PERSETUJUAN PEMBIMBING

Pembimbing peneliti skripsi Saudari **Sri Ayu Lestari**, NIM: **40300112062**, mahasiswi jurusan Bahasa dan Sastra Inggris pada Fakultas Adab dan Humaniora Universitas Islam Negeri Alauddin Makassar, setelah dengan seksama meneliti dan mengoreksi skripsi yang bersangkutan dengan judul **“Pinisi Signs based on Shipbuilders’ Interpretation”**, memandang bahwa skripsi ini telah memenuhi syarat ilmiah dan dapat disetujui untuk dapat diajukan ke **Sidang Munaqasyah**.

Demikian persetujuan ini diberikan untuk diproses lebih lanjut.

ACKNOWLEDGEMENT

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Alhamdulillah rabbi ‘alamin, the researcher praises to the almighty Allah SWT for his graciousness and mercifulness thus the researcher can complete this research, peace and salutation are addressed to the beloved and chosen messenger Muhammad SAW.

The researchers realizes that in writing and finishing this research, there are many people that have provided their suggestion, advice, help and motivation. Therefore, the researcher would like to express thanks and highest appreciation to all of them.

For the first, the researcher gives her highest appreciation and deepest thankfulness to her beloved mother, Hasinang Matto, who always given her love, prayer, care and support every single time. Then the researcher gives thanks to her sisters Memi Maya Sari S.Pd and Nurfatul Windah and also her uncles Drs. Kamaruddin Matto and Muhammad Zakir Matto who have motivated and helped the researcher.

Secondly, the greatest thanks to the Rector of Alauddin State Islamic University of Makassar, Prof. Dr. Musafir Pababbari M.Si., the Dean of Adab and

Humanities Faculty, Dr. H. Barsihannor M.Ag., all the Vices of Dean of Adab and Humanities Faculty, Dr. Abd. Rahman R, M.Ag., Dr. H. Syamzan Syukur, M. Ag., and Dr. Abd. Muin, M.Hum., the Head of English and Literature Department, H.Muh. Nur Akbar Rasyid, M.Pd., M.Ed., Ph.D., and specially to the Secretary of English and Literature Department Syahrani Junaid, S.S., M.Pd for the help, and administrative support.

Thirdly, the researcher's gratitude due to her first and second supervisors, Serliah Nur, S.Pd., M.Hum., M.Ed., and Masykur Rauf, S.Hum., M.Pd., for their guidance, support, advices and their precious time during writing this thesis. Furthermore, the researcher would like to express thank to her first examiner Dr. Hj. Nuri Emmiyati, M.Pd., and her second examiner Nasrum, S.Pd., M.A. for their guidance, correction, support and advices. Besides, the researcher does not forget to say a lot of thanks to all the lecturers of English and Literature Department for their patience in sharing knowledge to the researcher during academic years.

Besides, the deepest appreciation individually and collectively thanks to students of English and Literature Department academic year 2012; AG 1 and 2, AG 5 and 6 and especially to her friends in AG 3 and 4 for the togetherness that the researcher passed in university. Furthermore, for dearest friends that always give support and help during writing this research, Ika Fitriani S.Hum., Mujahidah S.Hum., Marwah Wahyuni S.Hum., Anna Hamdana S.Hum., Masriah S.Hum., Muhammad Nasri T, Suriadi, Muhammad Syaiful S, Taswin, Nadiar Saputra S.Hum.,

Kurniadi S.Hum., Nunung Indasari, Hasmiati S.Hum, Sitti Nur Hikmah, Haerani Mustawan S.Hum, Kurniawati, Andi Nirwana S.Hum., Tauhid, Nurhasanah S.Hum, Ambran Bin Jamaluddin S.Hum., Hardillah, Nurlia Kamrah, and Thesa Brigda Dian Astiti.

Furthermore, her special thanks to her best friends Andi Bobby Marigau, Mohammad Hazrul Bin Sirajuddin S.H., Hastuti who had accompanied her since graduate from senior high school, always helped her and sharing everything. The researcher does not forget to say sweet thanks to her housemates Muhammad Arham Latif, Mutmainnah and Inris Winni.

Moreover, the researcher would say the greatest thanks to Organization of UKM Sb eSA especially to her seniors Hamdan, Sarsil Martin, Ferdi Lafiek, Afrianto Bustan, and Huzaifah for the experience, knowledge, brotherhood, support and advice.

Finally, May Allah SWT reward lot of happiness and blessing to the researcher.

Title : Pinisi Signs based on Shipbuilders' Interpretation
Supervisor I : Serliah Nur
Supervisor II : Masykur Rauf

This research discussed about interpretation which devoted to the sign interpretation which aim to describe about shipbuilders' interpretation of Pinisi sign. This research focused on shipbuilders in Tanah Beru and Tanah Lemo Bulukumba regency which had three levels; *Panrita Lopi*, *Pungkaha*, and *Sahi*. This research based on sign interpretation using theory of Ferdinand De Saussure about sign "Signifier and Signified". This research was descriptive qualitative method. This research actually used interview sheet as an instrument in order to get the shipbuilders' interpretation and there were 5 respondents in this research. The findings showed that the shipbuilders' interpretation of signs in Pinisi ship was influenced by the level of shipbuilder which consisted of *Panrita Lopi*, *Pungkaha*, and *Sahi*. Each level of shipbuilders has similar and different interpretation of the signs, it was caused by the differences in employment, education and experience that effected to their knowledge about Pinisi sign. Furthermore, there were 7 signs in Pinisi ship based on shipbuilders interpretation, those were; signifier seven sails signified as Surah Al-Fatihah which represented the Holy Qur'an and 7 oceans, signifier two masts signified as two sentences of syahadat, signifier kalabiseang signified as human's spine, signifier kelu signified as human's rib, signifier lepe signified as human's vine, the ship shell signified the human's skin, the stem signified the human's head.

Key Words: Sign, Shipbuilder, Pinisi, Interpretation.

CHAPTER I

INTRODUCTION

This chapter starts with background of study about Pinisi. Then, it presents research questions, objective of the research, significances of the research, and scopes of the research.

A. Background

As human being live in form of group and always do interaction with other people, of course anybody needs a communication tool to interact with other people. The tool is language, in order to make them understand each other about anything.

Kusuma (2012:2) says that language is not limited to what people are saying but it consists of signs around us, everybody can transfer what they feel and what they want to other people by using sign. Eco in Nilasari (2014:5) adds that sign is anything that is based on society agreement, can be treated as something which represents something else.

A sign is a way to transfer some messages or interacting with each other, however sometimes everybody does not realize that their life is full of anything which called sign. There are many signs that only particular people can interpret them. Sign is not always can be understood correctly and equally among the people because of everybody has their own interpretation of the meaning based on the background or

society agreement. Interpretation is always based on the background of people who interpret, so the interpretation of the same object can be different if the object is interpreted by different people.

For example in one of cultural products that is Tongkonan House, there is a decor namely the horn of buffalo composed on mast of front house side which functioned as sign. When the horn composed more increasingly it means that the owner of that house has high social strata.

The example above showed relation between language and culture, the buffalo horn is one of cultural products and it function as sign is type of language or tool to extend some messages. In this research, the researcher analyzed one of cultural product that is Pinisi. Pelly in Saenong (2013:60) says that Pinisi is a sailboat model has seven sails which different from another Bugis sailboat. Pinisi is not a strange thing anymore, many people like to associate something with Pinisi such as the Pinisi tower (State University of Makassar) and logo of state Islamic university itself is associated with Pinisi, these reality is showed that Pinisi is not just a ship like another traditional ship, due to the researcher analyzed about Pinisi sign is based on interpration of shipbuilders which have three levels; Panrita Lopi, Pungkaha and Sahi.

In analyzing sign the researcher used semiotic approach, because of Eco in Nilasari (2014:5) says that semiotic theory can explains sign phenomena more

broadly. Peirce in Zoest and Sudjiman (1992:1) proposes the word “semiotic” as a synonym for the word “logic”, he assumes that logic must learn how people thinking and “think” conducted by the signs, sign enabled someone to think, relate to others, and give meaning to what is shown by the universe. The researcher used semiotic approach because of semiotic is part of linguistics, sign can be seen as language that expresses idea, and the main indicator of linguistic is language.

So, the researcher used semiotic theory of the Swiss linguist Ferdinand de Saussure. He claims that sign is composed of signifier and signified, signifier as the form that the sign takes and the signified as the concept to which it refers. His model of sign is famous as the dyadic tradition.

Therefore, the researcher analyzed Pinisi based on the interpretation of Pinisi shipbuilder to know the philosophy meaning of Pinisi under the title: “Pinisi Signs based on Shipbuilder’s Interpretation (Semiotic Approach).

B. Research Question

Based on the background above, the writer formulated research questions as follows:

“How are the shipbuilders’ interpretations of signs in Pinisi ship?”

C. Objective of the Research

Based on the research question above, the objective of this research was to explain about the shipbuilder's interpretation of signs in Pinisi ship.

D. Significances of the Research

The researcher took two significances of the research in facilitating the reader who are interested in reading this research. The significances of this research were as follows:

1. Theoretically, the significances of this research were to enrich and expand study about linguistic. Besides, the result of this research may help the readers expand their knowledge about philosophy meaning in cultural product.
2. Practically, the significance of this research was expected to be useful as a reference for next similar research. Furthermore, the result of this research can be valuable for anyone who loves cultural product. Pinisi ship as one of cultural product has a lot of significant value.

