PERSETUJUAN PEMBIMBING

Pembimbing peneliti skripsi saudari Hasniah, NIM: 40300116107. Mahasiswa Jurusan Bahasa dan Sastra Inggris pada Fakultas Adab dan Humaniora UIN Alauddin Makassar, setelah dengan seksama meneliti dan mengoreksi skripsi yang bersangkutan dengan judul **"Code Mixing in Greatmind Small Talk Used by Dian Paramita Sastrowardoyo and Marissa Anita"**, memandang bahwa skripsi tersebut memenuhi syarat ilmiah dan dapat diajukan ke **Sidang Munaqasyah.**

Demikian persetujuan ini diberikan untuk dipergunakan dan diproses lebih lanjut.

ACKNOWLEDGEMENT

BISMILLAHIRRAHMANIRRAHIM

Alhamdulillahi robbil 'alamin, for the Most Perfection, Allah SWT, the researcher would like to express her confession and gratitude for the strength, guidance, blessing and mercy in completing her thesis. Salam dan Shalawat also always deliver to the Prophet Muhammad SAW, his family, companions and all of his followers.

Special thanks to the researcher's beloved mother, Nur Hayati for her unending prayers, supports, and affection. Uncountable longing and the best prayers are always sent by the researcher to her father, alm. Syamsul Bahri.

The thesis is impossible to complete by the researcher without great assistance from Dr. Hj. Nuri Emmiyati, M.Pd. as the first supervisor and Helmi Syukur, S.Pd.I., M.Pd. as the second supervisor. The researcher would like to thank and really appreciate them for their time, corrections, idea, help, and patience during completing the thesis of the research. Her big thanks also aimed to her examiners, Dr. Jumharia Djamereng, M.Hum as the head of English and Literature Department of Adab and Humanities Faculty and Dr. Muh. Sukri, S.S., M.Hum for all their criticisms, advices, recommendations, and suggestions in researcher's seminar proposal to create this thesis better.

The gratitude also aimed from the researcher to the Dean of Adab and Humanities Faculty, Dr. Hasyim Haddade, S.Ag., M.Ag, to the head and secretary of English and Literature Department, Dr. Jumharia Djamereng, M.Hum and

Syahruni Junaid, SS., M.Pd for their supports and helps administratively, to all the lecturer of English and Literature Department and all the administration staff of the Faculty of Adab and Humanities who have given the guidance, numbers helps and knowledge that very useful during the year of the researcher's study.

The researcher also extends her deepest gratitude to her three brothers, Sultan, Muhammad Hamsah, and Septiyayang who always provide support and are ready to help the researchers' needs. And to Annisa Febriana, S.Hum and Reski Amaliah Harming, S.Hum, the researcher's big gratitude also sent for both of them for their times and all their helps in completing the researcher's thesis.

The researcher realizes that her thesis is not perfect. The criticisms and suggestions are very needed in this thesis. In spite of its imperfection, the researcher hopes that this thesis will be useful for the students, lecturers, and all the readers. May Allah give us blessing in all the time.

Title	: Syntactical Analysis of Code Mixing in Greatmind Small Talk Used by Dian Paramita Sastrowardoyo and Marissa Anita
Supevisor I	: Dr. Hj. Nuri Emmiyati, M.Pd.
Supervisor II	: Helmi Syukur, S.Pd.I., M.Pd.

This study aims to determine and analyze the syntactical of code mixing in Greatmind Small Talk used by Dian Paramita Sastrowardoyo and Marissa Anita. The obeject of this study is to find out the types of code mixing used by Dian Paramita Sastrowardoyo and Marissa Anita. Code mixing is when speakers employ both languages simultaneously to the point that they switch from one to the other within a single phrase. This research is conduct using a qualitative descriptive method and analyzed using a Hoffman theory, it is the types of code mixing, namely intra-sentential, intra-lexical, and involving a change of pronunciation. The result of this study indicates that there are 120 data code mixing utterances by the speaker. 109 data are categorized into intra-sentential and 11 data are categorized into intra-lexical. There is no data found as involving a change of pronunciation.

Keywords: Code Mixing, Intra-Sentential and Intra Lexical, Language, Simultaneously, Small Talk

CHAPTER I

INTRODUCTION

1. Background of The Research

The use of language is undeniable, no matter where you are, whether in private or public areas. In particular and realistically, this language is used in the movie, television, and social media. The language that referred to this language is English.

In this millennial era, including in Indonesia, English has been found a lot, both written and spoken. Throughout the researcher, it is not uncommon to find the use of English in various places, including in all electronic media. One of the social media that is the main source by the researcher is Instagram. Instagram is an application that is used to share photos and videos and share knowledge through small talk events and most Instagram users prefer to use English. They prefer to use English rather than their own regional language to their post captions and to their conversations when they do a talk show. They make some caption and talk in language by mixing their language. Mixing languages is known as code mixing. As Wardhaugh (2006:103) said, code mixing is when speakers employ both languages simultaneously to the point that they switch from one to the other within a single phrase.

In a bilingual or multilingual society, code mixing is prevalent. Bilingualism, according to Bloomfield in Chaer and Agusta (1995:112), is the ability of a speaker to communicate in two languages. The ability to

communicate in two languages leads to code mixing. In a bilingual culture, words, sentences, and clauses from one language are combined in a single sentence.

There are many code mixing in our social life. The existence of code mixing as a representation of the number of users of two languages is increasing in this era. The use of code mixing is caused by several reasons based on the Hoffman (1991:116) theory, such as talking about a particular topic, quoting somebody else, express solidarity, interjections, repetition used for clarification, intention of clarifying the speech content for interlocutors and expressing group identity.

Looking at the existing of code mixing phenomena, it is necessary to analyze the types of code mixing and examine further the types of code mixing found. There are three types of code mixing based on syntactical patterns, according to Hoffman (1991), they are intra-sentential code mixing, intra-lexical code mixing, and involving a change of pronunciation.

Paying attention to the reality of today's life, code mixing is easy to find, from the surrounding environment, especially if you pay attention to the media that is expanding so fast. Code mixing that is close to everyday life is code mixing in the teaching and learning process. Students who are not fluent in English force the teacher to mix the languages so that students understand the teacher's intent and so that they are accustomed to listening to the pronunciation of English vocabularies. In addition, the fact that code mixing

also occurs in talk show events where bilingual speakers feel that the statements conveyed are easy to understand using more than one language. And code mixing in social media is a global thing that cannot be denied. Social media users do a lot of code mixing in expressing opinions or for various reasons.

Because this research focuses on code mixing which is definitely language, then Surah Al-Baqarah verse 31 is related to this study:

وَعَلَّمَ ءَادَمَ ٱلْأَسْمَآءَ كُلَّهَا ثُمَّ عَرَضَهُمْ عَلَى ٱلْمَلَـٰٓئِكَةِ فَقَالَ أَنۢبِـُٔونِى بِأَسْمَآءِ هَـٰٓؤُلَآءِ إِن كُنتُمْ صَـٰدِقِينَ ﴿٣١﴾

....and told Adam all the names (of everything), after which He showed them to the angels and stated "tell me the names of these if you are truthful". Al-Hilali and Khan (1996)

The meaning of the first concerning language is "Taufiqiah", which means that Allah SWT is the one who educates all people about language and without Him, no one can say or understand anything. And then, people learn and grow their language by experience, and Allah guides them in this way. The second meaning is that knowledge is one of the weapons we use to keep our words alive, without knowledge, our words are going to be destroyed.

The title and the verse have a relationship in that the title will discuss the usage of language by employing two or more languages as a source of knowledge. People will struggle to learn new things if they do not have access

to language. As a result, the researcher argues that language is critical for people seeking information because language is the first type of knowledge. People must understand the language they use in order to communicate or comprehend other people's communication.

The researcher conduct this research because interest in the term code mixing. The researcher often follows live events held by several accounts on Instagram. The researcher choose one of the video small talk on Greatmind account from Instagram as the object in conducting research and found a lot of code mixing in that small talk. The speaker who contribute to present the topics, mixing the language to English and Indonesian. From the phenomena that researcher have seen, the researcher want to know how the types of code mixing in Greatmind small talk used by the speaker and the host . The researcher hopes that this research can really provide the new results and also provide benefits to all the readers.

2. Research Question

Based on the background above, the formulation of the matter can be classified as follow:

How are the types of code mixing used by Dian Paramita Sastrowardoyo and Marissa Anita in Greatmind small talk?

3. Objective of The Research

The objective of this research formulated by the researcher is to find out how the types of code mixing used by Dian Paramita Sastrowardoyo and Marissa Anita in Greatmind small talk.

4. Scope of The Research

The researcher limits this study by focusing on the three types of code mixing described by Hoffman (1991:112), namely intra-sentential mixing, intra-lexical mixing, and code mixing involving a change of pronunciation.

5. Significances of The Research

By did this research that the researcher was analyzed how the types of code mixing in the video small talk, it expected that:

1. The researcher hopes that this research can give the motivation to all the readers, especially for English students to become smart in choosing the contents that can improve their knowledge of English.

2. The researcher expects that this study will serve as a mode for others who desire to investigate similar issues, particularly English Language and Literature Department students.

3. The researcher hopes that this research can provide information for all the readers in general about code mixing.

CHAPTER II

REVIEW OF LITERATURE

This part will contain some the previous findings and also the pertinent ideas.

1. Previous Findings

The first is Saldi Ady Saleh (2017). He is a student at Makassar's Alauddin State Islamic University's English Language and Literature Department. He used the qualitative approach to examine his thesis, "An Analysis of Code Mixing Used by Teachers of Zarindah House of Learning in The Learning Teaching Process," with the observation sheet and interview sheet as the equipment. He have three the research questions to analyzed, they are the types of code mixing, the dominant types of code mixing used and the reason of using code mixing. There are two teachers who are the object of his research. In his research based on Hoffman's theory, he found that teacher 1 only used one form of code, namely Intra-sentential code mixing and teacher 2 used two types of code, namely Intra-sentential code mixing and Involving a change of pronunciation. The dominant types of code mixing used by teachers is Intra sentential code mixing based on Walizer's theory. The last, he also found the reasons why the teachers used code mixing. It is because of Interjection, Repetition used for explanation, Real lexical necessity and Quoting somebody else based on the theory of Hoffman.

