ACKNOWLEDGEMENTS

بِسْمِ اللهِ الرَّحْمَنِ الرَّحِيْمِ

Alhamdulillahi rabbil 'alamin, the researcher would like to express her confession and gratitude to the Most Perfection, Allah Swt for the guidance, blessing and mercy in completing this thesis. *Shalawat* and *salam* are always delivered to the Great Prophet Muhammad Saw, his family and followers till the end of the time.

The researcher realized that there were some problems faced by her in accomplishing this research. Those problems could not be solved without getting assistance, support, any helps, motivations, criticisms, encouragement and guidance from many people. Therefore, the researcher would like to express deepest gratitude to the following:

1. The researcher's beloved parents Sultan Amin and Andi Kartini for all their prayers, supports and eternally affections as the biggest influence in her success and happy life and also to her brothers and sisters for their happy and colorful life.

2. Prof. Dr. H. Musafir Pabbahari, M.Si. as the Rector of Alauddin State Islamic University Makassar, who has given her chance to study in English and Literature Department so that she could finish her study.

3. Dr. H. Barsihannor, M. Ag as the Dean of Adab dan Humanities Faculty, H.Muhammad Nur Akbar M.Pd., M.Ed., Ph.D. as the head of English and Literature Department and Syahruni Junaid, S.S., M.Pd. as the secretary of

English and Literature Department for their support, help, and encouragement.

4. Dr. Abd. Muin, M.Hum as her first supervisor and Sardian Maharani Asnur, S.pd, M.Pd as the second supervisor who have made so much times guided, gave corrections, suggestions, and adviced her during completing this thesis.

5. H. Muhammad Nur Akbar Rasyid, M.Pd., M.Ed., Ph.D and Syahruni Junaid, S.S., M.Pd as her examiners for their advices, criticism, and suggestion.

6. The lecturers of Adab and Humanities Faculty, for their knowledge and enlightenment, also to the staffs of Adab and Humanities Faculty for their help and administrative support.

7. Her beloved friends in English and Literature Department 2013, especially Ag3 and Ag4 with whom she shares experience and knowledge during her study and writing. Her deepest thanks also to Ukhy Paricu for their support, motivation and happiness.

8. The sixth semester students of Ag 5 and Ag 6 of English Literature Department for the kindness in becoming as sample of this research.

In the deepest heart, the researcher realizes that this thesis is imperfect and still need suggestions and criticisms. Despite of its imperfection, she hopes that this thesis will be useful for the students, the lecturers and the readers in general who need it. May Allah swt always bless us in every single thing we do.

ABSTRACT

Name   : **Andi Ika Sukarni**
Reg. Number : 4030013025
Major   : English and Literature Department
Faculty   : Adab and Humanities
Title   : *Morphological Errors Made By the Sixth Semester Students in English and Literature Department of Adab and Humanities Faculty in Writing Short Paragraph*
Supervisor I   : Abd. Muin
Supervisor II : Sardian Maharani Asnur

This research discussed more about *Morphological Errors Made by the Sixth Semester Students in English and Literature Department of Adab And Humanities Faculty in Writing Essay* which aimed to find out the types of errors in students' writing essay and the causes of it. The sources of data were the sixth semester students who did some errors in their writing essay. This research mostly quoted Dulay and Norrish theories. This research was descriptive qualitative method. The researcher used observation sheet and interview guide as the instruments in order to get the valid data. The finding showed that there were 71 errors in students' writing, they were: *23 errors in omission of noun inflection, 14 errors in omission of verb inflection, 2 errors in omission of adjective inflection, 6 errors in addition of noun inflection, 18 errors in addition of verb inflection and 8 errors in misformation.* Meanwhile, the researcher found two causes, those were: *careless and first language interference.* The researcher concluded that the sixth semester students still made some errors on their essays especially about error of omission and the most causes of errors was careless.

Keywords: *Morphology, Error, Writing, Omission.*
CHAPTER I

INTRODUCTION

This chapter consists of the background in morphological errors made by the sixth semester students of English and Literature Department. Then, it presents research question, research objective, research significance and research scope.

A. Background

In the Prophet Muhammad SAW era, Allah SWT had presented about writing. In this era, many people had written about poem and also most of them wrote verses of al-Quran in many places such as on the surface of stones and leaves. Thus, writing activity had been done by people since long time ago. Here is quotation from surah Al-Qalam, the first verse:

$$ ن ۚ وَٱلْقَلَمِ وَمَا يَسْطُرُونَ ۝ $$

The meaning of this verse:

"Nun. By the pen and what they inscribe". (QS. Al-Qalam: 1)

The word **(القلم)** is a pen. Some people understand it with specific meaning. The pen is a special pen which used by an angel to write a good and bad destiny and all the events that happened in human real life and also all of those are recorded in *Lauh Mahfuzh*. Similarly the pen is a pen which used by an angel to write good or bad charities every person or the pen of any prophet who wrote verses of Al-Quran. Thus, word **(ومايسطرون)** is "what they inscribe". The

"they" can be understood that the word "they" is an angel or the writer of revelation or the human. Thus *ma yasthurun* is a text which can be read. Al-Mishbah (2009: 242)

Based on the verse above with its interpretation, it can be concluded that writing has existed since in the past. Then, writing officially became one of skills in language.

In English, there are four skills such as listening, speaking, reading and writing. Brown (2000: 232) explains that in order to master English, the learners have to be exposed to all of the four basic skills. When the learners try to practice the last skill which is writing they face many difficulties. In fact, writing is a skill which learners produce sentences which are put in a particular order and linked together in certain way.

In talking about writing, morphology should be known by learners because they have relation each other. There are number of definitions of morphology proposed by many experts. First, Payne (2006: 8) states that morphology is simply the study of forms. Morphology in linguistics has to do with how words are formed, and how the forms of words may be systematically adjusted in order to accomplish communicative tasks. The people can also think of morphology as the study of how meaningful units are combined to form words. Lieber (2009:2) defines morphology as the study of word formation, including the ways new words are combined in the language of the world, and the way forms of words are varied depending on how they are used in sentences. Based on explanation above, the researcher assumes that morphology is a branch of linguistic that study about

words or study of morpheme, how to combine words become sentence, and studying the internal structure of English words.

When the learners began to learn foreign language especially English, the situation was not same. Learning English as foreign language is not easy. It needs hard work and curiosity to reach the intended goal. Often times in learning this foreign language, they encounter some problems. Not only in Indonesia, but also in another country where the non-native speakers of English who learns English as well will face the problems and sometimes the problems occurred such as error when they tried to apply their knowledge.

One of causes of learners' error is influenced by their first language that usually called interference. Language interference is a nature phenomenon that occurs in bilingual or multilingual country. In the other hand, some mistakes are made when they do not understand well about internal structural of English (morphology). Some of them commonly make mistakes in their learning especially in writing. They make mistakes repeatedly because they do not know the correction so that is why it is called as an error. If they are able to correct a fault in their writing, it is assumed that the fault is a mistake but if they are unable to make a correction in their writing, it is called error.

Error analysis (EA) became a preferred tool of studying second language analysis. It is seen as one of the best types of linguistic study that focus on the learners' errors. It consists of a comparison between errors made in target language and within that target language itself. Ferris (2002) in Zawahreh

(2012:282) defines that error analysis and corrective techniques can help in effective learning and teaching of English because foreign language is a gradual process, during which mistakes are to be expected in all levels of learning. Error analysis is a type of linguistic analysis that focuses on the errors that learners made. Nevertheless, Dulay et al (1982: 150-163) classified types of errors namely: omission, ordering, misomission and misordering.

Moreover, errors in writing still occurred in students' writing even though they had studied English, because some of them still confuse in marking form of the third person singular, plural noun, singular/plural possessive, progressive tense marker, past tenses form, past participle form, comparative and superlative form, and also class changing and class maintaining. Based on those phenomena that have been seen and the result of interviewing some writing's lecturers showed that they still made some errors in their writing. Thus, to provide what had been said by the lecturers, the researcher did pra-research by enquiring the sixth and fourth semester students wrote down an essay. The result of pra-research showed that both the sixth and the fourth semester students still made errors. She was more interested in the sixth semester students as a sample of this research because they still made errors whereas they had studied morphology. Morphology is one of the important courses that have to be understood more for writing, especially derivational and inflectional. A good understanding about morphology can make a better writing. To make the best writing, not only about grammar but also people need more understanding about morphology.

B. Research Question

Based on background above, the researcher formulated research questions as follow:

1. What types of errors made by the sixth semester students at English and Literature Department of Adab and Humanities Faculty in writing short paragraph?

2. What causes of errors were by the sixth semester students at English and Literature Department of Adab and Humanities Faculty in writing short paragraph?

C. Research Objective

Based on the research questions above, objective of this research were:

1. To find out types of errors made by the sixth semester students at English and Literature Department of Adab and Humanities Faculty in writing short paragraph.

2. To find out the causes of errors made by the sixth semester students at English and Literature Department of Adab and Humanities in writing short paragraph.

D. Research Significance

The result of this research is expected to be able to give the following advantages:

1. English Learners

   The results of the research are expected to help the learners in achieving information and more understanding and to be aware of morphological errors especially inflection and derivation and causes of the problem they face. It is expected that they will reduce the same mistakes in their future writing.

2. Lecturers

   The results of the research are expected to help the lecturers to know the ability of their students about morphology in recognizing the learners' errors in writing, so they will concern to the errors made by learners and the causes of the errors in their writing. Therefore, the lecturers encourage them to give more effective explanation or change their teaching method to reduce learners' errors.

3. Other researchers

   The results of this research are expected to give information and can be as a reference for them and they gave some additions in this research. The other researchers try to find out the other solution about it.

E. Research Scope

   In research, it is very important to limit the scope of analysis in order to get relevant data. In this research, the researcher would like to analyze the error in morphology especially in inflectional and derivational made by the sixth semester students in writing short paragraph. Thus, the scope of this research was limited to analyze morphological error based on Surface Strategy Taxonomy theory by Dulay et al According to Dulay et al (1982: 150-163), errors are generally classify

into four categories, such as omission, addition, misformation, and misordering while causes of students' error used Norrish's theory (1983: 21-26) classifies causes of error into three types which are carelessness, first language interference, and translation.

CHAPTER II

LITERATURE REVIEW

This chapter will explain about the review of related which deals with some previous researchers and some pertinent ideas.

A. Previous Study

Riantini (2011), in her thesis, "An Analysis Of The Seventh Year Students' Morphological Errors In Descriptive Paragraph Writing At SMPN 1 Kalibaru in the 2010/2011 Academic Year". She found there are four types of morphological errors in descriptive paragraph writing made by the seventh year students of SMPN 1 Kalibaru in the 2010/2011 Academic Year. They are plural inflection errors as many as 66 errors (56.41 %), the third person singular verb inflection errors as many as 26 errors (22.22 %), possessive inflection errors as many as 7 errors (5.98 %), and present participle inflection errors as many as 18 errors (15.38). And, the most morphological error in descriptive paragraph writing made by the students was the plural inflection errors as many as 56.41 % of whole errors.

Wibisono (2014), in his thesis, "The Analysis of Morphological Errors Made by the VIII Grade Students in Writing A Descriptive Paragraph at SMPN 4 Jember in the 2013/2014 Academic Year". He found morphological errors in the category of morphological inflection errors and derivational made by the VIII grade students of SMPN 4 Jember in the 2013/2014 Academic Year, namely: (1) possessive inflection errors as many as 22 errors (20.00%), (2) plural inflection errors as many as 18 errors (16.36%), (3) the third person singular verb inflection

errors as many as 44 errors (40.00%), (4) present participle inflection errors as many as 16 errors (14.54%), (5) comparative inflection errors as many as 1 error (0.90%), (6) superlative inflection errors as many as 1 error (0.90%), and (7) derivational morpheme errors as many as 8 errors (7.27%). And, the most morphological error made by the students in their paragraph writing was the third person singular verb inflection errors as many as 44 errors or 40.00% of the whole errors.

Those previous researches used writing test (descriptive paragraph) as an object of data collection and students of Junior High School as a research subject. The difference between those previous researches was the first previous research, only focus on inflectional errors and there were only four inflectional type errors in her research, namely: plural inflection, third person inflection, possessive inflection, and present participle inflection. The second previous research the researcher, not only focused on inflectional but also Wibisono found derivational error. Then, in the second research found six morphology inflection errors and morphology derivation error. Based on the two researches above, the researcher would focus on morphological inflection and derivation error in students' writing and she would look for the causes of errors.

B. Pertinent ideas

1. **Concept of Morphology**

   a. Definition of morphology

   Lieber (2009: 2) points out morphology is the study of word formation, including the ways new words are coined in the languages of the world, and the way forms of words are varied depending on how they're used in sentences.

