ACKNOWLEDGMENTS

بِسْمِ اللهِ الرَّحْمٰنِ الرَّحِيْمِ

First of all, the researcher would like to thank almighty praises be to Allah, who has the only provider, the most merciful whose blessing give her guidance, inspiration and good health all the time to conduct the writing this thesis. Also Shalawat and Salam are delivered to our great prophet Muhammad, who has brought us from the darkness to the lightness.

Special to my beloved her father the late **Heri dg Bundu** and Her lovely mother **Nani dg Nurung** who have given much love, motivation, supporting, praying, moral and financial support for all the time for her success.

In accomplishing this thesis, she would like to acknowledge her deepest thanks and appreciation to the following persons who have involved in completing this thesis, for the valuable contribution suggestion, advice, supporting, guidance, sacrifice, and praying for her to finish her thesis.

1. **Prof. Dr. Musafir Pababbari, M.Si** the Rector of State Islamic University Alauddin Makassar.

2. **Dr. H. Muhammad Amri, Lc.,M.Ag.** The Dean and all of the staffs of Tarbiyah and Teaching Science Faculty of Alauddin State Islamic University of Makassar.

3. **Dr. Kamsinah, M.Pd.I.** and **Sitti Nurpahmi, S.Pd., M.Pd.** The Head and the Secretary of English Education Department, Tarbiyah and Teaching Science Faculty of Alauddin State Islamic University of Makassar and all of the staffs.

This research aimed to find out the effectiveness of Doraemon comic in Teaching Vocabulary and to find out the significant different achievement between students master vocabulary before and after being Teaching English to the students through the Doraemon comic to Master Vocabulary at the First Grade of SMPN 1 Tinggimoncong in Academic Years 2016/2017.

The method This research employed quasi-experimental method with two groups pre-test and post-test design. There were two variables in this research; they were independent and dependent variable, while independent variable Doraemon comic and dependent variable Master Vocabulary at the students.

The population of this research was the Firts grade of SMPN 1 Tinggimoncong in Academic years 2016/2017 are classes V11 1, VII 2, VII 3, VII 4, VII 5. The total number 162 students. The sample of the research are two class VII 1 and VII 2 consisted of 50 students, 25 students for class control and 25 student for experimental class, which were taken by using Quasi experimental design, The technique which was used to analysis the data. Base on the result of data analysis students' t-test score is **(3.9)** and t-table **(1.1)** from degree of freedom (df) 48.

Base on the result of the study, it can be conclude that the Doraemon comic has positive effect in teaching vocabulary at the first grade of SMPN 1 Tinggimoncong in academic year 2016/2017. So, alternative hyphotesis was accepted and Null hyphotesis was rejected.

CHAPTER I

INTRODUCTION

A.   Background

English is one of international languages. English is one subject in the curriculum of school that must be taught by the teacher well. Although it is a foreign language, the students have to master that language in order to develop their skills and reach their dreams in the future. English is widely used for communication in the world. English is used in many fields such as: information, technology, economy, science, art, education, politics and so on. Thus, every school should contribute the best strategies and methods to help the students master this language. According to Manurung in Rahayuningsih (2003:1) state that the ability of speaking, listening, reading and writing English depend on the mastery of vocabulary and grammar.

The ability to master vocabularies is very crucial by the Junior High School. Vocabulary is one key to improve the English achievement. Students who have lots of vocabularies are easier in their study and learning process. Without goodmastervocabulary, students will face difficulties in their study. When they do not know how to enrich their vocabulary, students often gradually lose interested in learning. AccordingtoDavidNunan,(1991:117)argued that acquisition of an adequate vocabulary is essential for successful second language use. Without an extensive vocabulary, we will be unable to use the structure and function we may have learned

Teaching English to master vocabulary is one way to give understanding about English vocabulary.

So, vocabulary is the one important thing besides many factors in learning English. Without mastering vocabulary, it is imposibble to master English well. The more students get the vocabularey it makes easier for students to increase their English.

In this case, the researcher is interset to teach vocabulary by using English Comic as a media. Comic is one of a many media to teach vocabulary. Comic are an art form using a series of statistic image in fixed sequence. Using English comic as means for teaching vocabulary can be very pleasing and interesting for the students. According to Krashen (1993 : 80) By using English comics students will be more interest and more active in learning. They will feel something new and different from what they usually get in their class. The writer hopes trhat with the use the English comics they will be active as participants and they have more a chance to express their minds, emotions, feelings, and attitudes.

Based on the result of premilinary study, in SMPN 1 Tinggimoncong, especially in the class seven. The students find difficulties in vocabulary such as they do not understand the content of the material, besides they were difficult to find the meaning of the words. The other problems, the students were bored in the class when learn English becauseit was not interesting and they have limited vocabulary.

Based on the result of preliminary data, in SMPN 1 Tinggimoncong, the students have problem were lacking vocabulary. The researcher want to making the

students easy understand about English language. The use of media visual is one way to overcome the problem of student vocabulary.

Doraemon Comic is one way learning media the form media visual which very interest and help students to master vocabulary. The media visual to learn taken by the researcher as solution, because the researcher have in learn about it and know the way use media visual to learn. The use of media visual is one way to overcome the problem of student vocabulary. According to Goleman in Akbar Hakim, (1995), media in English learning active become very importan because without the media, how students can make sense of an object with the specified name in English. Each students will view these object premises recall a spesific word in English. Emotionally engage students fully into the learning process. Emotional involvement would reduce brain activity in the glue a lesson in memorized.

Based on the facts stated previously, the researcher assumes that the fact will become a problem if not overcome soon. For this assumption, the researcher is interested to do experiment research with title "***Teaching English to the Students through the Doraemon Comic to Mastery Vocabulary at the First Grade of SMPN 1 Tinggimoncong***".

B. Research Problem

Based on the previous statements, the researcher formulates problem statements as follows:

1. Is teaching English to the students through the Doraemon comic effective to master vocabulary at the first grade of SMPN 1 Tinggimoncong?

2. To what extent is teaching English to the students through the Doraemon comic effective to master vocabulary at the first grade of SMPN 1 Tinggimoncong .

C. Research Objective

Based on the objectives of the research can be specified as follows:

1. To find out whether is teaching English to the students through theDoraemon comic to master vocabulary at the first grade of SMPN 1 Tinggimoncong.

2. The extent to which is teaching English to the students through the Doraemon comic to master vocabulary at the first grade of SMPN 1 Tinggimoncong.

D. Research Significant

This study has several purposes as follows:

1. Theoretical Significant

Research results are used to confirm a theory about media of the comic to help students talk English.

2.Practical significant

a.For the students

The researcher will help the students to learn vocabulary with easy to way. Through the comic.

b.For the teacher

The researcher will help the teacher to make students enjoy in English learning through comic.

c. For the next researcher

The researcher will help the next researcher for gathering information about the comic is improving students' ability in English vocabulary.

E. Research Scope

The researcher focus on Doraemon comic for students ability are making master vocabulary at the first grade of SMPN 1 Tinggimoncong This researcher focused on the Doraemon comic, and focused on the type of vocabulary are (Noun and verb).

F. Operational Definition of Term

To solve the problem above, the researcher used comic in teaching vocabulary on the consideration that they can facilitate the teacher to arouse the attention and improve the motivation of the students to learn vocabulary.

Fromthe statements above the researcher conclude the vocabulary is a list a content words other meaning it is used of general communication. According to Finocchiaro that is quoted by Jack Richard (1979 : 182), mentioned that vocabulary

is content and function words of language that are learned so through that they used in performance of any communication.

