# CHAPTER I

## INTRODUCTION

### A. Background

Globalization affects the whole parts of the life and world, it includes Makassar, Indonesia. The lives of Makassar society are affected by global developments that difficult to be controlled. On the other hand, global development causes changes of the development of society towards better and well established.

Globalization refers to the over all development as well as modernization of a community as a whole. The reason of why globalization is important, because it helps a community gaining international recognition, influence as well as operation. However, this can be projected in both positive as well as negative ways. The debating on whether globalization is good or bad for any particular community has been in ages and while some society stress on the benefits of globalization others pay more attention towards the compromises and risks of achieving globalization, such as the development of communication technology can facilitate relationships among society (John, 2013: 12).

Culture is a complex whole which includes knowledge, belief, art, moral, law, custom and any other capabilities and habits acquire by man as a member of society. According to hofstede (1980: 5) culture is collective programming of the main which distinguishes the members of one group or category of people of another. The set of attitudes, values, beliefs, and behaviour, shared by a group of people and communicated from one generation to the next.

A wedding is a ceremony where two societies are united in marriage. Wedding traditions and customs vary greatly between cultures, ethnic groups, religions, countries, and social classes. Most of wedding ceremonies involve an exchange of wedding vows by the couple, presentation of a gift (offering, rings, symbolic item, flowers, money), and a public proclamation of marriage by an authority figure. Special wedding garments are often worn, and the ceremony is sometimes followed by a wedding reception. Such as music, poetry, prayers or recitation from religious texts or literature are also commonly incorporated into the ceremony (Fananie, 2000: 4).

Based on Keesing in Abdullah (2003: 6) definition of marriage is not only about relation between individuals but that is the contract between a groups (between family and the other family). In that opinion he said the marriage is sacred ceremony because there are two families who make the new relation.

According to John (2013: 44) in the era of globalization and modern times many society who already has not paid attention to the culture and customs, especially the young generation which more dominant adopt the cultures of other countries. This has result in a lack of attention to some of the culture that has not with the exception of cultural or customary marriage in which there is a culture of '*pakkio bunting*' which is very rare to find in the mid of our society.

According to Nurhayani (2013) *Pakkio Bunting* (calling bride) is one of the culture in Makassar were used in wedding ceremony which is celebrated if there are wedding. Most of society do not know the meaning and function of *Pakkio bunting*

especially in teenagers in Bontonompo district. In this context, the Bontonompo society are generally known as the society who preserve the cultural heritage of their ancestors.

In the first time, *Pakkio bunting* was only celebrated by the kingdom family in Gowa Kingdom. In this era *Pakkio bunting* ceremonial is celebrated in every part of society in Gowa regency. Until now, Gowa society exactly in Bontonompo still celebrate *Pakkio bunting* in wedding ceremony.

#### **B. Problem Statement**

Based on the background of the problems mention above, the researcher formulates a research question as follow :

What is the meaning and function of Pakkio Bunting in wedding ceremony in Gowa culture (Bontonompo district)?

#### **C. Object of the Research**

To find out the meaning and function of *pakkio bunting* in Gowa regency.

#### **D. Significance of Research**

The result is expected to be part of a very useful resource in the study of culture as well as a motivation for the generations who want to do research in these fields as well as guidelines for the further research.

#### **E. Scope of the Research**

This study only focused on researching the meaning and function of *Pakkio Bunting* in Makassar culture in case study at Bontonompo district of Gowa regency. Therefore, the scope of this thesis is the meaning and function of *Pakkio Bunting* in

wedding ceremony of Makassar culture (Case study at Bontonompo district of Gowa regency), by analyzing the data, researcher used hermeneutic approach by Ricoeur (2002: 106).

### REVIEW OF RELATED LITERATURE

#### A. Previous Research Findings

There is some of the source that have studied about Pakkio Bunting and about meaning and function.