   According to Haspelmath (2002: 1-2) morphology is the study of internal structure of words, needs some qualification, because words have internal structure in two very different senses. The word of language can be divided into two broad categories, closed and open, of which only the latter are relevant to morphology. The closed categories are the function words, pronouns, conjunctions, determiners, and a few others. Newly coined or borrowed words cannot be added to these categories, which is why we say that they are closed. The categories of words that are open are the major lexical categories: nouns, verbs, adjectives, and adverbs. It is to these categories that new words may be added. Because the major problem of morphology is how people make up and understand words that they have never encountered before, morphology is concerned only with major lexical categories.

   b. Morpheme

   According to Booji (2007: 8-9) morpheme is the morphological building blocks of words, are defined as the minimal linguistic units with a lexical what is linguistic morphology? or a grammatical meaning. For instance, the noun *buyer* consists of two morphemes, *buy* and *-er*. The verbal morpheme *buy* is called a

free or **lexical morpheme**, because it can occur as a word by itself, whereas -er is an **affix** (hence a bound morpheme that cannot function as a word on its own).

Payne (2006: 16) points out that a morpheme is a minimal shape. In linguistics, the classic definition of a morpheme is a minimal structural shape or piece that expresses meaning. For example the English word dogs contain two morphemes: dog which expresses the main meaning of the word, and -s which expresses the meaning of plurality (more than one). The form dog cannot be divided into smaller meaningful pieces (e.g., the d- at the beginning does not itself express a meaning). Therefore dog is a morpheme – a minimal shape. In most situations this definition works fine. However, recent linguistic theories acknowledge the fact that particular meanings are not necessarily directly linked to particular pieces of form.

1). Types of Morpheme

 a). Free Morpheme

A free morpheme is a morpheme that can be stand alone as a word that has meaning which can be understood fully. In other words, it is a morpheme which can stand alone without having attachment of prefix or suffix. The following words are example of free morpheme: *book, pen, car, asleep, bike, happy, smart,* and so forth. As seen these example, they each can stand as a full word that has meaning without they attachment of affixes. Free morpheme can be classified into two parts: *open-class* and *closed-class*

(1). Open-class

The open-class, also known as *content words* or *lexical category*, can be defined as the morph being able to be attached freely by affixes such as prefix (*us-, dis-, re-, mis-, in-,* and so on) as well as suffixes (*-ly, - less, -able,* and so on). For example, a morpheme "*agree*" can be attached by prefix as well as suffix such as **–dis** and **–ment,** as in words *disagree, agreement,* and *disagreement.* The open-class includes for *nouns, verbs, adjectives,* and *adverbs.*

(2). Closed-class

The closed-class is also known as *functional category* or *function words*. It is a called closed-class because function words do not add up in number and they cannot be added by any component of language such as affixes. Closed-class includes *prepositions, pronouns, determiners, conjunctions, modal verbs,* and *auxiliary verb.*

b). Bound morpheme

Lieber (2002: 33) defines that the morphemes that cannot stand alone are called bound morphemes. In the examples above, the bound morphemes are un-, -ize, and -ation. Bound morphemes come in different varieties

prefixes and suffixes; the former are bound morphemes that come before the base of the word, and the latter bound morphemes that come after the base. Together, prefixes and suffixes can be grouped together as affixes.

According to Yule (2006: 60) bound morpheme is morpheme which cannot normally stand alone, but which is typically attached to another form. Example, *re-, -ist, -ed, -s*. All affixes in English are bound morpheme.

Generally, linguists classify bound morpheme into two parts. The first is called *inflectional morpheme* and *derivational morpheme.*

(1). Definition of inflection

According to Yule **(**2006: 62**)** the first set of bound morpheme contains what are called inflectional morphemes. These are not used to produce new words in the English language, but rather to indicate aspect of the grammatical function of word. Inflectional morpheme are used to show if a word is plural or singular, if it is past tense or not, and if it is a comparative or possessive form.

Booji (2007: 99) points out that inflection is the morphological marking of properties on a lexeme resulting in a number of forms for that lexeme, a set of grammatical words.

Trask (1993: 142) defines that inflection is the variation in form of a single lexical item as required by its various grammatical rules in particular sentences. The same opinion about inflection, according to Lieber (2009: 88) inflection refers to word formation that does not change category and does not create new lexemes, but rather changes the form of lexemes so that they fit into different grammatical contexts. As we'll see in detail below, grammatical meaning can include information about number (singular vs. plural), person (first, second, third), tense (past, present, future), and other distinctions as well.

(2). Types of inflection

 (a) Noun inflection

According to Carstairs and McCarthy (2002:34) most countable nouns in English have two word forms: a singular and a plural. Inflectionally, for any noun

lexeme X, there are just two grammatical words, 'singular of X' and 'plural of X', contrasting in number. Thus, to the lexeme **cat** there corresponds a singular form **cat**, consisting of just one morpheme, and a plural form **cats**, consisting of a root cat and the suffix -s. This suffix and its allomorphs were discussed in here, and in here we have noted that -s is the regular suffix for forming plurals.

There are also some countable nouns that express their plural with no suffix at all. It can be already mentioned two (teeth, men) where there is a change in the vowel of the root – or, more precisely, an allomorph of the root with a different vowel from the singular. However, there are also some whose plurals display not even a vowel change: for example, sheep, fish, deer, and trout. An obvious question, therefore, is: if the plural and singular forms of these nouns are the same, how can we tell whether they are singular or plural? The answer is: according to the syntactic context. Consider the following examples:

1. A deer was visible through the trees.

2. Two deer were visible through the trees.

In (1) we can tell that deer is singular (more strictly, it represents the grammatical word 'singular of the lexeme **deer**) because it is accompanied by the indefinite article a, which only ever accompanies singular nouns (e.g. a cat, not *a cats), and because the form of BE found in (1), agreeing in singular number with the subject a deer, is was, not were. In (2), for parallel reasons, we can tell that deer is plural: the numeral two accompanies only plural nouns (two cats, not *two cat), and the form of BE in (2) is the plural were.

The class of nouns which are unchanged in the plural (sometimes called 'zero-plural' nouns, if they are analyzed as carrying a 'zero suffix') could conceivably be just as random as the class of those with vowel change (tooth, man, etc.).

Lieber (2009: 99) also says that in inflection to distinction between singular and plural is marked on nouns:

Singular   : cat, mouse, ox, child

Plural   : cats, mice, oxen, children

English has only a tiny bit of case marking on nouns: it uses the morpheme -s (orthographically -'s in the singular, -s' in the plural) to signal possession, the remnant of the genitive case. Pronouns, however, still exhibit some case distinctions that are no longer marked in nouns:

Singular non-possessive	mother	horse
Singular possessive	mother's	horse's
Plural non-possessive	mothers	horses
Plural possessive	mothers'	horses'

Lieber (2009: 99)

(b) Verb Inflection

In English, a verb lexeme has at most five distinct forms, as illustrated here with **give**:

a. Third person singular present tense: **gives**

e.g. *Mary **gives** a lecture every year.*

b. Past tense: **gave**

   e.g. *Mary **gave** a lecture last week.*

c. Progressive participle: **giving**

   e.g. Mary is **giving** a lecture today.

d. Perfect or passive participle: **given**

   e.g. Mary has **given** a lecture today.

      The lecture is always **given** by Marry

e. Basic form (used everywhere else): **give**

   e.g. Mary may **give** a lecture.

      Mary wants to **give** a lecture.

      Mary and John **give** a lecture every year.

It can be said that a verb lexeme has at most five forms. In fact, most verbs have only four forms, because the past tense and the perfect (or passive) participle forms are the same. This is true for all regular verbs (those that form the past tense with the suffix -ed), such as **perform**

a. third person singular present tense: **performs**

b. past tense: **performed**

c. progressive participle: **performing**

d. perfect or passive participle: **performed**

e. basic form (used everywhere else): **perform**

(d) Adjective inflection

Many English adjectives exhibit three forms, for example **green** here:

a. Grass is **green**.

b. The grass is **greener** now than in winter.

c. The grass is **greenest** in early summer.

The grammatical words that green, greener and greenest express are the positive, comparative and superlative of **green**, contrasting on the dimension of comparison. All these exhibit a regular pattern of suffixation with -er and -est, except for better and best, which are irregular form of good. The suffixes -er and -est appear on adjectives whose basic form has one syllable, or two provided that the second syllable ends in a vowel (e.g. big, yellow), while longer adjectives usually require the periphrasis. More Examples of Adjectives Inflection for One and Two syllables

The Plain Form *(positive)*	*The Inflected Form*	
	Comparative	*Superlative*
long	*longer*	*longest*
hard	*harder*	*hardest*
pure	*purer*	*purest*
odd	*odder*	*oddest*
happy	*happier*	*happiest*
early	*earlier*	*earliest*
noisy	*noisier*	*noisiest*

(Carstairs and McCarthy: 2002:41)

Generally, kinds of inflectional morpheme according to Fromkim, et al (2003:47) modern English has only eight bound inflectional affixes:

English Inflectional Morphemes			Example
Noun Inflection	-s	third-person singular present	She waits at home.
	-s	plural	She ate the donuts.
	-'s	possessive	Disa's hair is short.
Verb Inflection	-ed	past tense	She waited at home.
	-ing	progressive	She is eating the donut.
	-en	past participle	Mary has eat-en the donuts.
Adjective inflection	-er	comparative	Disa has short-er hair than Karin.
	-est	superlative	Disa has the short-est hair.

(Fromkim, et al 2003:47)

(3). Definition of Derivation

Payne (2006: 326) points out that derivational creates new stems from simple stems to roots. And also, Yule (2006: 61) states derivational morpheme is used to make new words in language and often used to make words of a different grammatical category from the stem. Thus, the addition of the derivational morpheme –*ness* changes the adjective *good* to the noun *goodness*.

According to Fromkin, et. al (2003: 44) Bound morphemes like -*ify*, -*cation* and -*arian* are called derivational morphemes. Not only –*ify*, -*cation* and *arian* but also so another affixes. When they are added to a base, a new word with a new meaning is derived. The addition of -*ify* to pure—purify—means 'to make

pure,' and the addition of -*cation*—purification—means 'the process of making pure.'

(4). Types of Derivation

The process of attaching an affix to word will influence the alterations either the part of speech or the meaning of the words. Therefore, in accordance with the alterations, derivation can be divided into types:

(a) Class-Changing

Class-changing derivation is a process of adding affixation in order to alter part of speech of a word. In other hand, it refers combining a suffix or prefix with the root or base of particular type of word to create a new word.

According to Carstairs and McCarthy (2002: 44), they divide derivation class-changing to seven kinds, namely adverbs derived from adjectives, nouns derived from adjective, nouns derived from verbs, adjective derived from noun, verb derived from noun, verb derived from adjective and adjectives derived from verbs. And also Fromkim, et.al (2003: 44-45) have same opinion, they define derivational morphemes have clear semantic content. In this sense they are like content words, except that they are not words. As we have seen, when a derivational morpheme is added to a base, it adds meaning. The derived word may also be of a different grammatical class than the original word, as shown by suffixes such as -able and -ly. When a verb is suffixed with -able, the result is an adjective, as in desire + able. When the suffix -en is added to an adjective, a verb is derived, as in dark + en. The following table provides some example of class-Changing

Noun to Adjective	Verb to Noun	Noun to Verb	Adjective to Noun
boy + -ish	acquitt + -al	moral + -ize	tall + -ness
virtu + -ous	clear + -ance	vaccin + -ate	specific+ -ity
Elizabeth + -an	accus + -ation	hast + -en	feudal + -ism
pictur + -esque	sing + -er	im + prison	free + -dom
affection + -ate	conform + -ist	be- + friend	
health + -ful	predict + -ion	en- + joy	
alcohol + -ic		in- + habit	

Verb to Adjective	Adjective to Verb	Adjective to Adverb	
read + -able	en + large	cheap + ly	
creat + -ive	en + dear	slow+ ly	
migrat + -ory	en + rich		
run(n) + -y			

Fromkin, et al (2003: 45)

(b) Class-Maintaining

Class-maintaining derivation is a process adding prefixes in order to indicate a different meaning of word. It can be either prefixes or suffixes. In addition, unlike class-changing, it does not modify part of speech. According to Carstairs and McCarthy (2002:52) state that there are some derivations English, namely adjective derived from adjective, noun derived from noun and verb derived from noun.

(1) Adjective derived from adjective

The only suffix of note is -ish, meaning 'somewhat X', as in **greenish, smallish.** By contrast, the prefix un- meaning 'not' is extremely widespread: for example, **unhappy, unsure, unreliable, undiscovered**. Because it is so common, most dictionaries do not attempt to list all un- adjectives. This does not mean, however, that un- can be prefixed to all adjectives quite freely; we do not find, for example, '**ungood**' with the meaning 'bad'

Another negative prefix is in-, with allomorphs indicated by the variant spellings il-, ir- and im-, as in **intangible, illegal, irresponsible,** and **impossible**. It is more restricted than un-.