Doraemon comic is one way media visual for students understandaboutvocabulary in English learning. According to Colliers' Encyclopedia in Royanti (2007:12) defines comic as " term applied to a series or sequence of closely related highly stimulating drawing differs from the ordinary cartoon in that they are not necessarily, but some artist m,ake some of them serious, mysterious and adventurous."Generally, there are several categories of comics such as adventurous, war crime, real stories, and biography, jungle adventurous, animal cartoons, fun and humor, love, interest, and retold classics.

CHAPTER II

LITERATURE REVIEW

A. Review of Related Research Findings

Aziza Tri Harviati (2012) *The Effectiveness of Using Comic to Increase Students' Vocabulary Mastery of ontent Words for the Seven Grade Students of SMPN 33 Purworejo*. It can be conclude the result shows that there is a significant effect of teaching vocabulary using comic increase students' vocabulary mastery, since it was found that the result of t-value is 5.11. The research findings indicate that the students are interested in learning English vocabulary using comic. The teacher use the variety of teaching methods in teaching learning pprocess in order to gett thee higher achievement of the students.

Lisa Darsalina (2010). *The Application Of Comic Strips in Teaqching Vocabulary at Second Grade of SMPN 8 Banda Aceh.*This quantitative study was conducted with the aims to find out students vocabulary mastery before and after application of comic strips. The finding showed that there were significant improvement of students vocabulary mastery. It means that students vocabulary has been increased or improved after the application of teaching English by using comic.

Nadiatul Khoiriyah (2010).*The Use of Comic Stories to Improve Students' Vocabulary of MTs NU Ungaran*. In conclude on other hand, the t-test of hypothesis using t-test formula showa the value of the t-test is higher than the

critical value. It means that there is a significant difference the vocabulary achievement scorew betwen students who are taught by using comic stories and the stude3nts who are taught without comic stories. In this case, the use of comic stories is necessary needed anf effective in teaching vocabulary.

Risya Fatimah Zahra (2016)*The Effectiveness of English comics on the students' vocabulary achievement at second year students of SMP NEGERI 10 kendari.*This study is conducted to invistigate whether there a significant effect of English comic on students' vocabulary achievement. The research question of this study was is there any significant effect of english comic on students' vocabulary achievement.

From the previous research it can be found that using comic is effective to master vocabulary, exactly for English learning. Therefore, is different all this research conduct will be using comic to prove master vocabulary but specially for this thesis, the researcher used comic specific for Doraemon comic to Teaching English to the Students' through the Doraemon Comic to master vocabulary at the First Grade ofSMPN 1 Tinggimoncong.

B. Some PertinentIdeas.

1. Concept of Vocabulary

Whenever we think of language learning, we usually think of mastery vocabulary. It is duec to the fact that vocabulary supports the speakers in communication to express their idea. According to Cameron (2001:94) says that a major resource foe language has been vocabulary. In language terms, the development of words, the meaning and

the links between hem will be converewd under the term vocabulary. The writer can find a statement that use certain teaching become important. The main factor effecting this success is the proper method to the certain subject.

2. **Definition ofVocabulary**

Vocabulary is one of the language components which should be mastered by English learners, vocabulary has role, which parallers with grammar to help the learners mastering for language skills. Vocabulary development is also about learning more about those words, finding words inside them, and learning even more about those words. According to Hornby (1995: 1331) defines vocabulary as 'a total number of words in a language which words known to a person or used in a particular book, subject, etc." Whereas Hallyday (1982:1255) says that vocabulary is a list of collection words use in language science book and etc. According to Longman, vocabulary is words knows, learnt,etc. (Longman Dictionary, 1992 : 1467) it means the stock of wordS which are known learnt, used by people to communicate.

3. **Teaching Vocabulary.**

Teaching English as a foreign language for indonesia is not an easy thing to apply. The teacher are demanded to be succesful. An affective teaching is the basic factor for the success of teaching learning process to prepare an affective teaching.

4. **Teaching Vocabulary by Using of English Comic**

Teaching vocabulary by using of English comic here means that the students identifity and study words from the context on the comic reading. Story from comic offers a whole imaginary world, created by language that students can learn and

enjoy. Story from comic is designed to entertain, so the teacher choose and use world with partricular care to keep the students and the other space for growth in vocabulary and language development. The teacher ha sto identify the language use in language that already met.

5. The Principle of Teaching Vocabulary

In teaching vocabulary, the teacher has the job of managing the students meaning to do the target vocabulary. According to Wallace (1998 : 27-30), there are principles on teaching vocabulary are based :

a. Aims

The aims have to be clear for the teacher,it meansthat in the process of teaching learning, the teacher has the clear aims or goal, the teacher should teach everything on giving vocabulary.

b. Quantity

The teacher has to decide the quantity of vocabulary, which is learned. Decide the quantity of new vocabulary, which in teaching learning process is very important and to decide in depends on the students' condition.

c. Need

The students are put in a situation where they have to communicate and get the words they need, as he need them, using the teacher as information, the teacher is as the information of the students need about the vocabulary learn.

d. Meaning Presentation

The teacher shows the target words with the clear meaninng and does not make double meaning or the teacher should give a clear understanding about the words phrases give to the students by using reading comic in teaching vocabulary. Teacher who teac vocabulary, however, still have responsibility to make their teaching succesfull.

e. Situation Presentation

In teaching vocabulary, the teacher has to explain clearly to the students on how to know meaning of words in content word; it is based on the many aspects.

6. Types of Vocabulary

a. Receptive Vocabulary

Receptive vocabulary is words that the learners recognize and understand when they occur in context, but which connot produce correctly. It is vocabulary that the learners recognize when they see it in reading context but do not use it in speaking and writing. The receptive vocabulary is also called a passive process because the learner only receives thougt from others. In language application, the receptive vocabulary is considered the basic vocabulary. It is much larger than productive vocabulary because there are many words recognized when the learner hears or reads but do not use when he speaks or writes.

b. Productive Vocabulary

Productive vocabulary is the words, which the learners understand, can pronounce correctly, and use constructively in speaking and writing. It involves what is needed for receptive vocabulary plus the ability to speak or write the appropriate time. Therefore, productive vocabulary can be addressed as an active process, because the learners can produce the words to express their thought to others.

7. Comic

a. Definition of comic

The precise definition of comics remains a subject of debate, with some scholars insisting that their printed nature is crucial to the definition, or that they should be defined by the interdependence of image and text. Others define the medium in terms of its sequential art. According to Scott McCloud in his book Understanding Comics (1993), comics are juxtaposed pictorial and other images 12 in deliberate sequence, intended to convey information and/or to produce an aesthetic response in the viewer. By this definition, single panel illustrations are not comics, but are instead cartoons. According to A. S. Hornby (1987: 168) states that comic is books or magazines containing stories etc. in the form of drawing. Nana Sudjana (2002: 64) defines comics as a kind of cartoon form expressing character and playing a story in sequences of closely related drawing 13 and designed to give fun to the readers. It contains several continued stories. The stories are brief and

interesting, completed with action. Comics also appear in newspaper and book. The Use of Comic in Teaching.