Rahmawati (2014) in her thesis, "*Pakkio Bunting in Makassarese Marriage Tradition in Gowa: A cultural value study*", she found that Pakkio Bunting is laden with cultural values which very important to know, understand, and be a role in the household life. Those values consist of the value of responsibility, respect, simplicity, and generosity. She used descriptive qualitative approach to analyze the meaning and value of the text of pakkio bunting.

The similarity of the research above with this research is both used Pakkio Bunting as source of her research. Descriptive qualitative analysis applied in this research to find out the meaning and function text of Pakkio Bunting in wedding ceremony of Makassar culture.

The differences among my research is Rahmawati only focused on the value of Pakkio Bunting without analyzing the meaning of Pakkio Bunting, whereas my research focus on the meaning and function of Pakkio Bunting.

Devi Masita (2013), in her thesis , '*Makna dan Nilai-Nilai Sosial Budaya dalam Paruntukkana Bahasa Makassar*', She found that Paruntukkana is seldom to used in Makassar community in this era.

The similarity of the research above with this research is also research about the Makassar culture and also used descriptive qualitative to analysis her research.

The differences among my research is Devi Masita did research about Paruntukkana in Makassar culture, whereas my research is about Pakkio Bunting in Makassar culture.

### **B. Pertinent ideas**

The problems which have been elaborated above, that it needs the existence of the basis for correct theory. This theory represents all important appliance from a science, without theory there is only knowledge which only refers to the fact. As a mode of analysis, hermeneutics suggests a way of understanding text or a text-analogue interpretation, in the sense relevant to hermeneutics, is an attempt to make clear, to make sense of an object of study. The object, must be a text or a text-analogue, which in some way is confused, incomplete, cloudy, seemingly contradictory in one way or another, unclear. The interpretation aims to bring to light an underlying coherence or sense Taylor in Rauf (2010: 23).

### **C. Hermeneutics**

The researcher must understand that interpretation and purposing not aim to talk about the literature surface, but it can explain the deep meaning that contains in literature. The interpreter must be eclectic include of language, literature, and culture.

The succesfully of interpreting depends on the accuracy and carefulness when someone does interpretation. In another views, of course it will need the equal understanding method, which can help the interpreter. Based on that method,

Bachelor of arts offer hermeneutic method as the best choice and sufficient of understanding.

According to this problem, there are many thought and application ways hermeneutics that especially must be explained in this section.

### **1. Definition**

Palmer (2005: 23) the term of hermeneutics comes from the Greek word; *hermeneuein*, which means "interpret", the noun "hermeneia" means "interpretation". In the ancient Greek tradition *hermeneuein* word was used in three meanings, that is to say (to say), explain (to explain), and translate (to translate). From this definition, in English word is expressed with the words: to interpret, thus the act of interpretation pointed to three main points: the pronunciation of spoken (an oral recitation), a reasonable explanation (areasonable explanation), and translations from other languages (a translation from another language), or expression.

According to the terms, hermeneutics is commonly understood as: "the art and science of interpreting especially authoritative Writings; mainly in application to sacred scripture and equivalent to exegesis". There is also an understanding that hermeneutics is a philosophy that focused field studies on the issue of "understanding of understanding" of the text, especially text of Scripture, which comes from the period, time, place, and social situation that is strange to the readers (Betanzos, 2001: 28).

Wood (1993: 11) remarks that hermeneutics is the theory of the operations of understanding in the relation to the interpretation of text. The academic discipline that

concentrates on a study and an analysis of the process of interpretation is called hermeneutics. The concept “hermeneutics” refers to a theoretical, more abstract reflection on the process of interpretation. In this use of the concept hermeneutics is not an act of interpretation, it is primarily a reflection of interpretation.

Hermeneutic method is used at first as the interpretation. In line with the time, the scope of hermeneutic is branch out and cover the problem of interpreting comprehensively. In hermeneutic development, there are many views especially coming from philosophers who have an eye on Hermeneutic method. Some of figure hermeneutic can be mentioned, they are; Schleirmacher, Dilthey, Heidegger, Husserl, Betti, Gadamer, Habermas, Ricoeur, and Derrida Eagleton on Rauf (2010: 24).