E. Scope of the Research

The scope of this research limited to analyze Pinisi sign based on the interpretation of 5 shipbuilders in 2 villages in Bulukumba regency those are Tanah Lemo and Tanah Beru. Furthermore the researcher used theory of sign by Saussure about signifier and signified to analyze the result of interpretation.

CHAPTER II

REVIEW OF LITERARY THEORY

This chapter explained about the review of related theory, which dealt with previous findings and some pertinent ideas.

A. Previous findings

Stira (2012) analyzed “The Symbols Interpretation in Tongkonan House by Roland Barthes’ Theory”. The object of this research was Tongkonan House. The kind of this research was descriptive qualitative, and the researcher used semiotic theory of Roland Barthes’ theory about signifier and signified. The purpose of this thesis is to find signifier as symbol (form) and signified as (concept). The researcher found nineteen kinds of symbols in Tongkonan house.

Nur (2012) conducted a research with the title “Interpretation of Image Advertising by Using Peirce Semiotic Approach”. This research aimed to find out the kind of visual sign in image advertising and the connotative meanings of those image advertising. The object of this research was image advertising. This research used qualitative method with semiotic theory by Pierce. Based on the result of his research, he found 28 visual signs including 13 symbols, 10 icon, and 5 indexes. All of those signs formed connotative meaning in six image advertising.

Kusuma (2011) discussed about “The interpretation of Pictures in Commercial Advertisement (Semiotic Approach)”. The object of his research is picture in commercial advertisement. In this research, the researcher used descriptive qualitative method and semiotic theory that aims to analyze the relationship between picture and text in message construction process, in another item was the symbolic and text meaning in the advertisement. He found 3 relationships among picture and text in message construction process. The writer also found 2 symbolic meaning namely connotative and denotative meanings in the advertisement.

The similarities of the research with the previous findings above were the talking about sign and interpretation.

The differences of this research with previous findings above were object of the research and theory which used by them. Specifically, object of Stira’s research is Tongkonan house and object of Nur’s research is image advertising and object of Kusuma’s research is pictures in commercial advertisement, while the object of this research focused on shipbuilders’ interpretation of Pinisi sign. The theory of Stira’s research is semiotic theory of Roland Barthes, theory of Nur’s research is sign theory by Peirce, and theory of Kusuma’s research is semiotic theory, while the theory of this research is linguistic sign theory by Saussure.

B. Pertinent Ideas

1. Sign

Chandler (2002:20) says that Saussure defined a sign as being composed of a “signifier” and a “signified”, signifier as the form that the sign takes and the signified as the concept to which it refers.

Muzir (2009:7) claims that a sign is everything which can be taken as significantly substituting for something else, this something else does not necessarily have to exist or to actually be somewhere at the moment a sign stands in front it.

The discipline which study about sign is semiotic. Eco says that in principle, semiotic is a discipline which studies about everything that can be used to lie. Eco in Nilasari (2014:5) adds that semiotic theory can explains vehicle of sign phenomena more broadly, semiotic more observe the sign meaning and the way of shown by signs, sign is everything which based on the society convention and can be taken as “something” which represent something else.

Semiotic is part of linguistic because of sign can be seen as language that expresses idea. The view that semiotics and linguistics are coequal is maintained on utilitarian rather than abstract grounds. As Metz (1947:60), for instance, has expostulated, ‘In theory, linguistics is only a branch of semiotics, but in fact semiotics was created from linguistic. The main object of linguistic is language; Thomas and Wareing (1998) said that language is a combination of small units into large units for purpose of communication. In addition Moran (2001:35) claims that the members of

the culture have created the language to carry out all their cultural practices, to identify and organize all their cultural products. Kottak (2006:128) adds that language is our principal of communicating, but it isn't the only one we use, we communicate when we transmit information about ourselves to others and receive such information from them, so when anybody are communicating, they involves sign as a most important part of language.

Saussure's idea about semiology is the relation between signifier and signified by conventions, commonly called as the significance. Such as expressed by Dampoli (2012:40) that semiotic significance is sign system that studies about relation of sign system based on certain rules or conventions, social convention is required to be able interpret the sign. Besides that, Whannel (2003:54) adds that semiotic is concerned with how signs are produced, maintained, charged. This is way semiotics is sometimes called the study of the process of signification.

Semiotic is the science of communication and sign system, in short, of the ways people understand phenomenon organize them mentally and of the ways in which they devise means for transmitting that understanding and for sharing it with other. According to Eco (1979:4) a general semiotic should include not only a theory of how codes may establish ruler for system of signification but a theory of how signs may be produced and interpreted. A theory of codes may clarify aspects of signification, while a theory of sign production may clarify aspects of communication. Semiotic is considered as the theory of production and interpretation

of meaning. Such as Chandler (1994:2) says that Meaning is made by the deployment of acts and objects which function as “signs” in relation to other signs. In general meaning is not believed to reside within any particular object, text or process, rather, meaning arises during the communication process itself.

Littlejohn (1996:64) says that in this world there are many things that can be communicated; sign is the basis of all communication. Humans can be related or communicated with each other through the sign. Chandler (2002:20) says that the notion of the sign is central to the semiotics approach to the study of communication, the term can refer to the relationship among the elements of the semiotic model, or it can be used to indicate the first of the three elements, i.e. the physical thing perceived. Chandler (1994:6) adds that signs take the form of words, image, sounds, odors, flavors, acts, or objects. Anything can be a sign as long as someone interprets it as ‘signifying’ something-referring to or standing for something other than itself.

Chandler (2002:20) says that model of sign by Saussure is in the dyadic tradition, that is;

Figure: 2.1. The dyadic tradition

Saussure in Pilliang (2013: 90) describes that "sign" is a unity that cannot be separated, as well as the two sides of a piece of paper, the side of signifier to describe form or expression and another side is signified to explain concept or meaning. Signifier and signified are based on conventions, agreements or regulations of the culture of sign user, Saussure emphasizes that in the community of language needs social convention, one word has a particular meaning due to there is social agreement among the community of language users.

In semiotic, denotation and connotation are terms describing the relationship between the signifier and signified. Chandler (1994:4) explains that sign which have different "subjective" meanings that arise from each individual's personal experience, it is called the connotation of the sign. The denotation of a sign represents an agreement among a group people that they will share that meaning of the sign among themselves, meaning of this type are said to arise through social convention.

2. Interpretation

Interpretation is meaning, impressions or views of an object. Uniawati (2007:33) claims that interpretation is functioned to reveals and opens something that is a message of reality, interpretation is usually used to get an understanding or a knowledge about something which more clearly and deeply. Interpretation is always based on the background of people who interpret, so the interpretation of the same object can be different if the object interpreted by different people.

Interpretation in this research is an effort to understand meaning of signs in Pinisi. The result of interpretation used to see how the shipbuilders understand the meaning of signs in Pinisi and the effect of shipbuilder level toward the interpretation.

3. Pinisi Ship

There are several opinions of Pinisi original name; the first is Pelly in Saenong (2013:42) he presumes that “Pinisi” word is coming from “Venecia” word which is the name of a port city in Italy, his argument is based on a source that “Pinisi” is a sail model which consists of seven sails, that is a sail model of Europe sailboat. Pinisi naming associated with the wont of Bugis-Makassar people that always perpetuate everything which are special and important such as place to the name of their favorite objects, including their ship. Pinisi naming is intent to perpetuate the name of original place of that sail model that is “Venecia”, however “Venecia” word is becoming “Pinisi” because of phonemic process according to Konjo dialect.

The second is Koro in Saenong (2013:43). He assumes that Pinisi name given by King Tallo VII, he is I manyingarang Dg. Makkilo. Pinisi derives from two words; these are “Picuru” which means a good pattern, and the word “Binisi” is the name of a type of small fish that agile and tough. King Tallo called his ship by combining these words Picuru and Binisi to be Pinisi.

The researcher has done pre-observation on 30th July 2016 to complete the data about the history of Pinisi and the level of shipbuilder in Tanah Lemo. In this pre-observation the researcher has interviewed two informants, they are; Burhanuddin S.Sos., the chief of Tanah Lemo village and Padde, who is one of the bosses in “Haji Ullly Boat (The Real Pinisi)” shipbuilding.

Padde opines that Pinisi word comes from Bugis “Panisi” which means insert. Mappanisi (insert) is plugging all of connection among; boards, wall and floor by certain material in order to the water does not enter in the ship. This opinion based on the argument that Bugis people are the first one using Pinisi ship, they are from Ancu’ of Bone regency. “Lopi dipanisi”, means ship which insert. Panisi word became Pinisi because of phonemics proses.

Pinisi ship has been used since hundreds years ago by sailors of Bugis Makassar. Saenong (2013: 10) says that there are several types of ship that used by sailors of Bugis-Makassar since yore, but the renowned one is Pinisi which they created around 19th century. He adds that firstly, the transportation tool which used by sailors Bugis-Makassar in waters was a raft and then a boat is made of large logs which dredged and usually called a dredger.

As the development of human needs, the transportation tool was growth experiencing also. Saenong (2013: 48) says that the sailors of Bugis-Makassar using

dredger boat is no longer, but they are already using ship with larger size and the hull made of plank which arranged and formed.