The second is Irma Dewi Isda (2013). The tittle of her thesis is "The Impacts of Code Switching and Code Mixing in Swara Cempala Kuneng Radio Station on The Listeners," and it was written to fulfill the requirements for her magister degree in English Applied Linguistic Program at Medan State University. Like the previous study before, this thesis also have three the research questions. These are the types of code switching and code mixing, the reasons and motivations for using code switching and code mixing, and the impact of code switching and code mixing on listeners. She used a qualitative approach as a tool, as well as recorded observations, interviews, and field notes from Lansa's Swara Cempala Kuneng radio station. As a result of her research, broadcaters and listeners have three categories of code switching and three types of code mixing. She also discovered the causes and motivations for the code switching and the code mixing by broadcasters and listeners, which include a specific topic, expressing solidarity, repetition, and the purpose of clarifying and expressing group identition. The final finding in her dissertation is the impact of the code switching and the code mixing on listeners. For example, with a little knowledge of Aceh and English vocabulary that can be used in everyday life like a broadcaster, the English and Aceh vocabulary looks like this: Increasingly, they often follow the style of broadcaster when speaking, gaining insights into new vocabulary and terms from English, feeling more updated, and being able to follow the style of the broadcaster.

The third is Agung Sukrisna (2019). He is a student of English Education in Raden Intan State Islamic University Lampung. His thesis tittle is "An Analysis of Using Code Mixing on Atta Halilintar's Video Youtube Channel". He used the descriptive qualitative method and the human research was the main instrument in his research. He analyzed two research questions. The first is the code mixing types by using the theory of Hoffman and the second is the code mixing levels by using the theory of Suwito. He discovered 32 facts of code mixing in his thesis. He discovered 93.73 percent of intra-sentential code mixing, 6.25 percent of intra-lexical code mixing, and no code mixing that involved a change in pronunciation. Then, the finding of the code mixing levels from 32 data are 56.25 percent word level, 25 percent phrase level, 12.5 percent clause level, 6.25 baster level and 0 percent of idiom level and repetition word.

From the three previous findings above, the researcher concluded that all the three discussing the subject contained code mixing. The similarity of the three previous findings is that they all use descriptive qualitative method. And another similarity from it is that the most widely used type of code mixing is Intra-Sentential code mixing. There is also a difference found that to get the types of code mixing, some of them use Hoffman's theory and some use Muysken's theory. Then, the other theories for different issues such as the theory of Suwito to analyze the levels of code mixing. The most important thing we have to know is that from the three previous findings above, all of them have different objects. Likewise with the research that will be examined

by this researcher, there is another issue that will be examined, that is how the types of code mixing including the parts of the sentence and the word formation. The researcher chose another object, namely the video small talk in Greatmind by Dian Paramita Sastrowardoyo and Marissa Anita as a research object.

2. Pertinent Ideas

a. Sociolinguistics

Sociolinguistics is the study of the relationship between language and society. According to Fishman (1972: 9), sociolinguistics is the type of language, its function, the characteristics of the speaker, and how these three elements constantly interact, change and influence in the linguistic community. It is a study of. Holmes (2000:1) stated that sociolinguistics is the study of the link between language and society. They want to know why we communicate in different ways in different social situations, and they want to figure out what language's social purpose is and how it's utilized to express social meaning. Sociolinguistics focuses on the study of the relationship between language and society in order to better understand the structure of the language and how languages work in communication (Wardhaugh, 2006: 13).

The researcher concludes from the definition above that talking about sociolinguistics has given us an illustration in our minds about language, society, the environment, the functions of language and the

effects of language can cause. The researcher also concludes that science of sociolinguistics includes every interaction by humans and whether we realize or not, sociolinguistics is implemented in our daily lives.

b. Bilingualism

Bilingualism is a familiar word for us, especially for English students who have studied sociolinguistics. When we hear the word of bilingualism, we immediately remember about language. We directly think more than one language and imagine someone who has the ability to speak and understanding two languages.

To get more accurate information about bilingualism, Spolsky (1998: 45) defines it as "a person with a functional knowledge of a second language." Multilingualism, on the other hand, refers to someone who can communicate with others in three or more languages.

In a bilingualism or multilingualism society, there is another sociolinguistic phenomenon that we often encounter, namely code mixing. We have heard and seen this phenomenon around us, especially for people who live in a bilingualism and multilingualism society. According to Wardhaugh (2006:103), code mixing happens when speakers employ both languages simultaneously to the point that they switch from one to the other within a single phrase.

Aside from code mixing, there is another phenomenon called code switching that occurs while transitioning from one language to another.

The distinction between code mixing and code switching is that code mixing occurs when two languages are used in the same sentence, whereas code switching occurs when one language is used in one sentence and another is used the following sentence.

Bilingualism is always seen as close to code mixing because code mixing only occurs if a person is bilingualism. However, bilingualism and code mixing are not similar. People who are bilingualism can speak one language well. Code mixing is only done by a bilingualism person if there are certain reasons for his speech, but once he wants to speak only one language, he can also do it well.

Speaking of bilingualism, there is also the term of "bilingual acquisition" that means it refers to the acquisition of two languages in childhood, but there is no consensus on how varying situations of bilingual acquisition can be categorized. McLaughlin (1978) is often quoted as having made a distinction between 'simultaneous' acquisition where the child receives input from both languages before his or her third birthday, and 'successive' acquisition where input from a second language is received after the third birthday. De Houwer (1995:223), however, finds McLaughlin first category too broad, and prefer to reserve the term 'Bilingual First Language Acquisition' to situation where the child is regularly exposed to two languages within the first month of birth, arguing that situations where regular exposure to a second language occurs later than one month after birth but before age 2 should be

categorized as 'Bilingual Second Language Acquisition'. She is right to argue that the age of first exposure to each language may have an effect on the course of acquisition. However, as little is known so far about the precise effect at each age, her suggestion about terminology are probably less important than her advice that researcher should 'specify exactly when their bilingual subjects were first regularly exposed to more than one language' (De Houwer 1995:223).

c. **Code Mixing**

According to Nababan's (1993: 32) theory, code mixing is the employment of two or more languages, linguistic varieties, and relaxed situations between the speaker and other persons with whom they are in intimate relationships. In conversations between specific individuals, code mixing occurs in Indonesian. Typically, they speak both their own language and Indonesian. However, when certain individuals are conversing, they frequently blend their own, in this case, Indonesian with a foreign, like English.

Code mixing occurs when a speaker uses both languages together to the extent that one utterance changes from one language to the other (Wardhaugh, 2006: 103). Code mixing is defined by Hudson (1996:53) as "when a fluent bilingual talking to another fluent bilingual changes without changing anything else in the situation".

The researcher also choose the definition theory of code mixing according to Holmes (1982:32), he said that code mixing is the use of two languages in a speaking. Code mixing talk about the situation where one language mixes with another language. The mixing of language can be in word, phrase, clause and sentence form.

The researcher concludes, based on the definitons above, that code mixing is a phenomenon that only bilingual and multilingual people experience. They frequently communicate in multiple languages. The language they mix can take the form of words, phrases, and even sentences.

1) **Code Mixing Types**

There are three types of code mixing based on syntactical patterns, according to Hoffman (1991:112). Intra-sentential code mixing, intra-lexical code mixing, and involving a change of pronunciation.

a) **Intra-Sentential Code Mixing**

This form of code mixing occurs at the end of a phrase, a clause, or a sentence boundary.

For Example:

Tapi lo tuh nggak belajar, nggak bersiap-siap untuk menerima **failure**, sementara katanya **the biggest teacher** malah **failure**

bukan sukses tentunya, gituloh. *(But you do not learn, did not prepare to accept the failure, while it says the biggest teacher is failure not the success of course, like that).*

In the above example, the code is mixed between Indonesian and English. The intra-sentential code mixing is used because the speaker mixes languages at the boundaries of the sentence, such as when the speaker says *"failure"* and *"greatest teacher"* in the same sentence.

b) **Intra-Lexical Code Mixing**

This kind of code mixing occurs within a word boundary.

For Example:

Pastinya, semua info ada di **websitenya.** *(Of course, all of the info is on his or her website).*

There is a code mixing Indonesian and English in the example above. Intra-lexical code mixing is utilized because the speaker mixes the languages at a word boundary, resulting in *"website-nya"* as the Indonesian and English mix of the speaker's utterance.

c) Involving a Change of Pronunciation

This kind of code mixing occurs at the phonological level, as when Indonesian people say in English word, but modify it to Indonesian phonological structure.

For Example:

Kini tersedia dalam **saset**. *(Now available in sachets).*

The way of pronouncing in English is *"sachet"* but it is said *"saset"* in Indonesian, that is way it is called a kind of code mixing of involving a change of pronunciation.

2) Reasons of Code Mixing

According to Hoffman (1991:116), there are seven reasons why bilingual and multilingual people mix or switch their languages. These are: quoting someone else, talking about a specific topic, interjections, showing sympathy for someone else (express solidarity), intention of clarifying the speech content for interlocutor, using repetition to make clarification, and expressing group identity.

1) Quoting somebody else

A speaker uses code mixing to quote a remark or expression that belongs to a number of well-known people. This code mix just takes the expressions or proverbs from the individual who was quoted, not the complete sentence.

2) Talking about particular a topic

In some circumstances, the speaker prefers to use a particular language in order to communicate an idea. He believes that utilizing unconventional language makes what is being spoken and understood easier. It is simpler to express their emotional state in a language other than their native tongue.

3) Interjections (inserting sentence fillers or sentence connectors)

One of the brief exclamations that a bilingual or multilingual speaker frequently uses is the interjection. Although interjections in language are acknowledged to have no grammatical meaning, they are frequently utilized by speakers in conversation. An interjection is a term that is used to express surprise, grab attention, or express strong feelings.

4) Being empathic about something (express solidarity)

When speaking empathically, a speaker frequently uses code switching or code mixing. This occurs when the speaker is speaking in the first language when all of a sudden he switches to the second language, or vice versa, when he switches from the second language to the first language.

5) Intention of clarifying the speech content for interlocutor

For bilinguals, code switching and code mixing are simpler. In conversations amongst bilinguals, there is an unusual amount of code switching and code mixing. The speaker repeats a

message from one language to another in order to ensure that what is said makes sense and facilitates a smooth exchange of ideas and information.