Commonly, some of them have the same opinions and thought. Particularly on how the hermeneutic method usage if we want to relate to the literature study, also on humaniority knowledge and social aspect in common.

According to Bleicher (2003: 7), hermeneutic as a theory or philosophical of interpreting meaning. Hermeneutic is old topic, but reappearing as the new thing and attractive discussion. Literature is the part of humanity that really need hermeneutic concept. Thereby, hermeneutic reappear from past and become more important these day.

According to Betanzos (2001: 28) the term hermeneutics is often associated with a Hermes man, a character in Greek myth that served as an intermediary between the god Zeus and the human.

Mythologically (Bleicher, 2003: 25), hermeneutics has been related to Theth, The supreme Deity of Greek mythology. He is a wisdom god, writer of gods, writing god, the creator of pen and ink, the Narrator of most high. Theth is a password of creating universe, continuously realization of justice, affections, and creating sciences and arts. Theth is symbolized for man, which have head of bird. Moreover, in mythology of Egyptian is believed as Determiner, giving a gift of eternity and terminating life of human by death forever. It still has a mystery. He is not appearing clearly but then he is symbolized as the immortal.

When Hermes God was child, he was smart, intelligent and able to defeat his against. The Greece called him as a Word god who had fluent and explicit. He is a Word god in every meaning, who is sharp smooth, true-lie, organizing-chaotic. By his characteristic, he could be a mediator for all humankind. As a messenger of God, Hermes took the pledge but he was unpromising to tell the truth perfectly. Even though, hoe perfect a language is, it cannot cover the God's Word who is Almighty and Most Holy. The synthesis of Hermes and Theth, then will be known as Hermeneutic (Sharkey, 2001: 16).

Exactly, Hermes is associated to transmittion function about the understanding of human kind to form of their intelligentsia. Many forms are assumed by the process that bring thing or situation, which can be understood. By following hermeneutics word, we can assume that hermeneutics is the process'' bring something to be understood'' (Sharkey, 2001: 16).

Based on Ricouer's theory (2002: 42), hermeneutic literary attempts to understand the meaning behind the structure. Understanding the meaning, not just the symbol, but rather looking at literature as text. The investigator should swoop toward the text and the context of that found meaning intact.

Basically, the hermeneutic paradigm has offered two methods of literary interpretation. First, the dialectic method between the past and the present. Second, a method that takes into account the problems between the parts to the whole. Both methods are forcing researchers to make interpretations based on his own conscience above the historical-cultural context. Thus there is an important contribution of hermeneutic presence. First, hermeneutics incorporate an explicit understanding of the totality of the cultural, and integrated whole that is the basis of a culture or society at the level of the fundamental ideology or worldview, for example by looking at the nature of historical truth. Second, the nature of literature in the social life already understandable because the analysis starts with the relationship between cultural knowledge with the overall experience of life in a specific examination of the relationship between literature and experience with social existence of human esthetic. Third, hermeneutics opens the possibility of trans-historic experience with the concept of functions between the past and its present (Ricouer, 2002: 42).

According to Ricouer (2002: 192), to develop his approach hermeneutics based on the text, he exploited the dichotomy language and find the position of explanation and understanding in an interpretation. Moreover, according to the rules of the text there are three categories, namely:

1. The text always experience the release of the context of the socio-historical conditions of the original disclosure, because the text is always opens itself to the reading of infinite series.
2. The text is a langue and parole. It is also in the process of understanding. When considered as language, the text must be treated in accordance with linguistic rules as strong as possible and when the text considered as a parole, so the text is conversation and this is the time, that the text is interpreted. Interpretation in his view is a dialectic between the two activities.
3. Interpretation is a dynamic process that mechanism truth test results should be submitted to the process of negotiation and debate (Ricouer, 2002: 192).

