ACKNOWLEDGMENT

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Alhamdulillahirobbil ‘alamin, all praises and thanks are just for Allah Subhanahu wa Ta’ala, the Almighty God and the Lord of the universe, only for His mercy and guidance I can finish my thesis. Accomplishing this thesis is like wondering in along and winding road, without any assistance and contribution from many individuals and institutions, there will be an endless road to walk.

Therefore in this priceless occasion, I would like to utter my sincere gratitude to my beloved father, Muhammad thank you for reminding me about my thesis. Thanks for your trust. My lovely mother Bahra, you are the greatest woman that I ever had. Thank you for being patient with me. I’m so proud to have father and mother like both of you.

The writer would like to express her thank to the Rector of UIN Alauddin Makassar Prof. Dr.Musafi, M.si., The Dean of Faculty of Adab and Humanities Dr. H. Barsihannor. M.Ag., The Head of English and Literature Department, Muh. Nur Akbar Rasyid, M.Pd., M.Ed., Ph.D for supporting the fulfillment of this thesis.

The writer’s deep gratitude due to her thesis supervisors, Dr. H. Barsihannor, M.Ag and Nasrum S.Pd., M.A. for their enduring supports, patience, wise suggestions, and correction till this thesis can be finished.

Many thanks for all lecturers of English and Literature Department, for sharing their priceless knowledge and precious experience.

I would like to express many thanks to my brothers and sisters, Muhbar S.Pd, Muhlisa S.Pd, and Muhdira for giving me love, care and support. Keep our relationship forever, I love you!!!

Thanks to my everlasting friends, Desi Ratna Sari, Maryuni, Siti Nihayah, Samasuddin, Irmawati, Kak Mifta. And my classmate Ag 5 and Ag6. Our togetherness during this decade is a great moment in my life. We have our enjoyable moments and thanks for helping and giving comments and suggestions every time when I shared my joy and pain. without your help I may not able to complete this research. And the last but not least, for everybody who always helps me, but I cannot mention one by one since the limitation of the space. Thank you very much.

In the end, I truly realize that some imperfectness might occur in this thesis. Thus, I looking forward to any supporting advices and critics.

ABSTRACT

Name : Muawana
Reg. Number : 40300111072
Title : De Clërembault's syndrome that reflected in major character in Steve Shill's movie "Obsessed"
Consultant I : Dr. H. Barsihannor, M.Ag
Consultant II : Nasrum, S.Pd., M.A

This thesis studied about The analysis of De Clerembault syndrome that reflected in major character in Steve Sill's movie "Obsessed". This thesis aims to analyze Ego Defense Mechanism and the symptoms of De Clerembault Syndrome

The writer used psychological approach to find out the Ego Defense Mechanism and symptoms of De Clerembault Syndrome. The source of the data from Steve Shill's movie "Obsessed". The writer used note taking in collecting data source as her instrument.

The result of this research is the writer found out four symptoms and four Ego Defense Mechanism of De Clerembault Syndrome in Steve Shill's Movie "Obsessed". The Symptoms are Delucion and hallucination, Harrasing behaviour, Stalking and lie. And the writer also found 4 Ego Defense Mechanism namely Displacement, Regression, Rationalization and Projection.

CHAPTER I

This chapter consists of five subchapters, those are background, research questions, objective of the research, significance of the research and scope of the research.

A. Background of the Research

Literature is one of the works of art in which the author expresses his feeling. It also expresses the truth of human beings. Literature as a form of art is regarded as a form of imitation. This defines literature in relation to life. As a way of reproducing or recreating the experience of life in words (Danzinger and Johnson, 2010:76). Literary works consist of poetry, novel, short story, drama and movie.

As one of literary works, movie brings many information or lessons for the viewers. It is also as representative of human's life. According to Geuens (2000:12) Movies, also known as films, are a type of visual communication which use moving pictures and sound to tell stories or information

Movie is a medium to convey information for people, such as: moral values, lesson, etique, emotion even about pysicsology of character. Psychology in literary work is the study of literature that sees the work as a mental activity.

Davidoff in Irmawati (2015:2) explains that psychology is the science of behavior. While behavior itself as human activity that can be objectively observed or measured. The definition of behavior includes thoughts, feelings, dreaming and anything what people experiences.

There are three ways that can be done to understand the relationship between psychology and literature: First, understanding the psychological elements of the author as a researcher. Second, understanding the psychological elements of fictional characters in literary work. Third, understanding the psychological elements of the reader. In this research, the writer is interested in analyzing the psychological elements of fictional characters in the movie.

In psychology, there are million terms of mental disorders, one of psychological disorder is de clërembault's syndrome. It was taken from French psychiatriis Gaëtan Gatian De clërembault (1872 – 1934) de clërembault's syndrome or erotomania is a type of delusion in which the affected person believes that another person, usually stranger, high status or famous person is in love with him or her. People who suffer this syndrom will do anything to get whom he or she loves, even she/he will hurt or kill people who prevent him/her to get their ambitions. Erotomania is ambition, obsessed and madly in love towards famous person or has high status. Sufferer belives that the famous one love her/him too.

In islam tenet, allah clearly ban us to be exagrate towards anything. It has been explained in holy Quran surah Al – Maaidah verse 77.

قُلْ يَا أَهْلَ الْكِتَابِ لَا تَغْلُوا فِي دِينِكُمْ غَيْرَ الْحَقِّ وَلَا تَتَّبِعُوا أَهْوَاءَ قَوْمٍ قَدْ ضَلُّوا مِنْ قَبْلُ وَأَصْلُوا كَثِيرًا

وَضَلُّوا عَنْ سَوَاءِ السَّبِيلِ

Al Maaida ayat 77

Meaning : Say (oh Muhammad Sallallahu alaihi wassalam: o people of the scripture (jews and christians) excess not the limits in your religion (by believing in something) other than the truth, and do not follow the vain desires of people who went astray in times gone by, and who misled many and strayed (themselves) from the right path.

The verse of holy Qur'an above explains about forbidding to waste not by extravagance. Love properly, hate properly. The sufferer of erotomania or de clērembault syndrome in movie "Obsessed" shows that she loves her boss so much despite her boss does not. She does everything to get her boss affection and attention. Start from killing, stalking, and hurting people around her boss. Her personality structure unbalance so it makes her hurting people who prevents to get her ambition.

B. Problem Statements

Based on the background above, the writer made clear about the problem of de clerembault syndrom in the movie. The writer formulated research questions as follows:

1. What are the symptoms of de' clerembault syndrome that suffered by main character in Steve Shill's movie "obsessed"?
2. How does the sufferer conduct of ego defence mechanism of de' clerembault syndrome in Steve Shill's movie "Obsessed"?