6) **Repetition used for clarification**

Sometimes when giving a speech, a speaker would repeat themselves to make their points clearer. In order to make his point more clear to the listener, the speaker employs two languages (codes) that he is fluent in. The identical sentence is thus repeated in two languages by the speaker. The repetition is not just for speaking clarity; it also serves to highlight the massage.

7) **Expressing group identity**

The use of code switching and code mixing by speakers to convey their group identity is another motivation for these practices. Within the academic community in their disciplinary grouping, people who belong to a community have a natural means of communication. (7) Barnet (1994).

3) **Functions of Code Mixing**

The function of code mixing can be devided into many categories such as for greeting, rejection, opinion, suggestion and emotional expression. Greeting is used just prior to a conversation. And rejection is an interpersonal situation that occurs when a person or group of people exclude an individual from a social relationship. Then, opinion is a belief that may or may not be

backed up with evidence, but which can not be provided with that evidence. Next, suggestion is giving some opinions to something and emotional expression is observable verbal and non verbal behavior that communicates emotion, can occur with or without self-awareness.

d. Parts of Sentence

Based on the Ganiu Bamgbose (2021), there are five elements of the sentence. They are subject, verb, object, complement and adjunct.

1) Subject

The person who performs an action or who acts as the verb's agent is the subject. A noun or any of its counterparts, such as a pronoun, noun phrase, or noun clause, normally creates it at the start of a sentence.

Example:

a) **Alex** ate a mango.

(Alex is the subject of the sentence. Alex is doing the action.)

b) **Alex** is a tall boy.

(Alex is the subject of the sentence. Alex is being described)

The person or object performing the action or being described is the sentence's subject. The verbs are *ate* and *is*

used in the previous sentences. These verbs have Alex as their subject. Alex is the subject of the sentences because of this.

2) **Verb**

A verb demonstrates how the idea in a sentence is expressed in terms of action, state, or process. Auxiliaries, or supporting words, may be used with the verb. In a sentence, it serves as the main verb. Without a verb, a sentence cannot be completed.

a) Main verbs or verbs of action. It is employed to convey action.

Example:

He **sings** a song.

b) Helping verb. It is used to supports the primary verb.

Example:

They **are** learning Mathematics.

(Are is *helping verb* and learning is main verb)

c) Linking verb (state of being verbs). It creates a connection between the sentence's subject and the noun or adjective that is being used to describe it.

Example:

She **feels** hungry.

d) Verb in transitive. It conveys an action directed towards a person, place or thing. A transitive verb transfers the action

from the subject or doer to the object of the action. Objects are words that carry out the action of a transitive verb.

Example:

Birds **have** feathers.

e) Intransitive verb. It does not allow a direct object. It prohibits the use of a direct object. This stands out from a transitive verb, which has one or more objects, in the sentence. When a verb cannot be followed by who or what, it is said to be intransitive.

Example:

Let's **go**

3) **Object**

Any noun or its equivalent that gets a transitive verb's action is dealt with by the object. A verb is transitive when its action is transferred to something or someone. An object in grammar is a noun, pronoun, or noun phrase attached to a verb that performs the action. In a sentence, it comes at the conclusion. Both direct and indirect objects are possible.

a) The direct object, which is typically an inanimate noun, is the immediate recipient or the action of a verb.

Example:

Loly paints **a picture**.

b) The recipient/receiver of the direct object is typically an animate noun called the indirect object.

Example:

Our grandfather built **us** a treehouse.

4) **Complement**

The component of a phrase known as the complement provides additional information about the subject or object. It completes the meaning of a subject or item, as the name suggests. An adjective or a noun or its equivalent might serve as the complement.

It should be noticed that before there can be an object complement, there must first be an object in the phrase. This is because, just as the subject complement completes the meaning of the topic, the object complement tells more about the object. The three types of complements in English are subject, verb, and object complements.

a) A word or phrase that follows a connecting verb and identifies or describes any subject is known as a subject complement. We learn more about the subject via the complement. Adjective, noun, or pronoun are all acceptable subject complements.

Example:

He is a **dentist** (adjective), the box is **a present** (noun), they will be **fine** (adjective), I am **she** (pronoun), the pizza tastes **delicious** (adjective).

b) The arrangement of one verb as the subject of another verb is known as verb complement. In English, it takes three different forms.

Example:

I ask him to **leave.** (with infinitive)

Mr. Ivan considered **leaving the job.** (with gerund)

He didn't know **that she was an actress.** (with noun clause)

c) Direct object is followed by object complement. It could be a word or phrase that provides more details about the direct object. It sort of explains what the immediate object has developed into. It could be an adjective, pronoun, or noun.

Example:

Abil made me **sad.**

"Me" is the direct object.

"Sad" is the object complement. (Adjective)

'Sad" is what I have become. (The direct object me)

5) **Adjunct**

The adjunct provides indirect information on date, location, reason, goal, requirement, concession, level, manner,

frequency, and other factors. The three main traits of adjuncts are mobility, plurality, and inversion. Mobility alludes to an adjunct's ability to change locations inside a sentence. A clause can have one or more adjuncts if it is plural. Adjuncts are used in inversion to alter the sentence's structural shape. For instance, a declarative sentence (statement) can be transformed into an interrogative sentence using an adjunct (question).

Example:

My Mom cried **loudly.**

(Loudly is the adjunct.)

My Mom cried loudly **in the grandmother's home.**

(*in the grandmother's home* is the adjunct)

e. **Part of Speech**

Parts of speech tell us how a word is going to function in the sentence (Carnie: 2005). There are some versions on categorizing of parts of speech, some English grammar sources that are ten or nine parts of speech. Those parts of speech are very important to be known. We must know that in order to be able of creating and understanding a good sentence in English. The aspect of grammar in parts of sentence are; noun, pronoun, verb, adverb, adjective, preposition, conjunction, and interjection.

1) **Noun**

   Nouns are words that refer to person, places, thing or idea. Noun can function as the subject of sentence and an object of a verb.

2) **Pronoun**

   Pronoun is a word that can function by itself as a noun phrase and that refers either to the participants in the discourse to someone or something mentioned elsewhere in the discourse.

3) **Verb**

   Verb is word that shows the actions, processes, conditions, or states of beings of people or things.

4) **Adjective**

   Adjective is one of the parts of speech that used to explain noun or pronoun which can be a thing, place, animal and etc.

5) **Adverb**

   An adverb refers to any element in a sentence used to adjust a verb, adjective, every other adverb, or may be a whole clause. Adverb may be unmarried words.

6) **Preposition**

Preposition is a word governing, and usually preceding, a noun or pronoun and expressing a relation to another word or element in the clause.

7) Conjunction

Conjunction is a word such as 'and', 'but', 'while', or 'although' that connects words, phrases, and clauses in a sentence.

8) Interjection

An interjection is a word or phrase used in a short exclamation. Interjections are often used to express sudden bursts of emotion such as anger, shock, joy, or confusion. Interjections are not considered to be complete sentences and often lack any major parts of speech. Typically, an interjection is very short: just one to a few words in length.

f. Affixation

The process of affixation involves fastening an affix to the root on either the left or right side. Affix is referred to as a suffix when it is attached to the root's right or left side. Affixes are referred to as prefixes when they are attached to the front or left side of the root (Wardhaugh, 1977: 84).

According to Chaer (2003), an affix is a component that can alter the basic form's or basic word's meaning, types, and function. Suffixes, infixes, prefixes, and circumfixes are the four different forms

of affixes (Moeliono & Dardjowidjojo, 1997: 81). A prefix is a set of letters that appears at the start of a word. A suffix, on the other hand, is a set of letters that comes after a word (Sosy, 2012). *Me-, di-,* and *ter-* are some instances of Indonesian prefixes, whereas *-an, -kan,* and *-nya* are some examples of Indonesian suffixes.

g. **Small Talk Video**

Perfectionism is a topic discussed in the video small talk. They talk about perfectionism that it actually can be a good thing. It comes from the encouragement of parents that a child cannot grow without a purpose. To achieve a purpose, the process must be done as well as possible. From childhood, children are taught the habit of how to be effective and self-confident people. And to get that all, the habit that must be done is we make promises to ourselves and keep those promises. We have to pay for the promises we make to ourselves, if we do that often then it will appear confidence in ourselves that we can be trusted. It becomes a savings of confidence for ourselves so that perfectionism in ourselves can be a good thing.

And Greatmind is one of the account names from social media on Instagram where the video small talk was shown. This account explores influencers' thoughts on ideas, aspirations, and advocacy on various life topics. Through this account, influencers share experiences that can provide motivation, inspiration, and new knowledge to listeners.

The speaker of the video small talk was Dian Paramita Sastrowardoyo and Marissa Anita was as the host . They are bilingual people. Dian was born in Jakarta while Marissa was born in Surabaya. However, both of them come from East Java. So, in speaking, apart from using Indonesian and English dialects, they also use Sundanese and Javanese dialects.
CHAPTER III

RESEARCH METHODOLOGY

In this part, the researcher shows several points related to the research methodology. These are the research methods, data source, research instrument, procedure of data collection and the data analysis technique.

1. Research Method

The method of descriptive qualitative was used in this research. According to Bogdam and Taylor (2007:3), a qualitative method is a research procedure that yields results such as the words of those who were observed, as well as data from the research such as descriptive data.

2. Data Source

To answer the research question, the researcher has used video as a data source. The data source in this research was taken from one of the video small talk in Instagram. The video small talks entitled "Perfectionism" where delivered by Dian Paramita Sastrowardoyo and Marissa Anita as hosts. Their conversation was live on June 17th 2020 and the duration during 61 minutes on a Greatmind account from Instagram. The link of the video small talk is: https://www.instagram.com/tv/CBiDjusAyAj/?igshid=guc9kkvrlt29 which is downloaded via the application "Download video from instagram" on June 19th 2020.

3. Instrument of The Research

This research conducted by used the human instrument which the researcher herself is as the instrument to collect the data. According to Ghony (2012), he said that human instrument is an instrument which is the writer himself has a role to explore the ways to obtain the data in the research. The other supporting instruments needed by the researcher such as books, pens, mobile phones and laptops.

4. Procedure Collecting Data

The procedure that the researcher had passed for collecting data as follows:

a. The researcher downloaded the video from Instagram used the application "Download video from instagram".

b. The video watched several times by the researcher.

c. From the data source, the researcher wrote the script.