Subsequent developments, hermeneutics definition is progressing, hermeneutics which was originally seen as the science of interpretation. In a further development the definition of hermeneutics according to Richard E. Palmer is divided into six, namely:

1. The theory of interpretation of Scripture
2. As a general philology methodology
3. As the science of all language understanding
4. As a methodological foundation of the human sciences
5. As the understanding of the existential and phenomenological existence
6. As an interpretation system (Betanzos, 2001: 28).

The sixth of these definitions is not only a historical phase sequence, but the approach is very important in the problem of interpreting a text. This definition, respectively, representing a variety of dimensions that are often highlighted in hermeneutics. Every definition carries a different feeling, but can be responsibility, from interpreting human actions, especially the interpretation of this text (Betanzos, 2001: 28).

In social-cultural views, the doers do not act according to subject-object relation, but talking on ‘‘Language games’’ invoking of cognitive elements, emotive, humanity visional. All of the elements act in communicative framework namely action to achieving the mutual comprehension. By virtue of these statements, we are able to conclude that hermeneutic is the process of interpretation text on the deep comprehensively.

## **2. Hermeneutic and Language**

Hermeneutic relates to language. Some people think, talk, and write through language. Everybody can understand and make interpretation also using language.

Hermeneutic is a new way to communicate with language. If understanding always connects to language, so language is also limited. It is realized that every ideas must be thought on any languages which agree with norm of language validity (Klemm, 2004: 18).

## **3. Hermeneutic Application**

Hermeneutic is more often used in scope philosophy. Nevertheless, in this application, also use in science likely history, law, religion, art, literature, and linguistic.

According to Betanzos (2001: 29) hermeneutical point of view of literary criticism is a method for understanding the text described and destined for a review of literary texts. Hermeneutics is suitable to read literary work, because in literary examine, whatever its form, because it is associated with an activity of interpretation. Activity appreciation of literature and literary criticism, at the beginning and the end, has to do with the literary works must interpret. All activities of the study of literature-especially in the process inevitably involves the role of the concept of hermeneutics. Therefore, hermeneutics becomes impossible to ignore.

On this basis the hermeneutic need to be discussed in a comprehensive manner in order to gain an adequate understanding. In this connection, first we need to realize that the interpretation and meaning are not directed at a process that only touches the surface of the literature, but who is able to "penetrate the depth of the meaning of" contained therein. To that end, the interpreter must have insight into the language, literature, and culture are quite broad and deep. Success or failure of the interpreter in order to achieve an optimal level of interpretation, relies heavily on the accuracy and sharpness of the interpreter itself. Methods that support an understanding of the requirements that must be owned by the interpreter. Of the several alternatives offered by literary experts in understanding literature, methods

hermeneutic understanding can be seen as the most appropriate method (Chady, 2004: 16).

The first science-discipline using hermeneutics is exclamation of passages of holy books, every holy book is from God which necessary interpretation or hermeneutic and called Ta'wil or Islamic hermeneutics (Chady, 2004: 16).

In literature sequencing, the need for hermeneutic are really emphasized. Without interpretation or passification, the reader may probably misunderstand or see the point of soul of literature period. However, in literature neither certain rules for interpretation nor philosophy (Lavery, 2003: 10).

#### **4. Ways of Hermeneutic Working**

According to Schleiermacher (2005: 9) the comprehension is reconstruction, refuse from expression revealing which go back to spiritual situation. In here, two moments connect and interaction each other. Whereas principal that be center of reconstruction in grammatical and spiritual are called as *Circle Hermeneutic*.

Circle hermeneutic is an action of circling comprehension that up to scratch historically. Lavery (2003: 21) explains that if the writer want to comprehend or interpret something, the writer can do it just by in this sequencing which limit by horizon history in ourselves existence.

#### **D. Meaning and referring**

According to Strawson in Rauf (2010: 27 ) that mentioning or referring is not something an expression does; it is something that someone can use an expression to do'. From point of view 'meaning' is the function of a sentence or expression;

mentioning and referring, and truth and falsity, are functions of the use of the sentences or expression to give the meaning of an expression to give general directions for its use refer to or mention particular object and person; to give the meaning of a sentence is to give general directions for its use in making true or false assertions.

