character, and concern for others. One form of kind hearted is to apologize. Kind hearted to admit mistakes is needed so that our sense of humanity can be maintained. Humans never escape error, but that does not mean not escape from mistakes that make mistakes again and again continuously. Forgiveness and forgiveness in life activities are very important and should be done by anyone who has wronged others, in any form. This is illustrated when Robin apologized

to Yahya for failing to save his Jewish son when he was about to be killed by Gasbourne.

Based on datum 6, Robin showed kind hearted when he tried to save Tuck when he was about to be killed by the Sheriff because he was considered a traitor in the church which is the center of government in Nottingham by trying to divert the emotions of the Sheriff and the Bishop who were eager to end Tuck's life. But Robin quickly gave input so that Tuck was fired from the position he loved. Robin's generosity to save one's life greatly illustrates the attitude of a social being.

The attitude and helpful nature of help are also part of Kind hearted. In social life, we must prioritize kindness so that life can be harmonious and peaceful. Helping others when in distress can also have a positive impact on oneself, giving a sense of peace and sincerity. Although often a person must be forced to lie to help others. That is the reason why the researchers chose this scene which contains moral values in its main life in kind heated. as happened when Robin was forced to lie to Sherriff so as not to kill Tuck.

Kind hearted is a value that is considered important across religions. It's never too late to do good in this life. Kindness coupled with sincerity can give us happiness as well as others. Everyone has the kindness and conscience to help others, even though sometimes in compulsion a person lies in order to save others. Like Tuck experienced when he was about to be killed by the Sheriff, Robin saved him despite having to lie and get him fired from the Nothingam church.

Kind hearted in this reseach talks about kindness, sincerity and help please. The researcher is more focused on the kindness of the characters depicted through social scenes. Whereas in the study of Ibnu sina Irvany (2014) with the title "Analysis of Moral Values as Seen in the Film" Rise of the Guardians "discusses broader moral values of kind hearted which are found to be more general like help, helping, feeling, love, sincerity and loyalty: Although both use the same object, which is film, but the genre that distinguishes these two films, in this research uses the film war genre while research on Ibnu sina Irvany (2014) with the title "Analysis of Moral Values as Seen in the Film" Rise of the Guardians "discusses broader moral values using the fantasy genre, so that the found moral values are different.

4. Honesty

Based on datum 7, honesty is illustrated when Marian admits to Robin that she really admires the hero who wears Hood and always helps the oppressed little people. The hero succeeded in capturing the hearts of the people thanks to his sincerity in helping. Having honesty within yourself is like having a very valuable treasure.

The honesty is portrayed in this film when Marian admits that Mariam greatly admires Robin for the hero they call Hood, Marian expressed her honesty in front of the crowd and responded well by the people around her. The honesty shown in this film is closely related to social life, honesty is a very crucial thing because honestly life will run peacefully and peacefully, because something

related to lies will have a negative impact on oneself, others, and the environment. This is what made the researcher choose this scene and decided to include it in the category of moral values in the honesty aspect.

Bok (1999: 21) argues for a “principle of veracity” that respects human dignity and autonomy by emphasizing the centrality of honesty and truthfulness as the foundation of human relations. She points out that our choices, if they are to be free and rational, depend on our judgments about what is true and what is false. Honesty is a noble and important attitude for everyone to have. We will get the trust of others when we always uphold honesty. People who cannot be honest besides being forbidden by religion will also be easily shunned by those around them. Whatever the situation, don't ever act dishonestly including lying. Try to always say according to the truth. This is illustrated when Marian admitted to Robin that he really admired hood, the hero who had been helping and fighting for the rights of the small people who were oppressed by Nottingham.

Based on datum 8, Honesty was shown again when Robin Hood revealed his true identity so that the people were sure to join him in defending their rights. This is one attitude that is highly commendable and beneficial to oneself and others. Because it's not easy for someone to express honesty that puts his life in danger.

Honesty is an attitude that shows one's true identity. someone who is always honest in both words and actions, even though bitter and risky, can be sure that he has good moral integrity. High up honesty can make everyone believe and

feel safe around us. This is the reason The researchers chose this scene, because Robin Hood dares to tell his true identity to people that Robin Hood is Robin's guise in order to help them fight an unjust and arbitrary government to them. Although it has risks and can endanger Robin's life.

On the other hand, Mahon (2007: 189) defines the term “honest” as “free of deceit; truthful and sincere; morally correct and virtuous.” In turn, the terms “dishonesty” or “deception” may be understood simply as the opposite of honesty. To put it in more precise terms, however, these terms involve statements or actions designed “to intentionally cause another person to have or continue to have a false belief that is known or truly believed to be false by bringing about evidence on the basis of which the person has or continues to have the false belief”.

Honesty is something that is expensive. In fact, it can't be bought with anything. Honesty must be instilled in each of us, under any circumstances and conditions. Because, honesty is the highest honor possessed by someone. If the value of honesty has disappeared from someone, then his honor and dignity are no longer meaningful. This is illustrated when Robin admitted that he was a Robin Hood hero who was admired by everyone so that the community believed and fought with him against Nottingham's crime.