Comic has been spread out widely as the medium to entertain. The colored illustration, simple theme and plot, and the characterization will attract the person who read it. Amazingly, nearly everyone says yes if they are asked whether they have ever read comic. The wide spread of comic has interested the writer in using comic as a medium for teaching. A teacher may use the potential of comic in motivating the students. The main role of comic book in teaching is its strength in motivating the students' interest. It is better to combine the use of comic with a particular method of teaching. So, the use of comic as a medium of teaching will be more effective. A teacher should help the students to find a good and enjoyable comic which is 17 appropriate to the way the students think and the students' age. Also, a teacher should help them get broader information and knowledge from the comic.

b. Strengths of Comic in Education

Strengths of comics in education according to (www.genayang.com/comicsedu/strengths.html), can be described as follows:

1. Motivating The most frequently mentioned asset of comics, as an educational tool, is its ability to motivate students. Through comic as a medium the teacher can give motivation to the students to learn English in more enjoyable and interesting ways. Students, especially young learners, like to read comics. If they are given options to study or read comics, they will choose to read comics. So, with the use of

comics as a medium in teaching English, the students do not realize that they are learning English. They will be more motivated to learn English. 14 Comics motivate the students by its pictures. The use of colors, the name of animals, and the identification of the main parts of human body can be studied and understood fast with the use of cartoon comics.

2. Visual Comics, being composed of pictorial and other images, are a fundamentally visual medium. The interest of students in comics' picture emphasizes the potential of visual medium. In a study comparing comics to text, Sones (www.genayang.com/comicsedu/strengths.html) found that comics' visual quality increases learning. Sones divided four hundred sixth into two groups, balanced in terms of both school grade and intelligence. To the first group he presented comics, to the second only text. Afterwards, each group was given a test on the content of the story. The result was the first group scored significantly higher than the second group.

3. Intermediary Comics can serve as an intermediate step to difficult disciplines and concepts. Many language arts educators have used comics in this manner with tremendous success. Karl Koenke (www.genayang.com/comicsedu/ strengths.html) suggests that comics can lead students toward the discipline of learning. Hutchinson's experiment (www.genayang.com/comicsedu/ strengths.html) found out that many teachers discovered comic strips to be particularly useful in special classes or for slow learning pupils in regular classes.

4. Popular Comic is a popular reading for children. If we ask the students, whether they have read comic or not, most of them would say, "yes." It is very popular because comic has interesting story and full of colors. That is why the children 16 like it. By comics, students can learn about culture. Teachers can introduce popular culture into their classroom easily and effectively through comics. By incorporating popular culture into curriculum teachers can bridge the separation many students feel, between their lives in and out of school.

8. History and Origin Doraemon.

Who is Doraemon? Doraemon is robotic cat that was made on September mass 2112.in a Factory off-farr Tokyo, produced robots cat. Doraemon is the title of a popular manga authored Fujiko F. Fujio since 1969 and revolves around the life of a child's 5 th grade slacker named Nobi Nobita who was visited by a robotic cat named Doraemon who came from the 22nd century. He was sent to help the descendants of Nobita Nobita to enjoy his success rather than having to suffer from financial debt - which will happen in the future - which is caused by ignorance Nobita.

Nobita, having failed a test after school or harassed by Giant and Suneo, Doraemon will always come to ask for help. Doraemon will help Nobita then typically by using advanced equipment from his magic bag; equipment is often used as "bamboo propeller" and "Door to Anywhere". Often times, Nobita go too far in using the equipment and even lapse into a bigger problem.

a. History

In December 1969, the manga Doraemon continuously published monthly magazine titles in six children. Such magazines is a magazine Yoiko (good boy), Yōchien (kindergarten), Shogaku Ichinensei (grade 1), Shogaku Yonnensei (4th grade), and since 1973 the magazine Shogaku Gogensei (5 th grade) and Shogaku Rokunensei (6th grade). The story contained in the magazines is different, which means the author of this story should be written more than 6 stories each month. In 1979, CoroCoro Comic magazine launched as Doraemon.

Since it first append in 1969, Doraemon stories have been collected and divided into 45 books published since 1974 to 19996, and had sold more than 80 million books in 1992. In addition, in 2005, Shogakukan published and additional serial number five volume under tittle Doraemo + (Doraemon Plus), with a different story from the original 45 volumes

b. setting.

Doraemon was sent back to life by the great-grandson Nobita Nobita, Sewashi, to improve the lives of his descendants Nobita to feel a better life. In real life (without the help of Doraemon), Nobita failed in his studies, failed in a career, and left his family with financial problems.

The story focuses on the daily life of Nobita, the main character of this story. Doraemon has a four-dimensional pocket which he filled with objects from the future. Often Nobita come whining because of problems at school or in the neighborhood, after begging or forcing, Doraemon will release a tool that helps Nobita resolve the

problem, get revenge, or just show off to friends.However, Nobita usually goes too far, ignoring the advice or command Doraemon, and as a result fall into a deeper problem. Sometimes, Nobita's friends (usually Suneo or Giant) steal the device and ends in chaos due to incorrect use.

c. synopsis.

Doraemon's early life is not so good. He is a robot fails to auction to a poor family who were in debt, which is nothing but the family descendants of Nobita Nobi. Doraemon have undergone periods of heavy: He only became babysitter after failing to pass the test at the academy robot, his ears were destroyed after being bitten by a robot mouse, the paint wear off because of him alone, and there are many sad stories that he went through in the first year of his birth. Until one day, he sent his family back to the past, about 250 years ago, a time when Nobita Nobi, ancestor of this family, still living in Tokyo.Doraemon's mission is to help Nobi Nobita (great-grandfather of Sewashi who have Doraemon). Nobita is a boy who always had the misfortune, and do not have any ability. He is a fool in school and cannot exercise, Nobita only talented in the shootout, rubber play, and sleep; ability almost useless in the modern era of Japan. This is the reason why he failed to live her life. And Doraemon is sent from the future to make him a successful man. Very ironic, a robot fails to come help a child who failed. But in reality, friendships these two kids make them become a better person.

Doraemon arrived in 1969, the Japanese New Year's Day. He came out of Nobita's desk drawer, and since then she has lived with Nobita, his mission is to

prevent Nobita become a failure. Whenever in trouble Nobita, Doraemon will immediately help with the tools of magic.

Doraemon's mission seems to have worked, because when they venture into the future, Nobita saw himself married to Shizuka, not by Jaiko. He also saw his descendants live in better condition than when Sewashi send Doraemon first; even afford to buy a robot Nobi descent who "did not fail", Dorami.Told in manga and anime, Doraemon and Nobita work together to improve their lives. They work together and mutual assistance. Many stories also featuring the story of their courage and perseverance to maintain their friendship those intertwine.

d. The End of Story

Since the 1980s, popping up a lot of stories and speculation about the end of the story of Doraemon. The storyof the most optimistic first-and-published by Nobuo A fewyears ago. Told one day, Nobita came home and whining to complain to Doraemon. But before long, he realized something was wrong with Doraemon; robot pet was just silent and not answer the complaint. He was soon called Dorami, Doraemon's sister, and asks for guidance from him. Dorami later told that Doraemon's battery runs out. Furthermore, Dorami explained that the robot cat Doraemon old version as it should have battery backup memory support in the ear, but because of Doraemon has lost his ears; he did not have backup power to keep the memory and memory. The only way to revive Doraemon is to replace the batteries, but it means that Doraemon will lose all memory of himself and his friends, including about Nobita. At the same time, police time and making new rules prohibit the

existence of "time travel" and blocking the attempt to bring Doraemon Nobita to be improved in the future. Dorami then give you a choice: desperate to break through police-time, fix Doraemon in the future and erase his memory, or wait for someone from the future to come and fix Doraemon: Nobita to choose the second way. Nobita, Doraemon very lost-then promised to study hard for Doraemon. Nobita successful business, three years later, Nobita graduated high school with the best value and become someone who is very popular at school. Even so, the nature of a cheerful and optimistic Nobita lost, he became a kutubuku always be alone. Twenty-nine years later, told Dekisugi who had become president of Japan, held a reunion with Suneo and Jaian. The three discussed the issue of "disappearance" of Doraemon and the Time Paradox: a theory that explains the history of the world can be changed with the creation of a time machine. and from the conversation that was exposed to the reason why the patrol did not give permission to fix Doraemon Nobita in the future, because Nobita itself that created Doraemon. Once repaired, Doraemon has become the ears and yellow, she embraced tightly Doraemon. And they lived happily ever after.