(2). Verbs derived from verbs

This part is unusual in that all the affixes that the researcher will mention in it are prefixes. Most prominent are re- and the negative or 'reversive' prefixes un-, de-, mis and dis-.:

Verb	affixation	Verb
paint	re-	repaint
tangle	un-	untangle
compose	de-	decompose
read	mis-	misread
like	dis-	dislike

(Carstairs and McCarthy: 2002: 55)

(3). Noun derived from noun

Not all derivational processes change word class. English has derivational processes that yield nouns with meanings such as **astronomy + er (astronomer), pack + -age (package), boy + -hood (boyhood).**

Another agreement opinion about kinds of derivation in class-maintaining, Fromkim, et al (2003: 45) point out some derivation affixes do not cause a change in grammatical class.

Noun to Noun	Verb to Verb	Adjective to adjective
friend + -ship	re- + cover	pink + -ish
human + -ity	dis- + believe	a- + moral
dis- + advantage	auto- + destruct	un- + happy
ex- + wife		in- + accurate

Fromkim, et. al (2003: 45)

When a new word enters the lexicon by the application of morphological rules, other complex derivations may be blocked. For example, when Commun + ist entered the language, words such as Commun + ite (as in Trotsky + ite) or Commun + ian (as in grammar + ian) were not needed; their formation was blocked. Sometimes, however, alternative forms do coexist: for example, Chomskyan and Chomskyist and perhaps even Chomskyite (all meaning 'follower of Chomsky's views of linguistics'). Semanticist and semantician are both used for linguists who study meaning in language, but the possible word semantite is not.

Finally, derivational affixes appear to come in two classes. In one class, the addition of a suffix triggers subtle changes in pronunciation. For example, when we affix -ity to specific (pronounced "specifik" with a k sound), we get specificity (pronounced "specifisity" with an s sound). When deriving Elizabeth + -an from Elizabeth, the fourth vowel sound changes from the vowel in Beth to the vowel in Pete. Other suffixes such as -y, -ive, and -ize may induce similar changes: sane/sanity, deduce/deductive, critic/criticize.

On the other hand, suffixes such as -er, -ful, -ish, -less, -ly, and -ness may be tacked onto a base word without affecting the pronunciation, as in baker, wishful, boyish, needless, sanely, and fullness. Moreover, affixes from the first class cannot be attached to a base containing an affix from the second class: *need + less + ity, *moral + ize + ive; but affixes from the second class may attach to bases with either kind of affix: moral + iz(e) + er, need + less + ness.

2. Overview Error Analysis

a. Definition of Error Analisis

Error analysis is an invaluable source of information to teachers. It provides information on students' errors which in turn helps teachers to correct students' errors and also improves the effectiveness of their teaching. Error analysis is a type of linguistic analysis that focuses on the errors learners make.

According to Richards et al., (1996:127) error analysis has been conducted to identify strategies which learners use in language learning, to track the causes of learner's errors, obtain information on common difficulties in language learning or on how to prepare teaching materials.

Corder (1981: 23) says that error analysis is the study analysis of the errors made by the second foreign language learners to predict the errors or the difficulties in learning foreign language. Another opinion, Brown (2006: 227) points out that error analysis is errors can be observed, analyzed, and classified to reveal something of the system operating within the learner, led to a surge of study of learners' errors. Error analysis became distinguished from contrastive analysis by its examination of errors attributable to all possible sources, not just those resulting from negative transfer of the native language. Error analysis easily superseded contrastive analysis, as we discovered that only some of the errors a learner makes are attributable to the mother tongue, that learners do not actually make all the errors that contrastive analysis predicted they should, and that learners from disparate language backgrounds tend to make similar errors in learning one target language.

b. Definition of Error

Norrish (1983:7) in Nasaruddin (2015:11) says error is systematic deviation from the accepted system of the target language. Mistake is not systematic deviation from the accepted system of language being learned and it usually due to human limitation such as tiredness, nervousness, and fatigue. It means that error may occur because of human factor in mastering the target language such as the limitation of memory, psychological problem and do not understand about the material of subject

According to Ellis (1997) in Krisnawati (2013:185-186) errors reflected gaps in a learner's knowledge. They occur because the learner does not know

what is incorrect. Mistakes reflect occasional lapses in performance. They occur because, in particular instance, the learner unable to perform what he or she knows. Errors indicate a lack of knowledge, while mistake process the knowledge of correct form and just slipping up.

Some linguists distinguish mistake and errors. Brown (2006: 257-258) also carefully differentiates mistake and error. Mistake refers to a performance error that is either in random guess or a slip, in that is a failure to utilize a known system correctly. The learner knows the system but fails to use it. So mistake can be self corrected. An error reflects to the competence of the learner. The learner's system is incorrect.

Like an error a mistake is also a deviation of the norms of the language but is not systematic. Brown (2006: 226) says a mistake refers to a performance error that is either a random guess or a "slip," in that it is a failure to utilize a known system correctly. All people make mistake, in both native and second language situation. So we can say that a mistake is made by a learner because he does not apply the rules that he actually knows.

An error cannot be self-corrected, according to Lames (1998) in Brown (2006: 227), while mistakes can be self-corrected if the deviation is pointed out to the speaker. Mistakes are what researchers have referred to as performance errors (the learner knows the system but fails to use it), while errors are the result of one's systematic competence (the learner's system is incorrect).

c. Types of error

Trawinski (2005) in Nasaruddin (2015: 12) notices some major typologies of error based on some different perspective:

1). Surface Strategy Taxonomy

Error resulting surface structure are divided into four types. They are ommisison, addition, misinformation, and misordering.

2). Language Competence Taxonomy

Error resulting from gaps in language competence can be divided into two types. They are overt errors and covert errors.

3). Error Systematicity Taxonomy

Error based on their relation to the stage of the learner's linguistic development is divided into three types. They are pre-systematic errors, systematic errors, and post systematic errors.

4). Error Gravity Taxonomy

Errors based on gravity are divided into two types. They are global errors and local errors.

5). Error Source Taxonomy

Errors based on factors that may evoke the language error are divided into two types. They are interlingual errors and intralingual errors.

Ellis in Nasaruddin (2015: 13) says that there are four types of errors, among others:

1). omission

Omission is the error of leaving out an item that is required for an utterance to be considered grammatical

For example: *The car will repaired next week.* This sentence contains error, because the sentence above is future. Based on the signal time that is used "next week". This sentence leaves out an item that is required grammatical. So the right sentence is the car will be repaired next week.

2). Misinformation

Misinformation is the error of using one grammatical form in place of other grammatical form.

For example: *"The boy write a letter"*, this sentence contain error because use wrong form of the verb that is "write" is should be "writes". In addition, if subject of sentence is singular and followed by verb, it should be added by "es or s". So, the right sentence is *"The boy writes a letter"*

3). Misordering

Misordering is the error of putting the words in an utterance in the wrong order.

For example: *"She is all the time happy*. It must be changed by *"She is happy all the time"*

4). Overgeneralization

Overgeneralization is the error of using over grammatical form in an utterance.

For example: *The day is being fine, we decide to go climbing.* The sentence uses the day is being fine, it should be *the day being fine* or *the day is fine.*

According to Dulay (1982: 150-163) error can be classified into four types, they are:

1). Omission Errors

Omission errors are characterized by the absence of items that must be present in a well-formed utterance.

Example: I very happy during my holiday.

It should be: I am very happy during my holiday.

2). Addition Errors

Addition errors are the opposite of mission errors. They are characterized by the presence of an item which must not be present in a well-formed utterance.

Example: My mother is makes a sweet cake for me.

It should be: My mother makes a sweet cake for me.

3). Misformation Errors

Misformation errors are characterized by the use of the unacceptable forms of the morphemes or structure. While in omission errors the item is not supplied at all. In misformation errors the learner supplies something, although it is incorrect

Example: She don't know anything.

It should be: She doesn't know anything

4). Misordering Errors

The incorrect placement of a morpheme or group of morphemes in an utterance characterized misordering error. Misordering occur systematically for both L1 and L2 learners.

Example: Mark doesn't know who is she.

It should be: Mark doesn't know who she is.

d. Causes of Errors

According to Norrish (1983: 21) there are some factors that cause errors in a sentence:

1) Carelessness,

Which is the error caused by less inspiration of the students while they learn the second language or the uninteresting material that makes students less enthusiastic in learning the language.

2) First Language Interference,

Which is caused by the mother tongue that gets involve while the students are using the foreign language;

3) Translation,

Which is because of students blindly translating a sentence, phrase or an idiomatic expression from their first language into the language they are learning.

According to Richards (1971: 6) there are five causes of errors. Those are: interference, overgeneralization, ignorance of rule restriction, incomplete, application of rule and false hypothesis.

1). Interference

These errors caused by the interference of learner's mother tongue. The learner applying knowledge from their native language to a second language. Sometimes they translated the sentences based on Indonesian structure instead it was different to English structure. For example: *social media has many impact negative.*

2). Overgeneralization

Richard (1970: 47-48) says "this group of error is the result of the use of previously available strategies in new situation". In other words, it occurs when a learner creates a defiant structure based on his experience of other structure in the target language. Furthermore, overgeneralization is associated with redundancy reductions it may occur. For instance with items which are contracted in the grammar of the language but do not carry significant and obvious contrast for the learner.

The –ed marker, in narrative or in order past context, often appears to carry no meaning since past-ness is usually indicated lexically in stories, and the essential nation of sequence in narrative can b expressed equally well in the present *yesterday I go to university and I meet my new professor.*

3). Ignorance of the rule restriction

In this type of error, the learner fails to observe the restriction of existing structure. Some rules restriction errors may be accounted for in term of analogy and may result from the learning roles. For example, the learners may use infinitive after verb like "tell" in 'tell him to return the book" or "ask" in "I ask

you to go there". They then procedures an utterance " I make him to do it". in this sentence, the learner ignorance the rule restrictions of the verb "make" is always followed by infinitive without "to". The learners mostly tends to generalize syntactic rules; they have previously learned, ignoring the rule.

4). Incomplete of the rule restriction

Intra-lingual error of this type may occur when the learners fail to apply the rules completely due to the stimulus sentence. It shows an utterance of structure whose deviancy represents the degree of development of the rules required producing acceptable utterance. In this case, a statement may be form as a question. For example *many people know where Ball is.*

5). False concept hypothesis

It was derived from the faulty comprehension of destinations in the target language. the learner fails to use the correct concepts. These errors are sometimes due to the poor gradation of teaching items. The form "it's" may be interpreted as "its" such as in *its pleasant in the garden* instead of *it's pleasant to the garden.*

3. Writing

According to Patel and Jain (2008: 125), writing is a kind of linguistic behavior; a picture is not. It presents the sounds of language through visual symbols. Writing may be very important for one group of students but much less important for others. They also say that writing is a skill which must be taught and practiced.

Harmer (1998: 79) says that writing is appropriate for such learners. It can also be a quiet reflective activity instead of the rush and bother of interpersonal face to face communication. The most important reason for writing, of course, is that it is a basic language skill, just as important as speaking, listening and reading. Students need to know how to write letters, how to put written reports together, how to reply to advertisement and increasingly.

The researcher defined writing is organizing experience, ideas or information, in the form of arranges sentences or even paragraphs. People can also add that in order to make a good written text someone has to pay attention to the rules of writing when we are going to write a composition such as grammar, sentence structure, vocabulary, punctuation, spelling, adjective, adverb and capitalization.

CHAPTER III

RESEARCH METHODOLOGY

This chapter consists of Research Method, Population and Sample, Instrument of the Research, Procedure of Collecting Data, and Technique of Data Analysis.

A. Research Method

In this research, the researcher used descriptive qualitative method. According to Hancock (2007:1), qualitative research is concerned with developing explanation of social phenomena. This method aims to describe about Morphological Errors Made by the Sixth Semester Students at English and Literature Department of Adab and Humanities Faculty of Islamic State University of Alauddin Makassar in writing short paragraph.

B. Population and Sample

1. Population

The population of this research was the sixth semester students in 2014/2015 academic year who had studied English Morphology and Writing. The populations of this researcher were 158 students which divided into eight classes (AG 1-8) where each class belongs to 16-22 students.

2. Sample

The researcher used random sampling as Gay (2006: 101) states: "random sampling is the process of selecting a sample in such a way that all individuals in defined population have an equal and independent change of being selected for".

The researcher had chosen the class randomly by lottery the papers which consisted of four groups and the result of the lottery was AG 5-6.