C. Objective of the Research

Relating to the problem statements above, the writer decided some objectives of the research as follow:

1. To figure out the symptoms of de' clerembault syndrom that suffered by main character in Steve Shill's movie "obsessed".
2. To describe the sufferer conduct of ego defence mechanism of de' clerembault syndrome in Steve Shill's movie "Obsessed".

D. Significance of the Research

Theoretically, the result of the study hopefully can give contribution in increasing insight and knowledge about literature particularly about psychology

Practically, the writer hopes this research can be source for other writers who want to talk about psychoanalysis particularly about de clerembault syndrome in a movie or other literary works. And additional refference for studying literature.

E. Scope of the Research

This study only focused on de clerembault syndrome of the character in Steven Shilla's movie "Obsessed" as object of the research. The writer applied Sigmun Freud's theory to describe the ego defence mechanisms of sufferer of de clërembault's syndrom in Steve Shill's movie "Obsessed". And the writer also applied another theory namely Lisa Bertolotti's theory to figure out the symptoms of de clërembault's syndrome that reflected in major character in Steve Shill's movie "Obsessed".

CHAPTER II

REVIEW OF RELATED LITERATURE

This chapter presents some findings which have relation to this research

A. Previous Findings

There are some previous findings that related to this research, but they have different objects that will be discussed in this research.

Soraya (2014) in her thesis “La Psychanalyse Erotomaniac Des Personnages Dans Le Texte Du Film A La Folie...Pas Du Tout Par Laetitia Colombani. In her thesis, she intended to figure out (1) the intrinsic elements including setting, characters, theme and plot of Leititie Colombani’s movie A La Folie...Pas Du Tout. (2) connection every intrinsic element like setting, theme, plot and characters to build a whole package of story which bounded by theme in Leititie Colombani’s movie A La Folie...Pas Du Tout. And (3) figured out the pyschology of Anqelique as major character and sufferer of de clerebault syndrom in Leititie Colombani’s movie A La Folie...Pas Du Tout.

This research used two approches, namely structuralism approach and pyschological approach by using Sigmun Freud’s theory. And content analysis were employed in this research.

The results of this research were (1) movie A La Folie...Pas Du Tout by Leititi Colombani used flashback plot to make the story clear..... the major character in this movie is Anqelique and minor characters are Loïc and Hëloïse.

The setting of place in this movie were Madam Dubois' home, Loïc's home and room 117. The story was occurred before September, after that everyday Loïc and Annelique met. Social setting was community of modern society in the middle and upper class that have many phenomena. The theme in this movie was Annelique's obsession towards Loïc to get his love. And (2) the major character in this movie has obsession to get love of someone whose wife and kids. So, she did everything to get what she intended. Her imagination made anxiety. To release her anxiety she did ego mechanism defense but effort that she done was useless then turned into a psychiatric disorder namely, psychopatic and erotomaniac. Another character whose mental instability was Loïc. There were big pressure in himself that caused paranoia and stress.

Zaman (2016) in his thesis "An Analysis Celebrity Worship Syndrome as social phenomena of Korean Wave in Youth Generation. In this research, the writer intended to figured out the cause of celebrity worship syndrome in youth generation as effect of korean wave and the syndromes of CWS that suffered by fans of Halyu or Korean Wave.

To answer the research questions in his research, the writer used John Maltby's theory to figure out the causes and syndrome of CWS. The result of this research were, the raising of new technology, like television, internet, and phone and develop of era makes we get information so easily. And mindset our people is all things that produced and distributed by overseas are awesome, modern and followable. And those who do not follow the era are "backwood".

And the syndrome of CWS that faced by youth generation as a fans of halyu or korean wave were entertainment social, intense personal, and borderline pathological.

Based on the explanations above. It can be concluded that the similarity between two previous researches above and this research are to study about erotomania or de clerebault syndrome. The differences from two previous researches are theory and object. The first previous finding used freud's theory and object her research was Leititi Colombani' movie A La Folie...Pas Du Tout. While, second one used maltby's theory and korean wave fans as his object research.

Quite similar to Soraya's research the writer used movie as object. Nonetheless, the writer analyzed Steve Shill's movie "Obsessed" as object research and applied two theories, they are; Freud and Bartolotti's theory. Yet, the writer would not use structuralism approach since the writer did not explain intrinsic element and influence among the instrinsic elemnts in the ovie but would explained about ego defense mechanism and figured out the symptoms of de clerebault syndrome aka erotomania.

B. Psychoanalysis

Today psychoanalysis is very familiar for the wide public after it has been either rejected or adulated for a long time. Psychoanalysis spread everywhere but not only due to the interest incited by its therapeutical method. It could even say that therapy was shadowed by the virtues of its application to other domains.

Psychoanalysis applied in literature, sociology, anthropology, ethnology, religion and mythology incited the interest of a public that had no inclination towards the clinical realm.

Psychoanalysis is what in people minds about personality of someone, not just thought, but also dreaming or imagining of that one. According to Semi (1993: 64) psychoanalysis is the approaches that want to show psychiatric to the author when creating a work of literature, character and mental process.

According to Freud (via Langs, 1992:17) psychoanalysis is a branch of the science of emotional cognition. This newly defined broad science of emotional cognition entails the systematic and properly disciplined and investigation of how human being experience, process and communication emotionally charged information and meaning.

Psychoanalysis is about approaches to the mental and personality. Everyone has a different personality it is depend on the condition of life, environment, and family are become biggest influence factors to build personality of someone.

1. Theory of personality

There are psychologists, which explain the theory of personality one of them is Sigmund Freud. According to Halonen and Santrock (1999: 379) Freud believes that personality divided into id, ego and superego.

a. The id

The “id” is the original system of personality and the dominant one at birth. The “Id” is primarily the source of psychic energy and the core of all instincts. It is infantile in the way it manifest and function on the unconscious level. It lacks organization and is demanding, insistent and impulsive. The Id cannot tolerate tension and works to discharge tension as quickly as possible and return to balanced state. Therefore the Id operates according to the demans of what freud called the pleasure principle. That is, it wants to satisfy its desires so as to relieve the tension (Freud,1997:7).

b. The ego

The “ego” in contrast, works not by the pleasure principle but rather by the reality. In other words, there is a real world out there that must be reckoned with. The ego is personally structure that developes to deal with the real situation and solve the problems of life. It acts as executive branch of the personality governs, control and regulates matters of life. The ego function as part of the conscious mind (Freud, 1997:7-8).

c. The Superego

The superego is judicial branch of the personlity, it imposes a moral code, concerning itself with whether a particular action is good or bad; right or wrong. It represents the deals of society as they are passed from one generation to another. The superego can be

represented by both the unconscious and conscious mind depending on the particular function it is serving (Freud,1997:8).