Saenong (2013: 48) assumes that the first classic ship which created is Pa'dewakang ship. This ship is made of pieces of board which arranged, and the sail shape is rectangular. There are also several types of Pa'dewakang ship which is taking additional sail on the front; triangle taper.

Then the ship modifications of Pa'dewakang are Pajala and Patorani. The difference between Pajala and Patorani is just in size. Patorani is larger than Pajala. Saenong (2013:50) claims that both of these ships have sail model which is same with sail model of Pa'dewakang. And on the bow there is a place for anchor.

The development of Pajala ship is Salompong ship. Saenong (2013: 56) adds that Salompong ship has additional composition on top board. On the backside, this board addition forms rembasang (tail on stern ship). Salompong small size is still using a rectangular sail, while Salompong large size already has two poles and seven sails. This sail model is basic of Pinisi sail model.

After that, Salompong ship is growing up again, Saenong (2013: 28) believes that based on sailor experience, Salompong ship not only slow rapid, but also unsafe. When this ship is loaded of cargo, water enter into the ship because of the ship prow is too low. Therefore, Salompong ship is modified again to produce a new type that is Palari ship.

Saenong (2013: 59) says that Palari ship which is modified version of Salompong small size is using a pole and two sails. The ship prow wears anjong (Beam which sticking out forward at the ship prow), and ship stern have rembasang model. Palari ship which is modified version of Salompong big size have prow with taper shape, and ship stern still have rembasang model. This ship was already wearing two poles and seven sails, so it called Palari pinisi and finally better known as Pinisi.

The characteristic of Pinisi which distinguishes it between another ships from South Sulawesi are; Pinisi have two poles with seven sails, the ship prow wears anjong and ship stern have rembasang model.

According to Tanah Lemo village chief that Pinisi building is based on role of Ara people, Bira and Tanah Lemo. Ara people are specialist in ship building technique, Tanah Lemo people are specialist in sublimate work of ship building. Meanwhile, Bira people are skilled sailor and have a role as ship owner is decisive the ship model/style.

As a cultural product, the production of Pinisi is inseparable from the shipbuilder's traditions and cultural values. Saenong (2013:113) says that they believe that Pinisi is "human" in ship form, Pinisi existence can be similar with human, because both have two main elements; they are body (form) and soul. Body (form) can be seen meanwhile soul is a mysterious thing.

Rahman in Saenong (2013:14) assumes that human and ship role are the same, they are born to do cruise missions; people are born for the mission "cruise" across the life ocean, while the ship was "born" to do the voyage mission across the ocean. Departing from this reliance, then the parts of Pinisi form laden with meaning and specific sign.

4. Shipbuilder

Pinisi shipbuilder whose famous are in Bulukumba, shipbuilders have three level, those are; Panrita lopi, Pungkaha and Sahi.

Padde says that panrita lopi is shipbuilder expert; we cannot judge by our self that we are panrita Lopi but based on others judgments. Someone could be a panrita lopi when the person is recognized by community especially the shipbuilders that this person have experience in shipbuilding, the person can leads everything related to shipbuilding, able to respect and be respected essentially. Pungkaha is chief of ship laborer, they can preside labors in one ship building. Pungkaha have double role: as a charge of work contractor in shipbuilding and also as a teacher of sahi. The last is sahi, they are laborers. Sahi consists of two levels namely sahi kabusu and sahi beginners. Sahi kabusu usually consists of senior of sahi or pungkaha candidate, and sahi beginners consist of teenagers which newly involved in shipbuilding.

The expertise of ship building is closely related with the legend of Sawerigading's ship. Sawerigading is son of the Luwu king. Although the legend

appears in different versions, the researcher just takes the legend based on information from Burhanuddin, he says that once upon a time Sawerigading was voyaging to China –Bone to propose marriage Princes We Cudai. The ship which used by Sawerigading was made of a giant tree. The giant tree was caused an earthquake when it cut down and sank into earth with Sawerigading's grandmother. The giant tree which had changed became a ship with his grandmother was reappeared on coast where Sawerigading was waited. When he was homeward, his ship attacked by thunderstorm until destroyed. Pieces of the ship has stranded in several places around Tanjung Bira. The ship body stranded in Ara, the ship Sotting (the foundation beam on the ship, front and rear) stranded in Tanah Lemo, sails and ropes strand in Bira.

Burhanuddin says that they believe that the expertise of people; Bira, Ara and Tanah Lemo has an element of magic because of Sawerigading's ship was created by his grandmother with supernatural power. So, the expertise of Ara people in ship building be based on the discovery of Sawerigading's ship body that reassembled by them, Burhanuddin adds that Ara people are get basic inspiration of ship building from that assembly, Tanah Lemo people believe that their expertise also comes from the discovery of Sawerigading's ship, they are famous with skillful in shaping sotting and their work is delicate, likewise Bira people believe that sailing expertise which they have also from the discovery of sails and ropes of Sawerigading's ship.

CHAPTER III

RESEARCH METHODOLOGY

This chapter consisted of the research design, source of data, instrument of the research, procedures of data collection and techniques of data analysis.

A. Research Design

The researcher used descriptive qualitative method. According to Sugiyono (2014:14), qualitative research method or interpretative method is a method which results more concerning with interpretation of data which found in the field. So, the researcher used this method because of this method is a method that can analyze the case deeply. Besides that this method was used to describe the result and explain about the shipbuilder's interpretation of Pinisi sign.

B. Source of Data

The researcher took the data from shipbuilders in Tanah Beru and Tanah Lemo village in Bulukumba regency on December 26th 2016. The researcher chose these places due to these places are famous as places of Pinisi shipbuilder who knew well about Pinisi, besides, Tanah Beru and Tanah Lemo are place which have a lot of shipbuilding especially Pinisi, so it made the researcher easy to find out shipbuilder there.

Besides, the researcher used purpose sampling to determine the informants. There were 5 shipbuilders that was chosen by the researcher as informant, they are Panrita Lopi named Daeng Beka (55) who worked as shipbuilder for around 40 years, 1st Pungkaha named Daeng Rate Lanke (47) who worked as shipbuilder for around 20 years, 2nd Pungkaha named Daeng Raja (43) who worked as shipbuilder for around 10 years, 1st Sahi named Daeng Pore Hasanuddin (37) who worked as shipbuilder almost 10 years and 2nd Sahi named Ali (22) who worked as shipbuilder more than 5 years.

C. Instrument of The Research

The instrument of this research was open ended question. Open ended question was used to collect the data. An open – ended question is a type of question that researcher pose to research participants that allows them to select how they orient to the research topic (Roulston in Given, 2008:582). Open – ended question which used by the researcher is free response without any list questions. Moreover, the researcher took documentation to get the valid data.

D. Procedures of Data Collection

In collecting the data, the researcher applied several procedures as follows:

1. The researcher asked some shipbuilders who wanted to be informant for researcher's research.

2. The researcher classified the shipbuilders based on shipbuilders level, those are; Panrita Lopi, Pungkaha, and Sahi.
3. The researcher interviewed informants. Then, the researcher used notebook to write down the data findings and open ended question used to interview the shipbuilders. In addition, the researcher did the documentation those are record the interview by using digital record and take picture while doing interview.

E. Technique of Data Analysis

In analyzing the data, the researchers began by displaying the data which were found in the field. The researcher reduced the data, after that the researcher described the data findings which was result of reduction, and then categorized the data, further the data were analyzed by Saussure model of sign about signifier and signified.

CHAPTER IV

FINDING AND DISCUSSION

This chapter dealt with finding of the research and discussion of the finding. The findings were presented as data description, and the discussion reveals further arguments and interpretations of the findings were given.

A. Findings

In this part, the researcher presented the results of the research about shipbuilders' interpretation of signs in Pinisi ship that interviewed on December 26th 2017 in Tanah Beru and Tanah Lemo village, Bulukumba regency. Through interviewing 5 shipbuilders that have 3 levels; *Panrita Lopi* is Daeng Beka (55 years old), *Pungkaha* are Daeng Rate Lanke (47 years old) and Daeng Raja (43 years old) and level *Sahi* are Daeng Pore Hasanuddin (37) and Ali (22), it was found that there were 7 signs in Pinisi ship and the function of Pinisi ship as sign, each of level of shipbuilders has similar and different interpretation of the signs. Pinisi sign were analyzed by using Saussure's theory about sign, Saussure defined a sign as being composed of a "signifier" and a "signified", signifier as the form that the sign takes and the signified as the concept to which it refers. The interpretations of the signs are described as follows:

The Seven Sails

Picture: 4.1

Extract 1 described by Panrita Lopi “... *the seven sails used to symbolize the seven opening verse of Al-Qur’an, surah Al-Fatihah.*”

Extract 2 described by 1st Pungkaha “... *the seven sails are symbolizing Al-Fatihah.*”

Extract 3 described by 2nd Pungkaha “... *the seven sails means seven ocean or there were people said that it was like surah Al-Fatihah...*”

1st and 2nd Sahi did not mention the interpretation of 7 sails.