1. Meaning is the idea that represented by a word, phrase, ect. According to Leny (2005), *the study of meaning of skincare advertisement in the Singapore women's weekly magazine*. This research observed expression which have sentence meaning and the speaker meaning skincare advertisement in the Singapore women's weekly magazine (retrieved on February, 20<sup>th</sup> 2005). After doing her analysis the writer found that the most frequent type of locutionary type which occurred in the expression of skincare advertisement was declarative type, while the most frequent type of illocutionary which occurred in the expression of skincare advertisement was directive type.
2. Function is the kind of action or activity proper to a person, thing, or institution. In the other definition the purpose for which something is designed or exist, role.
3. Culture, According to Taylor, he defines culture as that complex which includes knowledge, believe, art, morals, law, customs, and many other capabilities and habit acquired by member of society. Culture means the total body of tradition journey by a society and transmitted from generation to

generation. It thus refers to the norms, values, standards, by which people act, and it includes the ways distinctive in each society of ordering the word and rendering it intelligible. Culture is a set of mechanisms for survival, but it provides us also with a definition of reality. It is the matrix into which we are born, it is anvil upon which our persons and destinies are forged (Morphy, 1986: 14).

## **E. Pakkio Bunting**

### **1. Definition of Pakkio Bunting**

Marriage is a very important event in the stages of human life. Therefore, everything related to marriage should be prepared as well as possible in order to process and a series of solemn and wedding can take place smoothly. Not infrequently the big costs incurred for the sake of success and excitement of a wedding party. Implementation of marriage and brought a certain tribe be one option for those who will hold a wedding ceremony. In the implementation of customary always found various different stages of marriage between one tribe against another tribe. That difference shows the uniqueness and distinctiveness of each tribe that once a cultural diversity that is always interesting to be rated more (Rahmawati, 2014: 88).

One of tradition in tribal marriage customs Makassar in South Sulawesi which make interest is the procession that accompanied the narrative poem Pakkio Bunting. Pakkio Bunting comes from two words (in Makassar), which means "Pakkio=Call, Bunting=Bride. Pakkiok bunting is one of literature tribe Makassar like a series of poetic lines that are used in the procession of wedding reception. When the

groom and his entourage arrived at the home of the bride, a man appeared said that poetry Pakkio Bunting, speaker of the poem Pakkio Bunting also called Pakkio Bunting, standing on the tang top (Generally the houses of Makassar in Gowa is a house on stilts so as to entered the house using a ladder with rungs number ten or more), to tell the poem Pakkio bunting (Nurhayani, 2013: 88).

Gloss custom implementation in the process of reception that also adds to the wisdom of the welcoming ceremony. According to Amir (2013: 139) that in addition seen as entertainment, literary spoken deemed to contain a message of education, as a means for people to gather, and as a platform to declare the existence of self (Amir, 2013: 31).

## **2. The Importance of Keeping and Preserving Pakkio Bunting**

In any organization of marriages, it is common held a banquet to the accompaniment of an orchestra or electone. Our society has rarely witness 'unrequit rhyme' during the procession of the groom arrives at the bride's home. Even the role of traditional leaders, community leaders and sanro replace by transvestites calabai as Anrong bunting. The people who marry, their parents also gradually favorite the implementation of marriages that are instant. If they have a lot of money, just the marriage was held at the Multipurpose Building away from traditional touch (Nurhayani, 2014: 8).

Whereas the traditional wedding ceremony is actually in Makassar, formerly there were events when calling the groom will arrive in-law's house, which is commonly call Pakkio Bunting. We have had a very difficult we find 'Basa Buyu

Kabuyu' (Old language) is pronounced like Pakkio Bunting, except for a few parents who still know and understand their meaning. In the 'Pakkio Bunting' actually contained messages *tu-riolo* (ancestors) as ancestors of Bugis Makassar to the bride and groom before the ship sail actual household, including how to treat in-law, instill a love of the couple, and what to do/responsibility once married, then from that is important for the younger generation to be able to know, memorize or apply/use them every marriage ceremony as a step to preserve the culture Pakkio Bunting (Nurhayani, 2014: 8).