2. Ego Defense Mechanisms

a defence mechanism is an unconscious psychological mechanism that reduces anxiety arising from unacceptable or potentially harmful stimuli and the way we defend ourselves from troubling desires and thoughts (Freud,2011:5).

The ego balances the id, superego, and reality to maintain a healthy state on consciousness, it thus reacts to protect the individual from a stressor and anxiety by distorting reality. This prevents threatening unconscious thoughts and material from entering the consciousness.

Every sufferer of mental disorder tends to belong high anxiety instead of normal people. In order to reduce or eliminate anxiety that exist in herself the id, ego and superego must be balanced.

The terms of ego defense mechanisms will be explained underneath as follows based on Freud's theory :

1. Repression

Repression is one of the most important Freudian processes. And it is the basis of other ego defense and neurotic disorder. It is a means of defense through which threatening or painful thoughts or feelings are excluded from awareness. Freud explained repression as an involuntary

removal or something from consciousness. He called it as “motivated forgetting”.

For example, victims of war or other trauma sometimes face experience that are too overwhelming for them to assimilate into their conscious mind. In order to cope, they must protect themselves from letting the painful experience incapacitate them. The result is that they unconsciously repress the emotion. This emotion may resurface unexpectedly if a similar life event such as an accident or victimization triggers that repressed memories. (Freud,1997:9-10) <http://books.google.co.id/books?id=PCAcGAAQB>.

2. Projection

Projection takes one's own anxiety arousing impulse and attributes them to someone else. For instance, you might hate someone, but your superego tells you that such hatred is unacceptable. You can 'solve' the problem by believing that they hate you (Freud,1997:10) <http://books.google.co.id/books?id=PCAcGAAQB>.

3. Displacement

Displacement is the redirection of an anxiety onto a substitute or “safer” target. The redirected energy often anger cannot be discharged in the most logical way so it must find another way to be released. The classic example of displacement is the frustrated worker who feel victimized by his boss but cannot express his anger directly at his supervisor. Instead he finds a safer target and yess his family when arrives at home. According to Freud the man does not

intentionally displace his anger and frustration on his family but unconsciously does so because he finds the relationship of his family “safer”. Venting his frustration at home will minimize consequence arising from his action, where he to express his anger on the job (Freud,1997:10) [http:// books.google.co.id/books?id=PCAeCgAAQB](http://books.google.co.id/books?id=PCAeCgAAQB).

4. Sublimation

According to psychoanalytic perspective involves diverting sexual or aggressive energy into other channels that are often social acceptable and even admirable.

For example, a male with aggressive impulses becomes an all atates linebacker on the school football team, were the same aggressive impulse acted out in common social situation. it would be considered inappropriate and possibly abusive to those on the receiving end. But given that hitting as inherent in a contact sport, the student can legitimately channel his aggressive tendencies toward a socially acceptable “performance”. Not only does this give the student a release for the unconcious aggression but it may also provide social approval for reinforcing the aggressive behaviour in that context (Freud,1997:10) [http:// books.google.co.id/books?id=PCAeCgAAQB](http://books.google.co.id/books?id=PCAeCgAAQB).

5. Denial

Denial involves blocking external events from awareness. For example if a particular situation is too much for a person to handle, he or

she simply refuses to allow the experience to become reality for them, despite the fact that it happened. The use of denial is a primitive and dangerous defense because eventually individual must face reality. The longer one attempts to deny the objective reality, the greater maybe consequences. Denial can operate by itself or more commonly in combination with other, more subtle defense mechanisms that support it.

Example, denial can be unconscious as when a dying person refuse to admit that their life will soon end or when a person with a heart condition denies that ther overeating or smoking in any concequence. It can also take a semi conscious state where the individual accepts a portion of a situation but denias another. For instance a person my acknowledge that they were in an outomobile accident but they will not accept the fact that a loved one who was critically injured might die (Freu,1997:9) <http://books.google.co.id/books?id=PCAeCgAAQB>.

6. Regression

This is a movement back in psychological time when one is faced with stress. When we are troubled or frightened, our behaviors often become more childish or primitive. A child may begin to suck their thumb again or wet the bed when they need to spend some time in the hospital. Teenagers may giggle uncontrollably when introduced into a social situation involving the opposite sex (Freud,1997:11) <http://books.google.co.id/books?id=PCAeCgAAQB>.

7. Rationalization

Rationalization is the cognitive distortion of "the facts" to make an event or an impulse less threatening. We do it often enough on a fairly conscious level when we provide ourselves with excuses. But for many people, with sensitive egos, making excuses comes so easy that they never are truly aware of it. In other words, many of us are quite prepared to believe our lies (Freud,1997:11 - 12) <http://books.google.co.id/books?id=PCAeCgAAQB>.

8. Reaction Formation

This is where a person goes beyond denial and behaves in the opposite way to which he or she thinks or feels. By using the reaction formation the id is satisfied while keeping the ego in ignorance of the true motives. Conscious feelings are the opposite of the unconscious. Love - hate. Shame - disgust and moralizing are reaction formation against sexuality.

Usually a reaction formation is marked by showiness and compulsiveness. For example, Freud claimed that men who are prejudice against homosexuals are making a defense against their own homosexual feelings by adopting a harsh anti-homosexual attitude which helps convince them of their heterosexuality (Freud,1997:12) <http://books.google.co.id/books?id=PCAeCgAAQB>.

C. De clěrembault syndrome

Erotomania is often referred to as de clěrembault's syndrome after French psychiatrist Gaėtan Gatian De clěrembault (1872 – 1934). In article published in December 1920, Clěrembault described erotomania as a type of “passional psychosis” (les delires passionel), his term for a category of delusional state in which paranoid delusion is accompanied with passionate feeling. Clěrembault identified very specific character of this delusional syndrome: a conviction of being in amorous communication with a person of much higher rank, who has been the first to fall in love and the first to make advances (Noll, 2009:154).

According to First and Tasman (2011:275) Erotomania is a type of delusion of being loved by another person. Most frequently the patient is a woman, though men are also susceptible to this delusion. The patient believes that a perceived suitor, usually more socially prominent than herself is in love with her.

Furthermore, according to Feldman and Smith (2015:142) erotomania or known as de clěrembault's syndrome is a type of paranoia that encompasses delusion of grandeur. Fans (people) with erotomania are not just fascinated with a particular public person: they become convinced that they share a special love relationship a love that although unspoken and possibly even forbidden is nonetheless passionate.

No one knows exact reason why erotomania occurs. However, there are some common indicators that may help determine the root of

this psychological disorder. One theory suggest that there was one point a lack of affection either during infancy or during some duration of their lifetime. This usually points back to alack of affection from parent. More commonly, it is a lack of maternal care which is shown when a man with erotomania seeks after the love of a woman due to a lack of a feminine influnce as a child. The true reason for erotomania is unknown, but it is defines as a psychological disorder that may be too complex to understand, at least at this time.

