Title

:

This article discusses the implementation of understanding the sources of

Islamic law, especially hadith, especially the use of the veil which has recently occurred in Indonesia or in the Muslim world. discussion of whether the veil is an Islamic legal order is only an Arab culture something with the focus of the journal samarah.

Abstract

Abstract contains problem of research, method, and result

:

complete the abstract with the research methods, approaches and theories used in analyzing the case of wearing the veil.

Originality

The originality of the subject matter, and the manuscript would be of interest to the the scholar of Islamic countries in general and specifically in Indonesia

:

the approach and method used, namely combining questionnaires and interviews, will produce more valid findings about the knowledge of authenticity and hadith law among female students who wear the veil at UIN Alauddin, Makassar.

The Depth of Literature

Whether the article draws on an appropriate range and depth of literature (if not please indicate which sources of literature should be included by the author in future)

:

please complete the literature with reference to the Scopus article, this kind of reality may occur in the Islamic world, in Malaysia, Thailand, Brunei, or in other areas in Indonesia.

Finding Presentation

Whether the findings presented are subjected to suitable analysis and sound conclusions drawn

:

analysis in the findings and research results section still needs more in-depth analysis, especially regarding the link between knowledge of authenticity and hadith law regarding the veil and commitment to wearing the veil, what are the factors behind it, could it be more due to certain community factors or other factors?

Implications for understanding the study of Islamic family law and Islamic law in Islamic in Islamic countries in general and specifically in Indonesia

:

The focus and content of this study portrays the phenomenon of Islamic law practice in the campus world, which has so far occurred in public campuses (not Islamic universities in Indonesia). but recently it has also occurred among female students at Islamic Higher Education (PTKI) in Indonesia. because it needs further elaboration, the background of these students (whether from Islamic boarding schools or public schools), the chosen study program (religious or general) are they really influenced by certain organizations and communities. Some of these questions have been partially answered in this article.

Reviewer B:

Title

Title reflects the essence of the content of the article (content, method, novelty)

:

the theme of this study is in accordance with the samarah journal, which is a discussion of the practical application of Islamic law (wearing the veil). the novelty comes from a combined method (questionnaire and literature study) and case studies on UIN Alauddin Makassar students. Differences in understanding of hadith can occur among scholars, especially among students who still need in-depth knowledge of hadith.

Abstract

Abstract contains problem of research, method, and result

:

Abstract is still too short. please add research findings as presented in the discussion and results.

Originality

The originality of the subject matter, and the manuscript would be of interest to the the scholar of Islamic countries in general and specifically in Indonesia

:

This study will be of interest to the international community because the veil is currently a global phenomenon both in the Islamic world and in the non-Muslim world. in several Western European countries there was a ban on wearing the veil because it was said to be a symbol of radical, marginal and depriving women.

The Depth of Literature

Whether the article draws on an appropriate range and depth of literature (if not please indicate which sources of literature should be included by the author in future)

:

Some additional literature is needed for veil cases in Indonesia because this study is a field study in Makassar, South Sulawesi. Therefore, it is necessary to add intellectuals or experts in interpretation and hadith, such as Hamka (tafsir al-Azhar), M. Quraish Shihab (Tafsir al-Misbah) or M. Syuhudi Ismail (expert in hadith). as well as madhhab scholars such as Imam Syafii (because the majority are adhered to in Indonesia) or 4 other schools of thought. as well as journal articles related to the discussion.

Finding Presentation

Whether the findings presented are subjected to suitable analysis and sound conclusions drawn

:

1. This introduction does not show an adequate background as an international article (please add arguments and Scopus article data to support this).
2. field results section and questionnaire: please add an analysis using the understanding theory approach as described in the previous section. or it can also be analyzed by using the theory of understanding hadith in ahkam hadith.

Implications for understanding the study of Islamic family law and Islamic law in Islamic in Islamic countries in general and specifically in Indonesia

:

This study will have implications for the opinion that a person will behave and act according to his level of understanding and knowledge of religion. because of that how important is the understanding of moderation in religion. because of the findings from this article there is a high enthusiasm for wearing the veil among female students, even though knowledge about the hadith of the veil is not deep. Nevertheless, this study is interesting because disability has become a global phenomenon in the Islamic world in the West (so does Europe).

Technical writing

Articles must be in accordance with the surrounding style and journal template

:

1. Please complete the footnotes.
2. the research method in the introduction should not stand alone (it is integrated with the introduction, see notes in the text).

Additional comment for the author:

please fix some defects, see text in the manuscript.

Is the article qualified for publication?

Please indicate your suggestion whether this article is qualified for Samarah