The researcher found the shipbuilders' interpretation about the seven sails as Surah Al-Fatihah which represents Holy Qur'an, another interpretation of the seven sails is 7 oceans. On the sign 'the seven sails', Panrita Lopi, 1st Pungkaha and 2nd Pungkaha gave similar interpretation to sign 'the seven sails' as 7 verses in the opening Surah in Holy Qur'an (Al- fatihah). Besides that, 2nd Pungkaha add another interpretation about sign 'the seven sails' as 7 oceans. While 1st and 2nd Sahi did not mention the interpretation of sign 'the seven sails', because of they did not know the meaning of sign 'the seven sails'

The sail of Pinisi ship is consisted of 7 sails. 7 sails are interpreted as Surah Al-Fatihah because of surah Al-Fatihah also consists of 7 verses. Further, Surah Al-Fatihah which is the opening Surah in Holy Qur'an used to represent the Holy Qur'an. The Holy Qur'an is believed as a handle or a guideline for Muslims in life, as well as the seven sails on Pinisi ship used as main tool to move Pinisi ship which sailed on ocean. In addition, Pinisi sails also interpreted as 7 oceans due to both have same amount.

The Two Masts

Picture: 4.2

Extract 4 described by Panrita Lopi “... *two masts are symbolizing two sentences of syahadat, anyway.*”

Extract 5 described by 1st Pungkaha “... *the masts are symbolizing two sentences of syahadat.*”

Extract 6 described by 2nd Pungkaha “... *then, the two masts, it means like two sentences of syahadat.*”

Extract 7 described by 1st Sahi “... *those are masts of sails, place for fastened the sails.*”

2nd Sahi did not mention the interpretation of two masts.

The researcher found the shipbuilders' interpretation about 2 masts as two sentences of syahadat. There are 2 masts in Pinisi ship, the mast is a pole made from wood or carbon fiber, placed vertically on a boat used to support sails. On the sign 'the masts', Panrita Lopi 1st Pungkaha and 2nd Pungkaha gave similar interpretation that sign 'the masts' interpreted as 2 sentence of syahadat. 1st Sahi just mentioned function of 'the masts' as place to fasten the sails. While 2nd Sahi did not mention interpretation of sign 'the masts', because of they did not the meaning of sign 'the masts'.

The masts are interpreted as two sentences of Syahadat. Syahadat is confession that there is no God expect Allah and Muhammad is messenger of Allah. So, if people do not belief in this confession then they will not survive in living life to afterlife. Similarly, Pinisi ship which has sails (in this case mast) is different with ship without masts for sails. The ship which used masts for sails will be faster and safe during sailing in ocean, it compared with the ships that used only one mast or not use it at all.

The Keel (*Kalabiseang*)

Picture: 4.3

Extract 8 described by Panrita Lopi “... *kalabiseang* is symbolizing human’s spine.”

Extract 9 described by 1st Pungkaha “...*kalabiseang* similar to human’s spine.”

2nd Pungkaha did not know the interpretation of *kalabiseang* such **extract 10** “I do not know the meaning of *kalabiseang*.”

1st and 2nd Sahi did not mention the interpretation of *kalabiseang*.

The researcher found the shipbuilders' interpretation of the keel as human's spine. Kalabiseang or keel is a long, slim plank that juts out from the bottom of the hull, provides an underwater balancing force that keeps the ship from tipping over. On the sign 'the keel', Panrita Lopi and 1st Pungkaha gave similar interpretation that sign 'the keel' interpreted as human's spine. While, 1st Sahi, 2nd Sahi, and 2nd Pungkaha did not mention the interpretation of sign 'the keel', because of they did not know the meaning of sign 'the keel'.

The keel interpreted as human's spine because it similar with the shape of human's spine, it is based on belief of shipbuilder society that ship is similar with human.

The Frame (*Ketu*)

Picture: 4.4

Extract 11 described by Panrita Lopi “... *kelu or frame yaa.. it is symbolizing human’s ribs as well.*”

Extract 12 described by 1st Pungkaha “... this is frame.”

2nd Pungkaha, 1st and 2nd Sahi, they did not mention the interpretation of *kelu*.

The researcher found the shipbuilders’ interpretation of the frame as human’s ribs. *Kelu* is ship frame. On the sign ‘the frame’, Panrita Lopi gave interpretation that sign ‘the frame’ interpreted as human’s ribs. 1st Pungkaha just mentioned another name of ‘*kelu*’ that is frame. While, 2nd Pungkaha, 1st Sahi and 2nd Sahi did not mention the interpretation of sign ‘*kelu*’ because of they did not mention the meaning of sign ‘*kelu*’.

Kelu interpreted as human’s ribs because its shape is similar with human’s ribs. This interpretation also related to the belief of shipbuilder society about ship.

The Beams (*Lepe*)

UNIVERSITAS ISLAM NEGERI
AL AUDDIN
MAKASSAR

Picture: 4.5

Extract 13 described by Panrita Lopi “... then, there is *lepe* which symbolizing human’s vine.”

2 Pungkaha and 2 Sahi did not mention the interpretation of *lepe*.

The next item is *lepe*, the researcher was found the shipbuilders’ interpretation of *lepe* as human’s vein. *Lepe* interpreted as human’s vein because model of *lepe* is look like human’s vine which crawl on human’s tendon. On the sign ‘*lepe*’, *Panrita*

Lopi gave interpretation that sign ‘lepe’ interpreted as human’s vine. While 2 *Pungkaha* and 2 *Sahi* did not mention the interpretation of sign ‘lepe’, because of they did not know the meaning of sign ‘lepe’ The Interpretation also based on the believe of shipbuilder about ship.

The Ship Shell

Picture: 4.6

Extract 14 described by Panrita Lopi “...wall of Pinisi ship is symbolizing human’s skin.”

Extract 15 described by 1st Pungkaha “... *yaah.. and the wall similar to human’s skin.*”

1st, 2nd Sahi and 2nd Pungkaha did not mention the interpretation of the wall of Pinisi ship.

The researcher found the shipbuilders’ interpretation of the ship shell as human’s skin. On the sign ‘the ship shell’, Panrita Lopi and 1st *Pungkaha* gave similar interpretation that sign ‘the ship shell’ interpreted as human’s skin. While 2nd *Pungkaha*, 1st *Sahi*, and 2nd *Sahi* did not mention the interpretation of sign ‘the ship shell’ because of they did not know the meaning of sign ‘the ship shell’. The ship shell interpreted as human’s skin for the same function as wrapping, and out part of ship or human body.

The Stem (*Ulu Sotting*)

Picture: 4.7

Extract 16 described by Panrita Lopi “... the part of Pinisi ship which symbolized human’s head is *ulu sotting*.”

Extract 17 described by 1st Pungkaha “There is basic beam named *ulu sotting*, it is similar to human’s head.”

1st, 2nd Sahi and 2nd Pungkaha did not mention the interpretation of *ulu sotting*.

The researcher found the shipbuilders' interpretation of the stem as human's head. It means that the signifier is the stem and the signified is human's head. On the sign 'the stem', Panrita Lopi and 1st Pungkaha gave similar interpretation that sign 'the stem' interpreted as human's head. While 2nd Pungkaha, 1st Sahi and 2nd Sahi did not mention the interpretation of sign 'the stem', because they did not know the meaning of sign 'the stem'

Ulu sotting or the stem is the front part of ship's spine (keel) usually curved piece of wood in front of the ship. The stem interpreted as human's head because its position in front as head of ship. The interpretation is similar with the previous interpretation above which based on belief of shipbuilder society about the nature of Pinisi ship.

B. Discussion

In this part, the researcher discussed the result of data findings above. The discussion intended to know the shipbuilders' interpretation of signs in Pinisi ship. In this discussion, the researcher analyzed the data by using Saussure's theory about signs. Saussure defined a sign as being composed of a "signifier" and a "signified", signifier as the form that the sign takes and the signified as the concept to which it refers. In addition, the researcher showed the comparison interpretation of the shipbuilders based on the level of shipbuilders. So, the researcher analyzed the data findings as follows:

The first sign is the seven sails; the researcher found the shipbuilders' interpretation about the seven sails as Surah Al-Fatihah which represents Holy Qur'an, another interpretation of the seven sails is 7 oceans. It means that the signifier is 7 sails and the signified are Surah Al-Fatihah which represents the Holy Qur'an and 7 oceans. 7 sails are signifier because of 7 sails gave concept or meaning that 7 sails is Surah Al-fatihah which represents Holy Qur'an and 7 oceans. 7 sails are interpreted as Surah Al-fatihah because of surah Al-fatihah also consists of 7 verses. Further, surah Al-fatihah which is the opening Surah in Holy Qur'an used to represent the Holy Qur'an. The Holy Qur'an is believed as a handle or a guideline for Muslims in life, as well as the seven sails on Pinisi ship used as main tool to move Pinisi ship which sailed on ocean. In addition, Pinisi sails also interpreted as 7 oceans due to both have same amount.

Second sign are 2 masts. The researcher found the shipbuilders' interpretation about 2 masts as two sentences of syahadat. It means that the signifier are 2 masts and the signified are two sentence of syahadat. 2 masts are signifier because of 2 masts gave concept or meaning that 2 masts is two sentences of syahadat. 2 masts are interpreted as two sentences of Syahadat. Syahdat is confession that there is no God except Allah and Muhammad is messenger of Allah. So, if people do not belief in this confession then they will not survive in living life to afterlife. Similarly, Pinisi ship which has (specifically in this case is the masts) is different whith ship without masts

for sails. The ship which used masts for sails will be faster and safe during sailing in ocean, it compared with the ships that only used one mast or not used it at all.