The second, more pessimistic ending suggests that Nobita suffering from autism and all the characters (including Doraemon) are only fictional characters in his imagination alone. The idea that Nobita is sick and dying to imagine all the series in his bed to help relieve the pain of depression and angered many fans. Many Japanese fans protest outside the main office of the publisher of the series after learning about it. Publishers finally issued a public statement that this is not true.

The third shows that Nobita fell and hit her head stone. He fell into a coma. To get the operating money saved to Nobita, Doraemon sold all his tools in his magic bag. Unfortunately, the operation failed. Doraemon sold all his tools except for the one tool he uses to allow Nobita to go wherever he wants. In the end, Nobita wanted to go to heaven.All these possibilities are discussed and decided there is no end to the story of Doraemon.There are three official end to the story of Doraemon are made. Doraemon was discontinued in two media because readers increasingly large and the end of the story is belived necessary.

In March 1971, at 4-nensei Shogaku magazine: Due to the fact that visitors from the future cause problems, the government in the century-22 prohibits the passage of time, meaning Doraemon had to go back to his time in his day and left Nobita.

In March 1972, the contents of the magazine Shogaku 4-nensei: Doraemon, for some reason have to go back to the future and lied to a mechanical problem so that Nobita let him go. Nobita trust him and promised to wait until Doraemon healed. Realizing that could let him go Nobita, Doraemon Nobita to tell the truth and accept it. Doraemon back to the future.End of the third Doraemon is the official end because of the low TV ratings and the Fujiko Fujio busy with other work, but Doraemon did not leave their minds and repeat back to the issue next month. In 1981, this episode was made into anime (called "Doraemon Comes Back"), and in 1998, this film was released as an anime film.

In March 1973, the contents of the magazine Shogaku 4-nensei, Nobita returned home after losing a battle against the giant. Doraemon then explains that he must return. Nobita trying to hinder this, but after discussing it with his parents,accepted the departure of Doraemon. They did the last trip in the park. After they split up, Nobita to see giant and fight back. After a long battle with Nobita trying to win so that Doraemon can leave without worry, giant let Nobita Nobita win for not giving up. Doraemon Nobita found unconscious and brought him home. He sat next to a sleeping Nobita and after that, Doraemon back to the future. (This story can be found in the last part of Doraemon comic number 6) Animated version is similar but longer. At the April Fool's day, Nobita and giant Suneo deceived by the trick him about Doraemon's return. He was happy to go home and asked his mother where Doraemon and it turns out he knew that he was deceived. Nobita sad and open boxes of Doraemon. It was a bottle of liquid. He listened to the voice of Doraemon, who explains that the liquid is called Uso 800 (Lies 800) that is used to correct all the things that are not spoken by people who drink fluids such as the right thing. Nobita uses it to deceive Jaian and Suneo, as he said very nice weather today, which becomes a lie and heavy rain began to fall before he said today and the rain is torrential rain has stopped. Jaian and Suneo scared after a few tricks and when Nobita tell what will happen. Nobita is very excited at first, but soon will be lost because of missed Doraemon. He came home, and his mother said Doraemon had to go home, but he was not convinced and sure Doraemon will never return, as said Doraemon to Nobita before he left. The liquid is still functioning, when he reached his room he finds

Doraemon, and they are happy, but because of the influence of fluid, all of the words changed to I'm very unhappy that we can come back again.* Extra section of the animation is derived from the Doraemon comic book number seven.When the Fujiko Fujio duo split in 1987, the idea would end the unofficial Doraemon is never discussed. Since Fujiko F. died in 1996 before any option is reached, the end of Doraemon is fiction fans, but, in many episodes and movies when Nobita travel time showing he finally marry Shizuka, leads to a happy life and apart from Doraemon, although Nobita and his friends still remember.

Doraemon is one of the most popular manga characters in Indonesia. Almost everyone familiar with this character - both adults and children. Cartoon series (anime) are the first in TVRI Yogyakarta in 1974 on Monday to Friday at 06:00 and the second on TVRI in 1979 to 1991 hours Monday to 07:00 on Sunday and a third on RCTI after a dozen years (since 1991 - present) at the same time - at 08:00 on Sunday, proving its success in this country.

C.Theoretical Framework

Figure 1 variable through Doraemon picture books for vocabulary.
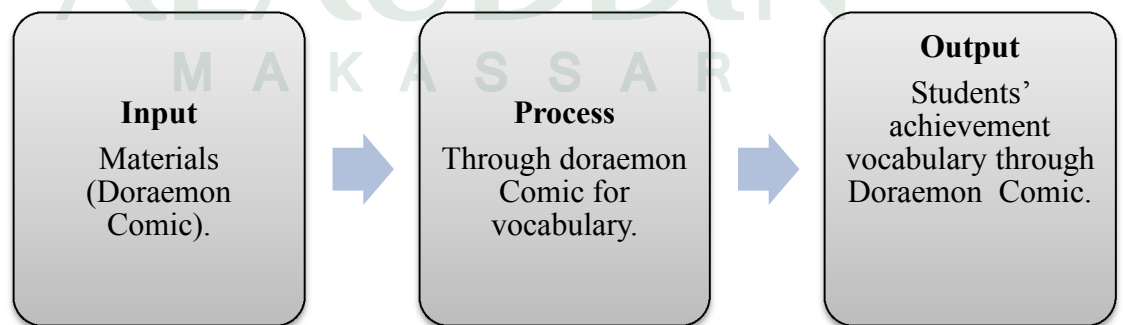

1. Input, refers to the material for teaching vocabulary of Doraemon test.

2. Process, refers to teaching vocabulary through (Doraemon Comic).

3. Output Refers to Doraemon Comicby the student here have three

alternatives to convey. First, whole lesson: making Vocabulary the main focus of lesson does not mean that every minute of the lesson has to be spent on vocabulary work. Second, discrete slots: some teachers insert short, separate bits of vocabulary work into lesson sequences. And the last alternative is integrated phases: many teachers get students to focus on vocabulary issues as an integrated part of lesson In this case, teacher decides what alternative he or she chooses. By deciding the alternatives he or she uses in teaching English vocabulary, he or she can make a strategy based on the alternative to get a maximum result. Moreover, the most important thing of the teaching and learning process is the understanding of the students about the lesson. Cameron says that "it is a crucial thing for teachers to take the responsibility for checking whether their pupils understand the language being used and the purpose of activities being carried out". In this case, the teacher should let the students know that they are studying about vocabulary and they are expected to be able to vocabulary English words correctly. It needs an enthusiasm in teaching English vocabulary so that both the teacher and the students get a good result in it. It can be done by encouraging the students that they can do the best. Besides that, it also can be done students ability in vocabulary English words, so other students know that they can do it well. By this, students have a great spirit to learn how to vocabulary

English words well. In conclusion, the process of Doraemon Comic is the teacher gives thematerial about samething after that, vocabulary it and practice of Doraemon picture book and follow by the students, decoding and repeat is important to the students, that they must to practice by their body too about what the command word have mention by the teacher.

D.   Hypothesis

Based on problem statement presented by the reseacher, The hypothesisof this research is formulated as follows:

H1: The extent to which is teaching English to the students through the Doraemon comic to master vocabulary at the first grade of SMPN 1 Tinggimoncong.