One of the most common incidents about erotomania happened to actress Jodi Foster, she was chased after many years by a man named John Hinckley Jr. As a result, Hinckley decided that he wanted to demonstrate his love for foster by an extreme act. This act was as attempted assasination of President Ronald Reagen. Although, the assasination was unsuccessful.

Based on several explanations above, the writer concludes that erotomania or known as de clèrembault syndrome is a type of delusion in which the affected person believes that another person, usually stranger, high status or famous person is in love with him or her.

D. The symptoms of de clèrembault syndrome.

Since erotomania is a psychiatric issue, it is extremely hard to diagnose it. but according to Bartolotti (2010:20-29) she categorized the symptoms of de clerembault syndrome into several parts. They are:

1. Delusion/ hallucination

Delusion is a false belief based on incorrect inference about external reality that is firmly sustained despite what almost everyone else believes and despite what constitutes incontrovertible and obvious proof or evidence to the contrary (Bortolotti,2010:22).

2. Harrasing behavior

Due to the fact that afflicted wants to pursue the person they desire because they cannot accept that there is no romantic relationship that exist between the both of them. The afflicted resort to stalk their victim and might harras them.

3. Stalking

Stalking maybe a new word in its current context, but the behaviour itself has long been recognized in criminal justice circle. Existing laws relied, however on prosecuting stalking related crimes such as trespass breaking and entering criminal damage and treats to kill.

4. Lie

In de clerebault syndrome case, sufferer will always tell untrue to hide something bad that she/ he is done. This is the best way to manipulate people around the sufferer that she or he is normal like others and innocent. According to Bartolotti (2010:23) people whose mental disorder or psychological disorder tend to be more smart than normal ones in deceiving others.

E. Movie

Movie also known as films are type of visual communication which use moving pictures and sound to tell stories or inform (help people to learn) (Geuens, 2002:12).

Movie is a motion picture as a genre of art entertainment, the exhibition of a motion picture, and a motion as an industry. She assumed that movie is considered to be an important art form, a source of popular entertainment and powerful method for educating or indoctrination citizens (Denica, 2007:98).

Further, According to Hornby (2005:573) movie is a series of moving pictures recorded with sound that tells a story, shown on television or at cinema or movie theater. The movie is not always to as an entertainment but also recognized as an art form. Boggs and Petrics (2003:3) said that the tremendous expense involved in producing motion pictures reminds us that movie is both industry and art and also employs the compositional elements of the visual art.

From the definitions above the writer takes conclusion that movie is a media to deliver messages to the public by the story consist of motion pictures and voices.

F. Synopsis of the movie

Derek Charles works for finance company and is married to Sharon Charles. One day, an apprentice named Lisa starts liking Derek. She begins trying to seduce Derek over and over. Derek goes to tell the

Human Resources Development but Lisa has already quit her job. Derek begins getting flirty emails from Lisa. Derek sees Lisa at a job conference and confronts her about her actions. Lisa reacts by attempting to commit suicide by drug overdose. Derek takes Lisa to the hospital, when Sharon sees Derek at the hospital for Lisa, so she thinks Derek is cheating on her with Lisa. Sharon kicks Derek out of their house. Derek and Sharon eventually reconcile. When they are out to dinner one night, Lisa breaks into their home. When Derek and Sharon come home, they find out that their infant son is missing. They search the house and find the baby in Derek's car. After this, Derek goes out of town. Lisa breaks into the Charles' home and Sharon must fight off Lisa once and for all.

CHAPTER III

METHODOLOGY OF THE RESEARCH

This chapter focuses on method, source of data, instrument of research, procedure of data collection, and technique of data analysis. This research is conducted, scientifically, systematically and logically.

A. Research Method

In this research, the writer used content analysis method. The purpose is to describe the psychological aspect of major character in the movie. According to Endraswara, (2003: 160-163) content analysis is a new model method to analyze a literary work. This analysis is used since the researcher wants to reveal, understand, and catch a literature work message. Content analysis is method in assembling data required by sorting some data into small unit and rewrites into some cards the data findings from source of data in order to find the data easily.

Then, on the cards are also completed by preparing translation to help the researcher to classify the data easily. In addition, this method is a method of studying and analyzing communication in a systematic, objective, and quantitative manner for the purpose of measuring variables.

B. Data source

The writer got the data from Steve Shill's movie "Obsessed". This movie was published 2011 with duration one hundred and eight minutes. The writer analyzed this movie by using psychology approach of Sigmund Freud and Bartolotti's theories.

C. Instrument of the Research

In collecting the data, the writer used note taking as instrument of the research. Note taking is a method in assembling data required by using note card to write down the data findings from source of data. In order to find the data easily, on the note cards are also completed by number and page where the data found (Ray, 2005:13).

D. Procedure of Data Collection

This research conducted based on several steps as follows:

1. The writer watched the Steve Shill's movie "Obsessed" carefully and match the conversation with the movie's script.
2. The writer identified data that show de clerebault syndrome that suffered by main character in Steve Shill's movie "Obsessed".
3. And the last, the writer classified all psychological terms of main character in the movie.

E. Technique of Analyzing the Data

In analysing the data, The writer applied two theories, namely : Sigmund Freud's theory to describe the ego defence mechanisms of sufferer of de clerebault's syndrom in Steve Shill's movie "Obsessed". And Lisa Bertolotti's theory to figure out the symptoms of de clerebault's syndrome that reflected in major character in Steve Shill's movie "Obsessed".

CHAPTER IV
FINDINGS AND DISCUSSION

This chapter present, the findings, analysis and discussion of the research.

Findings are divided into two points which explain the symptoms of de clerembault syndrome and how the sufferer conducts ego defense mechanism of De clerembault syndrome.

A. Findings

In this research, the writer presented the data analysis based on Steve Shill’s movie “Obsessed”. However, the writer just focused on the symptoms of de clerembault syndrome and how to conducts ego defense mechanism of de clerembault syndrome. The writer encode the data like **M** for minute, and **S** for second.

1. Symptoms of De Clerembault Syndrome

According to Bartolotti (2010:20 – 29) syndrom of De Clerembault or erotomania are divided into 4 parts, they are, Delucion/ Hallucination, Harrasing Behaviour, Stalking, Lie.