C. Instrument of the Research

The instruments of this research used observation sheet and interview sheet as the main data. The researcher observed the class and asked the students to write down an essay in a piece of paper which had been prepared by the researcher with different topic and then interviewed some of them. In supporting the data, the researcher used documentation and recording tools.

D. Procedures of Collecting Data

The procedures of collecting data in this research are:

1. Firstly, the researcher came in two classes (AG 5 and 6) of the sixth semester students BSI who did learning process at English and Literature Department and the researcher gave explanation and direction about what the students should do with the test.

2. Secondly, enquiring the students wrote down a paragraph essay around 45 minutes in a blank paper which had been provided by the researcher.

3. Thirdly, the researcher enquired another expert or lecturer to pre-check the students' writing.

4. Fourthly, the researcher enquired students again to re-correct their writing.

5 The next, after knowing the result of students' error, the researcher interviewed the students to know the causes of their errors.

6. The last, the researcher found the students' reasons of errors.

E. Technique of the Data Analysis

The data were analyzed using some techniques as follows:

1. The researcher identified or categorized students' errors based on Dulay's theory.

2. The next, the researcher evaluated students error by giving correction to students' error

3. After that, the researcher analyzed students' interviewed result to find out the causes of errors based on Norrish's theory.

4. The last, the researcher discussed about students' morphological errors and their causes of error in writing an essay based on the theories.

CHAPTER IV

FINDINGS AND DISCUSSION

Finding and discussion describe the data which were collected from the students' writing essay and interview result. The discussion was organized based on the research questions which underpinned the study. The first sub heading presents the discussion of the research.

A. Findings

After analyzing the data, the researcher found some types of error made by English and Literature Department students in writing essay and the causes of those errors. The data are presented in the following paragraph which divided into two parts namely presentation data and causes of error. The first data showed the types of morphological error and the second data showed the causes of error found in students' writing short paragraph.

1. Types of Error

a. Omission

According to Dulay, Burt and Krashen (1982: 150-163) errors of omission are characterized by the absence of an item that must appear in a well-formed utterance. Generally, the researcher divided omission errors in her finding into three kinds, namely omission of noun inflection, omission of verb inflection and omission of adjective inflection.

1) Omission of Noun Inflection

Table 1: Omission of Noun Inflection (Plural noun)

Data	Noun Inflection		Correction
	-s /es (plural)	's	
I have many **collection** of Indian movie **(D1)**	✓		**Collections**
There has many **culture** that we can study **(D2)**	✓		**Cultures**
Java has many **country** that we can visit **(D3)**	✓		**Countries**
There are many good **place** there. The first palace I am going to Selecta, after Selecta I am going to museum Angkut **(D4)**	✓		**Places**
There are so many **performance** over there **(D5)**	✓		**Performances**
There so many **destination** we can visit like Borobudur temple, south beach **(D6)**	✓		**Destinations**

In Java the things, foods are cheap than in Makassar, perhaps because many **student** there then they give cheap cost for everything **(D7)**	✓		**Students**
I arrived at some **village (D8)**	✓		**Villages**
We can take a walk, relaxing or may be buy some **present** for your family **(D9)**	✓		**Presents**
There, we can see, there are many **kind** of ethnic in Papua **(D10)**	✓		**Kinds**
When I seen in the TV, so many **artist** from Indonesia **(D11)**	✓		**Artists**
There are many **kind** of people from other **country (D12)**	✓		**Countries**
I have many place **reference (D13)**	✓		**References**
The women bring our **thing** inside to tend **(D14)**	✓		**Things**
There are a lot of beautiful **place** that I have to go **(D15)**	✓		**Places**
Yogyakarta is the old town that holds lot	✓		**Mysteries**

Data	Plural		Correction
of **mystery** (D16)			
People say that there two the haunted **tree** that can granted our dreams **(D17)**	✓		**Trees**
Australia has four **season** but Indonesia only two **season (D18)**	✓		**Seasons**
Australia has some **language (D19)**	✓		**Languages**
All of **consideration** was a bad **(D20)**	✓		**Considerations**
Some of **destination** such as (local, domestic and international) **(D21)**	✓		**Destinations**
Japan has so many **culture** and so many tourism **place (D22)**	✓		**Places**
There are two **place** of Lejja in Makassar **(D23)**	✓		**Places**

2) Omission of Verb Inflection

Table 2: Omission of Verb Inflection

Data	Verb Inflection			Correction
	-s/es	ing	ed	
With purpose for **take** a film **(D24)**		✓		**Taking**

I want to explain my experience at the time. …………..I **stay** in Bulukumba during three days **(D25)**			✓	**Stayed**
I am so curious about Goa China but when I **arrive** there I mean just so so **(D26)**			✓	**Arrived**
In the morning, we going to Goa, when I **want** to enter in Goa I am afraid **(D27)**			✓	**Wanted**
Goat island is uninhabited but unfortunately you find it difficult to built a tend for **camp (28)**		✓		**Camping**
When I want to enter in Goa I am afraid because nothing light, and there is people **ask** me **(D29)**			✓	**Asked**
When I visited Jogjakarta in 2013 that I knew Jogjakarta is a famous city. ………. actually, my purpose not only about holiday, at the time I also **visit** my sister **(D30)**			✓	**Visited**
I most like eating more than **take** a walk		✓		**Taking**

to same places **(D31)**				
Destination which will be **visit** is Japan **(D32)**			✓	**Visited**
Since child, my uncle and my cousins used to tell me about mountain. …….we **climb** sixes tree and planned to stay one night in base camp and then I **walk** down the track**(D33)**			✓	**Climbed; Walked**
I ever **visit** tourism places that I cannot forgot **(D34)**			✓	**Visited**
We **start** our trip from harbor to Kadingareng island approximately at 05.30 **(D35)**			✓	**Started**
The food have been **serve (D36)**			✓	**Served**
I think why I want to go there have been **answer (D37)**			✓	**Answered**

3) Omission of Adjective Inflection

Table 3: omission of Adjective Inflection

Data	Adjective Inflection		Correction
	-er	-est	
In Java the things, foods are **cheap** than in Makassar **(D38)**	✓		**Cheaper**
Pia Patak has **smooth** texture than Pia Gorontalo **(D39)**	✓		**Smoother**

b. Addition

Addition is types of error characterized by the presence of an item, which must not appear in a well-formed utterance as stated by Dulay, Burt and Krashen (1982: 150-163). It means that learners not only omit elements which they regard, but they also add redundant elements. Generally, the researcher divided addition errors in her finding into two kinds, namely addition of noun inflection, addition of verb inflection

1). Addition of Noun Inflection

Table 4: Addition of Noun Inflection.

Data	Addition of Noun Inflection		Correction
	-s/es	-ing	

Data	s/es	ing	ed	Correction
Thing that most intrigue me when singing on the **filming (D40)**		✓		**Film**
Katinting is a small **boats (D41)**	✓			**Boat**
So, the beautiful **places** I want to visit is Disney island **(D42)**	✓			**Place**
We climb **sixes** tree and planned to stay one night in base camp **(D43)**	✓			**Six**
I cannot imagine that beautiful **beaches** of Raja Ampat **(D44)**	✓			**Beach**
I think Japan is nice **places (D45)**	✓			**Place**

2) Addition of Verb Inflection

Table 5: Addition of Verb Inflection

	Addition Verb inflection			Correction
Data	s/es	ing	ed	
So maybe I want to **goes** Bulukumba with my friend **(46)**	✓			**Go**
I hope, I can **goes** to Bulukmba with you **(D47)**	✓			**Go**

India is one of tourism place. I **wished** to visit **(D48)**			✓	**Wish**
We can **refreshing** and get much knowledge **(D49)**		✓		**Refresh**
We can **watching** the old movie **(D50)**		✓		**Watch**
You have to try the cake when you **going** to Yogyakarta **(D51)**		✓		**Go**
Don't miss to try traditional cakes when you **traveling** to another city and country **(52)**		✓		**Trave**
No other person can **wearing** "Yokuta" **(D53)**		✓		**Wear**
They **using** costume from wood the name is "Koteka" **(D54)**		✓		**Use**
We can **learning** about appreciate respect **(D55)**		✓		**Learn**
I **liked** destination **(D56)**			✓	**Like**
People say that there are two			✓	**Grant**

haunted tree that can **granted** our dreams **(D57)**				
I will **visited** Tokyo imperial palace **(D58)**			✓	**Visited**
I **planning** to continue my study in there **(D59)**		✓		**Plan**
I can **visited** many place **(D70)**			✓	**Visit**
There I can **tasted** many food **(D71)**			✓	**Taste**
At Selecta Garden we can **enjoyed** the place **(D62)**			✓	**Enjoy**
So that's why, I **wishes** that one day I can go there **(D63)**	✓			**Wish**

c. Misformation

According to Dulay, Burt and Krashen (1982: 150-163), misformation errors are characterized by the use of *the wrong form of the morpheme or structure*. While in omission errors the item is not supplied at all, in misformation errors the learner supplies something although it is incorrect.

In this type of errors, the researcher only focuses on misformation of derivational errors. Yule (2006: 61) states derivational morpheme is used to make

new words in language and often used to make words of a different grammatical category from the stem

Table 6: Misformation of Derivation

Data	Correction
Thing that most **intrigue (D64)**	**Intriguing**
That involve many people are very **intrigue (D65)**	**Intriguing**
We can join with them, like **play** drama, dancing and taking a picture **(D66)**	**Playing**
I am a **dream (D67)**	**Dreamer**
You can visit another place which more **interest** around my hometown **(D68)**	**Interesting**
With purpose for take a film will be **performance** **(D69)**	**Performed**
When the people **performance** there. we can join **(D70)**	**performed**
That's a good destination, a **comfort** zone with a cute cow all over the road **(71)**	**Comfortable**

There are 71 data based on six tables above. In the first table, the researcher found omission errors of noun inflection made by 14 students. There

were 23 data of omission errors in noun inflection. They omitted *"-s/-es"* as a mark of plural noun. Furthermore, in the second table the researcher found 14 data of omission errors in verb inflection made by 7 students while in table 3, the researcher found 2 data of 1 student who made omission errors in adjective inflection such as the student omitted *"-er"* as a symbol of comparative form.

In the table 4, the researcher found 6 data of addition errors in noun inflection made by 5 students. Not only addition errors of noun inflection but also there were 18 data of addition errors in verb inflection in table 5 by 12 students. The last is table 6, the researcher found 8 data of 6 students who made errors in misformation of derivation.

2. Causes of Errors

Some causes of error were found by the researcher from the students' essay and interview result which were held after analyzing the paper written by students. She asked some questions to them who made errors and based on their answer to find out the causes of error they made.

The researcher interviewed 10 from 29 students made errors in writing short paragraph. The researcher chose 10 students based on their errors who made errors 2 or more times.

1. Why did you omit "s" at the end of the **culture**?

   Students 4:

   There have many **culture** of Indian movie (**D72**)

The answer: *Because I think culture is uncountable noun. So it did not need to put "s" at the end of word and also the word of many can give mark as a plural noun*

Student 7

There are many **culture** and beautiful places. **(D73)**

The answer: *Sorry. This is my mistake. "Culture" should be put "s" because there is "many"*

Student 14

I will know how many **culture** in Paris **(D74)**

The answer: *I did not concern about using "s" at the end of word when I wrote an essay.*

Student 24

Japan has so many **culture** (**D75**)

The answer: *I did not focus, it should be put "s"*

2. Why did you omit "s" at the end of **destination**?

Student 6

There so many **destination** we can visit. (**D76**)

The answer: *yeah. "Destination" should be put s because it is plural and there is "many" as a mark of plural form.*

Student 13

There are many **destination** like Raja Ampat Island, etc. **(D77)**

The answer: *the first, I do not know the grammar and actually, If I put many, I do not put "s" at the end of noun.*

Student 26

I have visited many **destination (D78)**

The answer: *I forgot and because of habit.*

3. Why did you omit "s" at the end of **kind?**

Student 13

There we can see, there are many **kind** of ethnic in Papua **(D79)**

The answer: *actually I did not know about this sentence. I always write kind without "s" at the end of word*

Student 14

There are many **kind** of people from other country **(D80)**

The answer: *I did not understand and focus when I wrote it..*

4. Why did you omit "s" at the end of **language?**

Student 21

Australia has some **language (D81)**

The answer: *Because some as a plural mark which does not need to put "s" at the end of word.*

5. Why did you omit "s" at the end **season?**

Student 21

Australia has four **season** but Indonesia only two **season (D82)**

The answer: *I forgot to put "s" at the end of season.*

6. Why did you omit "s" at the end of **thing?**

Student 18

The women bring our **thing** inside to tend. **(D83)**

The answer: *I did not know the grammar of this sentence well. So I just wrote this vocabulary.*