5. Technique of Data Analysis

In this research, the researcher has used the techniques below to analyze the data:

a) The researcher identified the types of code mixing by reading the script.

b) Furthermore, the researcher grouped the data into code mixing types.

c) Then, the researcher identified the types of code mixing by further analyzing the part of sentence and Indonesian affixes.

d) Finally, the researcher calculates all the data based on the types of code mixing.

CHAPTER IV

FINDINGS AND DISCUSSION

This chapter reveals findings and discussion part of the research. Findings provided data found by the researcher on the three types of code mixing used by Dian Paramita Sastrowardoyo and Marissa Anita in Greatmind small talk.

1. Findings

In this part, the researcher presented findings to answer the research question about how the types of code mixing based on Hoffman's theory. And after watching the video small talk on the Greatmind account, writing the script, identifying and classifying the types of code mixing, the results of the study are as follows:

Intra-Sentential Code Mixing	: ISM
Intra-Lexical Code Mixing	: ILM
Involving a Change of Pronunciation	: ICP
Subject	: S
Verb	: V
Object	: O
Adverb	: Adv
Complement	: C
Code to data / datum	: D
Marissa Anita (the host)	: MA
Dian Paramita Sastrowardoyo (the speaker)	: DPS

From the video, there are 120 total utterances. And the utterances consisted of 2 types of code mixing. 109 utterances contained Intra-Sentential Code Mixing and 11 utterances contained Intra-Lexical Code Mixing. The frequency of code mixing found from the video displays on the table 2 below:

Table.1

No	Types of Code Mixing		Number of Uses	Percentage
1	Intra-Sentential Code Mixing	Parts of Sentence		
		S	2	1,7 %
		V	4	3,3 %
		O	38	31,7 %
		C	4	3,3 %
		Adv	5	4,2 %
		S, V	5	4,2 %
		S, O	3	2,5 %
		S, Adv	1	0,8 %
		V, O	9	7,5 %
		V, C	1	0,8 %
		O, Adv	2	1,7 %
		S, V, O	17	14,2 %
		S, V, Adv	6	5 %
		S, O, Adv	2	1,7 %
		V, O, Adv	1	0,8 %
		S, V, O, C	3	2,5 %
		S, V, O, Adv	5	4,2 %
		S, V, C, Adv	1	0,8 %
	Total		**109**	**90,9 %**
2	Intra-Lexical Code Mixing	Affixes		
		Suffix –nya	7	5,8 %
		Prefix di-	4	3,3 %
	Total		**11**	**9,1 %**
3	Involving a Change of Pronunciation		-	-
	All Total		**120**	**100 %**

In the video, there were 120 the total of code mixings identified. 109 consist of Intra-Sentential Code Mixing and 11 consist of Intra-Lexical Code Mixing. It the type of Intra-Sentential Code mixing, it was found parts of the sentence. The 5 main parts of a sentence are subject, verb, object, complement, and adverb. They are identified in the Intra-Sentential Code Mixing types in various ways, which Intra-Sentential Code Mixing consists of two subjects, four verbs, thirty eight objects, four complements, five adverbs, five subject-verbs, three subject-objects, one subject-adverb, nine verb-objects, one verb-complement, two object-adverbs, seventeen subject-verb-objects, six subject-verb-adverbs, two subject-object-adverbs, one verb-object-adverb, three subject-verb-object-complements, five subject-verb-object-adverbs, and one subject-verb-complement-adverb. Meanwhile, Intra-Lexical Code Mixing types were identified in the use of Indonesian affixes. There are two types of affixes identified, the first is the prefix *di-* which was identified four times, and followed by the suffix *–nya* which was identified seven times. Last, the data of Involving A Change of Pronunciation was not identified. The describers of the each type follow:

a)   **Intra-Sentential Code Mixing**

No	Findings	Parts of Sentence					Types of Code Mixing		
		S	V	O	C	Adv	ISM	ILM	ICP
1	Ini aku udah **live** belum? (MA / D1) Parts of sentence : o *Pardon me, have I started the live streaming now? (MA/D1)*			✓			✓		
2	Terima kasih sudah bersama saya Marissa Anita sore ini sebagai **leader** dari Greatmind Indonesia. (MA / D2) Parts of sentence : c *Thank you for having me in this afternoon, I am Marissa Anita, as the leader of Greatmind Indonesia. (MA / D2)*				✓		✓		
3	Maka itu topik yang akan kita bahas di **small talk** Greatmind kali ini adalah "Perfeksionisme". (MA / D3) Parts of sentence : adv *So, the topic that we are going to discuss in this Greatmind small talk session is "Perfectionism". (MA / D3)*					✓	✓		
4	Tiba-tiba bikin konten ini, konten itu, posting ini, posting itu, gue kayak **overwhelmed** sendiri. (DPS / D4) Parts of sentence : o *Suddenly I created this content, then that content, posted this, then posted that, I become overwhelmed. (DPS / D4)*			✓			✓		
5	**All right, now I just need to** aku harus ngundang	✓	✓			✓	✓		

No	Data	1	2	3	4	5	6	7	8
	Dian dulu loh, mana ya? (MA / D5) *Parts of sentence :* adv, s, v *All right, now I just need to invite Dian first, where is she? (MA / D5)*								
6	Sebentar, sebentar **let me see** Dian udah masuk belom ya? (MA / D6) *Parts of sentence :* v, o *Wait a minute, wait a minute, let me see if Dian has joined or not? (MA / D6)*	✓	✓			✓			
7	Lagi **waiting for** Dian. (MA / D7) *Parts of sentence* : v *We still waiting for Dian. (MA / D7)*	✓				✓			
8	Kamu sudah bersedia sore ini meluangkan waktu untuk bicara mengenai **"Perfectionism".** (MA / D9) *Parts of sentence :* o *You have taken your time this afternoon to talk about "Perfectionism". (MA / D9)*		✓			✓			
9	Ini lampu-lampu **blogger** gitu loh mbo'. (DPS / D10) *Parts of sentence :* o *These are blogger lights, guys. (DPS / D10)*		✓			✓			
10	Tolong ya ini, ini nggak **balance** nanti loh. (DPS / D11) *Parts of sentence :* o *Please, this will not be balance. (DPS / D11)*		✓			✓			
11	Udah **perfect?** (MA / D12) *Parts of sentence :* o		✓			✓			

No										
	Is it already perfect? (MA / D12)									
12	Gue kadang-kadang kalau liat lo, **should I see you as the** eee apa dulu lo kan **presenter** berita gitu. (DPS / D13)									
	Parts of sentence : s, v, o, c	✓	✓	✓	✓		✓			
	Sometimes when I see you, should I see you as eee... as we know you used to be a news presenter. (DPS/D13)									
13	Lo mau jadi assertive-assertive pembawa berita gitu, apa lo mau jadi teman gue **as an actress?** (DPS / D14)									
	Parts of sentence : o				✓		✓			
	Do you want to be an assertive news anchor or you want to be my friend as an actress? (DPS / D14)									
14	**Actually it depends on** sebenarnya yang kita definisiin sama perfeksionis, seorang perfeksionis itu gimana sih? (DPS / D15)									
	Parts of sentence : adv, s, v	✓	✓				✓	✓		
	Actually it depends on what we actually define as a perfectionist, what the perfectionist looks like? (DPS/D15)									
15	Karena benar-benar terasa **it came from good place.** (DPS / D17)									
	Parts of sentence : s, v, o	✓	✓	✓			✓			
	Because it really feels like it came from a good place. (DPS / D17)									
16	Tapi emang gitu sih, mungkin karna orang-orang kebanyakan **work from home** kali ya. (MA / D19)									
	Parts of sentence : v, o			✓	✓		✓			

No								
	But that's how it is, maybe it is because most of people work from home. (MA/D19)							
17	Kita kan semua **social distancing** nih. (DPS / D20) Parts of sentence : o *We are all social distancing now. (DPS / D20)*			✓		✓		
18	Akhirnya gue **anxious, anxiety,** akhirnya kayak ngerasa kebanyakan yang dikerjain, gitu. (DPS / D21) Parts of sentence : o *In the end, I was anxious, anxiety, finally I felt like I was doing a lot of things, like that. (DPS/D21)*			✓		✓		
19	Gue mulai meditasi, belajar soal **mindfulness.** (DPS / D22) Parts of sentence : c *I started to meditate, learn about mindfulness. (DPS / D22)*				✓	✓		
20	Akhirnya malah jadi **down** banget. (DPS / D23) Parts of sentence : o *In the end, I felt really down. (DPS / D23)*			✓		✓		
21	Jadi itu pas udah mau menerima, udah nyaman dengan ketidak ngapa-ngapainnya itu baru sekarang aku bisa **back to work** tapi lebih enak gitu. (DPS / D24) Parts of sentence : v *So, when I already to accepted it, I was comfortable with not doing anything, now I can go back to work but it's better feeling now. (DPS / D24)*	✓				✓		
22	Oh ya, kamu boleh nggak **be there and** tutup pintu di situ? (DPS / D26)	✓	✓			✓		

	Parts of sentence : v, o *Anyway, can you be there and close the door from there? (DPS/D26)*								
23	**I don't think she can stand it if** dia merasa punya anak perempuan yang dibiarkan tumbuh tanpa **purpose** gitu (DPS / D27) *Parts of sentence :* s, v, o, c *I don't think she can stand it if she feels she has a daughter whom is allowed to grow without a purpose (DPS / D27)*	✓	✓	✓	✓		✓		
24	**So,** dia tuh ngajarin gue **some of habit of how be effective people** tuh di umur delapan tahun (DPS / D28) *Parts of sentence :* c *So, she taught me some of the habits of how to be effective people at the age of eight (DPS / D28)*			✓			✓		
25	**Basically train that some habit** itu kepada kolega-koleganya di Kantor (DPS / D29) *Parts of sentence :* adv, v, o *Basically she train that some habit to her colleagues at the office (DPS / D29)*		✓	✓		✓	✓		
26	Sebelum gue memulai **live talk** sama loh nih gue baru terima pesan berantai dari group WA ibu-ibu sekolah. (DPS / D31) *Parts of sentence :* o *Before I started the live talk with you, I just received a chain message from the moms' WA group at school. (DPS / D31)*			✓			✓		
27	Akhirnya mereka janjian kita udah **lost the house** kita bingung kita gagal, akhirnya mereka janjian		✓	✓			✓		