Symptoms of De Clerembault syndrome	Datum
a) Delucion/ Hallucination	<p>1. <i>Lisa: dont you blame it to me Derek, we both knew, what the way we straight started from beginning.</i></p> <p><i>Derek: what!!!</i></p> <p><i>Lisa : first, we met on elevator, a dirty martini,</i></p>

<p>b) Harrasing behavior</p>	<p><i>the christmas party. You have been said if you were wish still single we could be together.</i></p> <p><i>Derek : no, i did not!!!!</i></p> <p>(M:53, S:50)</p> <p>2. <i>Reyes : all right Mr. Charles, let me get straight, young woman Lisa Sheriden works on your office</i></p> <p><i>Sharon: Lisa the tempt, whats going on with her?</i></p> <p><i>Derek : yes she worked to my office for 2 weeks.</i></p> <p><i>Reyes : this girl barely know works in your office, fantazies you are having an affair and when you reject her she tries to commit suicide in your bed.</i></p> <p>3. <i>Lisa turns aside. Out of Derek's sight, she slips a capsule into his drink, then put it back on the table. (M:48, S:32)</i></p> <p>4. <i>No, no fucking way (Derek moves toward the bed and the sleeping girl) goddamn it Lisa.</i></p> <p><i>No response, her head is looked to one side and her skin is ghostly pale. Darek leans over and shakes Lisa's naked shoulder.</i></p> <p><i>Derek: Lisa get up, get up or i will drag you</i></p>
------------------------------	---

out and throw in the hell.

That's when Derek sees it, on the night stand an empty bottle of prescription pills, Derek picks up the bottle and looks at the label:

Ambien. (M:56, S:45)

5. Sharon: *she took my baby*

Derek tears back down to the stairs, shouting to Samantha

Derek : call 911

He burst out the front door

Derek races into the garrage, yanks open the driver's door and gets in. He starts the engine turn to back out and surprise there is Kyle in the backseat, strepped into his car seat, smiling to dady.

6. Sharon: *Don't touch me*

Lisa: we can talk

Sharon: i told you to do not touch me (angry, throw Lisa out).

Lisa suddnly raise up and hit Sharon. Sharon falls on the floor and Lisa kicks Sharon's rib and stomach perpetual.

Lisa: you are crazy bitch.

She takes a stand lamp and tries to hit Sharon

<p>c) Stalking</p>	<p><i>by it. she wants to kill Sharon by Stabbing her.</i></p> <p><i>They fight.</i></p> <p>7. <i>Lisa : actully, they are keeping me on a few more days, so i will probably see you on Monday.</i></p> <p><i>Can tell if he heard, Lisa watches him go out sight, then curious. She turns to her computer and pulls up Derek's bio and picture on the company web site. "Derek charles graduated from UCLA with major in finance wallstreet.(M:09,S:20)</i></p> <p>8. <i>Lisa : i called Patrick today and he said you like it, black with2 sugars. Derek is impressed, he opens a container of Starbucks coffee.</i></p> <p><i>Lisa: if it is cold i can run down and nuke it in the break room.</i></p> <p><i>Derek: no it is perfect. Well, it's Monday and first thing on Monday</i></p> <p><i>Lisa: i took care of that</i></p> <p><i>Derek: take care of what???</i></p> <p><i>Lisa : on Monday you always send your wife a dozen long stemmed red rose (Derek looks surprise)(M:12,S:14).</i></p>
--------------------	---

9. Sharon is feeding Kyle while talking on the phone to Derek.

Sharon: it s beautiful little park with a duck pond and close enough to push Kyle.

Intercuting Derek in his office while he listen and goes over reports

Sharon: i've already met a dozen other women with kids the same age, one of them, Lauren something asked if we'd like to come to over for a barbecue on Saturday.

Derek: i dont know, it is shaping up to be a work weekend.

Outside, at her desk, Lisa eares drops on her headset listening with interest.....

Patrick: (whisper to Lisa) so how many times did you get busted listening in n Derek's call?

Lisa: (light laugh) im away to devious to ever get cought besides, i thought all you assistants listened in

Patrick: (with a smile) we do (M:19, S:44)

10. Derek: i didn't order this.

The cocktail waitress leans clown and whisper in his ear.

Waitress: it's from the lady at the bar.

<p>d) Lie</p>	<p><i>Derek turns and peers at the crowded bar area. He catches a flash of young woman in a tight dress seated n a stoll, but a crowd of people move into his line of vision and they clear, the woman is gone.....</i></p> <p><i>Lisa comes to face to face with Derek, smiling. She boldly picks up his drink and takes a sip</i></p> <p><i>Derek: How did you know. i'd be here?</i></p> <p><i>Lisa : I got my Source (Slight frown)</i> (M:46,S:59)</p> <p>11.<i>It is now 12:50 while Joe continues his seminar, A hotel clerk quietly slips in to the room, goes over to Derek and whisper to him, Derek perks up with concern, he leans over to Ben</i></p> <p><i>Derek: it's Sharon</i></p> <p><i>Ben: What about her?</i></p> <p><i>Derek: she is here, ill be right back (Derek gets up n leaves), Derek follow the clerk as they turn a corner.</i></p> <p><i>Clerk: here is your wife sir</i></p> <p><i>Derek stops dead, it's not Sharon waiting for him, it's Lisa. (M:53, S:09)</i></p> <p>12. <i>Lisa:have you spoken to Derek?</i></p>
---------------	--

	<p><i>Reyes : yes</i></p> <p><i>Lisa: he is alright?when can i see him?</i></p> <p><i>Reyes: see him, im afraid that's not possible</i></p> <p><i>Lisa: why?</i></p> <p><i>Reyes: mrs Sheriden, i dont think mister Charles wants to speak to you or continue any kind of contact</i></p> <p><i>Lisa looks her oddly, then why did he send there?</i></p> <p><i>Lisa indicates a bouquet of flowers in a vase nearby</i></p> <p><i>Reyes: (Keeping the surprise out of her voice) he sent you flowers?</i></p> <p><i>Lisa: peonies my favorite</i></p> <p><i>Reyes inspect the attached card "Lisa darling, the other night was just a misunderstanding dont ever leave me love always, Derek" (M:67, S:11)</i></p> <p>13. <i>Reyes : can you tell me what happen at the hotel, why you were there?</i></p> <p><i>Lisa: Did not Derek tell you?</i></p> <p><i>Reyes: i'd like to hear your version</i></p> <p><i>Lisa: there is not a lot to tell you, we got together at the hotel and you can guess what</i></p>
--	--

we did.

Reyes: slept together, had sex?

Lisa: of course, he just being gentlement to protect me. the next day when Derek told me his wife would not give him a divorce and that was could never see each other again, i guess i over reacted, i did not realize he was just being noble.

Reyes: noble??

Lisa: he was thinking about his little boy kyle..what the break up might to do him, he is not even 2, you know my parents broke up when i was pretty young.it leaves a scar that never really heals

Reyes: so you believe mr. Charles is in love with you?