7. Why did you omit "s" at the end of **artist?**

   Student 14

   When I seen in the TV, there are many **artist** from Indonesia **(D84)**

   The answer: *Actually, I do not care about how to use "s" at the end of word when I write some essays. I think the sentence is correct.*

8. Why did you omit "es" at the end of **country?**

   Student 4

   Java has many **country (D85)**

   The answer: *Because country is uncountable noun, it did not need to put "es"*

   Student 14

   There are many kind of people and other **country (D86)**

   The answer: *I did not concern my writing when I wrote.*

9. Why did you put "s" at the end **place?**

   Student 7

   There are many culture and beautiful **places (D87)**

   The answer: *Actually only "place" without "s" because the place which I will visit only one place.*

   Student 18

   I ever visit tourism **places (D88)**

   The answer: *I think the spelling of the word is correct.*

   Student 24

I think Japan is nice **places (D89)**

The answer: *Actually I did not know the grammar of this sentence.*

10. Why did you put "es" at the end of **go?**

Student 1

So maybe I want to **goes** to Bulukumba again with new friend. **(D90)**

The answer: *because I thought "goes" is better than go.*

I hope I can **goes** to Bulukumba with you. **(D91)**

The answer: *In this sentence, I made mistake. I have to use "go" because after modal can should be bare infinitive.*

11. Why did you omit "ing" at the end of **take**?

Student 1

My purpose for **take** a film. **(D92)**

The reason: *I did not understand more about the structure of this sentence. I think, it is prefer if I use take for this sentence.*

12. Why did you omit 'ing" at the end of **walk?**

Student 6

I like eating more than **walk** to some places just for shopping. **(D93)**

The answer: *Actually I did not know the structure of this sentence. So I just wrote the sentence like this.*

13. Why did you put "ing" at the end of **refresh?**

Student 4

We can **refreshing** and get much knowledge **(D94)**

The answer: *In this case, this is about my habit, because in speaking I use to say refreshing.*

14. Why did you put "ing" at the end of **wear?**

Student 7

No other person can **wearing** "Yokuta" (**D95**)

The answer: *Because the meaning of "wearing" is "memakai" and I think that it is the correct vocabulary so I wrote it.*

15. Why did you put "ing" at the end of **use?**

Student 13

They **using** costume from wood the name is 'Koteka" (**D96**)

The answer: *If I say "menggunakan" I use to say "using". So it is because of my habit.*

16. Why did you put "ing" at the end of **travel?**

Student 6

Don't miss to try traditional cake of food when you **traveling** to another city or country. (**D97**)

The answer: *Because I thought the using of word traveling is better than travel.*

17. Why did you put "ing" at the end **go?**

Student 6

You have to try the cake when you **going** to Jogjakarta? (**D98**)

The answer: *I think, this is the true sentence.*

18. Why did you put "ed" at the end of words **visit, taste, and enjoy**?

Student 26

There we can **visited** many destination **(D99)**

I can **tasted** many foods **(D100)**

At Selecta Garden, we can **enjoyed** the place **(D101)**

The reason: *because this essay tells about past.*

19. Why did you omit "ed" at the end of **answer?**

    Student 21

    I think why I want to go there have been **answer** **(D102)**

    The answer: *I forget. Should be put "ed" as a passive*

20. Why did you omit "ed" at the end of **visit?**

    Student 6

    Actually at the time, my purpose not only for holiday but also I **visit** my sister

    which study at Muhammadiyah university of Jogjakarta. **(D103)**

    The answer: *At the time, I did not concern when wrote. Actually I know the*

    correction of this, "visit" should be put "ed" because tell about past

    Student 7

    Destination which will be **visit (D104)**

    The answer: *Actually, "visit" should be put "ed" to make the passive one.*

    Student 18

    I ever **visit** tourism places that I cannot forget it. **(D105)**

    The answer: *When I wrote this essay, I directly wrote what I want to say so I*

    did not concern the grammar but actually "visit" should be put "ed" because

    this essay I told about past.

21. Why did you omit "ed" at the end of **start**?

Student 18

We **start** our tip from harbor to Kadingareng Island approximately at 05.30. (**D106**)

The answer: *Yeaahh. Actually I did not concern when I wrote this essay. "start" should be put "ed" also same with "visit".*

22. Why did you omit "ed" at the end of **serve**?

Student 18

While waiting the food have been **serve**, the man looking for wood to burn as a light and for warming our body. (**D107**)

The answer: *Yeeaahh. This is my next mistake. "Serve" also should be put "ed" because past.*

16. Why did you omit "ed" at the end of **stay?**

Student 1

I stay in Bulukumba during three days (**D108**)

The reason: *oohh yeeahh. This is my mistake, "stay" should be put "ed" because tell about past.*

17. Why did you use **performance** in this sentence?

Student 1

With purpose for take a film will be **performance**? (**D109**)

The answer: Because I just know in English of "menggunakan" is "performance". So I prefer use "performance".

18. Why did you omit "er" at the end of **cheap** and **smooth**?

Student 6

In Jogjakarta, the things, food, are **cheap** than in Makassar. I ever tasted "Pia Patok" have **smooth** texture than Pia Gorontalo. (**D110**)

The Answer: *I forget for this. "Cheap" and "smooth" should be put "er" because tell about comparison.*

19. Why did you omit "s" at the end of **place**?

Student 26

I can visited many **place**? (**D111**)

The answer: *I still confuse about this structure and sometimes I forget.*

B. Discussion

This part discusses the analysis of the data from students' writing essay. The researcher divided the discussion into two parts based on the problem statements. The researcher discusses the types of errors and causes of errors found in students' essay.

1. Types of Errors Found in Students' Writing Short Paragraph.

In this part, the researcher explains all the data that were found in the students' writing essay that made errors based on Doulay, Burt and Krashen theory of types of error which consists of four namely omission, addition, misformation and misordering.

After analyzing the data, the researcher found 71 data of morphological errors in students' writing essay. Each type was coded by the researcher. They were: **twenty-three** data errors in omission of noun inflection, **fourteen** data errors in omission of verb inflection, **two** data errors in omission of adjective

inflection, **six** data errors in addition of noun inflection, **eighteen** data errors in addition of verb inflection, and **eight** data errors in misformation of derivation.

1. **Omission of noun inflection**.

Based on the data, the researcher found omission errors in noun inflection. According to Dulay, Burt and Krashen (1982: 150-163) errors of omission are characterized by the absence of an item that must appear in a well-formed utterance. There were 23 data from 14 students who made omission errors of noun inflection. The students omitted *"-s/-es"* as a mark of plural countable noun.

Most of students made errors of using "s/es" as a plural countable noun as mark of words *some, many, a lot of, all of,* and *using numeral.* The researcher found 31 data in this part. In data **1, 2, 3, 4, 5, 6, 7, 10, 11, 12, 13,** and **22** they omitted "s/es" as a mark of plural countable noun of **many**. For instance in **datum 1**: *I have many collection of Indian movie*. The next, in data **8, 9, 19,** and **21** they omitted "s/es" as mark of plural countable noun of **some.** For instance in **datum 8**: *I arrived at some village*. The next in data **15** and **16** they omitted "s/es" as a mark of plural countable noun of **lot of**. For instance in **datum 15:** *there are a lot of beautiful place*. In **datum 20** the student did not put "s/es" after "**all of"**. It is also as mark of plural noun. The last, in data **17, 18,** and **23** they omitted "s/es" as a mark of plural countable noun of **using numeral**. For instance in **datum 18**: *Australia has four season but Indonesia only two season*.

In this type of error, most of students did error when they put **many** as a plural mark but they omit "s/es" at the end of noun.

2. Omission of verb inflection

Based on the data, the researcher found 15 data related with omission of verb inflection, such as in **data 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36 and 37.** In **data 24, 28** and **31** the students omitted **ing** at the end of **verb.** For instance **datum 24** *with purpose for take a film*, **take** should be put **ing** at the end because there is preposition "**for"** before verb "**take"** so it should be **taking.** In **data 25, 26, 27, 29, 30, 32, 33, 34, 35, 36,** and **37**, they omitted **ed** at the end of verb. for instance in **datum 35** *we **start** our trip from Harbor to Kadingareng Island approximately at 05.30.* **start** should be put **ed** because as a mark of past tense. All data above expressed the same with **data 24** and **35.**

In this type of error, most of students did error when they omitted **ed** at the end of verb as a mark of past form.

3. Omission of Adjective Inflection.

The researcher found 2 data in omission of adjective inflection, namely **data 38** and **39**. The student omitted **–er** as a mark of comparative form where "er" should be put after adjective class. For instance **in datum 38** *in Java the things, foods are cheap than in Makassar.*

4. Addition of Noun Inflection

Based on data, the researcher found 6 data in addition errors of noun inflection. Dulay, Burt and Krashen (1982: 150-163) state that addition errors are the opposite of mission errors. They are characterized by the presence of an item which must not be presented in a well-formed utterance. There were 6 data from

6 students who made addition errors of noun inflection. In **datum 40** the student put **ing** which should not be put. For instance *thing that most intrigue me when singing on the filming*. **Filming** should be only **film** as a noun form. In data **41, 42, 43, 44,** and **45,** most of them in this part made errors due to put "e/es" at the end of noun which not a symbol of a plural noun. For instance **in datum 42** *"So, the beautiful places I want to visit is Disney Island*. **Places** should only **place,** due to the place she (the student) which will be visited by her is only Disney Island.

5. Addition of Verb Inflection.

The researcher found 18 data in addition of verb inflection. Some of student put **s/es, ing** and **ed** at the end of verb which should not be put. In data **46** and **63** the students added "s/es" at the end of the verb and after pronoun "I", for instance **in datum 63** *"So that is why, I wishes that one day I can go there"*. The word *"wish"* cannot put "es" after pronoun "I" because "I" is not as third person singular. In **datum 47**, the student also put s/es at the end of modal. For instance *I hope, I can goes to Bulukumba with you*. The word *"go"* cannot put es at the end of verb after modal, because after modal should be put bare infinitive. The same causes with data **56, 57, 58, 60, 61** and **62.** They put **ed** at the end of verb after modal which should be only bare infinitive. For instance **in datum 58,** *"I will visited Tokyo imperial palace"*.

The next in **data 49, 50, 53,** and **55** some of them also put **ing** at the end of verb after modal. For instance **in datum 50** *"we can watching the old movie"*. The next in **data 51, 52** and **54** they put **ing** at the end of the verb but it did not indicate present continuous due to they did not put auxiliary be before present

participle. For instance in **datum 51:** *"You have to try the cake when you **going** to Yogyakarta"*

In this type of errors, most of students did error because they put **ed** at the end of modal which should be bare infinitive after modal.

6. Misformation of Derivation.

The researcher found 8 data in misformation of derivation. In data **64 65, 66, 67, 68, 69, 70,** and **71,** some of students did not know how to change part of speech to others. For instance **in datum 68** *"you can visit another place which more **interest** around my hometown"* the word **interest** was not adjective. In this sentence the word **interest** should be adjective class due to, there was "more" and it should be followed by adjective. Thus, in the word of "interest", prefix "ing" must be added in order to change it into adjective.

In this type of errors, most of students did error when they did not know how to change part of speech. There are some error sentences because they did not change verb to adjective which should be changed to make the correct structure.

In this research, the researcher did not find misordering errors because misodering errors are the incorrect placement of a morpheme or group of morphemes in an utterance as stated by Dulay, Burt and Krashen (1982: 150-163), while in this research focuses on derivational and inflectional.

On the other hand, the researcher found one error which is not mentioned in Dulay's theory, namely spelling errors. Spelling errors is one of errors occasionally made by students. Some of them wrote based on what they heard such as **awer** should be **our**, **tend** should be **tent**, **knowlige** should be **knowledge**,

befor should be **before**, **uniq** should be **unique**, **musium** should be **museum,** **ficture** should be **picture**, **hapo** should be **hope** and **anhother** should be **another**

2. Causes of error found in students' writing essay

After analyzing the data of interview, the researcher found some causes of error in students' writing essay. Some of them made errors because they did not understand the grammar of the sentence, which is as the result, the researcher presented the answer of errors in **data 72, 79, 80, 81, 83, 84, 85, 86, 90, 92, 97, 99, 100, 101, 107**, and **111.** For example in **datum 72** (4th student), she still could not differentiate between countable noun and uncountable noun, so she thought "culture" was uncountable noun. Actually she knew the using of "many" as a plural mark in sentence but she was still confused of countable and uncountable noun.

Moreover, the next cause was because their habits when they spoke. It is the answer for **data 94** and **96**. Some of them are still influenced with their grammar when they spoke, they did not concern with grammar as a result thus they applied it in writing. Actually in speaking, grammar is not very important because if an interlocutor understands what the speaker means the conversation can be carried on, but in writing skill the students or learners must concern the grammar because it is very influential when they wrote.