An honesty portrayal of Fanni Yasa's (2014) research in her thesis titled "The Analysis of Moral Values Found in Nathaniel Hawthorne's Short Story" The Golden Touch "and Its Application in English Language Teaching" is not so

extensive because Fanni Yasa's research focuses on positive morals and negative, so the explanation of honesty is more shortened and not specifically found scenes that show specific honesty. In addition to Fanni Yasa's research, the focus is on the relationship of moral values with the field of education. Fanni Yasa also focuses on negative moral values contained in a short story entitled "The Golden Touch". Whereas this research focuses more specifically on finding honesty in the Robin Hood movie scene. Object differences are also illustrated in this research between film and short story.

5. Responsibility

Based on datum 9, a great sense of responsibility must be owned by a father towards his child. like when Yahya leaked his war strategy to the crusaders to save his son would be executed by Gisbourne the elite army of Nottingham. Almost everyone wants to live happily without much effort. In fact, a responsible attitude will make life more meaningful and an opportunity to establish meaningful relationships and achieve success in life.

The reason for choosing this scene as a moral value as an aspect of responsibility is because the character in this character shows a great responsibility to save his child. Every effort has been made to save his child as something very valuable in his life. A father's responsibility to his child is exemplary, his high sense of protection, ownership, and love for a father is clearly illustrated in this scene. This was illustrated when Yahya tried to save his son by leaking the war strategy of his troops to the cruel crusaders.

Based on datum 10, the attitude of responsibility also appears when Marian invites the people to stay and maintain their residence. The high sense of responsibility to maintain what is already owned shows something very positive as a form of responsibility. Safeguarding something is a big responsibility, including efforts to protect property rights that will be usurped. A high sense of belonging and responsibility is a picture of moral values that need to be improved in social life. In this scene, the researcher focuses on efforts to defend their rights such as a place to live that will be seized by a cruel government and has little moral value to the people. as was the case when Marian tried to invite all the people to stay and fight for their homes that would be captured by the Nottingham government. The sense of responsibility must be possessed by all people as self defense in socializing in the midst of society as social beings. In essence each individual can be held responsible. Bok (1999:178) said that moral brings some goal for each individual. From the social laws live in the societies, moral expects each individual can find their true identify and their role in society. It is interting because moral is also influenced by a culture which makes moral become rich and have difference standard.

In this study the responsibilities depicted in this film through the flow scene that is back and forth. In previous research from Rafy Fitriani (2015) in her thesis titled "An Analysis of Moral Values in the novel" Oliver Twist "by Charles Dickens, there were no moral values found in the aspect of responsibility. Whereas in the study of Ibnusina Irvany (2014) with the title "Analysis of Moral Values as Seen in the Film" Rise of the Guardians "discusses broader moral

values in the aspect of responsibility depicted in the film stating that responsibility must be owned by all people in aspects of life.

In this research, we can see some moral values that are drawn through scenes which are very related to our social life. Some moral values depicted in this film such as tolerance, belief, kind-hearted, honesty and responsibility are very close to our lives. We can apply the moral values depicted in the Robin Hood 2018 film in everyday life. Actually, in every literary work containing moral values that we can take and learn, it all depends on the view of the reader or audience in taking every wisdom presented in the literary work.

The weakness of this research can be seen from the differences in the theory in analyzing moral values in literary works. The difference between the Sam Harris theory used in this study with Kinnier et.al's theory of moral values can be seen from the component compilation part by section in compiling the moral values framework. Kinnier et.al's theory is more specific because it discusses moral values from various aspects as in the theory below.

There are four major and specific categories of moral values proposed by Kinnier et.al.as follows:

1. Commitment to something greater than oneself
 - a. To recognize the meaning and purpose of one's existence
 - b. To seek truth
 - c. To seek justice

2. Self-respect, but with humbleness or respect to others, self-discipline, and acceptance of personal responsibility
 - a. To respect and care for one-self
 - b. To not exalt one-self, avoid greediness, and self-centeredness
 - c. To act with conscience
 - d. To accept responsibility of one's behaviour
3. Respect and caring for others
 - a. To recognize the connectedness between all people
 - b. To serve and to be helpful to humankind and individuals
 - c. To be caring, respectful, compassionate, tolerant, and forgiving to others
 - d. To not hurt others (do not murder, abuse, steal from, cheat, or lie to others)
4. Caring for other living things and environment.

Whereas the Sam Harris theory in this study is sufficient to describe the five moral values which are a summary of the theory put forward by Kinnier et.al. Overall the theory put forward by Sam Harris illustrates all aspects of Values in social life. Kinnier et.al. explain more deeply and details related to the values drawn in a literary work.

CHAPTER V

CONCLUSIONS AND SUGGESTION

This chapter provides conclusion and suggestion. After finding and analyzing the moral values in Robin Hood Movie the researcher gives some conclusion and suggestion to the readers.