H0: The extent to which is not teaching English to the students through the Doraemon comic to master vocabulary at the first grade of SMPN 1 Tinggimoncong.

CHAPTER III

RESEARCH METHOD

A. Research Design

The method used in this research was quantitative method for Quasi Experimental design and the analysis of data, this research used quantitative data, and this researcher used the approach of scientific learning was aprocess that starts from the observation that emphasis on numerical data or figures obtained by statistical methods. The research design conducted as follows:

E	O_1	X	O_2
C	O_3	–	O_4

Where:

E: Experimental class

C: Control class

O1: Pre-test in experimental class

O2: Pre-test in control class

X: Treatment

O3: Post-test in experimental class

O4: Post-test in control class

(Sugiyono, 2010).

B. Research Variable

Research Variable In this research are two kinds of variable namely dependent and independent variable as follows:

Dependent = Master Vocabulary at the Students

Independent = Doraemon Comic

C. Population and Sample

1. Population

The population of this research was the whole students at the First Grade of SMPN 1 Tinggimoncong in academic year 2016/2017. The population consist of five classes VII 1, VII 2, VII 3, VII 4, VII 5, For female 85 students and for male 75 students the total number of population 162.

2. Sample

The researcher applies the Purposive sampling in which two classes as a sample. Class VII 1 as the Experimental class and VII 2 as the control class. Each of the class consists of 25 students, therefore the total number of student are 50.

D. Research Instrument

The instrument of this researcher is a test to mastery vocabulary through the Doraemon Comic. Test is taken by the material from the vocabulary of noun and verb. These tests are 25 items from the word noun and verb; students will be vocabulary asses through picture. The test consists of a post-test and pre-test. Pre-

test is intended to see the prior knowledge of the students is type of vocabulary are noun and verb before giving treatment, while the post-test was administered to know the students achievement after giving treatment.

E. Procedure of Collecting Data

Before implementing a research, the researcher first of all will make Research design and that cover as follows:

1. Pre-test

The techniques of collecting data used in this research are:

a. Teaching

The researcher did the teaching learning process six times, three times in control class and three times in experimental class before giving the post test to the student. The control class will be treatment by using teacher strategy.

b. Test

The researcher made the instruments of this research that consisting of 25 questions vocabulary test. It is divided in two forms; the first part is multiple choices, the second part is structured essay. They are divided in two categories multiple choices and essay. If the students answer all item correctly, they will get score 100.

2. Treatment

The treatments were give to the students after giving the pre-test. The experimental class was treated by teaching vocabularynoun and verb by using Doraemon picture books. The treatment were given for eight meetings. the first

meeting the researcher explain the students about the topic, Second Meeting until seventmeeting the students learning activities by using Doraemon picture books. For the eight meeting, the researcher made conclusion and evaluation of the materials.

3. Post-test

The post-test was given to the sample after treatments; the purposes was to know the students achievement in vocabularytypes of noun and verb after applying Doraemon picture books.

F. Technique of Data Analysis

Technique of Data Analysis The researcher used a quantitative datawhich is related to numerals and it is analyzed by statistics. She used "t-test" formula to calculate the data by comparing students' pre-test and post-test.in quantitative analysis will form as follows:

1. Scoring the student's answer by using the following formula:

$$Score = \frac{Students'\ correct\ answer}{Total\ number\ of\ item} \times 100$$

(Suharsimi Arikunto : 2013).

2. Classifying the score of the students' formula into the followingclassification.

No.	Classification	Score
1.	96-100	Excellent
2.	86-95	Very good
3.	76-85	Good
4.	66-75	Fairly good
5.	56-65	Fair
6.	46-55	Poor
7.	0-45	Very poor

3. Calculating the mean score of the students' answer by using the following

formula:
$$\bar{X} = \frac{\sum X}{N}$$

Where,

$\bar{X}$ = Mean score

$\sum X$ = The sum of all scores

N = The total number of subject

(Gay, 2006)

4. Finding out the standard deviation by applying this formula:

$$S = \sqrt{\frac{S}{N-1}}, \text{ where } SS = \sum X^2 - \frac{(\sum X)^2}{N1}$$

(Gay, 1981: 321)

Where:

SD   = Standard Deviation

SS   = The sum of square

N   = Total number of the subjects

$\sum X^2$ = The sum of all square; each score is squared and all the squaresare

added up

$(\sum X)^2$ = The square of the sum; all the scores are added up and the sum is

square, total.

5. The formula used in finding out the difference between students' score in pre-

test and post-test.

$$t = \frac{\overline{x}1 - \overline{x}2}{\sqrt{\left(\frac{S\ 1 + S\ 2}{n1 + n2 - 2}\right)\left(\frac{1}{n1} + \frac{1}{n2}\right)}}$$

Where:

t   = Test of significance

$\bar{x}_1$ = Mean score of experimental group

$\bar{x}_2$ = Mean score of controlled group

SS_1= Sum square of experimental group

SS_2= Sum square of controlled group

n_1 = Number of students of experimental group

n_2 = Number of students of cotrolled group.

(Gay, 2006).

CHAPTER IV

FINDINGS AND DISCUSSION

A. Finding

The findings of the study deal with the presentation rate of the students' score obtained from the test to find the mean score, standard deviation, test of significance, and hypothesis testing to master vocabulary extent to which about Media.

The researcher conduct an evaluation action that is pre-test and post-test to measure the extenttolevel was understanding of the students before teaching through the Doraemon picture books and after teaching through the Doraemon picture books.

Through the Doraemon picture books was very effective to master Vocabulary of the students at the SMPN 1 Tinggimoncong especially for VII class which vocabulary was very less.

1. Result of Students' Pre-test in Experimental and Control Class

Table of the result of Students pre-test in Experimental Class were shown in the Appendix I. The next table show the distribution of frequency and percentage of final score of students Vocabulary at the First Grade of SMPN 1 Tinggimoncong in pre-test Experimental class and Class Control.

2. **Students Classification Score in Pre-test for Experimental and Control Class.**

Table 4.1

The distribution of frequency and percentage score of Experimental class

No.	Classification	Score	Frequency	Percentage
1.	Excellent	96-100	0	0%
2.	Very good	86-95	0	0%
3.	Good	76-85	4	16%
4.	Fairly good	66-75	6	24%
5.	Fair	56-65	4	16%
6.	Poor	46-55	5	20%
7.	Very poor	0-45	6	24%
	TOTAL		25	100%

The table 4.1 there were 4(16%) students classified into Good,6 (24%)students classified into Fairly Good, 4 (16%) students classified into Fair, 5 (20%)students classified into Poor, and 6 (24%) students classified into Very poor.

Tabel 4.2

The distribution of frequency and percentage score Control class

NO.	Classification	Score	Frequency	Percentage
1	Excellent	96-100	0	0%
2	Very good	86-95	0	0%
3	Good	76-85	3	12%
4	Fairly good	66-75	6	24%
5	Fair	56-65	5	20%
6	Poor	46-55	6	24%
7	Very poor	0-45	5	20%
	Total		25	100%

The table 4.2 there were 3(12%) students classified Good, 8(32%)students classified Fairly good, 3 (12%) students classified Fair, 6 (24%)students classified Poor and 5 (20%) students classified into very poor.

In summary, for both classes nobody classified into neither Excellent nor Very Good. Most of studenst in experimental class got Poor and Very Poor, and there were 5 students classified into Poor and 6 students classified into Poor for control class. The students classified into Very Poor because they do not have ability in comprehending text well. It was shown by the result of their enhancement in vocabulary through pretest. They almost cannot understand all of question.