According to Fananie (2000: 100) Pakkio Bunting including poems who use the word choice (diction) in the form of regional languages Makassar which is rarely used, these words contain aesthetic value, using cliches full of symbols. Choice of words is essential in the structure of the poem because the word is the main vehicle for expression. Each word will have the function of meaning, sound function, and aesthetic function. Therefore, the accuracy of the choice of words is not just how a meaning can be disclosed, but whether the selected word is really capable of expressing an expression that gave birth to certain messages without leaving the aesthetic aspect.

Pakkio Bunting becomes a form of interaction between the bride's family, represented by speakers Pakkio Bunting with the groom's family. In this interaction there is communication delivery cultural values are very important in fostering households. These values are not only useful in fostering attitudes and behaviors for

the newlyweds, but also important to be understood by all the people who attended the event (Mulya, 2001: 88).

For couples who have long been fostering households, these values can be a refresher material for reflection. Those values include advice to develop responsibility, the advice to keep the loyalty of the couples, and the advice to familiarize the simple life. Thus, the wedding reception along with lyric Pakkio Bunting than as entertainment, adding to the festive atmosphere in the wedding are also members of the value added by the appreciation of the values contained in the poem. The festive atmosphere in the created reply or said-replication boisterous of all listeners Pakkio Bunting poem that is in place when the singer lyric Pakkio bunting complete each sentence (Rasyid, 2000: 18).

### **3. Pakkio Bunting in Traditional Marriage in Makassar**

Pakkio bunting is poetry that is sung by a Pakkiok Bunting at the *simorong/naikmi kalenna* (groom delivered to bride's home). The Groom came to the home of the bride or the place of the wedding have been determined. The Groom from noble flanked by four men who. The groom runs to high honor such as umbrellas, spear heritage while enlivened by sounds such as drums, gongs, and *pui-pui* (Wahid, 2007: 94).

The groom accompanied by a man carrying *sunrang* (dowry) stored in *kompu* (a dowry Keeps wrapped in white cloth), a handful of rice, as a symbol of fertility use turmeric, ginger, nutmeg, walnuts, and cinnamon. The delegation groom was greeted by the bride's entourage. When he arrived in front of the stairs (Generally

homes Makassar shaped house on stilts), the groom's entourage stopped. A pakkio bunting as a representative of the bride's family welcome the representatives of the groom with said Pakkio bunting. When the speaker finish to say the first sentence, the audience replied with shouts that add zest and excitement while sprinkling rice towards to the groom. Sowing of rice intended for the bride and groom can obtain abundant sustenance and appropriated by the crowd. Sow a habit of rice has also been conducted during the process of consent granted. It means that the bride and groom who have the power to say consent granted consent granted so that the process runs smoothly (Wahid, 2007: 94).

#### **4. The cultural values in Pakkio Bunting**

The cultural values in Pakkio Bunting will deliver advice and understanding of the delivery of the messages contained in the poem. It also can deliver an understanding of the patterns of thinking, way of life, social background and behavior patterns of society Makassar (Rasyid, 2000: 19).

Explain about the values can also increase the appreciation of the community either Makassar society itself and those outside the tribe Makassar who happened affinity or engage in mating tribal Makassar to understand the meaning and the messages contained in Pakkio Bunting poem. This appreciation arises because Pakkio bunting is not just a welcome speech, but it is the delivery of communications advice. Understanding the value can strengthen tolerance to differences in customs vary (Mulya, 2001: 15).

The values cultural in Pakkio Bunting:

### 1. Responsibilities

The decision to step up and develop a home life should be coupled with good faith separately carry out all the responsibilities associated with the new status that carried. A husband is a priest in the house that is not only responsible for guiding his wife, meet living and unseen wife, but also doing good to all the family and wife. So it is with a wife. Besides separately responsible for taking care of her husband, is responsible separately in doing good to all the husband's family.