A. Conclusion

After analysing the data, the researcher concludes the result of the research. In movie Robin Hood, the researcher found the moral values: 1). Tolerance portrayed when Robin and Gisbourne fight and they are still remember their memori when they were war in Arab, and Yahya explain to Sheriff when Yahya in locked up in the jail, 2). Belief in this movie described when Yahya convinced Robin to work together until Robin believed what he was saying, and the next is when Yahya made Robin believe that Marian would love him again because of God. 3), The third is Kind-Hearted, it also show in the scene Robin apologizes to Yahya for not being able to save his child, and the second one is when Robin saved Tuck when he was going to be killed by the Sheriff, 4). Honesty in this movie present when Marian honesty confessed his admiration for Robin Hood and Robin Hood finally honest, and reveal his true identity so that people believe and want to fight with him, and 5). Responsibility portrayed when Yahya feels responsible for his child's safety, and Marian reminded people of responsibility to defend their place.

B. Suggestion

1. For further research, the researcher suggests that to learn more about moral values in literary work in order to generate more specific research about kinds of moral values in literary works.
2. The researcher realizes that this research is far from being perfect. Mistakes and weakness still happened in many aspects positive suggestion and criticism still researcher needed to make the next study better.

DEWAN PENGUJI UJIAN KOMPREHENSIF
TAHUN 2020

Dekan Fakultas Adab dan Humaniora UIN Alauddin Makassar setelah :

- Membaca** : Surat Permohonan tanggal 14 Februari 2020 perihal : Ujian Komprehensif a.n. :
INCE FACHRUNNISA NIM. 40300113162 Jurusan Bahasa dan Sastra Inggris
- Menimbang** :
- Bahwa mahasiswa tersebut di atas telah memenuhi persyaratan Untuk Menempuh Ujian Komprehensif.
 - Bahwa Untuk Maksud Tersebut pada poin (a) di Atas, Maka Perlu Membentuk Dewan Penguji Komprehensif.
 - Bahwa mereka yang tersebut namanya dalam penetapan Keputusan ini dipandang cakap dan memenuhi syarat untuk disertai tugas sebagai Dewan penguji Ujian Komprehensif.
- Mengingat** :
- Undang-Undang Nomor 20 Tahun 2003 tentang Sistem Pendidikan Nasional;
 - Peraturan Pemerintah RI. Nomor 66 Tahun 2010 tentang Perubahan atas Peraturan Pemerintah Nomor. 17 Tahun 2010 tentang Pengelolaan dan Penyelenggaraan Pendidikan,
 - Keputusan Menteri Agama RI. Nomor 289 Tahun 1993 Jo Nomor 202 B Tahun 1998 tentang Pemberian Kuasa dan Wewenang Manandatangani Surat Keputusan;
 - Keputusan Menteri Agama RI. Nomor 20 Tahun 2014 tentang Statuta UIN Alauddin Makassar;
 - Peraturan Menteri Agama RI. Nomor 3 Tahun 2018 tentang Perubahan kedua Atas Peraturan Menteri Agama RI. Nomor 25 tahun 2013 tentang Organisasi dan Tata Kerja UIN Alauddin Makassar;
 - Keputusan Rektor UIN Alauddin Makassar Nomor 200 Tahun 2016 tentang Pedoman Edukasi UIN Alauddin Makassar.
 - Keputusan Rektor UIN Alauddin Makassar Nomor 202.B Tahun 2019 tentang Kalender Akademik Tahun 2019/2020.

MEMUTUSKAN

- Menetapkan Pertama** : Membentuk Dewan Penguji Ujian Komprehensif dengan komposisi sebagai berikut :
- Penanggung Jawab** : Dr. Hasyim Haddade, S.Ag., M.Ag.
(Dekan Fakultas Adab dan Humaniora)
- Ketua** : Dr. A. Ibrahim, S.Ag., S.S., M.Pd.
- Sekretaris** : Syahrani Junaid, S.S., M.Pd.
- Pelaksana** : Mubin Nasir, S.E.I.
- Penguji** :
- MK. Dirasah Islamiyah** : Dr. Abd. Rahman R, M.Ag.
- MK. English Proficiency** : H. Muhammad Nur Akbar Rasyid, M.Pd., M.Ed., Ph.D.
- MK. Linguistics** : Dr. Jumharia Djamereng, M.Hum.
- Kedua** : Tugas Dewan Penguji Adalah Melaksanakan Ujian Komprehensif terhadap Mahasiswa tersebut sampai Lulus Sesuai dengan Ketentuan dan Peraturan yang Berlaku;
- Ketiga** : Ujian Komprehensif tersebut akan dilaksanakan pada hari / tanggal : **Jumat, 21 Februari 2020.**
- Keempat** : Keputusan ini mulai berlaku sejak tanggal ditetapkannya dan apabila dikemudian hari terdapat kekeliruan di dalamnya akan diperbaiki sebagaimana mestinya.

Keputusan ini disampaikan kepada masing-masing yang bersangkutan untuk diketahui dan dilaksanakan dengan penuh tanggung jawab.

Ditetapkan di : Gowa
Pada tanggal : 14 Februari 2020