In other hand, there were many students classified into Fair in Control class because they have better enhancement in comprehend the text in pretest than Experimental class. In addition, student classified into Good and Fairly for both of classes almost equal.

3. **Students Classification Score in Post-test for Experimental and Control Class.**

Tabel 4.3

The distribution of frequency and percentage score Experimental Class

NO	Classification	Score	Frequency	Percentage
1	Excellent	96-100	3	16%
2	Very good	86-95	5	20%
3	Good	76-85	6	24%
4	Fairly good	66-75	4	20%
5	Fair	56-55	0	0%
6	Poor	46-55	2	12%
7	Very poor	0-45	4	8%
	Total		25	100%

The table 4.3 there were 3 (12%) students were classified Excellent, 5 (20%)students classified Very good, 6 (24%) students classified Good, 4 (16%)students classified   Fairly good, 2 (8%)students classified Poor, and 4 (16%)students classified into very poor.

Tabel 4.4

The distribution of frequency and percentage score Control Class

NO.	Classification	Score	Frequency	Percentage
1	Excellent	96-100	0	0%
2	Very good	86-95	0	0%
3	Good	76-85	4	16%
4	Fairly good	66-75	6	24%
5	Fair	56-55	6	24%
6	Poor	46-55	4	16%
7	Very poor	0-45	5	20%
	Total		25	100%

The table 4.4 there were 4 (16%) students classified Good, 6 (24%)students classified Fairly good, 6 (24%) students classified Fair, 4 (16%) students classified Poor and 5 (20%) students classified into very poor.

In summary, the data shown in the table indicated that, the students in Experimental class have better enhancement than Control class. For both classes, there were 3 students classified into excellent for Experimental class and neither for control class. Most of students in experimental class was classified into Good and very Good because they showed their ability in comprehending the text through posttest but there was no student in control class. The students got the Very Good and

good were great in understanding the content of the text; they almost answer all of question in the post-test.

In Poor and Very Poor, most of student in control class classified into it. The students got Poor and Very Poor because they have limited vocabulary so that they difficult to comprehend the text.

Based on the result above it can be concluded that the rate percentage in the post-test was different from the rate percentage in the pre-test.

4. Mean Score and Standard Deviation

The following table presented the mean score and standard deviation of the Experimental class and Control class.

Tabel 4.5

The Mean Score and Standard Deviation in the pre-test of the Experimental class and Control class:

Class	Mean Score	Standar Deviation
Experimental	76.36	-21.36
Control	52.48	-11.52

5. Mean Score and Standard Deviation

The following table presented the mean score and standard deviation of the Experimental class and Control class.

Tabel 4.6

The Mean Score and Standard Deviation in the post-test of the Experimental class and Control class:

Class	Mean Score	Standar Deviation
Experimental	62.36	28.94
Control	60.92	22.03

6. Test of Significance Testing

The significant score between experimental and control class can be calculated by using t-test.

Tabel 4.7

The result of the t-test can be seen in table 4.7 as follows:

Variable	t-test	t-table
X1-X2	3.9	1.01

Table 7 showed that the result of test of significance testing. For the level of significance (p) 0, 05 and the degree of freedom (df) $(N_1 + N_2)\text{-}2 = (25 + 25) - 2 = 48$, showed that the value of the t-test was higher than t-table. The result of the test

clearly showed that, there was a significant difference between the students' score in the experimental and control class after the treatment through the Doraemon picture books. It indicated that through theDoraemon picture books was effective in improving the studentsn Vocabulary mastery. It meant H_0 was rejected and H_1 was accepted because the t-test was higher than t-table (3,9>1.1). Therefore, the hypothesis of the research was accepted.

B. Discussion

Teaching English to the Studentsthrough the Comic were a suitable techniquein the teaching of vocabulary classroom. This technique help the students to learn a new word and they can remember vocabulary of related to the Doraemon comic, then it could help student to remind information that they got before and their information to connect with the topic. They worked together with their friends in pairs by doing collaboration in memorizing their vocabulary, and the researcher made students active in class and then students step by step back memorized again.

Analysis of the mean score gap in the post-test betwen the Experimental class and Controlled class ensures if the approach used was effective. The mean score Experimental class was 3.9 and 1,1 for controlled class. Explanation of the gap between the two class indicated that the Experimental Class showed higher increasing that the Control class while the controlled class scores were descreased.

During observation (First meeting), the researcher was introduced the Doraemon comicin teaching vocabulary, and how to practice this technique. After

that, the researcher distributed the test to the students, then the researcher explain to the sstudents how to work out the test, researcher also gave explain the 40 minutes do the test, that use in Doraemon comic to help students more easy to understood the noun and verb. But there were some students who sit in the backside of the class did not pay attention with explanation the researcher'sinstruction and they tried to talk each other by her friend, look bored and feel sleepy. To solve the problem, the researcher gave more attention to the students and sometimes the researcher walk to behind of class.

After the researcher implemented Doraemon comicshe got the data. There were significant improvements from the students' understanding vocabulary types of noun and verb. Students were being enthusiastic in teaching and learning process by using Doraemon comic.Most of students wereactive in respondto students or teacher questions.

There were many factors that influenced the result of study. One of the factors was teaching aid or technique. When a teacher employed an appropriate teaching aid or technique that is suitable with the method, the students enjoyed the lesson. Based on the test result that had been done, it can be described that using Doraemon comicas a teaching technique in the process of learning English at the sevenn grade of SMPN 1 Tinggimooncong could improve students' understanding on vocabulary types noun and verb. Actually, the use of appropriate teaching technique made students easy to understand material that is delivered by the teacher. Learning used Doraemon comic is effective to encourage students' ability. It can

stimulate students' to be active when the students looked the picture.Aziza Tri Harviati (2012) The Effectiveness of Using Comic to Increase Students' Vocabulary Mastery of content Words for the Seven Grade Students of SMPN 33 Purworejo. It can be conclude the result shows that there is a significant effect of teaching vocabulary using comic increase students' vocabulary mastery, since it was found that the result of t-value is 5.11. The research findings indicate that the students are interested in learning English vocabulary using comic. The teacher use the variety of teaching methods in teaching learning pprocess in order to get thee higher achievement of the students.

The findings above have provent related that using comic is useful for teaching vocabulary because it motivates students to learn English and the students were very enthusiastic in joining the teaching learning process.

To sum up, based on the the result of this study, which showed the students scores were higher after the treatment in Experimental class using the Doraemon picture books effective to mastervocabulary. Therefore, this technique could apply in teaching English especially vocabulary types of noun and verb.

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Having conducted the research of teaching vocabulary using comic, the researcher draws some conclusions based on the discussion. The conclusion are:

1. The vocabulary score of experimental clas (the students who are taughtusing comic) is 3.9.

2. The vocabulary score of experimental class (the students who are taught non-comic) is 1.1.

3. There is a difference in vocabulary score of students taught using comicand those are taught using non comic. It is showed of the mean of experimental class higher than control class (3.9>1.1). On the other hand, the test of hypothesis using t-test formula shows the value of the t-test is higher than the value of the t-table. The hypothesis is accepted.

4. Doraemon comic techniq was effective to use in teaching vocabulary, because many used picture was appropriate with made students easy to remember vocabulary.

5. There weresignificant differencebetween students' vocabulary comprehension through the Doraemon comic and Conventional Strategy at the first grade SMPN 1 Tinggimoncong.

In this research, the researcher used teaching English to the students throug the Doraemon comic to master vocabulary at the first grade of SMPN 1 Tinggimoncong. So the research findings are only representative in the school. The researcher hopes that more researcher will be done by the others to prove this metrhod in improving students' vocabulary and to find out other methods in learning and teaching English.