*Lisa: **Read the card. Derek and i belong together and nothing can change that. But i do feel bad about his wife. Im not home wrecker. Im not stealing him away. Their marriage is over and sharon is in denial. It can be easy to find out the man she loves is in love with another woman. I just hope she does not do something foolish.***

	<p>14. <i>Lisa: hi, i am Sharon's friend, Kate</i></p> <p><i>Samantha: mr and mrs Charles went to dinne.</i></p> <p><i>Lisa: what? Sharon told me to drive by, this is strange. Oh well i have something for kyle i will just run up and give it to him.</i></p> <p><i>Samantha: you cant, he is sleeping</i></p> <p><i>Lisa: oh, i wont wake him</i></p> <p><i>Samantha: maybe you should come back another time</i></p> <p><i>Lisa: but im here right now,why i should...oh i see you just doing your duty. Good girl, you know what let me call Sharon (Lisa takes out a cell phone, punches in a number. Sharon? Hey it's Kate, where i am? Im at your home you told me to drive by, Samantha was little concerned so i said i'd call you (winks at Samantha) yeah okey honey. You two have a great dinner (to Samantha, holding out the phone) oh wait, did you want to talk to her? Smantha shakes her heard "no"</i></p> <p><i>Lisa: Sharon, i will call you tomorrow. Lisa click off. Great, this only will take me a minte.</i></p> <p><i>Leaves Smantha and runs up to Kyle's room.(M:76, S:18)</i></p>
--	---

15. *Patrick: Derek Charles' office*

Lisa: hey here it's Lisa

Patrick is happy to hear from her keep his voice down, Lisa?

Lisa : How are you?

Patrick : i have missed you

Lisa : i have missed you too, everything okey around the office?

Patrick: well actually?

Lisa: what?

Patrick: im a little concerned. I heard the Charles' took out restraining order against you

Lisa (laugh) oh that, that was Sharon doing, she is not handling this very well. Derek's juat waitingfor the right time to tell her, he is leaving, he will divorce with Sharon

Patrick: i don't think that is gonna happen.

Lisa: of course it is

Patrick: im not sure i should be telling you this.....well Sharon headed down to San Diego tonight. Her mother is having some tests done. Derek is driving down first thing in the morning to be by her side. (M:86, S:17)

2. Ego Defense Mechanism

Ego defense mechanism	Datum
1. Displacement	<p>16. <i>Sharon: she took my baby</i></p> <p><i>Derek tears back down to the stairs, shouting to Samantha</i></p> <p><i>Derek : call 911</i></p> <p><i>He burst out the front door</i></p> <p><i>Derek races into the garrage, yanks open the driver's door and gets in. He starts the engine turn to back out and surprise there is Kyle in the backseat, strepped into his car seat, smiling to dady.</i></p>
2. Regression	<p>17. <i>No, no fucking way (derek moves toward the bed and the sleeping girl) goddamn it Lisa. No response, her head is cooked to one side and her skin is ghostly pale.</i></p> <p><i>Derek leans over and shakes Lisa's naked shoulder</i></p> <p><i>Derek: Lisa get up (it is like shaking doll) get up or i will drag you out and throw you in the hell</i></p>

<p>3. Rationalization</p>	<p><i>That is when Derek sees it, on the night stand: an empty bottle of prescription pills, Derek picks up the bottle and looks at the label :Ambien.</i></p> <p>18. <i>Patrick: Derek Charles' office</i></p> <p><i>Lisa: hey here it's Lisa</i></p> <p><i>Patrick is happy to hear from her keep his voice down, Lisa?</i></p> <p><i>Lisa : How are you?</i></p> <p><i>Patrick : i have missed you</i></p> <p><i>Lisa : i have missed you too, everything okey around the office?</i></p> <p><i>Patrick: well actually?</i></p> <p><i>Lisa: what?</i></p> <p><i>Patrick: im a little concerned. I heard the Charles' took out restraining order against you</i></p> <p><i>Lisa (laugh) oh that, that was Sharon doing, she is not handling this very well. Derek's juat waitingfor the right time to tell her, he is leaving, he will divorce with Sharon</i></p> <p><i>Patrick: i don't think that is gonna happen.</i></p> <p><i>Lisa: of course it is</i></p>
---------------------------	---

<p>4. Projection</p>	<p><i>Patrick: im not sure i should be telling you this.....well Sharon headed down to San Diego tonight. Her mother is having some tests done. Derek is driving down first thing in the morning to be by her side. (M:86, S:17)</i></p> <p>19. <i>Reyes : can you tell me what happen at the hotel, why you were there?</i></p> <p><i>Lisa: Did not Derek tell you?</i></p> <p><i>Reyes: i'd like to hear your version</i></p> <p><i>Lisa: there is not a lot to tell you, we got together at the hotel and you can guess what we did.</i></p> <p><i>Reyes: slept together, had sex?</i></p> <p><i>Lisa: of course, he just being gentlement to protect me. the next day when Derek told me hiswife would not give him a divorce and that was could never see each other again, i guess i over reacted, i did not realize he was just being noble.</i></p> <p><i>Reyes: noble??</i></p> <p><i>Lisa: he was thinking about his little boy kyle..what the break up might to do him, he is not even 2, you now my parents broke up</i></p>
----------------------	--

	<p><i>when i was pretty young.it leaves a scar that never really heals</i></p> <p><i>Reyes: so you believe mr. Charles is in love with you?</i></p> <p><i>Lisa: Read the card. Derek and i belong together and nothing can change that. But i do feel bad about his wife. Im not home wrecker. Im not stealing him away. Their marriage is over and sharon is in denial. It can be easy to find out the man she loves is in love with another woman. I just hope she does not do something foolish.</i></p>
--	--

e) Discussion

1. Symptoms of De Clerembault syndrome

According to Feldman and Smith (2015:142) erotomania or known as de clerembault's syndrome is a type of paranoia that encompasses delusion of grandeur. Fans (people) with erotomania are not just fascinated with a particular public person; they become convinced that they share a special love relationship, a love that although unspoken and possibly even forbidden is nonetheless passionate. Lisa Bartolotti explained several symptoms of de clerembault syndrome that can be seen from the sufferer of that syndrome, they are

1.1 Dellusion/ hallucination

According to mental health and science (2015) delusion or hallucination is a sensation that appear real but created by your mind. You think it is real or true nonetheless, fact it is false or untrue. The hallucination is shown in **datum 1** Lisa hallucinate that Derek madly in love with her, gave her plenty of attentions. According to Lisa, all attentions that Derek gave to her are proofs that he loves her truly. Lisa thinks all that happen between she and Derek are intentionally set by Derek. like in elevator, when they met for the first time, Derek has waited for her so they can be together go to office in nine floors. Then, dirty martiny, Derek ordered her same favorite wine to get her attention. In christmas party, Derek temps her to dance with him. And the most thing that Lisa is sure that Derek falls in love to her is when she cried at pantry after dumped by her boyfriend, he said if he were single he would not be doubt pick Lisa into his life. These all make Lisa imagine Derek to be beside her and belong him.