The last, they did not know the grammar of the sentence. It is the answer for **data 77, 83, 88, 89, 93, 95, 98,** and **109.** Thus, some of them made errors in this part because they did not know the grammar of the sentence and they are still influenced by their habit when they spoke. For instance in **datum 77,** she said

that she does not know and also she always does not put 's" at the end of word after using "many".

After analyzing the data, there were some causes of errors made by students were similar to Norrish's theory (1983:21) where he states causes of error such as careless and first language interference. Careless is cause of errors because of students are uninterested in grammar and unfocused when studied about it so they did not understand the grammar what they had studied. It is the answer for **data 72, 77, 79, 80, 81, 83, 84, 85, 86, 88, 89, 90, 92, 93, 95, 97, 98, 99, 100, 101, 107, 109**, and **111.** The next cause is first language interference, a cause of errors because of the first language still influence the students when learning foreign language. It is the answers for **data 94** and **96.**

In addition, based on interview result, there were some of students only made a mistake, not errors because they did not concern with their writing and they forgot the vocabulary or the correct structure when they wrote but actually they know the correct structure. It is the answer for **data 73, 74, 75, 76, 78, 82, 87, 91, 102, 103, 104, 105, 106, 108,** and **110.** Actually, they knew the correct grammar but some of them did not concern of their writing and did not focus when they wrote an essay because of the situation of the class.

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presents the conclusion as the result of research findings and also suggestion for future research contributions. The following contents of this chapter are explained in the following.

A. Conclusion

Based on the previous chapter, the researcher concluded the types of errors and the causes of the errors made by the sixth semester students in writing essay as follows:

1. Based on the types of errors by Dulay et al (1982: 150-163) the researcher found three types which could be classified to the data based on students' writing short paragraph in the sixth semester of English and Literature department. Those errors were 71 inflection and derivation errors in writing short paragraph. Every type was coded by the researcher. They were 23 errors in omission of noun inflection, 14 errors in omission of verb inflection, 2 errors in omission of adjective inflection, 6 errors in addition of noun inflection, 18 errors in addition of verb inflection, and 8 errors in misformation of derivation.

2. Based on the causes of errors by Norrish's theory (1983: 21-26) the researcher found some causes of error, such as they did not understand the grammar, they did not know the structural of the grammar and they were influenced by their habits when they spoke.

It can be concluded that the sixth semester students still made errors in writing essay and their errors caused by careless and first language interference.

B. Suggestion

Based on the conclusions and the previous chapters, the researcher would like to give several suggestions as follows:

1. For the students or learners, they must learn more about morphology especially inflection and derivation and also even though some of them are uninterested in grammar and morphology but they have to learn it because they are important skills in enhancing the quality of writing.

2. For the English teachers and lecturers, there are some suggestions such as first, it is better to review the lesson in the next meeting and giving more explanation of morphology to make the student understand and practice it easily. Second, by knowing the students' causes of errors the lecturers can change their teaching method to reduce students' errors because some of them are uninterested in the lesson.

3. For further research, it will probably be better if there is a further study concerning English word-formation to create new English words by implementing the concept of morphological processes. The morphological processes mean not only about inflection and derivation but also how to combine two existing words in order to create a new word with a new meaning called compounding.

Student 7

Researcher : have you read your writing? Please re-check again.

Student : yes. I have.

Researcher : well. I found some mistakes here. The first "why did you omit "s" at the end of "culture"?

Student : I think if I put many so the word "culture" without "s"

Researcher : ohh so your opinion culture without "s" is true?

Student : I think I have to omit the many.

Researcher : oohh, so you should omit the "many" and put "s" after "culture"?

Student : ohh sorry, this is my mistake. "culture" should be put "s" because there is "many"

Researcher : ok. The next, why did you put "s" at the end of "place"

Student : only "place" without "s"

Researcher : the next, why did you omit "ed" at the end of "visit"

Student : sorry, it should be put ed "visited"

Researcher : the next question, why did you put "ing" at the end of 'wear"

Student it is : because the meaning of "wearing" is "memakai" and I think that the correct vocabulary so I wrote it.

Student 21

Researcher : have read your writing? Please re-check again.

Student : yes, I have.

Researcher : well. I found some mistakes in your writing. The first why did you omit "s" at the end of language?

Student : because" some" is a plural mark so "language" does not need put "s"

Researcher : the next, why did you omit "s" at the end of season.

Student : I forgot to put "s" at the end of "language"

Researcher : why did you omit "ed" at the end of "answer"?

Student : I forgot. It should be put "ed" as a passive.

Researcher : why can you make an error? Are you uninterested with grammar or did not focus when you studied about grammar?

Student : I am uninterested and unfocused when I studied grammar.

Researcher : When you write an essay, did you directly write English or Indonesia first?

Student : directly English

Researcher : Do you translate English sentence based on Indonesia structure?

Student : sometimes.

Student 14

Researcher : Have you read your writing? Please re-check again

Student : yes. I have.

Researcher : Well, I found some mistakes in your writing. The first, why did you omit "s" at the end of "artist"?

Student : actually I do not care about how to use "s" at the end of word when I wrote essay, I think the sentence is correct.

Researcher : the next, why did you omit "s" at the end "culture"?

Student : yeah. The same answer. I did not concern and did not focus.

Researcher : the next, why did you omit 's" at the end of "kind" and "country"?

Student : I did not concern when I wrote an essay.

Researcher : Why can you make an error? Are you uninterested with grammar or did not focus when you studied about grammar?

Student : I am interested in grammar but sometimes I fell bored with the subject and situation in the class

Researcher : When you write an essay, did you directly write English or Indonesia first?

Student : if the sentence is easy, I directly use English.

Researcher : Do you translate English sentence based on Indonesia structure?

Student : yes, based on my first language.

Student 1

Researcher : Have you read your writing? Please re-check again

Student : yes. I have.

Researcher : Well, I found some mistakes in your writing. The first, why did you omit "ing" at the end of "take"?

Student : I did not understand more about the structure of this sentence. I think it is prefer if I use take for this sentence.

Researcher : the next, why did you omit "ed" at the end of "stay"?

Student : ohh yeah. This was my mistake. "stay" should be puy "ed"

Researcher : the next, why did you put "es" at the end of "go"?

Student : I think "goes" is better than "go"

Researcher : the last, why did you put "es" at the end of "go" also, in the last line.

Student : I made mistake. It should only "go" because after modal can should bare infinitive.

Student 13

Researcher   : Have you read your writing? Please re-check again

Student   : yes. I have.

Researcher   : Well, I found some mistakes in your writing. The first, why did you omit "s" at the end of "destination"?

Student   : the first, I did not know then, actually I use "destination" without "s" because I always use the word. If I put many, I do not put "s" at the end of word.

Researcher   : the next, why did you omit 's" at the end of "kind"?

Student   : it is same with the first answer. I did not know.

Researcher   : the next, why did you put "ing" at the end of "use"?

Student   : if I say "menggunakan" I use to say "using". So it is because of my habit.

Researcher   : Why can you make an error? Are you uninterested with grammar or did not focus when you studied about grammar?

Student   : I am uninterested and dislike it. It makes me crazy

Researcher   : When you write an essay, did you directly write English or Indonesia first?

Student   : based on the sentence. If the sentence is easy I directly write English

Researcher   : Do you translate English sentence based on Indonesia structure?

Student   : yes, based on my first language.

Student 18

Researcher : Have you read your writing? Please re-check again

Student : yes. I have.

Researcher : Well, I found some mistakes in your writing. The first, why did you omit "s" at the end of "thing"?

Student : because I did not know the grammar of this sentence well.

Researcher : the next in the first line, why did you omit "ed" at the end of "visit"?

Student : when I wrote this essay, I directly wrote what I want to say, so I did not to concern the grammar. But actually "visit" should be put "ed" because this essay told about past.

Researcher : the next, why did you omit "ed" at the end of "start" in the second and the fifth line?

Student : same with the first answer. Should be put "ed" because of past.

Researcher : the next, in the fourteenth line, why did you omit "ed" the end of "serve"

Student : same answer again, it should be put "ed"

Researcher : the last, why did you put "s" at the end of "place"?

Student : I though the spelling of the word is correct.

Student 24

Researcher   : Have you read your writing? Please re-check again

Student   : yes. I have.

Researcher   : Well, I found some mistakes in your writing. The first is in the second line, why did you put "s" at the end of "place"?

Student   : actually, I did not know the grammar of this sentence.

Researcher   : the next, why did you omit "s" at the end of "culture"?

Student   : I did not focus. I should be put "s".

Researcher   : why can you make an error? Are you uninterested with grammar or did not focus when you studied about grammar?

Student   : I am uninterested in grammar

Researcher   : When you write an essay, did you directly write English or Indonesia first?

Student   : based on the sentence. If the sentence is hard, I use Indonesia first and then translate in to English

Researcher   : Do you translate English sentence based on Indonesia structure?

Student   : Yes. I translate word by word based on my first language.

Student 6

Researcher : Have you read your writing? Please re-check again

Student : yes. I have read it many times.

Researcher : Well, I want to ask you some questions. The first is in the second language, why did you omit "s" at the end of "destination"?

Student : destination. Ohh yeah. It should be put 's" because plural.

Researcher : the next, for the second question is why did you omit "s" at the end of "student"?

Student : same answer.

Researcher : the next, why did you omit "ed" at the end of "visit"?

Student : I forgot that the essay which I wrote was a past.

Researcher : the next, why did you put "ing" at the end of "travel"?

Student : I though, traveling is better than travel.

Researcher : the next, why did you omit "ing" at the end of "walk"?

Student : because I just know this one. I did not know the structure of this sentence.

Researcher : the next, why did you put "ing" at the end of "go"?

Student : I tough that this was the correct sentence.

Researcher : the last question, why did you omit "er" at the end of "cheap" and "smooth"?

Students : "cheap" and "smooth" should be put "er" because tell about comparison.

Student 26

Researcher	: because you have read your writing, so I will ask you some questions. The first is in first line why did you omit "s" at the end of "destination"?
Student	: I forgot and because of my habit.
Researcher	: the next is the third and sixth line, why did you put "ed" at the end of "visit" after can?
Student	: because the story told about past.
Researcher	: in same line. The sixth line, why did you omit "s" at the end of "place"?
Student	:I still confuse about this structure. It still makes me doubt. Amd also sometimes I forget.
Researcher	: Ohh you are doubt. The next in the thirteenth line "tasted" and "enjoyed" the the fifteenth, eighteenth, and twentieth line all of those you put "ed" which should not be put. Well the next, why can you make an error? Are you uninterested with grammar or did not focus when you studied about grammar?
Student	: I am uninterested and unfocused when I wrote.
Researcher	: When you write an essay, did you directly write English or Indonesia first?
Student	: Directly English
Researcher	: Do you translate English sentence based on Indonesia structure?
Student	: Yes, based on my first language.

Student 4

Researcher   : have you read your writing?

Student   : yes, I have.

Researcher   : Well, I found some mistakes in your writing. The first is the fifth line, why did   you omit "s" at the end of "culture"?

Student   : because I think culture is uncountable noun, so it did not need to put "s" at the end of the word and also the word "many" can give mark as a plural noun.

Researrcher   : the next, with the same question, why did you omit 's" at the end of "country"

Student   : yeah. It is the same case with the first.

Researcher   : the next why did you put "ing" at the end of 'refresh"

Student   : this is about my habit, because in speaking I sue to say "refreshing"

Researcher   : why can you make an error? Are you uninterested with grammar or did not focus when you studied about grammar?

Student   : there are some uninterested subjects and when i unfocused

Researcher   : When you write an essay, did you directly write English or Indonesia first?

Student   : sometimes directly English sometimes Indonesia first.

Researcher   : Do you translate English sentence based on Indonesia structure?

Student   : yes, based on my first language.

Student 07

Peneliti : Bagaimana dek, sudah di baca tulisannya?

Mahasiswa : Sudah kak.

Peneliti : Jadi di sini, dari beberapa, apa, yang terdapat di tulisan anda, ada beberapa kesalahan yang saya., bukan sih kesalahan tapi kurang tepat. Di sini yang pertama yaitu mengapa anda menghilangkan "s" pada kata "culture" nya pada line ke 3?

Mahasiswa : Eeee. Apa dih kak dih, sebenarnya menurut ku kalau ada mi, many culture iyya kesalahan sih juga sih sebenarnya di sini. Anu tidak ada "s" karena menurutku tidak tau juga kak karena dalam pikiran ku itu culture ji tidak pake "s" mungkin kesalahan juga.

Peneliti : Ohh jadi menurut ta ini culture sudah benar, begitu?