Third sign is the keel or *kalabiseang*. The researcher found the shipbuilders' interpretation of the keel as human's spine. It means that the signifier is the keel and the signified is human's spine. The keel or *kalabiseang* is the signifier because of the keel gave concept or idea that the keel is human's spine. The keel are interpreted as human's spine because it similar with the shape of human's spine.

Fourth sign is the frame or *kelu*, the researcher found the shipbuilders' interpretation of the frame as human's ribs. It means that the signifier is the frame and the signified is human's ribs. The frame is signifier because of the frame gave concept or idea that the frame is human's ribs, it is interpreted as human's ribs because it shape similar with human's ribs.

The next sign is *lepe*, the researcher was found the shipbuilders' interpretation of *lepe* as human's vein. It means that the signifier is *lepe* and the signified is human's vein. *Lepe* is signifier because it gave concept or idea as human's vein based on the shape that similar.

Sixth item is the ship shell. The researcher found the shipbuilders' interpretation of the ship shell as human's skin. It means that the signifier is the wall of Pinisi ship and the signified is human's skin. The ship shell is signifier because it gave concept or idea as human's skin which have function as cover.

Seventh sign is the Stem or *ulu sotting*, the researcher found the shipbuilders' interpretation of the stem as human's head. It means that the signifier is the stem and the signified is human's head. The stem is signifier because it is also gave concept as human's head because it position in front as head of ship.

Having analyzed the data about shipbuilders' interpretation of signs in Pinisi ship, the researcher found there are 7 sign in Pinisi, those are; the seven sails, the masts, the keel or *Kalabiseang*, the frame or *kelu, lepe*, the ship shell, and the stem or *ulu sotting*. The interpretation of signs by shipbuilders has similar and different depended of shipbuilder level which consist of three level; *Panrita Lopi, Pungkaha*, and *Sahi*. Initially, the shipbuilders that researcher chose were 5 shipbuilders. *Panrita Lopi* is Daeng Beka, 1st *Pungkaha* is Daeng Rate Lanke, 2nd *Pungkaha* is Daeng Raja, 1st *Sahi* is Daeng Pore Hasanuddin, and 2nd *Sahi* is Ali.

The researcher also compared this research among the previous findings. Specifically, the first previous finding is Stira (2012) which similar with this research, both talked about signified and signifier. The differences of both are; stira's research was used Barthes' theory which devote to myth while this research used Saussure's theory which focused on signifier and signified. Stira was researched one of cultural product that is Tongkonan house, such as this research also researched cultural product that is Pinisi ship. Stira found nineteen symbols in Tongkonan house while in this research only found seven sign in Pinisi ship. The second previous finding is Nur's research. Nur (2012) used Peirce's theory that distinguishes signs into three

aspects so he found 28 visual signs including 13 symbols, 10 icon, and 5 indexes. While in this research, the researcher found 7 signs, but the researcher used Saussure's theory so those signs were not classified anymore such as Nur's findings. Besides that, Nur used connotative term to denominate the meaning of signs while the researcher in this research used signified term based on Saussure's theory. Meanwhile, Kusuma (2011) found 2 symbolic meaning in the advertisement; connotative and denotative meaning. It is different with this research that used signifier and signified term to identify the signs.

The researcher concluded that Pinisi ship is not like another traditional ship. Shipbuilder's society in Bulukumba believes that Pinisi ship is like human. The role of Pinisi ship and human are same, they are created to do cruise missions; people are born for the mission 'cruise' across the life ocean, while the Pinisi ship created to do voyage mission across the ocean. Pinisi ship is one of cultural product which has good values due to Pinisi shipbuilding along with Islam unshakes that involves the philosophy of life. Such as Daeng Beka (55) says that previously, Pinisi ship was used as a media to preach Islam in Bima society by one of Islam figures in Tanah Lemo named Opu Daeng Sallatang. Pinisi ship from Bulukumba is famous not only in Indonesia but also in foreign so the values of Pinisi ship should have been preserving.

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the findings of data analysis in the chapter before, the researcher put forward some conclusion as follows:

The shipbuilders' interpretation of signs in Pinisi ship is influenced by the level of shipbuilder which consists of Panrita Lopi, Pungkaha and Sahi, each level of shipbuilder has similar and different interpretation of signs in Pinisi. In the findings section showed that Panrita lopi know more about Pinisi sign than Pungkaha and Sahi. It is caused by the differences in employment, education and experiences which affect their knowledge about Pinisi sign.

Furthermore, there were seven signs in Pinisi ship based on the interpretation of shipbuilder as follows:

1. The seven sails of Pinisi ship as the signifier of Surah Al-Fatihah which represents the Holy Qur'an and 7 oceans.
2. The masts of Pinisi signified the two sentences of syahadat "There is no God except Allah SWT and Muhammad SAW is messenger of Allah SWT".
3. The keel or kalabiseang signified the human's spine
4. The frame or kelu signified the human's rib

5. Lepe signified vines in human body.
6. The ship shell signified the human's skin
7. The stem or ulu sotting signified the human's head.

Based on the findings about signs of Pinisi above, can be concluded that, essentially Pinisi ship is similar to human, Pinisi ship without two masts and seven sails will not be able to sail through the sea. Such as with human, human could not survive in life if they do not believe that Allah is the only God and Muhammad is prophet of Allah and Holy Qur'an as a guide in life.

B. Suggestion

Based on the conclusion above, then the researcher delivered some suggestion as follows:

1. This research is not only discussed about language or sign but also culture. So the researcher suggested to reader in order to exploit the information from this research for perpetuate values which contained in cultural product.
2. The researcher also realized that this research just take small part from aspect of linguistic, especially about sign. So the researcher suggested to the next researcher who interested in analyzing about language neither verbal language nor nonverbal language to use linguistic anthropology approach.

AUTOBIOGRAPHY

Sri Ayu Lestari or usually called Ayu was born in Bacari Bulukumba on February 8th 1994. She is the third daughter from the marriage of her father Beddu Ali and her mother Hasinang Matto. In 1999, Ayu started her kindergarten at TK ISLAM Nurul Hidayat Bacari. Then, she continued to the elementary school at SDN 257 Gattareng. After graduated in 2006, she registered herself as student of MTS 40 Gattareng and then she continued to the senior high school in SMA 1 Kahu and graduated in 2012.

After finishing her study in senior high school, she directly continued her education in English Literature department at State Islamic University of Alauddin Makassar. During her collage, she spent her time not only in classroom, but also she was active in UKM Sb eSA.

APPENDICES

UNIVERSITAS ISLAM NEGERI
ALAUDDIN
M A K A S S A R

Appendix I: Interview Guide

The researcher gets much information about Pinisi from the informants. It is located in Tanah Beru and Tanah Lemo Bulukumba regency South Sulawesi, all interview are showed below:

Name	: Daeng Beka	Age	: 55 years old
Shipbuilder Level	: Panrita Lopi	Duration	: 00:05:57
Interviewed on	: December 26th 2017	Place	: Tanah Lemo

Researcher: Seperti yang diketahui saat ini, bahwa kapal Pinisi itu mengandung banyak symbol atau tanda, bisa anda jelaskan bagian – bagian kapal Pinisi yang menandakan sesuatu yang lain?

[As presently known, that the Pinisi ship contains many symbols and signs, can you please mention and explain part of Pinisi ship which signify something else?]

Informant: Hampir semuanya. hampir semua bagian kapal mengandung symbol atau menandakan sesuatu.

[Almost all of them contain symbols or sign something.]

Researcher: Iye..

[Yes]

Informant: Nah, yang pertama adalah ketujuh layarnya. Layarnya yang tujuh itu dulunya menyimbolkan tujuh ayat pembuka al-qur'an, surah Al-fatihah. Ada juga yang mengaikatkannya dengan tujuh samudera.. tujuh benua.. tujuh lapis langit.. saya rasa hubunganya karena kebetulan saja jumlahnya tujuh. Tapi menurut saya, Tujuh layar tersebut memang menyimbolkan tujuh ayat surah al-fatihah.

[Well, the first is the seven sails of Pinisi. The sails used to symbolize the seven the opening of Qur'an verse, surah Al-Fatihah. Then there which is associating with the seven screens, such as seven oceans, seven continents, and seven heavens. I think they were connected it because by accident in number seven. But in my opinion, the seven screens are symbolizing the seven verses of surah al-Fatihah.]

Researcher: Iye Pak

[Yes Sir]

Informant: Kemudian tiang layarnya, tiang layar Pinisi itu ada dua. Sebenarnya kapal Pinisi dapat bergerak hanya dengan satu tiang layar. dan satunya lagi hanya sebagai hiasan, tapi.. eeh.. dua tiang layarnya itu menyimbolkan dua kalimat syahadat, toh.

[Then the mast, there are two mast of Pinisi. Actually Pinisi ship could move by one mast, and the other one only as a decoration, but, eeh.. The two masts are symbolizing two sentences of syahadat, anyway.]

Researcher: Heheh.. iye Pak.

[Heheh.. yes Sir.]