Datum 2 shows that during two weeks Lisa worked in Derek Charles's company she has hallucinated that she has any affair with Derek as her boss. Sufferer of erotomania will always think or hallucinate the one who is famous or hight level falls in love with him or her while reality is untrue or false believe. Generally sufferer of erotomania will do extreme act to get and show her / his love to

her/his victim like Jodi Foster's case. she was chased after many years by a man named John Hinckley Jr, he decided that he wanted to demonstrate his love for Foster by an extreme act, he attempted assassination of President Ronald Reagan, in spite of the assassination was unsuccessfully. Lika lisa did, she did extreme act to show her love to Derek, she tried to suicide after being rejected by Derek.

1.2 Harrasing behaviour

Harrasing behaviour or harrasment covers a wide range of behaviour of an offensive nature. It is commonly understood as behaviour that disturb or upset and it is characteristically repetitive. In legal sense it is behaviour to be disturbing or threatening.

Datum 3 shows that Lisa puts a capsule into Derek's wine and derek does not know it. It is illegal act. Put a capsule into someone drink in order to make someone uncontrolable or lose consciousness. A normal one will not do bad thing to somebody else. But a sufferer of mental disorder like Lisa can do bad threatening. After Derek lost his awareness, lisa forces Derek to have sex with her and seduce him. This is a kind of harrasing behaviour that de clerebault syndrom's sufferer did, hurt someone by disturbing and threatening.

Datum 4 shows other harrasing behaviour, after being rejected and ignored by Derek. Lisa feels frustrated, she drunk a bottle of prescription pill; Ambien. Ambien or Zolpidem is a sedative, also called hypnotic, zolpidem affects chemicals in brain that may be unbalanced in people with sleep problems insomnia. Ambien can be

cause of death if consumed exaggeratedly. After drinking a bottle of prescription pills she got over dosage. Her skin is ghostly pale even she couldn't move her head no response at all. Lisa intentionally did it to threaten Derek so he is under arrested.

Datum 5 shows other bad behaviour that Lisa did to threaten Derek and his family is she came to Derek's home while Derek and his wife went to restaurant to take dinner. Lisa pretended as Sharon's friend and kidnapped baby Kyle Derek's son. Lisa did it due to feel upset after being rejected by Derek and wanted to disturb and show to him that she can do everything that she wants. Her bad behaviour that isn't able to control her emotion makes her release her emotion by disturbing others.

Datum 6 a sufferer of de clerebault syndrome will do extreme acts to get whom she/he loves. There is no doubt to hurt or kill anyone who intentionally or unintentionally blocks her/his way to make her/his ambition come true. The quotations that the writer bolds in the conversation show that Lisa wants to kill Sharon.

1.3 Stalking

Stalking is unwanted or obsessive attention by an individual or group towards another person. Stalking behaviours are related to harassment and intimidation and may include following the victim in person or monitoring them.

Datum 7 since she met Derek for the first time in an elevator and Derek gave a nice response to Lisa, it makes her get interested and start

liking him. Some one who admires you will seek information everything about you. So does Lisa, she surfs on internet looking for information about Derek Charles. She finds at wikipedia that Derek Charles is a graduate from UCLA one of the best of university in United State of America with a major in a finance began his career with Major Wall street the biggest finance company in the world. In this step, Lisa has not shown signs she has mental disorder, she just started to admire and be interested to Derek. The writer put it as a stalking form since, from this step Lisa goes to more complicated step as a crazy admirer. That sufferer of de clerebault syndrome do.

The conversation on **datum 8** shows that Lisa get more interested to Derek, she began to know what Derek likes and his favorite, such as Derek loves black coffee with 2 sugars. Lisa got the information after asking Patrick, Patrick is Derek's secretary who works in the company almost 10 years so he mostly knows about Derek. Stalker will seek information from those who have close relationship with the victim. She wants to know deeply about Derek.

In this step, Lisa has not shown crazy stalker who wants to fight the victim, only shows the interest to the one whom she admires.

Datum 9 shows that in monitoring Derek's activities she busted listening on earphone that intentionally connected to Derek office phone. Actually, it was a legal act as long as stalker does not harass or do any rude thing. Lisa just listening and watching Derek, she is admired Derek not as a boss but also as a personal. Derek is

good man with responsible towards his family. And Sharon was very lucky to get him as her husband.

Datum 10 shows that Lisa is obviously obsessed towards Derek. She follows where Derek goes and she knows with whom Derek now. Derek is confused how possible Lisa knows that he is in other city now with his friends at the cafe while he just told Sharon.

Generally, a sufferer of de clerebault syndrome is a stalker who stalking a famous people or the one whose high level, in this case, Lisa is stalking his boss because she obsessed to him. Obsessed and halucination that mix together in her mind make her mad. Her disability to control her obsessed in love to someone push her to be a definately stalker. According to Oxford English Dictionary the term stalker began to be used by the media in 20th century to describe people who pester and harras other. Initially with specific reference to the harrasment of celebrities by stranger who were described as being obsessed.

Datum 11 shows Lisa is starting to be mad due to obsessed to Derek, she follows and pester Darek. She lies to hotel clerk that she is Derek wife only to meet him. But when Derek meets him, he is angry, she is not his wife she is Lisa. Lisa completely is crazy now.

People characterized as stalker may be accused of having mistaken belief another person loves from de clerebault syndrome or they need rescuing. Stalking can sometimes consist of accumulation of

series of action which in themselves can be legal, such as calling on the phone, sending gift or sending emails.

Stalker may use threats and violence to frighten their victims. They may also engage in vandalism and property damage or make physical attacks that are mostly meant to frighten. Less common are sexual assault.

1.4 Lie

another symptom of de clerembault syndrome is lie. This habitual is belong to almost people but the sufferer of erotomania will lie to other ones more often and categorized as big liar. Lie is a statement that the stating party believes to be false and that is made with intention deceive.

Datum 12 Lisa's delusion and obsession towards Derek are getting worse. She does not only harras herself but also pester and disturbing Derek. She did it due to intend wreck and break Sharon and Derek's marriage life. She took a bottle of prescription pills and try to suicide just for pestering Derek. she intended to all derek loves and attention just for her. So when Detective Reyes asked her what happen she told untrue, she lied. She said Derek really love her. Unless he love her he will not give her a bouquet of her favorite flower. And she asked Detective Reyes to see card in the flower which written by Derek himself show how love Derek to him. These lies make detective Reyes kind of believe in Sharon. According to

Psychology a sufferer of de clerebault syndrome or erotomania is very tallented to manipule fact so people believe what she/ he said.