B. Suggestion

Based on the result of the study, this thesis that the researcher presents is still far perfection and has many weakness. Therefore the researcher expects some more advice or suggestion in order to perfect this thesis.

Moreover the researcher would like to give the following:

1. Suggestion to the further researcher:

a. The further researcher should use better methodology than this research.

b. To increase the students' interest in English, the researcher should create situation of teaching and learning process to be fresh and friendly because of students not feel bored. Give the chance to the students to express their idea without any stressing. Giving motivation to the students by using complete of media.

c. The researcher also wants to give some suggestion to the English teacher and students.

2. For the teacher:

a. The teacher should gives some more exercise and emphasize to the students in daily practicing.

b. The teacher must be many method in teaching English therefore, students do not feel bored in learn English because less used technique and Method in teaching English.

3. For the students:

a. The students should keep or develop the vocabulary skill in order that they can have a better achievement in learning English.

b. The students should use their time to learn English vocabulary because without learning and practicing by themselves, they will not be able to improve their English well.

APPENDIX III

Research Instrument

Pre-test

Research instrument

Teaching English to the Students through the Doraemon Comic to MasterVocabulary at the First Grade of SMP Negeri 1 Tinggimoncong.

Name :	Score
Class :	
Id Number :	

A. Look at the picture and find the names of the things
1………….   2………..   3……...   4……   5………

6……..   7……..   8………..   9……….   10……….

11……   12……   13……   14……   15….......

1.Eraser	6.Pen	11.Door
2.Black board	7.Book	12.Flag
3.Marker	8.Rule	13.Tree
4.Dictionary	9.a chair	14.Flower
5.Pencil	10. a bag	15.Tv

B. Draw a line to match each part of the word. Number 16 – 25.

Membaca	Going
Menulis	Reading
Memasak	Swimming
Menonton	Singing
Menari	Cooking
Belajar	Watching
Bernyanyi	Asking
Berenang	Dancing
Bertanya	Learning
Pergi	Writing

APPENDIX IV

Research Instrument

Post-test

 Research instrument

Teaching English to the Students through the Doraemon Comic to MasterVocabulary at the First Grade of SMP Negeri 1 Tinggimoncong.

Name : Class : Id Number :	Score

A. Look at the pictures and Choose the best answer number 1-20 by crossing (x) a,b,c and d.

1.
   a. O'clock
   b. Time
   c. Minutes
   d. year

2.
   a.picture
   b.Doll
   c.Draw
   d.Small

3.
   a.Wind
   b.water
   c.fan
   d.Air

4.

5.

6.

a. Short

a. Cow.

a.Helmet

b. Shirt

b.Umbrella

b.Cloth

c. Stay   c.spoon

c.Hat

d. Shoes

d.Plate

d.Short

7.

8.

9.

a. Bowl

a.Rain

a.Plate

b. Shirt

b.Bowl   b.Spoon

c. Shoes

c.Plate

c.Glass

d. Stay

d.Glass

d.Bowl

e.

10.

11.

12.

a. Table

a.Bed

c. Tricycle

d. Car

e.

a. Tricycle

b.Bicycle

c.Motorcycle

d.Bus

a. Bus

b. Bicycle

c.Car

d.Tricycle

16.

17.

18. .

a. Bored

b.Sad   b.Sad

c.Laugh

d.cry   d.Laugh
a. Cry

c. Bored

a. Reading

b.Listen Music

c.Speaking

d.Writing

19

20

a.Table

b.Chair

c. Black board

d. Cupboard

a.Cloth

b.Shirt

c.Short

d.Blouse

B. Look at the pictures and answer feel in the blank of the pictures, question number 21-25.

1 ------------- 2-------------- 3-----------------

4------------------ 5-------------

APPENDIX V

Key Answers Pre-test and Post-test

PRE-TEST				
1.Black Board	6.Chair	11.Tree	16.Reading	21.Studying
2.Book	7.Bag	12.Flower	17.Writing	22.Singing
3.Pen	8.Pencil	13.TV	18.Cooking	23.Swimming
4.Dictionary	9.Eraser	14.Flag	19.Watching	24.Asking
5.Rules	10.Marker	15.Door	20.Dancing	25.Going

POST-TEST				
1.O'Clock	6.Hat	11.Bed	16.Laugh	21.Pen
2.Doll	7.Bowl	12.Singing	17.Cry	22.Book
3.Fan	8.Glass	13.Car	18.Listen Music	23.Eating
4.Shoes	9.Plate	14.Motorcycle	19.Cupboard	24.Bag
5.Umbrella	10.Chair	15.Bicycle	20.Cloth	25.Reading

APPENDIX VI

The Standard Deviation and T-Test of Experimental and Control Class in pre-test

1. *Standard Deviation of Pre-test in Experimental Class*

$$S = \sqrt{\frac{S}{N-1}}, \text{where SS} = \sum X^2 - \frac{(\sum X)^2}{N}$$

SD   =   Standard Deviation

$\sum$ =   Total Row Score

N   =   Total Number Of he Student

$\text{SS} = \sum X^2 - \frac{(\sum X)^2}{N}$

$$72220 - \frac{1}{2}^{2}$$

$$72220 - \frac{2}{2}$$

$$72220 - 83174.56$$

SS1 = -10954,56

$$S = \sqrt{\frac{S}{N-1}}$$

$$S = \sqrt{\frac{-10954.56}{25-1}}$$

$$= \sqrt{\dfrac{-10954.56}{24}}$$

$$= \sqrt{-456.44}$$

$$S = -21.36$$

2. *Standard Deviation of Pre-test in Control Class*

$$S = \sqrt{\dfrac{S}{N-1}}, \text{where SS} = \sum X^2 - \dfrac{(\sum X)^2}{N}$$

$$\text{SS} = \sum X^2 - \dfrac{(\sum X)^2}{N}$$

$$90204 - \dfrac{(1\quad)^2}{2}$$

$$90204 - \dfrac{2}{2}$$

$$90204 - 93391.36$$

$$\text{SS2} = -3187.36$$

$$S = \sqrt{\dfrac{S}{N-1}}$$

$$S = \sqrt{\dfrac{-3187.36}{25-1}}$$

$$= \sqrt{\dfrac{-3187.36}{24} -}$$

$$= \sqrt{-132.80}$$

$$S \quad = -11.52$$

3. T-test in the pre-test

$$t = \dfrac{\bar{x}1 - \bar{x}2}{\sqrt{\left(\dfrac{S\ 1 + S\ 2}{n1 + n2 - 2}\right)\left(\dfrac{1}{n1} + \dfrac{1}{n2}\right)}}$$

$$t = \dfrac{76.36 - 52.48}{\sqrt{\left(\dfrac{(-1 \quad .5\ ) + (-3 \quad .3\ )}{2\ + 2\ -2}\right)\left(\dfrac{1}{2} + \dfrac{1}{2}\right)}}$$

$$t = \dfrac{23.88}{\sqrt{\left(\dfrac{-1 \quad .9}{4}\right)\left(\dfrac{2}{2}\right)}}$$

$$t = \dfrac{23.88}{\sqrt{(-294.62).(0.08)}}$$

$$t = \dfrac{23.88}{\sqrt{(23.57)}}$$

$$t = 1.01$$

The Standard Deviation and T-Test of Experimental and Control Class in Post-test

1. *Standard Deviation of Post-test in Experimental Class*

$$S = \sqrt{\frac{S}{N-1}} \text{ , where SS} = \sum X^2 - \frac{(\sum X)^2}{N}$$