No	Sentence									
	bunuh diri bareng. (DPS / D32) *Parts of sentence :* v, o *In the end, when they made a promise, we already lost the house, we were confused, we failed, in the end they agreed to commit suicide together. (DPS / D32)*									
28	Tapi loh tuh nggak belajar dan nggak bersiap-siap untuk menerima **failure** (DPS/ D34) *Parts of sentence :* o *But you don't learn and you're not prepared to accept the failure (DPS/D34)*			✓		✓				
29	Sementara katanya **the biggest teacher** malah **failure,** bukan sukses sebenarnya (DPS/ D35) *Parts of sentence :* s, o *Meanwhile, she said that the biggest teacher is failure, not success actually (DPS/D35)*	✓		✓		✓				
30	Ok, jangan-jangan gue lagi menuju secara **toxic success,** gue lagi menuju ke arah yang salah nih, jangan-jangan gitu loh. (DPS / D36) *Parts of sentence :* adv *Ok, maybe I'm heading towards a toxic success, I'm heading in the wrong direction, maybe that's how it is. (DPS/D36)*						✓	✓		
31	Kita kan **covid-19** nih. (DPS / D37) *Parts of sentence :* o *We are in Covid-19 situation now. (DPS/D37)*			✓		✓				
32	Karna loh kan udah punya **plan** tuh Dih. (MA / D38) *Parts of sentence :* o			✓		✓				

	Because you already have a plan, Dih. (MA/D38)								
33	Tiba-tiba semua itu **are the window**, keluar dari jendela. (MA / D39) *Parts of sentence :* v, o *Suddenly all of them are the window, out of the window. (MA/D39)*		✓	✓			✓		
34	Jadi kayaknya **that part of anxiety** yang gue rasakan. (DPS / D40) *Parts of sentence :* s, o *So, I think that's part of the anxiety that I feel. (DPS / D40)*	✓		✓			✓		
35	Jangan-jangan gue tuh sebenarnya kayak lagi menghindari **the moment that I should be spending with my effort** (DPS / D41) *Parts of sentence :* s, v, o *Maybe it's actually like I'm avoiding the moment that I should be spending with my effort (DPS / D41)*	✓	✓	✓			✓		
36	**This is** jadi menarik kan? (DPS / D42) *Parts of sentence :* s, v *This is so interesting, right? (DPS/D42)*	✓	✓				✓		
37	Kenapa gue nggak tahan banget dan **anxious** banget **just being with myself and not doing anything** gitu loh (DPS / D43) *Parts of sentence :* o *Why can't I stand with it and am so anxious just being with myself and not doing anything, you know (DPS / D43)*			✓			✓		
38	Jadi, ternyata **it's a differ analysis** lagi gitu (DPS /	✓	✓	✓			✓		

	D44) *Parts of sentence :* s, v, o *So, it turns out that it's a differ analysis again (DPS / D44)*							
39	Tapi yang menarik adalah **the way I process it** ternyata lewat meditasi itu. (DPS / D45) *Parts of sentence :* o *But what's interesting is that the way I process it turns out to be through the meditation. (DPS/D45)*			✓		✓		
40	Itukan juga sebenarnya kayak **some of addiction** kan? (DPS / D46) *Parts of sentence :* o *That's actually like some of addiction, right? (DPS/D46)*			✓		✓		
41	**I mean,** kayaknya kalo loh nggak ya? (DPS / D47) *Parts of sentence :* s, v *I mean, it seems like that you don't feel that, right? You don't feel that, do you, Mar? (DPS / D47)*	✓	✓			✓		
42	**But I like this** karna gue juga pengen dong tanya-tanya tentang loh, kenapa gue terus? (DPS / 49) *Parts of sentence :* s, v, o *But I like this because I also want to ask questions about you, why is it always me? (DPS / 49)*	✓	✓	✓		✓		
43	Gue ke Supermarket aja bisa loh sebulan itu nggak ke Supermarket, semua **online**. (DPS / D51) *Parts of sentence :* o *I can even not go to the supermarket for a month, I*			✓		✓		

No									
	do all the things by online. (DPS/D51)								
44	Mungkin karna kita tinggal di dunia yang patriakal, jadi otomatis perempuan itu lebih suka, lebih cenderung untuk **"hard on ourself"** (MA / D52)								
	Parts of sentence : o			✓			✓		
	Maybe it's because we live in a patriarchal world, so women automatically prefer to be more tend to "hard on ourself" (MA / D52)								
45	Dan suara-suara apa yang loh dengar biasanya ketika **you being hard on yourself?** (MA / D53)								
	Parts of sentence : s, o		✓	✓			✓		
	And what sounds do you usually hear when you are hard on yourself? (MA / D53)								
46	Gue perlu **clarify** dulu nih (DPS / D54)								
	Parts of sentence : v			✓			✓		
	I need to clarify it first (DPS / D54)								
47	Kalo "**hard on myself**" nih dalam arti kata kan bisa bermacam-macam nih (DPS / D55)								
	Parts of sentence : o			✓			✓		
	If the term "hard on myself", in the sense of the word, it can has various meanings (DPS / D55)								
48	Jangan sampe loh berfikiran kesannya gue tuh suka kayak **punishing myself** (DPS / D56)								
	Parts of sentence : o			✓			✓		
	I don't want you to think that I look like punishing myself (DPS / D56)								
49	Pasangannya, **the spouse** itu nggak boleh kerja (DPS/ D57)		✓				✓		

	Parts of sentence : s *The spouse, the spouse is not allowed to work (DPS/ D57)*								
50	**So, in our family's case** yang diplomat tuh eyang putri. (DPS / D59) *Parts of sentence :* o *So, in our family's case, the diplomat is the oldest grandmother. (DPS/D59)*			✓			✓		
51	Dia agak nggak **happy** juga kan? (DPS / D61) *Parts of sentence :* o *He's a little unhappy, right? (DPS / D61)*			✓			✓		
52	Maksudnya **being a father** tapi nggak bisa melakukan yang sebenarnya mungkin pengen dia lakukan. (DPS / D62) *Parts of sentence :* o *I mean being a father but not being able to do what he might actually want to do. (DPS / D62)*			✓			✓		
53	Jadi, **she learned hardly** bahwa kadang-kadang mungkin dalam kehidupan nyata kita tuh memang nggak bisa mengandalkan diri kepada **our spouse** atau laki-laki gitu loh (DPS / D63) *Parts of sentence :* s, v, adv, c *So, she learned hardly that sometimes in real life we really can't rely on our spouse or men, you know (DPS / D63)*	✓	✓		✓	✓	✓		
54	**Tradition family** justru **believe** agak lebih kayak gitu (DPS / D65) *Parts of sentence :* s, v	✓	✓				✓		

No										
	Tradition family actually believe a bit more like that (DPS / D65)									
55	Kesannya **married is a relief** gitu loh **financially** (DPS /D66) ⬜ *Parts of sentence :* s, v, o adv *The impression is that being married is a relief, financially (DPS / D66)*	✓	✓	✓		✓	✓			
56	Gue ngerasa di umur segini gue juga perlu belajar lebih **wise** lagi gitu (DPS / D67) ⬜ *Parts of sentence :* c *I feel at my age I also need to learn to be wiser again (DPS / D67)*				✓		✓			
57	**Sometimes** tuh obrolannya Oprah **and** Deepak Chopra tuh oh wow wow, kayak menarik banget gitu kayak **example..** (DPS / D68) ⬜ *Parts of sentence :* adv, o *Sometimes Oprah and Deepak Chopra's conversation is oh wow wow, like it's really interesting , for example.. (DPS / D68)*				✓		✓	✓		
58	Pernah jadi **loosing-trust** karna kekecewaan gitu kan (DPS / D70) ⬜ *Parts of sentence :* v *You ever felt lost trust because of disappointment, right? (DPS/D70)*		✓				✓			
59	Tapi kalau loh membangun kemampuan loh untuk bisa percaya terhadap sesuatu, itu **clearly, merely,** cuma berdasarkan seberapa mampu orang-orang di sekitar loh memberikan loh kemampuan untuk percaya (DPS / D71) ⬜ *Parts of sentence :* adv						✓	✓		

No	Sentence								
	But if you build your ability to be able to believe in something, that's clearly, merely, just based on how capable the people around you are giving you the ability to believe (DPS / D71)								
60	Loh perlu punya **source of trust** yang jauh lebih solid dan adanya di dalam kontrol loh (DPS / D72) Parts of sentence : o *You need to have a much more solid source of trust and it's under your control (DPS / D72)*			✓			✓		
61	Dan **you really cannot guarantee** apakah mereka dapat dipercaya atau nggak (DPS / D77) Parts of sentence : s, adv, v *And you really cannot guarantee whether they can be trusted or not (DPS/D77)*	✓	✓			✓	✓		
62	**So,** yang loh harus jadikan **base** untuk kemampuan untuk percaya, untuk punya harapan, itu adalah sesuatu yang harus ada dalam diri loh (DPS / D74) Parts of sentence : o *So, what you have to use as a base for the ability to believe, to have hope, is something that must be within you (DPS / D74)*			✓			✓		
63	Karna **what you think** adalah konsep diri gue yang gue ingat ini pasti akan mengecewakan gue nih (DPS / D75) Parts of sentence : s, v *Because what you think is my self-concept that I remember will definitely disappoint me (DPS / D75)*	✓	✓				✓		
64	**If you do that often** akhirnya luh jadi punya pengalaman (DPS / D76) Parts of sentence : s, v, o	✓	✓	✓			✓		

	If you do that are often you finally have experience (DPS / D76)							
65	Nah, untuk **answer your question** gue belum jawab pertanyaan itu ya? (DPS / D77) *Parts of sentence :* o *Well, to answer your question, I haven't answered that question yet, right? (DPS / D77)*			✓			✓	
66	Sementara hasilnya nanti itu mau berhasil apa nggak, ukuran-ukuran eksternal, itu nggak gue jadiin target karna **it's really out of my control** (DPS / D80) *Parts of sentence :* s, v, adv, o *Meanwhile the next results will be whether successful or not, external measures, I don't want to make them as my target because it's really out of my control (DPS / D80)*	✓	✓	✓		✓	✓	
67	Jadi, gue kayak **I am sorry**. (DPS / D86) *Parts of sentence :* s, v, o *So, I just like "I am sorry". (DPS / D86)*	✓	✓	✓			✓	
68	Jadi, mereka masih **figuring out career** gitu. (DPS / D83) *Parts of sentence :* v, o *So, they are still figuring out a career, like that (DPS / D83)*			✓	✓		✓	
69	Gue tuh nggak pernah punya **planning.** (DPS/ D84) *Parts of sentence :* o *I never had a plan. (DPS/ D84)*				✓		✓	
70	**I'm literally** melakukan dua hal yang karna gue terekspos dari kecil. (MA / D85)	✓	✓			✓	✓	