Datum 13 similar to previous datum above. The writer puts it into symptom of de clerebault syndrome. Since, Lisa lied to detective Reyes due to believe in her. What happened in hotel room was unlike what Lisa said to Detective Reyes, it was just her imagination, ambision and obsesessed towards the one who has higher position than her. All her imagination and her hallucination were caos and over fall down. Lisa's love towards Derek is only unrequited love. Derek does not have same feeling as Lisa has. He just considers Lisa was a good friend no more. So, when Derek ignored her feeling she became frustrated and fury. She tried to suicide and blame Sharon for everything. She said" it was Sharon's faults, he does not want to be divorced by Derek while he does not love his wife anymore. He loves me only and wants to spend our time together. he just being gentlement to protect me. i think we could never see each other again, so i over reacted, i did not realize he was just being noble. All her words are bullshit, big lie. According to Bartolotti (2009:87) a sufferer of mental disorder like de clerebault syndrome is very tallented to manipulate fact in order to people get trap and believe what she/ he said.

In **Datum 14** Sharon Lied to Ketty that she is Sharon's bestfriend, she just drive by to give present for Kyle. While actually she comes to kidnap Kyle due to pester and threat Derek and his wife

that she can do everything that she wants. Someone whose mental disorder such as Lisa usually is a big liar she often lie to manipulate others to get attention or to harras the victim . Lie is the best way to get someone faith and attach people to like and accept us in to social life. The one who belongs mental disorder like de clerembault syndrome is very brilliant to assure anyone to believe whatsoever she says. She acts well so Ketty believes that she is truely Sharon's friend.

Datum 15 shows that Lisa lies to Patrick, her friend itself. She defamation of Sharon that everything happen now it because of Sharon's faults. The situation is caos due to Sharon. She blames on other to her faults. She tries to break Derek's marriage life by seducing him but it did not work at all. She is frustated because Derek denies her feeling. Therefore, she spreading a gossip that Derek and Sharon will divorce but Sharon refuses to be divorced by Derek. So Sharon is mad and blames Lisa while the fact is totally different.

2. Ego Defense Mechanism

2.1 Displacement

Displacement is redirection of an impulse (usually aggression) onto a powerless substitute target. The target can be a person or an object that can serve as a symbolic substitute. Someone who feels uncomfortable with their sexual desire for a real perso may substitute fetish. Someone who is frustated by his or her superiors may go home and kick the dog, bet up a family member, or engage in cross burning. (Freud,1937:45)

Datum 16 shows displacement that Lisa did to maintain her ego. When anxiety becomes overwhelming, it is ego's place to protect the person by employing defense mechanism. To release her tension, she comes to Derek and Sharon home and lie to their babysitter who take care of baby Kyle and kidnap him. She displace her tension to the one who is weaker than her.

2.2 Regression

This is a movement back in psychological time when one is faced with stress. When we are troubled or frightened, our behaviors often become more childish or primitive. A child may begin to suck their thumb again or wet the bed when they need to spend some time in the hospital. Teenagers may giggle uncontrollably when introduced into a social situation involving the opposite sex.

Datum 17 shows Lisa was stress due to her obsessed towards Derek whom she is not able to get. Every human being has way to protect herself / himself from problem that she / his faces. Lisa does primitive way to defense from stress and frightened that she feels by consuming a bottle of prescription pills: ambien, a cure for sleepless problem or insomnia. So after consuming that cure she gets over doze, her skin is ghostly pale and her head is cocked to one side, there is no response. She tries to suicide after hearing Derek's explanation that he does not love her at all , no special intimate relationship between them and it was just her hallucination. If someone face problem or insecure, she

will react to protect her self but in this situation Lisa reacts exagratedly and does extreme acts to release her stress.

2.3 Rationalization

According to Freud (1937:45) rationalization is the cognitive distortion of the fact to make an event or an impulse less threatening. We do it often enough on a fairly conscious less when we provide ourselves with excuses. But for many people whose sensitive egos making excuses come so easy that they never are truly aware of it, in other words many of us are quite believes our lies.

Datum 18 shows how Lisa protects herself from any frustration that she gets lately. rationalization can be used to avoid admitting disappointment. It encourages irrational or unaccptable behaviour, motives or feeling and often involves ad hoc hypothezing . this process range from fully concious to mostly unconcious. In this case, Lisa rationalize her action harrasing and pester someone's life by blaming Sharon and look for reasons why Derek Charles and Sharon order against her. Rationalization that Lisa does in facing her disappointment get Derek is she lies to Patrick that her relationship with Derek is fine but Sharon ruins it and make it is worse because she does not want to be divorced by him. She blaming Sharon towards situation becomes worse between Lisa and Derek.

2.4 Projection

This involves individuals attributing their own thoughts, feeling and motives to another person. Thoughts most commonly projected onto another are the ones that would cause guilt such as aggressive and sexual fantasies or thoughts. For instance, you might hate someone, but your superego tells you that such hatred is unacceptable. You can 'solve' the problem by believing that they hate you (Freud,1937:45).

Datum 19 Lisa fantasies that Derek Loves her madly but it is just her fantasy, the fact Derek does not love her, he just be nice as a boss towards his worker. But she interpate these attentions as love so when Derek ignores her, he gets sad and heartbreak, she feels hurted so to release her emotion she does extreme act by drinking a bottle prescription pills. She gets over doze. After she is concious she lies to Detective Reyes and accusing Sharon towards her bad behaves and her failure to get Derek's love. So she lies to detective Reyes

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter provides conclusion and suggestion. The writer gives some conclusion symptoms of de clerebault syndrome and conduct ego defense mechanism in Steve Shill's movie "Obsessed" and the writer gives some suggestion as well to the readers.

A. Conclusions

These are the conclusions from the result of this study, as follows:

1. There are four symptoms of de clerebault syndrome that shown by major character in Steve Shill's movie " Obsessed" they are 1) delusion/ hallucination, 2) harrasing behaviour, 3) stalking and 4) lie.
2. Meanwhile, the writer found 4 mechanism of ego defense from a sufferer of de clerebault syndrome or erotomania that shown by main character in Steve Shill's movie "Obsessed". They are: 1) rationalization, 2) displacement, 3) regression and 4) projection.

B. Sugestions

The writer would love to give some suggestions for people who intend to conduct research regarding to this topic of De Clerebault syndrome in Steve Shill's movie " Obsessed", as follows:

1. The writer hopes, for the next researcher to learn more about pyschological terms about de clerebault syndrome that may be exixt around us because this topic very near to us as people who lives in modern socity that very easy to consume popular culture.
2. The writer hopes, for the next readers, they can find and know more about this topic of de clerebault syndrome. And indeed it will hopefully add knowledge and increase our awereness about this pyschological term.