$SS = \sum X^2 - \frac{(\sum X)^2}{N}$

$$\mathbf{1} \quad - \frac{(1\quad)^2}{2}$$

$$147412 - \frac{3}{2}$$

$$147412 - 127306.24$$

$SS1 = 20105.76$

$$S = \sqrt{\frac{S\,1}{N-1}}$$

$$S = \sqrt{\frac{20105{,}76}{25-1}}$$

$$= \sqrt{\frac{20105{,}76}{24}}$$

$$= \sqrt{837.40}$$

$S = 28.94$

2. *Standard Deviation of Post-test in Control Class*

$$S = \sqrt{\frac{S}{N-1}}, \text{ where SS} = \sum X^2 - \frac{(\sum X)^2}{N}$$

$$SS = \sum X^2 - \frac{(\sum X)^2}{N}$$

$$96448 - \frac{(1\quad)^2}{2}$$

$$96448 - \frac{2}{2}$$

$$96448 - 84797.44$$

$$SS2 = 11650.56$$

$$S = \sqrt{\frac{S}{N-1}}$$

$$S = \sqrt{\frac{11650.56}{25-1}}$$

$$= \sqrt{\frac{11650.56}{24}}$$

$$= \sqrt{485.44}$$

$$S = 22.03$$

3. T-test in the post-test

$$t = \frac{\overline{x}1 - \overline{x}2}{\sqrt{\left(\frac{S\_1 + S\_2}{n1 + n2 - 2}\right)\left(\frac{1}{n1} + \frac{1}{n2}\right)}}$$

$$t = \frac{62.39 - 60.92}{\sqrt{\left(\frac{(2\quad,7\ ) + (1\quad.5\ )}{2\ +2\ -2}\right)\left(\frac{1}{2} + \frac{1}{2}\right)}}$$

$$t = \frac{1.47}{\sqrt{\left(\frac{3\quad.3}{4}\right)\left(\frac{2}{2}\right)}}$$

$$t = \frac{1.47}{\sqrt{(661.6).(0.08)}}$$

$$t = \frac{1.47}{\sqrt{(0.37)}}$$

$$t = 3,9$$

APPENDIX VII

RENCANA PELAKSANAAN PEMBELAJARAN

(RPP KE-1)

Nama sekolah   : SMPN 1 Tinggimoncong

Mata Pelajaran   : Bahasa Inggris

Kelas/Semester   : VII

 Materi pokok   : Doraemon Comic

Alokasi waktu   : 2 x 40 menit

Tujuan pembelajaran

Setelah proses pembelajaran diharapkan siswa dapat:

1. Melalui Doraemon Comic siswa dapat menentukan Vocabulary yang termasuk Noun and Verb.

2. Melalui Doraemon Comic siswa dapat mengamati gambar dan menemukan Vocabulary Noun and Verb dengan sendirinya.

3. Melalui diskusi siswa dapat menemukan Vocabulary Noun and Verb.

Kompetensi Inti :

1. Mengidentifikasi Noun and Verb melalui Doraemon Comic.

2. Menentukanyangmana termasuk Noun and Verb berdasarkan gambar Doraemon Comic yang diberikan.

3.Membacakan Vocabulary, Noun and Verb didepan kelas/teman.

Kompetensi Dasar

3.5. Mengidentifikasi fungsi sosial, struktur teks, dan unsur kebahasaan teks interaksi transaksional lisan dan tulis yang melibatkan tindakan memberi dan meminta informasi terkait dengan sifat orang, binatang, benda sesuai dengan konteks penggunaannya.

4.5 Menyusun teks interaksi transaksional lisan dan tulis sangat pendek dan sederhana yang melibatkan tindakan memberi dan meminta informasi terkait sifat orang, binatang, dan benda, dengan memperhatikan fungsi sosial, struktur teks dan unsur kebahasaan yang benar dan sesuai konteks

Indokator :

3.5.1 Mengemukakan tentang menyatakan dan menanyakan Noun and Verb dengan struktur teks yang runtut dan unsur kebahasaan yang benar yang sesuai dengan konteks.

Materi Pelajaran

Doraemon Comic

I. Metode Pembelajaran

Metode : Snowing ball

Pendekatan : Scientific approach

II. Langkah-langkah Pembelajaran

Pertemuan Pertama

No.	Langkah-Langkah Kegiatan Pembelajaran
1.	**Pendahuluan (10 menit)** ▪ Menyapa peserta didik (greeting) dan mempersiapkan kelas oleh leader ▪ Memeriksa kehadiran dan memotivasi peserta didik ▪ Mereview materi selanjutnya ▪ Menjelaskan tujuan dan manfaat pembelajaran ▪ Mendemonstrasikan sesuatu terkait dengan materi pembelajaran
2.	**Kegiatan inti (60 menit)** **Mengamati/Observing** ▪ Peserta didik mengamati sebuah gambar terkait dengan menyatakan kelas kata dari comic tersebut. **Menanya/Questioning** ▪ Peserta didik menanyakan Noun and Verb dari comic yang diperlihatkan. **Mengumpulkan informasi/Experimenting** ▪ Peserta didik bertanya jawab tentang kelas kata pada comic tersebut. ▪ Dengan bantuan peneliti, Peserta didik mendeskripsikan kata benda dan kata kerja pada comic . ▪ **Mengasosiasi/Associating** ▪ Berdasarkan teks Peserta didik secara berkelompok mendeskripsikan Noun and Verb secara berkelompok **Mengomunikasikan/Networking** ▪ Peserta didik membacakan hasil deskripsinya di depan kelas.
3.	**Penutup (10 menit)** ▪ Setelah mengikuti kegiatan pembelajaran pada pertemuan ini, peserta didik ditanya bagaimana perasaannya (REFLEKSI). ▪ Peneliti memberikan pertanyaan untuk mengetahui apakah peserta didik sudah

	memahami topik tentang menyatakan dan menanyakan kata benda dan kata kerja. ▪ Peneliti mengumpulkan hasil kerja ▪ Peneliti memberikan penugasan berupa tugas mandiri kepada peserta didik ▪ Peneliti menjelaskan rencana kegiatan pembelajaran .

III. Sumber / Media Pembelajaran

    1. Sumber : Doraemon Comic

    2. Media   : Selembaran Gambar komik Doraemon

IV. Tugas

    1 Perindividu : Menentukan Vocabulary Noun and Verb dan Artinya melalui gambar-gambar pada comic.

    2.perkelompok: Menentukan Vocabulary, Noun and Verb kemudian membacakannya didepan kelas/teman.

RENCANA PELAKSANAAN PEMBELAJARAN

The Prophecy of
Doraemon

R-RE ... REALLY ...?

FOR STARTERS, YOUR ALREADY IDIOTIC BRAIN'LL GET WORSE ...

ON THE WAY TO SHIZU-CHAN'S, YOU GOT RUN OVER AND SUSTAINED INJURIES THAT TOOK ONE MONTH TO COMPLETELY HEAL!

I'M SURE SHIZU-CHAN WILL GET MAD, THOUGH ...

YOU'D BETTER NOT DO ANYTHING AND STAY HOME TODAY.

ALL RIGHT.

LET ME TAKE CARE OF THINGS FOR YOU. I'LL JUST TELL HER YOU CAN'T GO.

WAH, WHAT SHOULD I DO?

YOU'VE GOT A PHONE CALL FROM SHIZU-CHAN.

OH! YOU'VE GOT A FUNNY NEW MANGA, HUH?

WOULD YOU LET ME SPEAK A BIT?

EH, WOU ...

I'M VERY SORRY, BUT...

HELLO?