	Parts of sentence : s, v, adv									
	I'm literally doing two things because I was exposed since I was child. (MA / D85)									
71	Tapi intinya benang merahnya sama, **storytelling,** bercerita. (MA / D92)									
	Parts of sentence : o			✓			✓			
	But basically the conclusion is just the same, it's storytelling, telling stories. (MA/D92)									
72	**I honestly feel** kalau loh pernah nyobain kerja yang industrinya beda banget. (DPS / D87)									
	Parts of sentence : s, adv, v	✓	✓			✓	✓			
	I honestly feel that you have tried work in a very different industry. (DPS/D87)

Data 1-7, 9-15, 17, 19-24, 26-29, 31, 32, 34-47, 49, 51-57, 59, 61-63, 65-68, 70-77, 80 , 81, 83-88, 90-93, 95, 96, 98-100, 103-105, 109-114, 116, and 120 are the mixing of English word, phrase, clause and sentence form in Indonesian utterances. It means that from 109 data of Intra-Sentential Code Mixing, there are 93 data indicated as most Indonesian in the sentence utterances. For example, in **datum 34** when the speaker said "tapi loh tuh nggak belajar dan nggak bersiap-siap untuk menerima **failure**" (*But you don't learn and you're not prepared to accept the failure)*", this utterance is in Indonesian and then the speaker put English word **"failure"** in the end of her utterance, so it could be said that Intra-Sentential Code Mixing in the datum mostly Indonesian.

Intra-sentential code mixing is one of the types of code mixing that the code mixing form occurs at the end of a phrase, a clause, or a sentence boundary. The present study revealed that intra-sentential code mixing was found in the five main parts of the sentence such as subject, verb, object, complement, and adverb with 18 different variations.

1) **Subject**

   Datum 57 (DPS)

   Pasangannya, **the spouse** itu nggak boleh kerja.

   The spouse, the spouse is not allowed to work.

   Datum 57 is a type of Intra-Sentential Code Mixing uttered by the speaker in the form of subject version. The mixing occurs between Indonesian and English. The speaker mixed English word

"the spouse" in her Indonesian utterance. The insertion of English word "the spouse" in this datum has a function as the subject in the sentence utterance. The mixed subject is one of the form of parts of speech, noun.

2) Verb

Datum 54 (DPS)

Gue perlu **clarify** dulu nih.

I need to clarify it first.

The type of Intra-Sentential Code Mixing is also identified in **datum 54**. The code mixing uttered by the speaker in this form is the verb version and it occurs between Indonesian and English. In the middle of the sentence, she mixed English word "clarify" in her Indonesian utterance. The insertion of English word "clarify" in this datum has a function as the verb in the sentence utterance. The mixed verb is one of the form of parts of speech, verb.

3) Object

Datum 31 (DPS)

Sebelum gue memulai **live talk** sama loh nih gue baru terima pesan berantai dari group WA ibu-ibu sekolah.

Before I started the live talk with you, I just received a chain message from the moms' WA group at school.

The used of Intra-Sentential Code Mixing type in **datum 31** in form of the object version was indicated by the speaker. The

code mixing uttered by the speaker occurs between Indonesian and English. In her Indonesian utterance, she mixed English phrase "live talk". The insertion of English phrase "live talk" in this datum has the function as the object in the sentence utterance. The mixed object is one of the form of parts of speech, phrase.

4) **Complement**

Datum 2 (MA)

Terima kasih sudah bersama saya Marissa Anita sore ini sebagai **leader** dari Greatmind Indonesia.

Thank you for having me in this afternoon, I am Marissa Anita, as the leader of Greatmind Indonesia.

The form of the complement version was indicated in **datum 2** with Intra-Sentential Code Mixing type. It is called Intra-Sentential Code Mixing because the speaker's utterance occurs between Indonesian and English. She inserted the English word "leader" in her Indonesian utterance. And the insertion of the English word "leader" has function as the complement in the sentence utterance. The mixed complement is one of the form of parts of speech, noun.

5) **Adverb**

Datum 71 (DPS)

Tapi kalau loh membangun kemampuan loh untuk bisa percaya terhadap sesuatu, itu **clearly, merely,** cuma berdasarkan seberapa

mampu orang-orang di sekitar loh memberikan loh kemampuan untuk percaya.

But if you build your ability to be able to believe in something, that's clearly, merely, just based on how capable the people around you are giving you the ability to believe.

The Intra-Sentential Code mixing type in form of adverb version was found in **datum 71**. Like previous versions, this datum is the code mixing occurs between Indonesian and English in the utterance of the speaker. In her Indonesian utterance, she mixed the English words "clearly" and "merely". The insertion of the two English words "clearly" and "merely" have function as the adverb in the sentence utterance. The mixed adverbials is one of the form of parts of speech, adverb.

6) Subject – Verb

Datum 42 (DPS)

This is jadi menarik kan?

This is so interesting, right?

Datum 42 is a type of Intra-Sentential Code Mixing uttered by the speaker in the form of subject and verb version. The datum was identified as code mixing that occurs between Indonesian and English. The speaker mixed English words "this" and "is" in her Indonesian utterance. The insertion of "this" has a function as the subject and "is" as the verb in the sentence utterance. The mixed

subject is one of the form of parts of speech, noun. And the mixed verb is one of the form of parts of speech, verb.

7) **Subject – Object**

Datum 35 (DPS)

Sementara katanya **the biggest teacher** malah **failure,** bukan sukses sebenarnya.

Meanwhile, she said that the biggest teacher is failure, not success actually.

The type of Intra-Sentential Code Mixing is also identified in **datum 35**. The code mixing uttered by the speaker in this form are the subject and the object version. It occurs between Indonesian and English. In the middle of the sentence, she mixed English phrase "the biggest teacher" and "failure" in her Indonesian utterance. The insertion of "the biggest teacher" has a function as the subject and "failure" as the object in the sentence utterance. The first mixed subject is one of the form of parts of speech, noun. And the second mixed object is the part of verb form.

8) **Subject – Adverb**

Datum 103 (DPS)

I never really mendefinisikan itu yang namanya "gagal".

I never really defined what is called "fail".

The form of the subject and adverb version was indicated in **datum 103** with Intra-Sentential Code Mixing type. It is called Intra-Sentential Code Mixing because the speaker's utterance occurs between Indonesian and English. She inserted the English word "I" and "never really" in her Indonesian utterance. The insertion of "I" has function as the subject and "never really" as the adverb in the sentence utterance. The first mixed subject is one of the form of parts of speech, noun. And the second mixed adverbial is the part of adverb form.

9) **Verb – Object**

Datum 32 (DPS)

Akhirnya mereka janjian kita udah **lost the house** kita bingung kita gagal, akhirnya mereka janjian bunuh diri bareng.

In the end, when they made a promise, we already lost the house, we were confused, we failed, in the end they agreed to commit suicide together.

The speaker's uttered in **datum 32** was indicated as the type of Intra-Sentential Code Mixing. It is a form with a verb and object version. In the utterance, the code mixing occurs between Indonesian and English. And the speaker mixed English word "lost" and "the house" in her Indonesian utterance. The insertion of "lost" has a function as the verb and "the house" as the object in the sentence utterance. The first mixed verb is one of the form of

parts of speech, verb. And the second mixed object is the part of noun form.

10) Verb – Complement

Datum 95 (MA)

Seberapa jauh kita boleh **push** diri sendiri karna **perfectionism?**

How far can we push ourselves because of perfectionism?

The Intra-Sentential Code Mixing type with the form of verb and complement version is shown in **datum 95**. The datum occurs between Indonesian and English. In the speaker's Indonesian utterance, she mixed the word "push" and "perfectionism" in the same sentence. The insertion of "push" has a function as the verb and "perfectionism" as the complement in the sentence utterance. The first mixed verb is one of the form of parts of speech, verb. And the second mixed complement is the part of noun form.

11) Object – Adverb

Datum 91 (DPS)

Then misalnya gue bikin si **action film**.

Then, for example I make an action film.

The form of object and adverb version in the Intra-Sentential Code Mixing type was identified in **datum 91**. The speaker's utterance in the datum occurs between Indonesian and English. The speaker mixed English word "then" in the beginning

of the sentence and "action film" in the end of the sentence. The insertion of "then" has a function as the adverb and "action film" as the object in the sentence utterance. So, datum 91 contains object and adverb. The first mixed adverbial is one of the form of parts of speech, adverb. And the second mixed object is the part of phrase form.

12) **Subject – Verb – Object**

Datum 48 (MA)

Iya, maksudnya **I did my own journey**.

Yes, I mean.. I did my own journey.

      Datum 48 is a type of Intra-Sentential Code Mixing uttered by the speaker in the form of subject, verb, and object version. The speaker's utterance contains three parts of sentence and the code mixing of the utterance occurs between Indonesian and English. The speaker mixed English "I did my own journey" in her Indonesian utterance. The insertion of English "I" has a function as the subject, "did" as the verb, and "my own journey" as the object in the sentence utterance. The first mixed subject is one of the form of parts of speech, noun. The second mixed verb is the part of verb form and the third mixed follow is object as a phrase form.

13) **Subject – Verb – Adverb**

Datum 85 (MA)

I am literally melakukan dua hal yang karna gue terekspos dari kecil.

I am literally doing two things because I was exposed since I was child.

The type of Intra-Sentential Code Mixing in the form of subject, verb, and adverb version was indicated in **datum 85**. The code mixing occurs between Indonesian and English. The speaker mixed English "I am literally" in her Indonesian utterance. The insertion of English "I" has a function as the subject, "am" as the verb, and "literally" as the adverb in the sentence utterance. The first mixed subject is one of the form of parts of speech, noun. The second mixed verb is the part of verb form and the third mixed follow is adverbial as a adverb form.

