Dear Author,

We have reached a decision regarding your submission to Jurnal Minds: Manajemen Ide dan Inspirasi, "Audit Delay and Risk Management Disclosure in Capital Market: Some Nexus Considerations".

Our decision is to: require major revision as recommended from your manuscripts. 1st reviewers' comments are highlighted below.

Alim Syariati
Scopus Id: 57210318979; Universitas Islam Negeri Alauddin Makassar
alim.syariati@gmail.com

Reviewer A:

I have accomplished the reading of your journal, and it has the potentiality to be published. However, it still has many flaws in the manuscript as follows:

1. Your introduction did not have the souls. You need to carefully discuss the ongoing debates regarding your variables' relationships;
2. Theoretical states are not bad, but some hypotheses are only supported by minimum references. If you do not have strong previous studies, add strong logic.
3. Method is nice;
4. Result is nice
5. Discussion is still premature. You need to highlight the findings, put some context on journals' discussions;

I advice major revision

 Reviewer B:

This paper proposes quite comples and interesting conceptual endeavours. However, your paper suffers major derrails. I found that:

1. The English is not good. You need to peer more efforts in polishing the wordings. I still found many Indonesian languages in your manuscript.
2. Hypotheses are poorly formulated
3. Introductions are too wordy and confusing. You need to draft your paper

in a minimum of 3 paragraphs. 1st paragraph highlights the potential real life problem; 2nd paragraph discusses the academic debates in the field; 3rd paragraph presents your paper's uniqueness.

4. References are poorly-drafted. You did not follow the APA 7th referencing style, while at the same time, some in-text references are not available in the references.

This manuscript has to be resubmitted for further reviews.