Mahasiswa : Iyye. Kan di sini yang saya explain hanya satu ji kak

Peneliti : Hmmm satu ji culture kita explain. Tapi di sini kita menggunakan kata many. Jadi menurut ta di situ tetap tidak pakai "s" atau pakai "s"?

Mahasiswa : Kalau menurut ku sih harus ku hilangkan many nya sih sebenarnya kak

Peneliti : Ohh jadi harus di hilangkan many nya terus tambah "s".begini menurut ta di sini kalau pakai many sudah tidak pakai "s", begitu?

Mahasiswa : Ohh iyya. Salah juga, kesalahan juga kalau pakai many harus pakai "s" juga di sini tapi yang ku tulisi situ tidak pakai "s".

Peneliti : Jadi di sini menurut ta harus tambah "s"

Mahasiswa : Iyya kak. tambah "s"

Peneliti : Oke. Terus yang ke dua di situ, mengapa anda menambahkan "s" pada kata visit, eh sorry pada kata place. Iyya mengapa anda menambahkan "s" pada kata placenya.

Mahasiswa : Sebenarnya kak. apa dih, places. Menurut ku yang mau ku jelaskan tempat-tempat

Peneliti : ohh yang mau anda jelaskan tempat-tempat. Jadi menurut ta ini sudah betul?

Mahasiswa	: Iyya kalau penjelasan lebih dari satu tempat, jadi menurut ku iyya betul mi.
Peneliti	: Kemudian, di sini yang anda jelaskan cuman satu tempat dek jadi menurut ta di sini pembenarannya apa?
Mahasiswa	: Place, tidak pakai "s"
Peneliti	: Terus, selanjutnya mengapa anda menghilangkan "ed" pada kata visit di line pertama. Yang ini. Kan sudah kita perbaharui toh. Kenapa kita ganti ini jadi visit.
Mahasiswa	: Kesalahan ini kak. sebenarnya toh waktu ku koreksi ini minta bantuan ka sama teman ku.
Peneliti	: Begini toh dek, itu mi dulu saya kasi ki kembali supaya untuk kita koreksi sendiri. Jadi di sini menurut ta visit atau visited?
Mahasiswa	: Kalau saya "visited" ji kak.
Peneliti pada	: Ok ok. Terus selanjutnya mengapa anda menambahkan "ing" kata "wear" nya pada line ke lima.
Mahasiswa	: Ohh yang ini can wearing. Kenapa wearing karena memakai itu wearing.
Peneliti	: Ohh jadi menurut ta ini betul mi.
Mahasiswa	: Kalau saya kak betul mi

Student 21

Peneliti : Kita baca mi dulu kembali tulisan ta dek.

Mahasiswa : Sudah mi kak.

Peneliti : Di sini.. ada di sini beberapa tulisan ta yang kurang tepat dek, pada line ke 6 yaitu "Australia has some language in England", mengapa anda tidak meletakkan "s" pada kata "language" nya?

Mahasiswa : Karena some termasuk jamak kalau di tambahkan "s" lagi artinya beberapa bahasa-bahasa.

Peneliti : Oh jadi menurut ta "some" artinya sudah banyak jadi tidak perlu mi lagi tambah "s"

Mahasiswa : iyya kak.

Peneliti : Ohhh. Terus, yang ke dua di sini pada kata "season", mengapa anda menghilangkan "s" pada kata "season" nya?

Mahasiswa : Saya lupa.

Peneliti : Ohh di lupa. Iyya iyya. Besar-besar sedikit suara ta dek.

Ini juga pada "two season" tidak kita tambah juga "s" toh?

Mahasiswa : Iyya. Lupa.

Peneliti : Kemudian kata "answer" di line ke 12. Mengapa anda mengilangkan "ed" pada kata "answer" nya?

Mahasiswa : di lupa juga.

Peneliti : Dilupa?

Mahasiswa : Iyya..has been answered karena telah di jawab artinya passive.

Peneliti : Ohh iyya iyya. Tapi tadi di sini some language memang tidak kita simpankan "s" karena kita bilang "some' itu sudah menunjukkan "banyak" jadi tidak perlu tambah "s"

Mahasiswa : Iyya.

Peneliti : Selanjutnya, mengapa anda bisa melakukan kesalahan? Apakah anda memang tidak tertarik dengan grammar atau kurang focus pada saat mengikuti pelajaran grammar?

Mahasiswa : tidak tertarik dan kurang focus kak.

Peneliti : pada saat menulis sebuah essay atau paragraph, apakah anda menulis dengan menggunakan bahasa inggris langsung atau bahasa Indonesia terlebih dahulu?

Mahasiswa : langsung menggunakan bahasa inggris.

Peneliti : apakah anda menerjemahkan kalimat bahasa inggris beradasarkan susunan bahasa pertama anda?

Mahasiswa : terkadang

Student 14

Peneliti : Bagaimana, sudah mi kita baca tulisan ta?

Mahasiswa : Iyye.

Peneliti : Baik. Di sini dari tulisan ta ada beberapa yang kurang tepat. Misalnya di line ke 2 pada kata "artist" mengapa anda menghilangkan "s" pada kata "artist" nya?

Mahasiswa : Di situ memang kak tidak terlalu kuperhatikan kalau penambahan begituannya `karena tidak terlalu ku pedulikan yang begituannya kak. tidak terlalu ku perhatikan ji juga. Kalau soal penambahan "s" nya tidak terlalu ku perhatikan.

Peneliti : Ohh iyya dek. selanjutnya yang ke dua itu di line ke 6. Sama ji iyya kasusnya dek kekurangan "s" ki pada kata "culture" nya

Mahasiswa : Ohh iyye. Sama ji juga di situkan kurang ku perhatikan di situ sama kurang focus.

Peneliti : Kemudian yang ke tiga itu pada kata "kind" nya pada line ke 7 sama kata "country"

Mahasiswa : kurang focus juga di situ kak sama kurang ku perhatikan.

Peneliti : Memang kita tau ji penggunaan 'many' sama "other"?

Mahasiswa : iyya kak saya tau ji.

Peneliti : Tapi kenapa bisa melakukan ki kesalahan di sini dek?

Mahasiswa : itu mi kak karena kurang ku perhatikani soal penambahan 's", sama juga terburu-buru.

Peneliti : Selanjutnya, mengapa anda bisa melakukan kesalahan? Apakah anda memang tidak tertarik dengan grammar atau kurang focus pada saat mengikuti pelajaran grammar?

Mahasiswa : tertarik sih kak, tapi kalau mengantuk ka tidak saya perhatikan mi pelajarannya.

Peneliti : oh tergantung situasi dalam kelasnya, tapi kalau misalnya belajar ki grammar apakah ada hal-hal yang membuat kamu bosan? Apakah hal tersebut pernah terjadi sama kita?

Mahasiswa : biasa kak, kalau misalnya pelajarannya itu itu terus ji yang ne ulang

Peneliti : bagaimana dengan materinya tentang to be atau tenses, tertarik ji sama materi itu?

Mahasiswa : tertarik ji kak. situasinya ji biasa yang bikin ka bosan.

Peneliti : situasi yang bagaimana maksud ta?

Mahasiswa : biasa kak karena dosennya yang terlalu serius mengajar.

Peneliti : selanjutnya, pada saat anda menulis sebuah essay atau paragraph, apakah anda langsung menggunakan bahasa inggris atau bahasa Indonesia terlebih dahulu?

Mahasiswa : kalau mudah biasanya langsung bahasa inggris tapi kalau susah menggunakan bahasa Indonesia terlebih dahulu.

Peneliti : apakah anda menerjemahkan kalimat berdasarkan susunan bahasa pertama anda?

Mahasiswa : iyya, berdasarkan susunan bahasa pertama.

Student 1

Peneliti	: Ee sudah di baca mi tulisan ta dek? eeee di sini toh ada juga beberapa kesalahan yang saya dapat yaitu pada line ke 4, mengapa anda menghilangkan "ing" pada kata "for take" nya? Eeee mana…mana….mana..
Mahasiswa	: Yang mana kak? yang ini
Peneliti	: Bukan bukan. Empat empat. Satu dua tiga empat.. ini..ini.. "for take"
Mahasiswa	: Yang mana? Eee kata "ing" kak?
Peneliti	: Iyya. Mengapa anda menghilangkan "ing" pada kata "take" nya?
Mahasiswa	: Karena yang menurut ku toh kak "take" di sinikan bertemu dengan eeee apa…to be lebih anu ki kak..
Peneliti	: To be??? Yang mana kita maksud tobe di situ dek? saya ulangi nah. Mengapa anda meletakkan, eh menghilangkan "ing" pada kata "take" nya? Yang mana kita maksud tobe?
Mahasiswa	: Menurut ku kak lebih anu ki kalau "take" di pakai dari pada "taking"
Peneliti	: Ohh itu menurut ta?
Mahasiswa	: Iyye kak.
Peneliti	: Eeee tapi di tau, eee maksudnya di tahu atau tidak grammarnya?
Mahasiswa	: Kurang paham kak.
Peneliti	: Kurang paham. Hmm. Terus selanjutnya pada line ke 6 mengapa anda menghilangkan "ed" pada kata "stay" nya? Yang tadi itu.
Mahasiswa	: Ohh yang ini?
Peneliti	: Iyya
Mahasiswa	: Ohh iyya kak. pada dasarnya stayed d situ kak.
Peneliti	: Ohh iyya. Kemudian selanjutnya mengapa anda menambahkan "es" pada kata "go" nya pada line 10?
Mahasiswa	: Iyya ini kak?

Peneliti	: Iyya.
Mahasiswa	: "goes to", karena pemakaian "goes" itu lebih eeee apa dih, sepemahaman ku kak lebih bagus ki kalau goes di pakai dari pada go. I goes to lebih apa dihh..eeee
Peneliti	: Tidak apa-apa ji dek, kasi keluar mi..lebih.. maksud nya lebih bagus ki penggunaanya goes datri pada go?
Mahasiswa	: Iyya itu kak. sepemahan ku
Peneliti	: Kemudian selanjutnya, eeee.. tidak tahu line keberapa ini? ohh ini.e di line terakhir. Mengapa anda menambahkan "es" pada kata "go" juga "I hope I can goes to Bulukumba with you" yang terakhir.
Mahasiswa	: Kalau di sini sebenarnya "go" ji kak karena can tidak anu ji. Harus bertemu dengan verb I.
Peneliti	: Hmm iyya. Terus.. iyya itu ji dek. ok ok. Thank you dih dek. thank you. eh jangan dulu masih ada satu pale. Ini, mengapa anda menggunakan kata "performance"
Mahasiswa	: Yang ini kak? karena sebenarnya kak yang kuingat bahasa inggrisnya yang ini ji. "performance" jadi langsung ji ini saya tulis.
Peneliti	: Jadi menurut ta betul atau salah?
Mahasiswa	:Mungkin, kalau menurutku iyya kak, benar mi

Student 13

Peneliti : Sudah mi di baca tulisan ta toh?

Mahasiswa : Iyya sudah tadi.

Peneliti : Kemudian di sini ada beberapa tulisan ta yang kurang tepat pada baris ke dua, di situ ada kata culture, mengapa anda menghilangkan "s" pada kata, ehh salah dek. bukan culture tapi destination. Mengapa anda menghilangkan "s" pada kata "destination" nya?

Mahasiswa : Karena yang pertama itu saya tidak tau, yang ke dua itu kebiasaan. Kalau ada "many" sudah tidak saya letakkan "s" nya lagi karena sudah terbiasa.

Peneliti : Ohh terbiasa. Kemudian yang ke dua itu pada kata "kind" nya, mengapa anda tidak meletakkan "s" pada kata "kind"?

Mahasiswa : sama juga ini dengan yang pertama kak tidak saya tahu.

Peneliti : Kemudian selanjutnya di situ ada kata "using" di line 9. Mengapa anda menggunakan kata "using" pada tersebut. Mengapa anda menambahkan "ing" pada kata "use" nya?

Mahasiswa : Ehhh seperti tadi kak. kebiasaan. Kalau bilang ka menggunakan pasti bahasa inggris yang saya pakai itu adalah "using"

Peneliti : Ohh jai factor kebiasaan juga? Ohhh..kemudian mengapa anda bisa melakukan kesalahan? Apakah anda memang tidak tertarik dengan grammar atau kurang focus pada saat mengikuti pelajaran grammar?

Mahasiswa : tidak tertarik kak. tidak ku suka kak. ne kasi gila ka.

Peneliti : hehehe, selanjutnya pada saat anda menulis sebuah essay apakah anda langsung menerjemahkan ke dalam bahasa inggris atau menggunakan bahasa Indonesia terlebih dahulu?

Mahasiswa : tergantung juga kak kalau pendek langsung ke bahasa inggris kalau kalimatnya panjang bahasa Indonesia dulu.