14) **Subject – Object – Adverb**

  Datum 111 (DPS)

Self-love tuh adalah **basically** usaha loh untuk kayak **small service** gitu**.**

Self-love is basically an effort for something like small service, like that.

Datum 111 is the code mixing uttered by the speaker. The speaker's utterance is a type of Intra-Sentential Code Mixing with the form of subject, object, and adverb version. The code mixing occurs between Indonesian and English. She inserted the English

phrase "self-love" in the beginning of the sentence, the word of "basically" in the middle of the sentence, and the phrase "small service" in the end of the sentence. The insertion of English "self-lofe" has a function as the subject, "basically" as the adverb, and "small service" as the object in the sentence utterance. So, datum 111 contains subject, object, and adverb. The first mixed subject is one of the form of parts of speech, noun. The second mixed adverbial is the part of adverb form and the third mixed follow is object as a phrase form.

15) **Verb – Object – Adverb**

Datum 29 (DPS)

Basically train that some habit itu kepada kolega-koleganya di Kantor.

Basically she train that some habit to her colleagues at the office.

The form of the verb, object, and adverb version was indicated in **datum 29** with Intra-Sentential Code Mixing type. It is called Intra-Sentential Code Mixing because the speaker's utterance occurs between Indonesian and English. She inserted the English "basically train that some habit" in her Indonesian utterance. And the insertion of English "basically" has a function as the adverb, "train" as the verb, and "that some habit" as the object in the sentence utterance. So, datum 29 contains verb, object, and adverb. The first mixed adverbial is one of the form of

parts of speech, adverb. The second mixed verb is the part of verb form and the third mixed follow is object as a phrase form.

16) **Subject – Verb – Object – Complement**

Datum 64 (DPS)

Jadi, emang **we would never see married or finding a** jodoh tuh **as a financial asset** gitu loh.

So, surely we would never see married or find a soul mate as a financial asset, you know.

This Intra-Sentential Code Mixing type uttered by the speaker is the form of subject, verb, object and complement version. In **datum 64**, there are four parts of the sentence with code mixing occurring between English and Indonesian. The datum is English utterance mixed with Indonesian words. The speaker's utterance is "Jadi, emang **we would never see married or finding a** jodoh tuh **as a financial asset** gitu loh" (*So, surely we would never see married or find a soul mate as a financial asset, you know).* The speaker used English "we would never see married or finding a" and "as financial asset. The used of English "we" is identified as the subject, "would never see" as the verb, "married or finding a" as the object, and "as financial asset" as the complement in the sentence utterance. Data 8, 16, 25, 33, 48, 50, 58, 60,64, 78, 79, 89, 101, 106, 108, and 115 are the mixing of Indonesian word, phrase, clause and sentence form in English utterances. It means that when the speaker spoke in English, she putted or mixed an Indonesian word in her speaking or

utterance. For example in **datum 106**, the speaker mixed an Indonesian word **"gagal"** in the end of her English utterance. The speaker utterance is **"would I use the word** "gagal?" (*Would I use the word "fail"?)* and this type of code mixing is Intra-Sentential Code Mixing. In the end, it could be said that from 109 data of Intra-Sentential Code Mixing, there are 16 data indicated in mostly English.

Intra-lexical code mixing is one of the types of code mixing that occurs within a word boundary. It occurs due to the insertion of affixes of one language in a word of others language. The present study revealed that intra-lexical code mixing was found in the 2 types of affixes. The Indonesian affixes found were prefix *di-* and suffix *–nya* to English words.

1) **The Insertion of Indonesian Suffix**

   (a) Datum 82 (DPS)

   Luh kasih gue rekomendasi buku-buku dari **link-*nya*** ya?

   Can you give me book recommendations from the links?

   The suffix *–nya* was inserted by the speaker in her utterance and it was identified in **datum 82**. The suffix is attached in the end of the root word. The used of suffix *"–nya"* and English root word "link" has a meaning as "the link". The position of "link-*nya*" is as the object in the sentence utterance. The mixed object is one of the form of parts of speech, noun.

   (b) Datum 107 (MA)

   Itu **feel-*nya*** di diri kita sendiri.

The feeling is in ourselves

Datum 107 was identified that the speaker inserted the suffix
-nya in her utterance. The suffix is attached in the end of the root
word. The used of suffix *"–nya"* and English root word "feel" has a
meaning as "the feeling". The position of "feel-*nya*" is as the subject
in the sentence utterance. The mixed subject is one of the form of parts
of speech, noun.

2) **The Insertion of Indonesian Prefix**

(a) **Datum 30 (DPS)**

Trus, juga diaplikasikan ***di*-upgrading** ke gue.

Then, it was also applied and upgraded to me.

Datum 30 was identified that the speaker inserted the prefix
di- in her utterance. The speaker inserted Indonesian prefix *"di-"* in
English noun "upgrading". The prefix *di-* was used in the passive
sentence as in "*di*-upgrading" means was upgraded. The position of
"*di*-upgrading" is as the verb in the sentence utterance. The mixed
verb is one of the form of parts of speech, verb.

(b) **Datum 102 (DPS)**

Padahal ***di*-life** nggak ada yang benar-benar mati.

Whereas, in life no one really dies.

The prefix *di-* also inserted by the speaker in her utterance and
it was identified in **datum 102**. The speaker inserted Indonesian prefix
"di-" in English noun "life". The Indonesian prefix *di-* was used to

indicate the function of the preposition as in "*di*-life" means in life. The position of "*di*-life" is as the object in the sentence utterance. The mixed object is one of the form of parts of speech, noun.

b)   **Involving a Change of Pronunciation**

There is no data identified of Involving a Change of Pronunciation by the speaker.

2.   **Discussion**

The used of code mixing types Intra-Sentential and Intra-Lexical were identified uttered by the speakers. There are 120 utterances of the whole code mixing data. Of the total data, there were 109 utterances were intra-sentential code mixing, and 11 utterances were intra-lexical code mixing. Those 120 utterances contains 104 mostly Indonesian of the sentence and 16 contains utterances mostly English.

There were 90,9% of the entire code mixing data which categorized of intra-sentential. 1,7% of intra-sentential that has function as the subject in a sentence, 3,3% has function as the verb, 31,7% as the object function, 3,3% has function as the complement, 4,2% as an adverb function, 4,2% that has function as the subject and verb, 2,5% as the subject and object function, 0,8% has function as the subject and adverb, 7,5% as the verb and object, 0,8% has function as the verb and complement, 1,7% as the object and adverb function, 14,2% has function as the subject, verb, and object, 5% as the subject, verb, and adverb function, 1,7% as the subject, object, and adverb function, 0,8% has function as the verb, object, and adverb, 2,5% as the subject, verb, object, and

complement function, 4,2% as the subject, verb, object, and adverb function, and 0,8% has function as the subject, verb, complement, and adverb in the sentence produced by the speaker. Meanwhile, there were 9,1% of the entire of code mixing which categorized intra-lexical. 5,8% categorized into intra-lexical code mixing (suffix *–nya*) and 3,3% categorized into intra-lexical code mixing (prefix *di-*).

And after analyzing the data, the researcher can decide that there are four the functions of code mixing found. Firstly, informing where the speaker give the information for the listener or viewers about the topic like in *datum 3* "Maka itu topik yang akan kita bahas di small talk Greatmind kali ini adalah "Perfeksionisme" *(So, the topic that we are going to discuss in this Greatmind small talk session is "Perfectionism")*. The speaker used many code mixing in informing so that the listeners or wiewers more interested to heed the topic material. Secondly, opinion where this function is used by the speaker gives the opinion about herselves. Thirdly, rejection where this function is used to refuse something and this expression had negative form. Fourthly, emotional expression where this function is used to tells people about the feeling of the speaker.

So, the function of code mixing is based on the purpose of the communication. In this research we saw four functions of the use of code mixing in the video small talk. Generally, the researcher found that many statements used code mixing to make the listeners or viewers more interested.

Then the speaker who has the ability to speak more than one language is indicated as a bilingual person. The insertion finding in this study is supported by several previous studies. Those previous are similar as in Saldi Ady Saleh (2017), Irma Dewi Isda (2013), and Agung Sukrisna (2019). Albakry and Hunter (2008) was pointed that the speaker may modify the language used based on their cultural identities. So, the speaker changed some of the use of English to validate their own culture and their own native language.

CHAPTER V

CONCLUSION AND SUGGESTION

1. Conclusion

After analyzing all the data, based on the finding and discussion, the researcher concludes that this research was a descriptive qualitative method by applying the theory to Hoffman. There are three types of code mixing based on him, but the researcher only found two types of code mixing, those are intra-sentential and intra-lexical. The data found by the researcher were 120 utterances by the speaker. 109 utterances are categorized into intra-sentential code mixing and 11 utterances are categorized into intra-lexical code mixing. And from all utterances, 104 data stated mostly Indonesian and only 16 that mostly English. The researcher found 18 versions of the use of parts of sentence in intra-sentential. Meanwhile, the researcher also found the use of Indonesian affixes. There are two types of affixes identified, the first is the prefix *di-* and the second is suffix *–nya*. By looking at all the data, intra-sentential code mixing had more data than intra-lexical code mixing.

2. Suggestion

Based on the conclusion above, the researcher gives suggestions as follows:

1) For further researchers who want to research about code mixing, you are suggested to find new research subjects such as identifying the parts of sentences more than five, and choosing different objects such

as the other small talks with different speakers or conversations between the bilingualism blogger Youtube.

2) For all the readers in this research, the researcher suggests to watch more English conversations, so your English skills will increase, especially for people with less English skills.