Informant: Lalu, ada namanya kalabiseang, yang artinya dalam bahasa Indonesia adalah lunas. Kalabiseang menyimbolkan tulang belakang manusia, tau kan tulang belakang.

[Then, there is Kalabiseang, which means in Indonesian is Lunas. Kalabiseang is symbolizing the human spine, you know spine, don't you?]

Researcher: Iye pak.

[Yes sir]

Informant: Selanjutnya apalagi yah ? emm.. kelu atau rangka kapal yaa.. menyimbolkan rangka manusia juga, terus ada namanya lepe yang menyimbolkan urat manusia, dan dinding kapal, menyimbolkan kulit manusia.

[Furthermore, what else? emm.. kelu or framework yaa .. it is symbolizing the human's ribs as well, then there is lepe which symbolizing human's tendon and wall of Pinisi ship is symbolizing human skin.]

Researcher: Masih adalagi Pak ?

[Anything else, Sir?]

Informant: Yah... jadi intinya itu kapal Pinisi sama dengan manusia yang mempunyai rangka, kulit, dan kepala. Bagian kapal yang menyimbolkan kepala namanya Ulu sotting yaitu balok dasar di

bagian depan. Jadi kesimpulannya seperti itu, Kapal sama dengan manusia, lautan ibaratnya kehidupan, jadi tanpa dua tiang layar kapal dulunya tidak bisa berlayar, sama dengan manusia, jika tidak berpegang pada dua kalimat syahadat tidak akan bisa selamat dunia akhirat.

[Well ... so the point is Pinisi ship same with humans which have skeleton, skin, and head. The part of Pinisi ship that symbolized the head is Ulu Sotting, Ulu Sotting is basic blocks on the front. So the conclusion like that, Pinisi ship same as the human, the sea is like life, so without two masts, Pinisi ship could not sailed , similar to humans, if they did not hold on to two sentences of confession, they could not safe in afterlife.]

Researcher: Wow.. symbol yang sungguh luar biasa pak. Jadi tujuannya kapal pinisi dibuat dengan tanda yang menyimbolkan manusia itu untuk apa pak ?

[Wow.. extraordinary symbol Sir, So what is the purpose of Pinisi is symbolizing human?]

Informant: Nah, dahulu itu, ada tokoh agama yang namanya Opu Daeng Salattang. Beliau sering berdakwah ke Bima, dan kapal Pinisi dibuat untuk media berdakwanya ke Bima. agar orang – orang di sana gampang menerima dakwaannya. Dia mengumpamakan Kapal Pinisi dengan manusia yang tidak bisa mengarungi kehidupan tanpa layar dan tanpa tiang layarnya. artinya tanpa pedoman al-qur'an dan dua kalimat syahadat.

[Well, once upon time, there is a religious figure named Opu Daeng Salattang. He gone to Bima to preach oftentimes, and Pinisi ship was made for media of religious proselytizing in order to make people accepted his doctrine easily. He likens Pinisi ship as human that cannot live a life without the screens and the masts, it means without Al-Qur'an as guidelines and two sentences of syahadat.]

Name : Daeng Rate Lanke **Age** : 47 years old
Shipbuilder Level : Pungkaha **Duration** : 00:05:18
Interviewed on : December 26th 2017 **Place** : Tanah Lemo

Researcher: Assalamualaikum, permisi Pak, maaf, saya mengganggu sejenak.
[Assalamualaikum, Excuse me sir, I'm sorry, I'm interrupting you for a moment.]

Informant: Ah, kenapa ?
[Ah, why?]

Researcher: Saya pak, yang kemarin datang minta izin untuk meneliti di sini.
[It's me Sir, who comes tomorrow to ask permission to examine here.]

Informant: Oh iya, sudah tiga kali mako ke sini toh?
[Oh ya, It's the third time you come here, right?]

Researcher: Hehehe Iye. Saya tau mi nama ta Pak, jadi langsungmi saja nah Pak.
[Hehehe.. yes, I already know your name Sir, so let's to the point.]

Informant: Apanya lagi kah?
[What else?]

Researcher: Heem.. Sudah berapa lama ki bekerja sebagai pembuat kapal pak?
[Heem.. How long have you been working as shipbuilder Sir?]

Informant: kurang lebihmi mungkin 20 tahun.”
[Maybe about 20 years]

Researcher: Oh, jadi Begini Pak, kapal Pinisi kan terkenal mi kalau kapal Pinisi mengandung banyak symbol.
[Oh, well, Pinisi ship is already famous that it contains many symbols.]

Informant: Iyya, sudah terkenal sejak tahun delapan puluan itu.

[It has been known since the early eighties.]

Researcher: Iye, terus pak, itu kapal Pinisi dikenal mengandung banyak symbol. Maksudku, bagian-bagian kapal Pinisi, ada semua maknanya, bisaki jelaskan apa-apa saja itu pak?

[Yes, so Pinisi ship known as ship that contains many symbols. I mean, the part of Pinisi ship contains meaning, can you please explain about it?]

Informant: Oh, yang pertama itu layarnya yang tujuh. Tidak adapi kapal yang jadi di sini, berlayar semuami Pinisi yang jadi, itu layarnya di pasang di laut pi. Tapi sering jako liat Pinisi toh, banyak ji gambarnya, miniaturnya banyak ji di jual, adaji juga di kota di bundaran.

[Oh, the first is the seven sails. There is no more Pinisi ship which is finished here, it have sailed, the sails will pairs when ship at sea already. But, do you often see Pinisi ship, right? There are lots of pictures and a miniature of it, you can also see it on the roundabout of the city.]

Researcher: Iye pak sering ji, kira terkenal mi Pak, hehehe. Jadi apa maknanya itu tujuh layarnya pak?

[Yes Sir, its already famous Sir. heheh.. so what is the meaning of the seven sails Sir ?]

Informant: Harusko dulu tau' i kapal pinisi itu di buat bukan cuma untuk angkut manusia seperti sekarang. Dulu, kapal Pinisi dipakai untuk... apa itu namanya, ceramah.

[The first thing that you have to know is Pinisi ship not only for transporting humans as know. In the past, Pinisi ship used to.. what is that.. talk.]

Researcher: Berdakwah Pak.

[Preach sir.]

Informant: Ah, itu. jadi itu Pinisi dibuat untuk dakwahkan agama islam. Jadi itu layarnya yang tujuh di samakanmi dengan surah Al-fatihah. surah Al-fatihah tujuh ayat toh?

[Ah.. that's one. So the Pinisi ship was made to teach about Islam. So the seven sails is symbolizing Al- fatihah, there are seven serves in Al-Fatihah right?]

Researcher: Oh iye, pak.
[Oh, yes Sir.]

Informant: Ahhh.. apanya lagi ?
[Ahh... what else?]

Researcher: Tiang layarnya pak.
[The masts Sir.]

Informant: Kalau tiang layarnya, itu di samakan dengan dua kalimat syahadat.
[The masts are symbolizing two sentences of syahadat]

Researcher: Oh, iye pak.
[Oh.. yes Sir]

Informant: kemudian, itu yang di bawah, lunasnya atau bahasa di sini kalabiseang namanya. lunas itu sama dengan tulang belakang manusia.
[Then, at the bottom is lunas or kalabiseang. Kalabiseang similar to human's spine.]

Researcher: Eemm.. iye pak. kalau itu jari-jarinya ?
[Yes sir, what about jari-jarinya ?]

Informant: Yang mana ? yang balok – balok ini ? bukan jari – jari namanya ini, Kelu. rangka itu.
[Which one? These beams? This is not jari-jari, this is kelu. This is frame.]

Researcher: Oh.. astaga, Kelu namanya.
[Oh, so this is Kelu.]

Informant: Yaa.. kalau dindingnya sama dengan kulit manusia.
[Yaa.. and the wall similar to human's skin]

Researcher: Iye, terus yang mana lagi pak?
[Then, which one again?]

- Informant: ada lagi balok dasar di bagian depan namanya ulu sotting, itu disamakan dengan kepala manusia.
[There are basic beam in front named Ulu Sotting, similar to human's head.]
- Researcher: Masih ada Pak?
[Anyting else Sir?]
- Informant: Emm.. itu tadi, jadi kapal Pinisi itu sebenarnya sama ji dengan manusia, ada kepalanya... rangkanya.. kulitnya.. ada juga rohnya. Jadi yaah, kapal Pinisi itu bukan kapal sembarangan.
[Emm.. it was, so Pinisi ship similar to human, there are head, frame, skin, and also the soul. So yaah, Pinisi ship is not regular ship]
- Researcher: Jadi Pak, untuk siapa sebenarnya tanda ini ? maksudku kenapa mesti kayak manusia ? Apa tujuannya ?
[So Sir, whom those sign for? I mean, why should human? What was the aim of it?]
- Informant: Tujuannya kapal Pinisi dahulu bukan Cuma untuk nelayan, tapi dipake untuk dakwahkan islam.
[In the past, the aim of Pinisi ship not only for fisherman. But it used to preach about islam.]
- Researcher: Iye Pak. Jadi Pak, sekarang fungsinya itu kapal Pinisi sebagai sebagai media berdakwah atau menyampaikan pesan sudah tidak dipakai lagi ?
[Yes Sir, so know, the function of Pinisi as media to preach Islam or to convey some message is not used anymore?]
- Informant: Ya, sebenarnya masih bisa dipake, tapi sekarang, sudah tidak banyak orang yang tau.
[Ya, actually it still used, but know, there were not many people who know about it.]
- Researcher: Oh, iye Pak.
[Oh, yes Sir]
- Informant: Makanya mahasiswa memang harus meneliti tentang Pinisi, di catat itu supaya ditau.