### 2. Respect

Pakkio poem begins with the bunting greetings and request permission from the traditional leaders, community leaders, government officials, and the entire audience in the place of reception the bride.

### 3. Mutual accept

In addition to the guests, respect and acceptance can be seen from expressions of praise to the bride. A marriage not only unites two human child, but will unite two great families. Therefore, the presence of the bride and groom in their respective families must be accepted by all parties. This acceptance is important because the future bride and groom will be a member of the family to be able to socialize well. If not, there will be a prolonged conflict emerge in both families, for example the incompatibility of law with the law or by-law wife.

### 4. Simplicity

Simplicity in the household is one of morality values contained in the poem Pakkio bunting. In the poem household Ali bin Abi Talib and Fatimah Az-Zahra

became a household life examples that emphasizes modesty and simplicity are raised in poetry (Rahmawati, 2014: 95-98).

## INTERVIEW GUIDE

### 1. Interview with Mrs. Ramla Dg. Tonji, S.S., S.Pd.

A: What is your name?

B: Ramla Dg. Tonji

A: What is your job?

B: Teacher

A: Where do you live?

B: Tala'manggape, Ds.Bontolangkasa selatan, Kec.Bontonompo, Kab. Gowa.

A: When and where were you born?

B: Kacci-Kacci, 10 Mei 1986

A: What is your opinion about Pakkio Bunting which always held in Wedding ceremony?

B: If we talk about Pakkio Bunting, from the early start of speech basmalah until the cover has one unit of meaning that cannot be separated from each other. We can not just use the text at the beginning, but we have to either the entire text so that purity can be maintained. Then in terms of language, or diction choice said it was cool (wonderful), not from the language of the everyday because many contain figurative language or the language of parable. The bottom line overall Pakkio bunting contains prayers, hope in the future not just a momentary hope.

A: What is the meaning of ‘bannang’ (thread) in the sentence ‘La’bu bannang di Jawa’?

B: The deep meaning of the sentence above, all people have expectation to the couple, so that they are always healthy and achieving good family. The text uses ‘bannang di Jawa’ (Thread in Java) means that the reflection of a process of maturation of the self to a life that is useful and a path of mutually binding and filling each other and use Java because it is the center of civilisation in Indonesia in the past.

A: So, What is the meaning of ‘luara’ (ocean) in the sentence ‘luara tamparang luarangngang nawa-nawannu’?

B: The intent should be bigger than that, because wading through ark households, the sea is so ..... why not take the parable of ‘luaraki’ for example, for example, take the example of kampung Barembeng or Bontonompo,, why isn't it? Why is the sea? No catches, but if we use the word sea, right we know own the sea what we give him never refused, and when we see the ocean, covering the eye can see, we don't know where it ends. So are our expectations against the groom it, that there will be no end of relation their marriage.

A: How about the meaning ‘late bunganna tamalate cinikanna’?

B: ‘Late’ it's dead, so ‘tamalate’ it will not die, it's the language of the ancestors, so interpreted the love will never die.

A: How about ‘the flower’ in that sentence?

B: Flower blossom likened life partner. ‘Late bunganna’ means the flowers wither, but tama late ‘cinikanna’ meaning will not be dead memories and a sense of love.

Overall though the spouse will leave each other, but the feeling of love and compassion will never wither/dead.

A: How about ‘pakke’bukku’ in the sentence ‘Naku joli pakke’bukku’?

B: The meaning of ‘pakke’bukku’ (door), translated as the heart and the door means that the woman is to be his choice. ‘Ku joli pakke’bukku’ (I close the door) means closing the door to others.

A: Then, how about the meaning ‘tope’ in the sentence ‘Sikatutui maki tope’?

B: Tope (clothing) means that based on the tip (religious advice) Makassar that women are men's clothes and men are the women that means keeping each other up. So when the couple we have shortcomings, we should cover it, or are complementary to each other.