Peneliti : pertanyaan terakhir, apakah anda menerjemahkan kalimat bahasa inggris berdasarkan susunan bahasa pertama anda?

Mahasiswa : iyya berdasarkan bahasa pertama.

Student 18.

Peneliti   : Bagaimana sudah di baca tulisannya dek?

Mahasiswa   : Iyya kak.

Peneliti   : Baik. Di sini di dalam tulisan anda, ada beberapa kalimat yang kurang tepat yang saya temukan. Pertama yaitu, pada line ke 13. Mengapa anda menghilangkan "s" pada kata "thing" nya?

Mahasiswa   : Mengapa saya menghilankan "s" karena saya kurang tahu.

Peneliti   : Kemudian di sini, selanjutnya pada line pertama, mengapa anda menghilangkan 'ed" pada kata "visit" nya?

Mahasiswa   : Waktu saya menulis pengalaman ini, yang di pikiran saya, saya langsung saja menulisnya

Peneliti   : Di sini menurut anda, apakah "visit" sudah benar atau salah?

Mahasiswa   : Salah. Seharusnya menambahkan "ed" karena past.

Peneliti   : kemudian selanjutnya di sini, mengapa anda menghilangkan 'ed" pada kata " start' nya line ke 2 dan 5?

Mahasiswa   : Sama dengan alas an yang pertama, yang "visit"

Peneliti   : Ohhh. Jadi di situ kita tahu ji sebenarnya pembenarannya?

Mahasiswa   : Tahu, karena lampau jadi harus menggunakan past.

Peneliti   : selanjutnya pada line ke 14, mengapa anda menghilangkan "ed" pada kata "serve" nya?

Mahasiswa   : Masih dengan jawaban yang sama.

Peneliti   : jadi anda juga berpikir kalau itu lampau? Tidak ada alasan yang lain?

Mahasiswa: Iyya kak. lampau.

Peneliti   : Kemudian, selanjutnya itu, mengapa anda menambahkan "s" pada kata "place" nya? Pada line pertama?

Mahasiswa   : Saya berpikir tempat itu harus di tambahkan "s"

Peneliti   : Ohh kita pikir tempat penulisannya harus menggunakan "s?

Student 24

Peneliti   : Sudah kita baca tulisan ta?

Mahasiswa   : Iyya kak.

Peneliti   : Di sini ada beberapa kesalahan yang terdapat di tulisan anda yaitu
                pada line ke 2 pada kata "places", mengapa anda menambahkan
                "s" pada kata "place" nya?

Mahasiswa   : karena sotta sotta ji ini kak,

Peneliti   : Karena sotta sotta dek?

Mahasiswa   : Iyye kak. karena tidak ku tahu ki memang kak.

Peneliti   : Kemudian pada line ke 2 lagi, mengapa anda ,menghilangkan "s"
                pada kata "culture" nya?

Mahasiswa   : Kurang focus kak. seharusnya tambah "s" karena banyak.

Peneliti   : mengapa anda bisa melakukan kesalahan? Apakah
                anda memang tidak tertarik dengan grammar atau kurang focus
                pada saat mengikuti pelajaran grammar?

Mahasiswa   : tidak tertarik ka memang kak sama grammar.

Peneliti   : hehehe. Pada saat anda menulis sebuah kalimat, apakah anda
                langsung menggunakan bahasa inggris atau menggunakan bahasa
                Indonesia terlebih dahulu?

Mahasiswa   : tergantung sih kak kalau yang gampang-gampang langsung ji
                bahasa inggris. Tapi kalau susah saya translate bahasa Indonesia ke
                bahasa inggris.

Peneliti   : apakah anda menerjemahkan kalimat bahasa inggris berdasarkan
                susuan bahasa pertama anda?

Mahasiswa   : iyye. saya terjemahkan kata per kata berdasarkan bahasa pertama.

Student 6

Peneliti : Sudah mi kit abaca tulisan ta dek?

Mahasiswa : Sudah mi kak. berkali-kali mi.

Peneliti : Baik. Di sini yang mau saya tanyakan itu pada line ke 13, ehh salah salah. Pada line ke 2

Mahasiswa : Satu, dua, hahhaha jauh na 13 ke 2.

Peneliti : Hahaha salah ka dek. punyanya tati ni'ma itu. Di sini pada line ke 2 mengapa anda menghilangkan "s" pada kata "destination"?

Mahasiswa : Destination. Ohh iyya dih. Harusnya pakai "s" karena banyak di sini bukan satu ji destinasinya.

Peneliti : Kemudian yang kedua, dengan pertanyaan yang sama, mengapa anda menghilangkan "s" pada kata "student" nya

Mahasiswa : Sama kak.

Peneliti : Kemudian yang ke tiga mengapa anda menghilangkan "ed" pada kata "visit"

Mahasiswa : Saya jawab kah?

Peneliti : Iyya. Kenapa anda menghilangkan "ed" pada kata "visit" nya?

Mahasiswa : Sorry kak. sorry sorry. Saya lupa kak kalau ternyata waktu lampau itu. Tidak saya perhatikani kak.

Peneliti : Ohh jadi tidak diperhatikan. Jadi di situ menurut ta di tambah "ed"?

Mahasiswa : Iyya karena past.

Peneliti : Selanjutnya pada kata "travel". Mengapa anda menambahkan "ing" pada kata "travel"

Mahasiswa : Travel. Traveling itu berkeliling toh. Kalau menurut ku itu ji saya iyya. Seingat-ingat ku ji kak. secocok-cocoknya

Peneliti : Ohh iyya. Jadi menurut anda itu sudah benar? Tetap ki pada kata traveling?

Mahasiswa : Iyya.

Peneliti	: Selanjutnya pada kata "walk" di line 14, mengapa anda menghilangkan "ing" pada kata "walk" nya?
Mahasiswa	: Karena itu ji saya tahu kak.
Peneliti	: Ohhh itu mi ita tahu. Tidak kita tahu untuk pembenarannya? Pada dasarnya yang itu ji kalimatnya yang kita tahu?
Mahasiswa	: Iyya kak.
Peneliti	: Selanjutnya kata "go" pada line 10. Mengapa anda menambahkan "ing" pada kata "go" nya?
Mahasiswa	: When you going. Kalau menurut ku betul mi kalimatnya itu kak.
Peneliti	: Selanjutnya mengapa anda menghilangkan "er" pada kata "cheap" and "smooth"?
Mahasiswa	: Cheaper and smoother. kulupai kak kalau kalimat perbandingan.

Student 26

Peneliti : Kan sudah mi tadi kit baca tulisan ta. Kemudian di sini ada beberapa tulisan ta yang kurang tepat. Di sini yang saya teliti itu tentang inflection dan derivation. di sini pada line pertama anda menghilangkan "s" pada kata "destination". Mengapa anda menghilangkan "s" pada kata "destination" nya.

Mahasiswa : Lupa dan kebiasaan

Peneliti : Kemudian juga di sini pada line ke 3 sama line ke 6 pada kata "visit" dengan menambahkan "ed" setelah "can". Mengapa anda menambahkan "ed" pada kata tersebut?

Mahasiswa : Karena past.

Peneliti : Ohh karena past jadi anda menambahkan "ed". Kemudian di line ke 6 pada kata "place". Mengapa anda menghilangkan "s" pada kata "place" nya?

Mahasiswa : Kayak tadi kak. biasa ku lupa dan ragu-ragu ka.

Peneliti : Ohh ragu ki. Kemudian pada line 13 pada kata "tasted", "enjoyed" pada line ke 15, 18 dan 22 semua anda tambahkan "ed" yang seharusnya tidak perlu di tambahkan.

Mahasiswa : Ohh iyye kak.

Peneliti : mengapa anda bisa melakukan kesalahan? Apakah anda memang tidak tertarik dengan grammar atau kurang focus pada saat mengikuti pelajaran grammar?

Mahasiswa : tidak tertarik dan kurang focus kak.

Peneliti : selanjutnya, pada saat anda menulis kalimat apakah anda langsung menggunakan bahasa inggris atau menggunakan bahasa Indonesia terlebih dahulu?

Mahasiswa : langsung ji bahasa inggris kak.

Peneliti : oh langsung bahasa inggris, jadi pada saat anda menulis apakah anda menulis brdasarkan bahasa pertama anda?

Mahasiswa : iyya kak.

Student 4.

Peneliti : Kita baca mi dulu tulisan ta dek. Sudah mi?

Mahasiswa : Iyya kak. sudah

Peneliti : Di sini ada beberapa tulisan ta yang kurang tepat. Di sini pada line ke lima, di situ ada kata "culture". Mengapa anda tidak meletakkan 's" pada kata tersebut?

Mahasiswa : Karena menurut yang saya tahu toh kak ada kata benda yang bisa di hitung ada kata benda yang tidak bisa di hitung. Yang bisa di hitung itu bisa di tambahkan "s" yang tidak bisa di hitung tidak di tambahkan mi "s" menurut saya bisa mi di jelaskan dari kata "many" kak.

Peneliti : Ohh jadi anda pikir "culture" itu kata benda yang tidak bisa di hitung jadi tidak kita tambahkan 's"?

Mahasiswa : Iyya kak.

Peneliti : Kemudian di sini juga pada kata "country" pada line ke 7

Mahasiswa : Mungkin sama ji kasusnya dengan yang pertama.

Peneliti : Iyya sama ji kasusnya. Jadi jawabanta sama ji dengan yang pertama?

Mahasiswa : Iyya kak.

Peneliti : Ohh iyya dek. kemudian di line ke 12 ada kata "refreshing"

Mahasiswa : Kalau refreshing itu kak factor kebiasaan karena di speaking biasanya menyebutkan refreshing.

Peneliti : Ohh kalau di speaking biasa menyebutkan refreshing. Selanjutnhya, mengapa anda bisa melakukan kesalahan? Apakah anda memang tidak tertarik dengan grammar atau kurang focus pada saat mengikuti pelajaran grammar?

Mahasiswa : ada beberapa materi yang tidak menarik kak dan kadang juga tidak focus

Peneliti : selanjutnya, pada saat anda menulis sebuah essay apakah anda langsung menulis dengan menggunakan bahasa inggris atau menggunakan bahasa Indonesia terlebih dahulu?

Mahasiswa   : biasa langsung biasa juga tidak kak

Peneliti   : pada saat anda menulis sebuah kalimat bahasa inggris, apakah anda menulis berdasarkan susunan bahasa pertama anda?

Mahasiswa   : iyya kak berdasarkan susunan bahasa pertama.

Class: AG.5

Semester: VI

Please write down an essay paragraphs (150 words) by choosing one of topics below!

a. Destinations (tourism places) which will be visited

b. The memorable destination (tourism place) which have been visited

Jogjakarta.

When I visited Jogja in 2013, that I knew Jogja is famous City Called by Student City. There so ~~much~~ many destination we can Visit like Borobudur temple, South beach, etc. The things, foods are cheap than in Makassar. Perhaps ~~because~~ because ~~so~~ too many ~~the much~~ student ~~so~~ there ~~the cost~~ then they give cheap cost, for every-thing. I like the traditional cake "Pia Patok" the taste is not too sweet, It's very different with another Pia that I ever tasted. Pia Patok have a smooth texture than Pia Gorontalo or Pia that usually sell in the market. you have to try the cake when you going to Jogjakarta. Actually, My purpose not only at the time also for holiday, ~~but~~ visit My Sister which Study ~~an~~ at Muhammadiyah University of Jogjakarta to present her graduation. She is a law student in her university. Just for the ~~you~~ information I ~~like most~~ like eating more than ~~just~~ ~~to~~ a walk to some places just for Shopping. don't miss to try traditional Cakes of foods when you traveling to another City or country.

Please write down an essay paragraphs (150 words) by choosing one of topics below!

a. Destinations (tourism places) which will be visited

b. The memorable destination (tourism place) which have been visited

I will visit Paris and I'am so curious about Paris, because when I see in the TV so many artist from indonesia visit ther. And many people said Paris is oreot of the romantic places that have been visited by them. But I don't interest about the romantic place like the people do. I wish visit there because I will see know how many culture in Paris, because thera many kind of people ther from other country that has different culture and how they do the communication. And I want to know how cool the snow of Paris.

BIOGRAPHY

Andi Ika Sukarni was born in Bone, South Sulawesi, on April 29th 1995. She is the first child of Sultan Amin and Andi Kartini. She has only one sister. She began her school at Elementary School in SDN 10/73 Tanete graduated in 2007. In the same year, she continued her study to Junior High School in SMP 2 Cina and graduated in 2010. Then, she continued her study to Senior High School SMAN 2 Watampone and graduated in 2013. After finishing her study in Senior High School she enrolled at the University in Islamic State University Makassar in 2013 and took English and Literature Department of Adab and Humanities Faculty.