[So, student should research about Pinisi, take a note in order to you know about it.]

Researcher: Iye Pak, makasih banyak Pak, informasinya.

[Yes Sir, thank very much for the information.]

Name : Daeng Raja **Age** : 43 years old
Shipbuilder Level : Pungkaha **Duration** : 00:04:29
Interviewed On : December 26th 2016 **Place** : Tanah Beru

Researcher: Assalamuailaikum Pak, bisa mengganggu sebentar ?
[Assalamuailaikum Sir, may I disturbing you for a moment?]

Informant: Walaikumsalam.. kenapa ?
[Walaikum salam, why?]

Researcher: Mauku ji bertanya-tanya sebentar Pak.
[I just want to ask questions for a while Sir.]

Informant: Sibukka, itu sana Padde kau Tanya-tanya.
[I am busy, that is Padde over there, ask him.]

Researcher: Sudah ja minta izin sama Padde Pak.
[I have asked for permission with Padde Sir.]

Informant: Mau tanya apa kah?
[What do you want to ask?]

Researcher: Tentang Pinisi.
[About Pinisi]

Informant: Oh, kalau itu, tanya langsung saja sama Padde.
[Oh, well, just asked Padde]

Researcher: Padde yang suruhka ke sini Pak.
[Padde told me to come here]

Informant: Oh, hahaha.. apa kah ?
[Oh.. hahaha.. what is wrong?]

Researcher: Tapi sebelumnya Pak, mauka bertanya nama ta' Pak.

- [But first, I want to know your name.]
- Informant: Namaku ? Raja atau Daeng Raja.
[My Name? Raja or Daeng Raja.]
- Researcher: Oh, Daeng Raja, tapi saya panggil Pak saja, boleh? Heeem.. Sudah berapa lamaki kerja sebagai pekerja kapal ?
[Oh, Daeng Raja, May I just called you Sir ? Hemm.. how long have you working as shipbuilder ?]
- Informant: Iyaaa, Sekitar 10 tahun kayaknya.
[Yaa.. about 10 years, I though]
- Researcher: Wow !Jadi begini Pak, kan kapal Pinisi terkenal mengandung banyak symbol atau tanda, jadi yang mau saya tanyakan tentang itu, tentang bagian yang mana saja yang termasuk symbol dan apa maknanya?
[Wow! Well, Pinisi is famous with contains many symbol or sign, so I want to ask about it, about which part of Pinisi ship which is belonging to symbol and what is the meaning of it?]
- Informant: Oh, begitu.
[Oh, I see]
- Researcher: Iye Pak.
[Yes Sir]
- Informant: Ciri- cirinya Kapal Pinisi itu layarnya yang tujuh dan dua tiangnya. Itu layar maknanya seperti tujuh samudra atau ada juga orang yang bilang seperti surah Al- fatihah, kemudian itu tiangnya yang dua, maknanya seperti dua kalimat syahadat.
[The characteristic of Pinisi are the seven sails and two masts. The seven sails means seven ocean or there were people said that it is like surah Al-fatihah, then the two masts, it means like two sentences of syahadat.]
- Researcher: Ooh.. Iye, yang mana lagi Pak ?
[Ooh.. yes, which again?]
- Informant: Betulan, itu saja ?

[That's all, really?]

Researcher: Ya, apanya pi ?
[Ya, what else ?]

Informant: Bagaimana dengan Kelu, apa maknanya itu Pak ?
[What about Kelu, what is the meaning of it?]

Researcher: Emm.. tidak ada ji kayaknya
[Emm.. there is no meaning of it, maybe.]

Informant: Lalu, bagian mana lagi Pak?
[Which part again Sir ?]

Reseracher: Lagi ? eee.. apa di ? ee..
[Again ? eee.. what is that ? eee..]

Informant: Lunas, apa maknanya itu Pak ?
[Lunas, what is the meaning of it, Sir?]

Researcher: Oh, lunas, saya tidak tau apa artinya lunas.
[Oh, lunas., I don't know the meaning of lunas.]

Informant: Kemudian yang kita tau bagian mana lagi Pak ?
[Then, which one more do you know Sir?]

Researcher: Itu ji barangkali.
[Maybe that's all]

Informant: Heheh.. tidak adami Pak ?
[Hehehe.. No more Sir?]

Researcher: Iya, itu. Apanya lagi yang mau nutanyakan kah?
[Yes, that's It. what else would you like to know?]

Informant: Jadi Pak, untuk siapa sebenarnya tanda ini ? maksudku kenapa mesti kayak manusia ? Apa tujuannya ?

[So Sir, whom those sign for? I mean, why should human? What was the aim of it?]

Researcher: Ya, karena memang seperti itu, karena kapal memang seperti manusia, ada rohnya.

[Yes, because it's like that, because ship is like a human, there is soul in ship.]

Informant: Oh, seperti itu ya Pak. Kalau begitu terima kasih banyak Pak, maaf karena sudah menngganggu.

[Oh, like that, so thank you very much Sir, sorry for disturbing you.]

Researcher: Iya, sama- sama.

[Yes, you are welcome]

Name : Daeng Pore Hasanuddin **Age** : 37
Shipbuilder Level : Sahi **Duration** : 00:02:56
Interviewed on : December 26th 2016 **Place** : Tanah Lemo

Researcher: Hehe, maaf Pak, sebentar ji, mauku ji bertanya – tanya tentang Pinisi sambil kerjaki juga, sudahma minta izin sama Daeng Beka.

[Heheh, sorry Sir, just a moment, I want to ask you while you working, I have ask permission with Daeng Beka.]

Informant: Oh.. mahasiswa ?

[Oh.. Student?]

Researcher: Iye Pak. Sebelumnya saya mau bertanya, siapa nama ta?

[Yes Sir. Firstly I want to ask, what is your name?]

Informant: Hasanuddin, Pore Hasanuddin nama panjangku.

[Hasanuddin, Pore Hasanuddin is my full name]

Researcher: Wah ! hem.. Berapa lama maki bekerja sebagai pekerja kapal ?

[Wah ! hem.. how long have you been working as shipbuilder ?]

Informant: Yaaa.. hampir 10 tahun.

[Yaa.. almost 10 years]

Researcher: Oh.. jadi begini, kan kapal Pinisi terkenal mengandung banyak symbol, jadi yang mau saya tanyakan tentang itu, tentang bagian yang mana saja yang termasuk symbol dan apa maknanya?

[Oh well.. Pinisi ship is famous that contains many symbol, so I want to ask you about it, about which part of Pinisi ship that included symbol and what is the meaning of it?]

Informant: Aduh, saya tidak tau juga kalau yang begituan, saya cuma tukang di sini.

[Aduuh.. I also don't know something like that, I am just laborer here.]

Researcher: Kalau begitu pak, saya kasih contoh, seperti yang di katakan Daeng Beka, salah satu bagian kapal Pinisi yang menyimbolkan sesuatu itu Tiang layarnya, tiang layarnya itu menyimbolkan atau menandakan dua kalimat syahadat.

[So, I give you one example such Daeng Beka said, one of parts of Pinisi ship which is symbolizing something is the two masts, the two masts is symbolizing two sentences of syahadat.]

Informant: Ya, kayak begitu.

[Ya, I think like that]

Researcher: Iye Pak, seperti itu. terus kalau layarnya yang tujuh itu Pak, apa maknanya ?

[Yes Sir, like that. Then, what is the meaning of the seven sails?]

Informant: Hahaha.. saya tidak tau juga, eee... untuk bantu bergerak kapal.

[Hahahah.. I also don't know. eee.. To help move the ship]

Researcher: Itu fungsinya Pak. Kalau katanya Daeng Beka, Tujuh layarnya Pinisi itu menyimbolkan tujuh ayat surah Al-fatihah, menyimbolkan atau diibaratkan Pak.

[That is the function Sir, such Daeng Beka said that the seven sails of Pinisi is symbolizing seven verses of Al-Fatihah, symbolizing or similar Sir]

Informant: Iya.. iya..

[Ya... ya...]

Researcher: Kalau begitu, lanjut lagi di, Kalabiseang maknanya apa Pak ?

[So, let's continue again, what is the meaning of Kalabiseang Sir?]

Informant: Heheh.. tidak kutau'i

[Heheheh... I don't know]

Researcher: Kalau Lepe Pak ?

[What about lepe, Sir ?]

Informant:

- Researcher: Pak, kalau lepenya maknanya apa Pak ?
[Sir, what about the meaning of lepe, Sir?]
- Informant: Tidak tauka juga, tanya sama Daeng Beka atau Padde saja.
[I also don't know, just ask Daeng Beka of Padde]
- Researcher: Heheh.. Iye Pak, makasih banyak. Eh, tapi masih mauka bertanya Pak.
[Hehehe.. yes Sir, thank you very much. Eh, but I still want to ask Sir.]
- Informant: Bilangka, tidak kutau.
[I said I don't know]
- Researcher: Satu pi Pak, hehe.. Pak, mungkin pernahki dengar tentang kapal Pinisi di ibaratkan seperti manusia, kira-kira bagaiman menurutta', apa tujuannya ini kapal disamakan dengan manusia ?
[One more Sir, hehe.. Sir, maybe you have heard about Pinisi is similar to human, by the way what do you think, what is the purpose of it?]
- Informant: Iya, karena kapal – kapal punya nyawa juga sama dengan manusia.
[Yaa, because ships also have soul like human]
- Researcher: Begitu yah Pak, kalau begitu terima kasih banyak Pak atas waktunya.
[Oh, like that, so thank you very much for your time Sir.]