48	Iya, maksudnya, **I did my own journey**. (MA / D48) Parts of sentence : s, v, o *Yes, I mean, I did my own journey. (MA/D48)*	✓	✓	✓		✓			
49	**But I like this** karna gue juga pengen dong tanya-tanya tentang loh, kenapa gue terus? (DPS / 49) Parts of sentence : s, v, o *But I like this because I also want to ask questions*	✓	✓	✓		✓			

No	Sentence								
	about you, why is it always me? (DPS / 49)								
50	**You need conscious effort** untuk **really** telfon atau **video call,** gitu loh. (DPS / D50) *Parts of sentence : s, v, o, adv.* *You need conscious effort to really do a call or video call, you know. (DPS/D50)*	✓	✓	✓		✓	✓		
51	Gue ke Supermarket aja bisa loh sebulan itu nggak ke Supermarket, semua **online**. (DPS / D51) *Parts of sentence : o* *I can even not go to the supermarket for a month, I do all the things by online. (DPS/D51)*			✓			✓		
52	Mungkin karna kita tinggal di dunia yang patriakal, jadi otomatis perempuan itu lebih suka, lebih cenderung untuk **"hard on ourself"** (MA / D52) *Parts of sentence : o* *Maybe it's because we live in a patriarchal world, so women automatically prefer to be more tend to "hard on ourself" (MA / D52)*			✓			✓		
53	Dan suara-suara apa yang loh dengar biasanya ketika **you being hard on yourself?** (MA / D53) *Parts of sentence : s, o* *And what sounds do you usually hear when you are hard on yourself? (MA / D53)*	✓		✓			✓		
54	Gue perlu **clarify** dulu nih (DPS / D54) *Parts of sentence : v* *I need to clarify it first (DPS / D54)*			✓			✓		
55	Kalo "**hard on myself**" nih dalam arti kata kan bisa bermacam-macam nih (DPS / D55)			✓			✓		

No	Data							
	Parts of sentence : o							
	If the term "hard on myself", in the sense of the word, it can has various meanings (DPS / D55)							
56	Jangan sampe loh berfikiran kesannya gue tuh suka kayak **punishing myself** (DPS / D56)							
	Parts of sentence : o		✓		✓			
	I don't want you to think that I look like punishing myself (DPS / D56)							
57	Pasangannya, **the spouse** itu nggak boleh kerja (DPS/ D57)							
	Parts of sentence : s	✓			✓			
	The spouse, the spouse is not allowed to work (DPS/ D57)							
58	**They simply need to just be there for their spouse** yang sedang bertugas menjadi diplomat. (DPS/ D58)							
	Parts of sentence : s, adv, v, o	✓	✓	✓		✓	✓	
	They simply need to just be there for their spouse who is currently serving as a diplomat. (DPS/ D58)							
59	**So, in our family's case** yang diplomat tuh eyang putri. (DPS / D59)							
	Parts of sentence : o			✓		✓		
	So, in our family's case, the diplomat is the oldest grandmother. (DPS/D59)							
60	Cuma ya **you know how Indonesian dad?** (DPS / D60)							
	Parts of sentence : s, v, o	✓	✓	✓		✓		
	But yeah, you know how Indonesian dad? (DPS/D60)							
61	Dia agak nggak **happy** juga kan? (DPS / D61)			✓		✓		

	Parts of sentence : o *He's a little unhappy, right? (DPS / D61)*								
62	Maksudnya **being a father** tapi nggak bisa melakukan yang sebenarnya mungkin pengen dia lakukan. (DPS / D62) *Parts of sentence :* o *I mean being a father but not being able to do what he might actually want to do. (DPS / D62)*		✓			✓		
63	Jadi, **she learned hardly** bahwa kadang-kadang mungkin dalam kehidupan nyata kita tuh memang nggak bisa mengandalkan diri kepada **our spouse** atau laki-laki gitu loh (DPS / D63) *Parts of sentence :* s, v, adv, c *So, she learned hardly that sometimes in real life we really can't rely on our spouse or men, you know (DPS / D63)*	✓	✓		✓	✓	✓	
64	Jadi, emang **we would never see married or finding a** jodoh tuh **as a financial asset** gitu loh (DPS / D64) *Parts of sentence :* s, v, o, c *So, surely we would never see married or find a soul mate as a financial asset, you know (DPS / D64)*	✓	✓	✓	✓		✓	
65	**Tradition family** justru **believe** agak lebih kayak gitu (DPS / D65) *Parts of sentence :* s, v *Tradition family actually believe a bit more like that (DPS / D65)*	✓	✓				✓	
66	Kesannya **married is a relief** gitu loh **financially** (DPS /D66)	✓	✓	✓		✓	✓	

	Parts of sentence : s, v, o adv *The impression is that being married is a relief, financially (DPS / D66)*								
67	Gue ngerasa di umur segini gue juga perlu belajar lebih **wise** lagi gitu (DPS / D67) *Parts of sentence :* c *I feel at my age I also need to learn to be wiser again (DPS / D67)*				✓		✓		
68	**Sometimes** tuh obrolannya Oprah **and** Deepak Chopra tuh oh wow wow, kayak menarik banget gitu kayak **example..** (DPS / D68) *Parts of sentence :* adv, o *Sometimes Oprah and Deepak Chopra's conversation is oh wow wow, like it's really interesting , for example.. (DPS / D68)*			✓		✓	✓		
69	Jadi, kadang-kadang **problem-nya** kita nggak bisa percaya orang lain itu karna kadang-kadang kita mungkin di masa lalu pernah apa ya, kayak pernah patah hati (DPS / D69) *Parts of sentence :* s *Indonesian Affixes (suffix) :* nya *So, sometimes the problem why we can't trust other people because sometimes we might have something in the past, like we've had a broken heart (DPS / D69)*	✓						✓	
70	Pernah jadi **loosing-trust** karna kekecewaan gitu kan (DPS / D70) *Parts of sentence :* v *You ever felt lost trust because of disappointment, right? (DPS/D70)*		✓				✓		
71	Tapi kalau loh membangun kemampuan loh untuk					✓	✓		

No	Data									
	bisa percaya terhadap sesuatu, itu **clearly, merely,** cuma berdasarkan seberapa mampu orang-orang di sekitar loh memberikan loh kemampuan untuk percaya (DPS / D71) *Parts of sentence :* adv *But if you build your ability to be able to believe in something, that's clearly, merely, just based on how capable the people around you are giving you the ability to believe (DPS / D71)*									
72	Loh perlu punya **source of trust** yang jauh lebih solid dan adanya di dalam kontrol loh (DPS / D72) *Parts of sentence :* o *You need to have a much more solid source of trust and it's under your control (DPS / D72)*			✓			✓			
73	Dan **you really cannot guarantee** apakah mereka dapat dipercaya atau nggak (DPS / D77) *Parts of sentence :* s, adv, v *And you really cannot guarantee whether they can be trusted or not (DPS/D77)*	✓	✓			✓	✓			
74	**So,** yang loh harus jadikan **base** untuk kemampuan untuk percaya, untuk punya harapan, itu adalah sesuatu yang harus ada dalam diri loh (DPS / D74) *Parts of sentence :* o *So, what you have to use as a base for the ability to believe, to have hope, is something that must be within you (DPS / D74)*			✓			✓			
75	Karna **what you think** adalah konsep diri gue yang gue ingat ini pasti akan mengecewakan gue nih (DPS / D75) *Parts of sentence :* s, v	✓	✓				✓			

	Because what you think is my self-concept that I remember will definitely disappoint me (DPS / D75)							
76	**If you do that often** akhirnya luh jadi punya pengalaman (DPS / D76) Parts of sentence : s, v, o *If you do that are often you finally have experience (DPS / D76)*	✓	✓	✓			✓	
77	Nah, untuk **answer your question** gue belum jawab pertanyaan itu ya? (DPS / D77) Parts of sentence : o *Well, to answer your question, I haven't answered that question yet, right? (DPS / D77)*			✓			✓	
78	**I can be responsible for** apa yang gue bikin (DPS/ D78) Parts of sentence : s, v, o *I can be responsible for what I do (DPS/ D78)*	✓	✓	✓			✓	
79	Misalnya **I am making a movie** (DPS / D79) Parts of sentence : s, v, o *For example I am making a movie (DPS / D79)*	✓	✓	✓			✓	
80	Sementara hasilnya nanti itu mau berhasil apa nggak, ukuran-ukuran eksternal, itu nggak gue jadiin target karna **it's really out of my control** (DPS / D80) Parts of sentence : s, v, adv, o *Meanwhile the next results will be whether successful or not, external measures, I don't want to make them as my target because it's really out of my control (DPS / D80)*	✓	✓	✓		✓	✓	
81	Jadi, gue kayak **I am sorry**. (DPS / D86) Parts of sentence : s, v, o	✓	✓	✓			✓	

	So, I just like "I am sorry". (DPS / D86)								
82	Luh kasih gue rekomendasi buku-buku dari **link-nya** ya? (DPS / D82) *Parts of sentence :* o *Indonesian Affixes (suffix) :* nya *Can you give me book recommendations from the links? (DPS/D82)*			✓				✓	
83	Jadi, mereka masih **figuring out career** gitu. (DPS / D83) *Parts of sentence :* v, o *So, they are still figuring out a career, like that (DPS / D83)*		✓	✓			✓		
84	Gue tuh nggak pernah punya **planning.** (DPS/ D84) *Parts of sentence :* o *I never had a plan. (DPS/ D84)*			✓			✓		
85	**I'm literally** melakukan dua hal yang karna gue terekspos dari kecil. (MA / D85) *Parts of sentence :* s, v, adv *I'm literally doing two things because I was exposed since I was child. (MA / D85)*	✓	✓			✓	✓		
86	Tapi intinya benang merahnya sama, **storytelling,** bercerita. (MA / D92) *Parts of sentence :* o *But basically the conclusion is just the same, it's storytelling, telling stories. (MA/D92)*			✓			✓		
87	**I honestly feel** kalau loh pernah nyobain kerja yang industrinya beda banget. (DPS / D87)	✓	✓			✓	✓		

	Parts of sentence : s, adv, v							
	I honestly feel that you have tried work in a very different industry. (DPS/D87)							
88	**Ok, first of all,** gue nggak pernah pakai kata-kata sempurna sih (DPS / D88)					✓	✓	
	Parts of sentence : adv							
	Ok, first of all, I never use the word "perfect" anyway (DPS / D88)							
89	Nanti **I will help you** (DPS / D89)	✓	✓	✓			✓	
	Parts of sentence : s, v, o							
	Later I will help you (DPS / D89)							
90	**I do it** sebisa mungkin baik (DPS / D90)	✓	✓	✓			✓	
	Parts of sentence : s, v, o							
	I do it as good as possible (DPS / D90)							
91	**Then** misalnya gue bikin si **action film** (DPS / D91)			✓		✓	✓	
	Parts of sentence : adv, o							
	Then, for example I make an action film (DPS / D91)							
92	Terus terang gue nggak pernah mendefinisikan yang **perfect** tuh meski gimana (DPS / D92)			✓			✓	
	Parts of sentence : o							
	Honestly, I've never defined what perfect should look like (DPS / D92)