Name : Ali **Age** : 22 years old
Shipbuilder Level : Sahi **Duration** : 00:02:23
Interviewed on : December 26th 2016 **Place** : Tanah Lemo

Researcher: Assalamualikum !maaf mengganggu sebentarPak.
[Assalamualaikum ! Sorry for disturbing you Sir.]

Informant: Iya, Waalaikumsalam.
[Yes, Waalaikumsalam]

Researcher: Bisaji Pak, bertanya- tanya ?tidak apa-apaji sambil kerja maki saja.
[May I ask you a question Sir? It's ok, you can continue your work.]

Informant: Mauko tanya apa ?
[What do you want to ask ?]

Researcher: Siapanama ta Pak ?
[What is your name Sir ?]

Informant: Namaku ? Ali saja.
[My name ? Just Ali]

Researcher: Sudah berapa lama maki bekerja sebagai pekerja kapal ?
[How long have you been working as shipbuilder?]

Informant: Harianja' di sini.
[I just part time worker here]

Researcher: Oh harian, tapi berapa lama maki bekerja sebagai tukang kapal?
[Oh part time, but how long have you been working as shipbuilder?]

Informant: Sudah bertahun- tahun, lebihmi 5 tahun.
[Already couple years, more than 5 years]

Researcher: Emm.. Pak Ali, begini Pak, kan kapal Pinisi terkenal mengandung banyak symbol, jadi yang mau saya tanyakan tentang itu, tentang bagian yang mana saja yang termasuk symbol dan apa maknanya?

[Emm.. Mr. Ali, well, Pinisi ship is famous that contains many symbol, so I want to ask you about it, about which part of Pinisi ship that included symbol and what is the meaning of it?]

Informant: Oh, symbol ?

[Oh, symbol ?]

Researcher: Iye, Pak. atau bagian kapal Pinisi yang ada maknanya, yang mana itu Pak?

[Yes Sir, or the part of Pinisi ship that have meaning, which one Sir?]

Informant: Ahh..kurang tau ka' juga dek, tanya sama Piang,dia manajer di sini, mahasiswa juga itu.

[Ahh.. I am not really know about it sis, just ask Piang, he is a manager in here, and also student.]

Researcher: Sudah tadi Pak, sekarang yang mau saya tau tentang Pinisi menurut pendapatnya Pak Ali.

[I did Sir, now I want to know Mr. Ali's opinion about Pinisi.]

Informant: Wah, saya tidak tau itu dek.

[Wah.. I don't know it sis.]

Researcher: Heheh..oke saya kasih petunjuk Pak,layar kapal Pinisi. Layar kapal Pinisi yang tujuh itu apa maknanya itu Pak ?

[Heheh.. ok I give you a clue Sir, the sail of Pinisi. What is the meaning of the seven sails of Pinisi ship Sir?]

Informant: Maknanya ?

[The meaning?]

Researcher: Iye

[Yes]

Informant: Maknanya itu, ya untuk menggerakkan kapal.

[The meaning is, ya to move the ship]

Researcher: Kalau tiangnya yang dua itu Pak ?

[What about the two masts Sir ?]

Informant: Itu tiang layar, tempat mengikat layar.

[That is masts of sails, place for fastened the sails]

Reseracher: Iye, Apa maknanya itu Pak ?

[Yes, what is that mean Sir?]

Informant: Maknanya ?apa maknanya ?

[The Meaning ? what is the meaning ?]

Researcher: Iye Pak, maknanya, atau ibaratnya sepertiapa? kayak yang nabilang Kak Piang, tiang layar yang dua itu ibaratnya seperti dua kalimat syahadat. Kalau yang kita tau, yang bagaimana Pak, maknanya itu tiang yang dua ?

[Yes Sir, the meaning, or simile, like what? such Piang said that the two masts is symbolizing two sentences of syahadat. What about your opinion about the two masts, Sir ?]

Informant: Ya, seperti itu saja.

[Yah, just like that]

Researcher: Oh, iye paeng pak. Kalau lunasnya Pak ?apa maknanya ?

[Oh, ok. Then lunas Sir ?what is the meaning of it ?]

Informant: Apa ?Lunas ?Kalabiseang ?

[What? Lunas ?Kalabiseang ?]

Researcher: Iye Pak, maksudku Kalabiseang, apa maknanya itu Pak ?

[Yes Sir, I mean Kalabiseang, what is the meaning of it, Sir?]

Informant: Nda tauka.

[I don't know]

Researcher: Kalau dindingnya Pak ? apa yang diibaratkan dengan dinding kapal Pinisi ? emm.. apa maknanya ?

[Then the wall, Sir? what is the similar of the wall of Pinisi ship ?emm.. what is the meaning of it?]

Informant: Ya dinding kapal, nda jadi itu kapal kalau tidak ada dindingnya.

[Yes, the ship wall, it not will be a ship if it have no wall.]

Researcher: Heheh..kalau kelu Pak ? apa maknanya kelu?

[Heheh.. then Kelu Sir ? what is the meaning of kelu ?]

Informant: Kelu itu rangkanya perahu toh ? yaa.. untuk membentuk itu kapal.

[Kelu is frame of ship right? yaa.. to compose that ship.]

Researcher: Fungsinya itu Pak. yang saya tanyakan maknanya, artinya Pak.

[That is the function Sir, I ask you about the meaning Sir.]

Informant: Saya nda tau dek, tanya saja sama Piang.

[I don't know sis, just ask Piang.]

Researcher: Heh, kalau begitu terima kasih banyak Pak, atas kesediaan waktunya. Maaf sudah mengganggu.

[Heheh.. then, thank you very much Sir for your time, sorry for disturbing you.]

Informant: Iya, tanya saja Piang dek

[Yes, just ask Piang sis.]

NOMOR : 1086 TAHUN 2016
TENTANG
PANITIA DAN PELAKSANAAN SEMINAR PROPOSAL FAKULTAS ADAB DAN HUMANIORA

DEKAN FAKULTAS ADAB DAN HUMANIORA UIN ALAUDDIN MAKASSAR :

- Membaca : Surat permohonan Saudara : **SRI AYU LESTARI**
Mahasiswa Jurusan / Nim : BSI / 40300112062
Fak. Adab UIN Alauddin Tanggal : 11 November 2016
Perihal : Permohonan seminar proposal yang berjudul :
- “ **THE ANALYSIS OF PINISI BASED ON THE INTERPRETATION OF SHIPBUILDER IN TANAH LEMO (SEMIOTIC APPROACH)** ”
- Menimbang : a. Bahwa Saudara yang tersebut namanya di atas telah memenuhi persyaratan untuk melaksanakan ujian proposal.
b. Bahwa untuk maksud tersebut dipandang perlu membentuk panitia.
- Mengingat : 1. Undang-Undang Nomor 20 Tahun 2003 tentang Sistem Pendidikan Nasional;
2. Peraturan Pemerintah Nomor 60 Tahun 1999 tentang Pendidikan Tinggi;
3. Surat Keputusan Menteri Agama R.I. Nomor 25 Tahun 2013 tentang Organisasi dan Tata Kerja UIN Alauddin Makassar;
4. Surat Keputusan Menteri Agama R.I. Nomor 403 Tahun 1998 tentang Kurikulum IAIN Alauddin;
5. Surat Keputusan Menteri Agama R.I. Nomor 20 Tahun 2014 tentang Statuta UIN Alauddin;
6. Surat Keputusan Rektor IAIN Alauddin Makassar Nomor 42 Tahun 1993 tentang Penulisan dan Ujian Skripsi / Munaqasyah pada IAIN Alauddin;
7. Surat Keputusan Rektor UIN Alauddin Nomor 326.C Tahun 2014 tentang Kalender Kegiatan Akademik UIN Alauddin Makassar Tahun 2015.
8. Surat Keputusan Dekan Fakultas Adab dan Humaniora UIN Alauddin Makassar No. 028 Tahun 2011 tentang Mekanisme Penyelesaian Skripsi.

MEMUTUSKAN

- Menetapkan : 1. Membentuk Panitia ujian proposal Saudara tersebut di atas dengan komposisi dan personalia sebagaimana tersebut dalam lampiran Surat Keputusan ini.
2. Panitia bertugas melaksanakan seminar proposal dan memberi laporan kepada fakultas.
3. Ujian proposal dilaksanakan pada hari / tanggal : **Kamis, 17 November 2016, Jam 09.00 – 11.00 WITA, Ruang Senat.**
4. Apabila dikemudian hari ternyata terdapat kekeliruan dalam surat keputusan ini akan diubah dan diperbaiki sebagaimana mestinya.

Salinan Surat Keputusan ini disampaikan kepada yang bersangkutan untuk diketahui dan dilaksanakan sebagaimana mestinya.
